Facility ID: 0812100541 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

   (a) None.

2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

   (a) None.

A. **Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

Operations, Property, and/or Equipment	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
Spray Paint Booth # 1	OAC rule 3745-31-05, and see F.3.	33.96 lbs/day excluding cleanup; 0.44 ton/month and 5.32 tons/yr including cleanup of volatile organic compounds. See B.1. below.
	OAC rule 3745-21-09(U)(2)(e)(i), and see F.3.	Same as the above limits.

2. **Additional Terms and Conditions**

   (a) None

B. **Operational Restrictions**

1. a. The maximum daily primer coating usage shall not exceed 4 gallons.

   b. The maximum daily enamel coating usage shall not exceed 4 gallons.

C. **Monitoring and/or Record Keeping Requirements**

1. The permittee shall collect and record the following information each day for the coating line:

   a. The name and identification number of each coating employed.

   b. The volume, in gallons, of primer employed.

   c. The volume, in gallons, of enamel employed.

   d. The VOC content of the primer and/or enamel coating employed, in pounds per gallon.

   e. The VOC emissions from all primer and/or enamel coatings, in pounds, i.e., summation of [(b)x(d)] + [(c)x(d)].

2. The permittee shall collect and record the following information each month:

   a. The name and identification of each cleanup material employed.

   b. The number of gallons of each cleanup material employed.

   c. The VOC content of each cleanup material, in pounds per gallon.

   d. The total VOC emissions from all primer, enamel coatings and cleanup materials employed, in tons, i.e., summation of [(b)x(c)] + 1.e., divided by 2000 lbs/ton.

D. **Reporting Requirements**

1. The permittee shall notify the Director (the appropriate Ohio EPA District Office or local air agency) in writing of any daily record showing that the coating line exceeds the applicable maximum daily coating usage and/or emission limits. The notification shall include a copy of such record and shall be sent to the Director (the appropriate Ohio EPA District Office or local air agency) within 45 days after the exceedance occurs.

E. **Testing Requirements**

1. Compliance with the emission limitation(s) in section A.1. of these terms and conditions shall be determined in accordance with the following method(s):
   Emission Limitation-
   33.96 lbs/day excluding cleanup of VOCs

   Applicable Compliance Method:
   Compliance shall be determined by multiplying the maximum daily primer usage of 4 gallons times the maximum VOC content of 3.96 lbs/gal; multiplying the maximum daily enamel usage of 4 gallons times the maximum VOC content of 4.53 lbs/gal; and summing the products. Compliance can also be based upon the record keeping specified in C.1.
   Emission Limitation-
   0.44 ton/month including cleanup of VOCs

   Applicable Compliance Method-
   Compliance shall be based upon the record keeping specified in C.2.
   Emission Limitation-
   5.32 tons/yr including cleanup of VOCs

   Applicable Compliance Method-
   Compliance shall be based upon the record keeping specified in C.2. and shall be the sum of the 12 monthly VOC emission rates for the calendar year.

2. USEPA Method 24 shall be used to determine the VOC contents for coatings. If, pursuant to section 4.3 of method 24, 40 CFR Part 60, Appendix A, an owner or operator determines that Method 24 cannot be used for a particular coating, the permittee shall so notify the Administrator of the USEPA and shall use formulation data for that coating to demonstrate compliance until the USEPA provides alternative analytical procedures or alternative precision statements for Method 24.

F. **Miscellaneous Requirements**

1. The permittee shall comply with any applicable State and federal requirements governing the storage, treatment, transport, and disposal of any waste material generated by the operation of the emissions unit.

2. The permittee is hereby notified that this permit, and all agency records concerning the operation of this permitted emissions unit are subject to public disclosure in accordance with OAC rule 3745-49-03.

3. The following terms and conditions shall supersede all the air pollution control requirements for the emissions unit contained in permit to install 08-3595, as issued on December 5, 1996: A.1, B.1, C and D.
