Facility ID: 0125040592 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

   (a) None.

2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

   (a) None.

A. **Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

Operations, Property, and/or Equipment	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
T002 - 15,000-gallon diesel fuel underground storage tank (UST)	OAC rule 3745-31-05(A)(3) (PTI 01-08536)	Volatile organic compound (VOC) emissions shall not exceed 0.08 ton/yr. See section A.2.a below. The requirements of this rule also include compliance with the requirements of 40 CFR Part 60, Subpart Kb.
	40 CFR Part 60, Subpart Kb	See sections C.1 and C.2 below.
	OAC rule 3745-21-07(D)(2)	Exempt, see section A.2.a below.
	OAC rule 3745-21-09(L)(1)	Exempt, see section A.2.a below

2. **Additional Terms and Conditions**

   (a) This storage tank is exempt from the requirements of OAC rules 3745-21-07(D)(2) and 3745-21-09(L)(1), because the true vapor pressure of fuel oil is less than 1.52 pounds per square inch absolute.

B. **Operational Restrictions**

1. The permittee shall not place, store, or hold in this fixed roof tank any petroleum liquid which, as stored, has a true vapor pressure greater than 1.52 pounds per square inch absolute, unless such tank is designed or equipped in accordance with the requirements in OAC rule 3745-21-09 (L)(1).

C. **Monitoring and/or Record Keeping Requirements**

1. In accordance with 40 CFR Part 60.116b(a) and 40 CFR Part 60.116b(b), the permittee shall keep readily accessible records for the life of the tank that document the dimensions and capacity of the tank.

2. The permittee shall maintain readily accessible records of the following information:

   a. the types of petroleum liquids stored in the tank; and

   b. the maximum true vapor pressure (in pounds per square inch absolute), as stored, of each liquid that has a maximum true vapor pressure greater than 1.0 pound per square inch absolute.

D. **Reporting Requirements**

1. If the permittee places, stores, or holds in the fixed roof tank any petroleum liquid with a true vapor pressure which is greater than 1.52 pounds per square inch absolute, and such tank does not comply with the requirements of paragraph (L)(1) of OAC rule 3745-21-09, the permittee shall notify the Ohio EPA, Central District Office within 30 days of the occurrence.

E. **Testing Requirements**

1. Compliance with the emission limitation in section A.1 of these terms and conditions shall be determined in accordance with the following methods:
   Emission Limitation:
   VOC emissions shall not exceed 0.08 ton per year.

   Applicable Compliance Method:
   This emission limitation was established based on the calculation of the standing and withdrawal losses from

the storage tank using the working loss equation provided in USEPA AP-42 Chapter 7.1.3.1-23 and the maximum annual throughput of the storage tank.

F. **Miscellaneous Requirements**

1. None
