Facility ID: 0250110491 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

   (a) None.

2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

   (a) None.

A. **Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

Operations, Property, and/or Equipment	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
Gas Fired Dryer and Lint Collector	OAC 3745-17-07 OAC 3745-17-11	PM: 4.60 lbs/hr Visible particulate emissions shall not exceed 20% opacity as a six-minute average, except as provided by rule.

2. **Additional Terms and Conditions**

   (a) The lint collector bags, filters and cages are to be used at all times when the dryer is in operation. These devices should be maintained in good operational condition at all times.
   At a minimum of at least once per day, the permittee shall check the operation of the lint collectors and the cages located on the roof of the facility. This inspection should include, but not be limited to, inspection of the filter bags to assure that they remain properly attached and are not overfilled, as well as inspection and emptying of the cages on the roof as necessary.
   The permittee shall inspect the roof of the facility on a daily basis and collect and properly dispose of any loose lint.
   This source and its associated lint collector shall be maintained regularly in accordance with accepted engineering practices and recommendations of the respective manufacturers in order to minimize air contaminant emission releases.

B. **Operational Restrictions**

1. None

C. **Monitoring and/or Record Keeping Requirements**

1. The permittee shall maintain an inspection log and all inspections of the dryer lint control systems shall be recorded. These logs must be maintained for a period of at least two years and may be inspected by representatives of the Ohio EPA during normal business hours.

D. **Reporting Requirements**

1. None

E. **Testing Requirements**

1. Compliance of visible particulate emissions shall be determined by visible emission evaluations performed in accordance with procedures specified in OAC 3745-17-03 (B) (1) using the methods and procedures specified in U.S. EPA Reference Method 9.

2. Emissions Limitation: PM: 4.60 lb/hour

   Applicable Compliance Method:
   No testing is specifically required to demonstrate compliance with this emission limitation, but if appropriate, may be requested pursuant to OAC 3745-15-04(A).

F. **Miscellaneous Requirements**

1. None
