Facility ID: 1677010961 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

   (a) None.

2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

   (a) None.

A. **Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

Operations, Property, and/or Equipment	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
automotive repaint (refinish) coating line, applying a customized topcoat and a customized single coat to used motor vehicles, employing a high volume, low pressure (HVLP) paint application method	OAC rule 3745-31-05 (PTI 16-501)	4.0 lbs/hr of Organic Compounds (OC) See B.1 and B.3 below.
	OAC rule 3745-21-09(U)	See B.1 and B.2 below.

2. **Additional Terms and Conditions**

   (a) None

B. **Operational Restrictions**

1. The permittee shall limit the number of motor vehicles coated to less than 35 per day when applying a customized topcoat and any related customized single coat to motor vehicles.

2. The permittee shall be restricted to the repainting (refinishing) of used motor vehicles and trailers.

3. The permittee shall employ properly installed and maintained spray booth exhaust fan panel filter elements while this emissions unit is in operation.

C. **Monitoring and/or Record Keeping Requirements**

1. The permittee shall collect and record the following information each day for the coating line:

   a. the name and identification number of each coating and cleanup material employed;

   b. the OC content of each coating, as applied, in lbs/gal;

   c. the OC content of each cleanup material, in lbs/gal;

   d. the number of gallons of each coating employed;

   e. the number of gallons of each cleanup material employed;

   f. the total OC emissions from all coatings and cleanup materials employed, i.e., sum of [(b) x (d) + (c) x (e)] for all coatings and cleanup materials, in lbs;

   g. the number of hours the emissions unit was in operation;

   h. the average hourly OC emissions rate, i.e., (f)/(g), in lbs/hr; and

   i. the number of motor vehicles coated.

   Note: USEPA Method 24 or the manufacturer's formulation data shall be used to determine the OC contents of the coatings and cleanup materials.

D. **Reporting Requirements**

1. The permittee shall submit deviation (excursion) reports identifying each day the OC emissions from this emissions unit exceeded the average hourly OC emissions limitation of 4.0 lbs/hr, and the actual average hourly

OC emissions rate for each such day.

2. The permittee shall submit quarterly reports that identify any exceedances of the daily production rate limitation of less than 35 motor vehicles per day, as well as the corrective actions that were taken to achieve compliance.

E. **Testing Requirements**

1. Compliance with the emission limitation in section A.1 of these terms and conditions shall be determined in accordance with the following method:
Emission Limitation:

4.0 lbs/hr of HC

Applicable Compliance Method:

The permittee shall demonstrate compliance with the above emissions limitation based upon the record keeping requirements of section C.1.

F. **Miscellaneous Requirements**

1. The permittee shall comply with any applicable State and federal requirements governing the storage, treatment, transport and disposal of any waste material generated by the operation of this emissions unit.
