Facility ID: 0857041496 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

   (a) None.

2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

   (a) None.

A. **Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

Operations, Property, and/or Equipment	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
petroleum solvent dry cleaning with 2 washers, 1 dryer and 2 petroleum storage tanks	OAC rule 3745-31-05 (PTI 08-2142)	See A.2.a below.
	OAC rule 3745-21-09(BB)(3)	exempt
		See A.2.b below.
	OAC rule 3745-21-09(BB) (1)(c),(d), and (e)	See B.1, B.2, and B.3 below.

2. **Additional Terms and Conditions**

   (a) The permittee shall equip the 2 petroleum solvent storage tanks with submerged fill capability, which is defined as a fill pipe installed within 6 inches of the bottom of the storage tank.
   The total annual consumption of petroleum solvent in this emissions unit shall be less than or equal to 4,700 gallons.

B. **Operational Restrictions**

1. The permittee shall cover any bucket or barrel which contains petroleum solvent or petroleum solvent-laden waste to minimize solvent evaporation.

2. The permittee shall visually inspect, on a weekly basis, any equipment associated with the use of petroleum solvent to identify any liquid leaks of petroleum solvent.

3. Any liquid or vapor leak of petroleum solvent shall be repaired within fifteen days after identifying the source of the leak, unless a necessary repair part is not on hand. If a repair part is not on hand, it shall be ordered within three working days after identifying the source of the leak. The leak shall be repaired within fifteen days following the delivery of the necessary repair part.

C. **Monitoring and/or Record Keeping Requirements**

1. The permittee shall collect and record monthly records of the quantity of petroleum solvent consumed by this emissions unit for the purpose of determining the annual consumption of petroleum solvent.

2. The permittee shall collect and record the results of any leak checks, including, at a minimum, the following information:

   a. the date of the inspection;

   b. the findings (may indicate no leaks discovered or location, nature, and severity of each leak);

   c. the leak determination method;

   d. the corrective action taken (date each leak repaired and reasons for any repair interval in excess of fifteen calendar days); and

   e. the inspector's name and signature.

D. **Reporting Requirements**

1. If the monthly records document an annual consumption of petroleum solvent greater than 4,700 gallons, the permittee shall so notify the Director (the appropriate Ohio EPA district Office or local air agency) within 30 days of becoming aware of the occurrence.

2. The permittee shall report any leaks in vapor or liquid lines that are not repaired within fifteen days after identification to the Director (the appropriate Ohio EPA district office or local air agency) within 30 days after the repair is completed.

E. **Testing Requirements**

1. Compliance with the usage limitation in section A.2.b of 4,700 gallons of petroleum solvent shall be based upon the record keeping specified in section C.1, and shall be the sum of the 12 monthly petroleum solvent consumption rates for the calendar year.

F. **Miscellaneous Requirements**

1. None
