Facility ID: 1431071104 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

   (a) None.

2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

   (a) None.

A. **Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

Operations, Property, and/or Equipment	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
automatic lacquer machine	see section F	see A.2.2
	OAC 3745-31-05	
	OAC 3745-21-09(U)(2)(h)	*

2. **Additional Terms and Conditions**

   (a) The volatile organic compound (VOC) emissions from this emissions unit shall not exceed 9.6 lbs/day and 1.8 tons/yr. (TPY).

   * The limit based on this rule is less stringent than the PTI's limit.

B. **Operational Restrictions**

1. The maximum daily lacquer usage for this emissions unit shall not exceed 0.48 gallon.

C. **Monitoring and/or Record Keeping Requirements**

1. The permittee shall collect and record the following information each day for this emissions unit.

   a. the VOC content of each lacquer (lbs/gal);

   b. the number of gallons of each lacquer employed, in gallons;

   c. the amount of VOC emitted from each lacquer, in pounds; and

   d. the total amount of VOC emitted from all lacquers, in pounds.

D. **Reporting Requirements**

1. The permittee shall submit semi-annual deviation (excursion) reports which identify all exceedances of the daily lacquer usage limitation of 0.48 gallon/day and the allowable emissions limitation of 9.6 lbs/day, as well as the corrective action(s) that were taken to achieve compliance.

E. **Testing Requirements**

1. Emission limitation:
   9.6 lbs/day

   Applicable compliance method:
   The record keeping requirements in section C.1 shall be used to demonstrate compliance with the above emission limitation.

2. Emission limitation:
   1.8 TPY

   Applicable compliance method:
   The record keeping requirements in section C.1 shall be used to demonstrate compliance with the above emission limitation by using daily records [all daily emissions shall be summed up for the calander year]

3. Compliance with the usage limitation in section B.1 shall be demonstrated by the records maintained pursuant to section C.1.

F. **Miscellaneous Requirements**

1. The following terms and conditions shall supersede all the air pollution control requirements contained in the permit to install [application number 14-4316] issued for this emissions unit on March 12, 1997: A, B, C, D, and E.
