

**Synthetic Minor Determination and/or**  **Netting Determination**

Permit To Install **08-04283**

- A. Source Description: CEMEX is a Portland Cement Manufacturing plant located in Fairborn, OH. The facility has requested a permit to install two raw material/recycled material handling systems. Emissions unit P927 will be used to add various raw materials to the kiln, for which there is no need for pre-heating. Emissions unit P928 will be used to get gypsum and limestone into the system more efficiently.
- B. Facility Emissions and Attainment Status The CEMEX facility is located in Fairborn, OH, Greene County. This county is currently designated as attainment for all pollutants.
- CEMEX is classified as major for Title V and PSD permitting requirements.
- C. Source Emissions: The potential emission rate from the installation of both emissions units P927 and P928 , is 31.57 TPY particulate emissions and  $31.57/2.1 = 15.03$  TPY PM-10 emissions. Additionally, PTI 08-04127 was issued on June 7, 2000, which authorized 5.0 TPY particulate emissions. The major PSD modification thresholds are 25/15 for particulate and PM-10.
- D. Conclusion: In order to avoid major new source review, the permittee is willing to accept federally enforceable restrictions on their production rate. With these restrictions, their potential to emit is synthetically limited to 9.39 TPY particulate emissions for PTI 08-04283. Including that from PTI 08-04127, their potential to emit from both projects equals 14.39 TPY particulate emissions.

**Application No: 08-04283**

**DATE: 8/14/2001**

CEMEX Inc  
Stacey Coburn  
3250 Linebaugh Rd  
Fairborn, OH 453858567

You are hereby notified that the Ohio Environmental Protection Agency has made a draft action recommending that the Director issue a Permit to Install for the air contaminant source(s) [emissions unit(s)] shown on the enclosed draft permit. This draft action is not an authorization to begin construction or modification of your emissions unit(s). The purpose of this draft is to solicit public comments on the proposed installation. A public notice concerning the draft permit will appear in the Ohio EPA Weekly Review and the newspaper in the county where the facility will be located. Public comments will be accepted by the field office within 30 days of the date of publication in the newspaper. Any comments you have on the draft permit should be directed to the appropriate field office within the comment period. A copy of your comments should also be mailed to Robert Hodanbosi, Division of Air Pollution Control, Ohio EPA, P.O. Box 1049, Columbus, OH, 43266-0149.

A Permit to Install may be issued in proposed or final form based on the draft action, any written public comments received within 30 days of the public notice, or record of a public meeting if one is held. You will be notified in writing of a scheduled public meeting. Upon issuance of a final Permit to Install a fee of **\$3000** will be due. Please do not submit any payment now.

The Ohio EPA is urging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Pollution Prevention at (614) 644-3469. If you have any questions about this draft permit, please contact the field office where you submitted your application, or Mike Ahern, Field Operations & Permit Section at (614) 644-3631.

Very truly yours,

Thomas G. Rigo

**Permit To Install**

STATE OF OHIO ENVIRONMENTAL PROTECTION AGENCY

**Terms and Conditions**

**DRAFT PERMIT TO INSTALL 08-04283**

Application Number: 08-04283  
APS Premise Number: 0829700165  
Permit Fee: **To be entered upon final issuance**  
Name of Facility: CEMEX Inc  
Person to Contact: Stacey Coburn  
Address: 3250 Linebaugh Rd  
Fairborn, OH 453858567

Location of proposed air contaminant source(s) [emissions unit(s)]:

**3250 Linebaugh Rd**  
**Xenia, Ohio**

Description of proposed emissions unit(s):

**raw material-recycle handling system.**

The above named entity is hereby granted a Permit to Install for the above described emissions unit(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

CEMEX Inc

Facility ID: 0829700165

PTI Application: 08-04283

Issued: To be entered upon final issuance

Part I - GENERAL TERMS AND CONDITIONS

**A. State and Federally Enforceable Permit To Install General Terms and Conditions**

**1. Monitoring and Related Recordkeeping and Reporting Requirements**

- a. Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall maintain records that include the following, where applicable, for any required monitoring under this permit:
  - i. The date, place (as defined in the permit), and time of sampling or measurements.
  - ii. The date(s) analyses were performed.
  - iii. The company or entity that performed the analyses.
  - iv. The analytical techniques or methods used.
  - v. The results of such analyses.
  - vi. The operating conditions existing at the time of sampling or measurement.
- b. Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.
- c. Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall submit required reports in the following manner:
  - i. Reports of any required monitoring and/or recordkeeping of federally enforceable information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
  - ii. Quarterly written reports of (i) any deviations from federally enforceable emission limitations, operational restrictions, and control device operating parameter limitations, excluding deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06, that have been detected by the testing, monitoring and recordkeeping requirements specified in this permit, (ii) the probable cause of such deviations, and (iii) any corrective actions or preventive measures taken, shall be made to the appropriate Ohio EPA District Office or local air agency. The written reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. See B.10 below if no deviations occurred during the quarter.

CEMEX Inc

PTI Application: 08-04283

Issued: To be entered upon final issuance

Facility ID: 0829700165

- iii. Written reports, which identify any deviations from the federally enforceable monitoring, recordkeeping, and reporting requirements contained in this permit shall be submitted to the appropriate Ohio EPA District Office or local air agency every six months, i.e., by January 31 and July 31 of each year for the previous six calendar months. If no deviations occurred during a six-month period, the permittee shall submit a semi-annual report, which states that no deviations occurred during that period.
- iv. Each written report shall be signed by a responsible official certifying that, based on information and belief formed after reasonable inquiry, the statements and information in the report are true, accurate, and complete.

