Facility ID: 1677000231 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

   (a) None.

2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

   (a) None.

A. **Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

Operations, Property, and/or Equipment	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
Downdraft Spray Paint Booth	PTI #16-1586	17.1 pounds per day of volatile organic compounds See A.2.a below.

2. **Additional Terms and Conditions**

   (a) The permittee shall not employ more than three gallons of coatings per day.

B. **Operational Restrictions**

1. None

C. **Monitoring and/or Record Keeping Requirements**

1. The permittee shall collect and record the following information for each day for the coating line:

   (a) The name and identification number of each coating employed.

   (b) The VOC content of each coating, as applied, in pounds per gallon.

   (c) The volume, in gallons, of each coating employed.

   (d) The total volume, in gallons, of all of the coatings employed.

   (e) The total VOC emission rate for all coatings, in pounds per day.

D. **Reporting Requirements**

1. The permittee shall notify the Director in writing of any daily record showing that the coating line employs more than the applicable maximum daily coating usage limit. The notification shall include a copy of such record and shall be sent to the Director within 45 days after the exceedance occurs.

2. The permittee shall submit deviation (excursion) reports which include the following information:

   (a) An identification of each day during which the total VOC emissions exceeded 17.1 pounds per day, and the actual VOC emissions for each such day.

E. **Testing Requirements**

1. Compliance with the emission limitation in Section A.1 of these terms and conditions shall be determined in accordance with the following method:

2. Emission Limitation:

   17.1 pounds per day of volatile organic compounds

   Applicable Compliance Method:

   Daily records shall be maintained of the organic compound content of each coating employed, the daily usage of each coating employed, and the calculated daily organic compound emission rate for all coatings employed. Formulation data or USEPA Method 24 shall be used to determine the organic compound content of each coating.

F. **Miscellaneous Requirements**

1. None
