Facility ID: 1667060125 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

   (a) None.

2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

   (a) None.

A. **Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

Operations, Property, and/or Equipment	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
Reverse Roll Coating Line	PTI #16-1179 OAC 3745-21-09 (F) 40 CFR 60 Subpart RR	see #2 Below

2. **Additional Terms and Conditions**

   (a) The VOC content of coatings employed in this emissions unit shall not exceed 0.00 lbs per gallon of coating as employed.
   The mass VOC emissions from this emissions unit shall not exceed 0.05 tons per year.

B. **Operational Restrictions**

1. None

C. **Monitoring and/or Record Keeping Requirements**

1. The permittee shall collect and record the following information each month for the line:

   (a) The name and identification number of each coating, as applied.

   (b) The VOC content of each coating (excluding water and exempt solvents), as applied.

   (c) The number of gallons (excluding water and exempt solvents) of each coating employed.

   (d) The name and identification of each cleanup material employed.

   (e) The VOC content of each cleanup material, in pounds per gallon.

   (f) The number of gallons of each cleanup material employed.

   (g) The total VOC emissions from all coatings and cleanup materials employed, in pounds or tons per month.

D. **Reporting Requirements**

1. The permittee shall notify the Director of any monthly record showing the use of noncomplying coatings. A copy of such record shall be sent to the Director within 30 days following the end of the calendar month.

E. **Testing Requirements**

1. Compliance with the coatings limitation and the annual emission limitation in Section A.2 of these terms and conditions shall be determined in accordance with the following methods:
   Coatings limitation:

   0.00 lbs of VOC per gallon

   Applicable Compliance Method:

   OAC rule 3745-21-10(B)
   Emission Limitation:

   0.5 ton per year of VOC

Applicable Compliance Method:

Monthly records shall be maintained of the organic compound content of each coating and cleanup material employed, the monthly usage of each coating and cleanup material employed, and the calculated monthly organic compound emission rate for all coatings and cleanup materials employed. Formulation data or USEPA Method 24 shall be used to determine the organic compound content of each coating and cleanup material.

F. **Miscellaneous Requirements**

1. Waste Disposal:

The permittee shall comply with any applicable state and federal requirements governing the storage, treatment, transport and disposal of any waste material generated by the operation of the emissions unit.
