Facility ID: 1667040143 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

   (a) None.

2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

   (a) None.

A. **Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

Operations, Property, and/or Equipment	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
spray booth/parts coating line	OAC rule 3745-31-05 (PTI 16-1463) OAC rule 3745-21-09(U)(2)(e)(ii)	18.7 lbs/hr of volatile organic compounds (VOC) See A.2.a below.

2. **Additional Terms and Conditions**

   (a) The permittee shall not employ more than 10 gallons of coatings, as applied, in any one day in this emissions unit.

B. **Operational Restrictions**

1. None

C. **Monitoring and/or Record Keeping Requirements**

1. The permittee shall collect and record the following information each day for the coating line:

   a. the name and identification number of each coating and thinner employed;

   b. the volume, in gallons, of each coating and thinner employed;

   c. the total volume, in gallons, of all of the coatings and thinners employed; and

   d. the VOC content of each coating and thinner, in pounds per gallon.

D. **Reporting Requirements**

1. The permittee shall notify the Director (the appropriate Ohio EPA District Office or local air agency) in writing of any daily record showing that the coating line employs more than the applicable maximum daily coating usage limit. The notification shall include a copy of such record and shall be sent to the Director (the appropriate Ohio EPA District Office or local air agency) within 45 days after the exceedance occurs.

2. The permittee shall submit in writing, an annual report to the Director (the appropriate District Office or local air agency) which specifies the following information:

   a. the coating and thinner identification;

   b. the quantity used of each coating and thinner, in gallons per year;

   c. the VOC content of each coating and thinner, in pounds per gallon;

   d. the number of days the emissions unit was in operation; and

   e. the identification and quantity of each cleanup solvent employed during the period.

   This report shall be submitted by February 1 of each year and shall cover the previous calendar year (January through December).

E. **Testing Requirements**

1. Compliance with the emission limitation in Section A.1 of these terms and conditions shall be determined in

accordance with the following method:

Emission Limitation:

18.7 lbs/hr of VOC

Applicable Compliance Method:

Multiply the maximum pounds of VOC per gallon of coating by the maximum gallons of coating per hour.

F. **Miscellaneous Requirements**

1. None
