Facility ID: 1677011068 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

   (a) None.

2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

   (a) None.

A. **Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

Operations, Property, and/or Equipment	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
cross flow spray room - H.V.L.P. spray guns	OAC rule 3745-31-03(A)(3) (PTI 16-1562)	22.0 pounds per day of organic compounds
	OAC 3745-21-09(U)(2)(e)(ii)	VOC emission exemption, based on maximum daily coating usage not exceeding 3 gallons of coating in any one day

2. **Additional Terms and Conditions**

   (a) None

B. **Operational Restrictions**

1. None

C. **Monitoring and/or Record Keeping Requirements**

1. The permittee shall collect and record the following information each day for the coating operation:

   (a) the company identification for each coating and cleanup material employed;

   (b) the number of gallons of each coating and cleanup material employed;

   (c) the organic compound content of each coating and cleanup material, in pounds per gallon;

   (d) the total organic compound emission rate for all coatings and cleanup materials, in pounds (i.e., (b)X(c)) for each day the emission unit was operated.

D. **Reporting Requirements**

1. The permittee shall submit deviation (excursion) reports to the Director (the appropriate District Office or local air agency) which include the following information:

   (a) an identification of each day during which the total organic compound emissions exceeded 22.0 pounds, and the actual organic compound emissions for that each such day; and

   (b) an identification of each day during which the total coatings used exceeded 3 gallons, and the actual amount of coatings usage for each such day.

E. **Testing Requirements**

1. Compliance with the emissions limitations of these terms and conditions shall be determined in accordance with the following methods:
   Emission Limitation:

   22.0 pounds per day of organic compounds

   Applicable complaince method:

   The records kept as a requirement of section C of these terms and conditions shall be used to determine compliance with this emission limitation.
   Emission Limitation:

usage of no more than 3 gallons of coating per day

Applicable compliance method:

The records kept as a requirement of section C of these terms and conditions shall be used to determine compliance with this emission limitation.

F. **Miscellaneous Requirements**

1. None