## **2. Scheduled Maintenance/Malfunction Reporting**

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction, i.e., upset, of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. (The definition of an upset condition shall be the same as that used in OAC rule 3745-15-06(B)(1) for a malfunction.) The verbal and written reports shall be submitted pursuant to OAC rule 3745-15-06.

Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emission unit(s) that is (are) served by such control system(s).

## **3. Risk Management Plans**

If the permittee is required to develop and register a risk management plan pursuant to section 112(r) of the Clean Air Act, as amended, 42 U.S.C. 7401 et seq. ("Act"), the permittee shall comply with the requirement to register such a plan.

## **4. Title IV Provisions**

If the permittee is subject to the requirements of 40 CFR Part 72 concerning acid rain, the permittee shall ensure that any affected emissions unit complies with those requirements. Emissions exceeding any allowances that are lawfully held under Title IV of the Act, or any regulations adopted thereunder, are prohibited.

## **5. Severability Clause**

A determination that any term or condition of this permit is invalid shall not invalidate the force or effect of any other term or condition thereof, except to the extent that any other term or condition depends in whole or in part for its operation or implementation upon the term or condition declared invalid.

**CEMEX Inc****Facility ID: 0829700165****PTI Application: 08-04283****Issued: To be entered upon final issuance****6. General Requirements**

- a. The permittee must comply with all terms and conditions of this permit. Any noncompliance with the federally enforceable terms and conditions of this permit constitutes a violation of the Act, and is grounds for enforcement action or for permit revocation, revocation and reissuance, or modification, or for denial of a permit renewal application.
- b. It shall not be a defense for the permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the federally enforceable terms and conditions of this permit.
- c. This permit may be modified, reopened, revoked, or revoked and reissued, for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or revocation, or of a notification of planned changes or anticipated noncompliance does not stay any term and condition of this permit.
- d. This permit does not convey any property rights of any sort, or any exclusive privilege.
- e. The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying, reopening or revoking this permit or to determine compliance with this permit. Upon request, the permittee shall also furnish to the Director or an authorized representative of the Director, copies of records required to be kept by this permit. For information claimed to be confidential in the submittal to the Director, if the Administrator of the U.S. EPA requests such information, the permittee may furnish such records directly to the Administrator along with a claim of confidentiality.

**7. Fees**

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable Permit To Install fees within 30 days after the issuance of this Permit To Install.

**8. Federal and State Enforceability**

Only those terms and conditions designated in this permit as federally enforceable, that are required under the Act, or any of its applicable requirements, including relevant provisions designed to limit the potential to emit of a source, are enforceable by the Administrator of the U.S. EPA, the State, and citizens under the Act. All other terms and conditions of this permit shall not be federally enforceable and shall be enforceable under State law only.

**9. Compliance Requirements**

- a. Any document (including reports) required to be submitted and required by a federally

CEMEX Inc

Facility ID: 0829700165

PTI Application: 08-04283

**Issued: To be entered upon final issuance**

applicable requirement in this permit shall include a certification by a responsible official that, based on information and belief formed after reasonable inquiry, the statements in the document are true, accurate, and complete.

- b. Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the Director of the Ohio EPA or an authorized representative of the Director to:
  - i. At reasonable times, enter upon the permittee's premises where a source is located or the emissions-related activity is conducted, or where records must be kept under the conditions of this permit.
  - ii. Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit, subject to the protection from disclosure to the public of confidential information consistent with ORC section 3704.08.
  - iii. Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under this permit.
  - iv. As authorized by the Act, sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit and applicable requirements.
- c. The permittee shall submit progress reports to the appropriate Ohio EPA District Office or local air agency concerning any schedule of compliance for meeting an applicable requirement. Progress reports shall be submitted semiannually, or more frequently if specified in the applicable requirement or by the Director of the Ohio EPA. Progress reports shall contain the following:
  - i. Dates for achieving the activities, milestones, or compliance required in any schedule of compliance, and dates when such activities, milestones, or compliance were achieved.
  - ii. An explanation of why any dates in any schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

## **10. Permit To Operate Application**

- a. If the permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77, the permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule

**CEMEX Inc**

**Facility ID: 0829700165**

**PTI Application: 08-04283**

**Issued: To be entered upon final issuance**

3745-77-08(C)(3)(d).

- b. If the permittee is required to apply for permit(s) pursuant to OAC Chapter 3745-35 , the source(s) identified in this Permit To Install is (are) permitted to operate for a period of up to one year from the date the source(s) commenced operation. Permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within thirty (30) days after commencing operation of the source(s) covered by this permit.

#### **11. Best Available Technology**

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

CEMEX Inc

Facility ID: 0829700165

PTI Application: 08-04283

Issued: To be entered upon final issuance

**B. State Only Enforceable Permit To Install General Terms and Conditions**

**1. Compliance Requirements**

The emissions unit(s) identified in this Permit to Install shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

**2. Reporting Requirements Related to Monitoring and Recordkeeping Requirements**

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or recordkeeping of state-only enforceable information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from state-only required emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

**3. Permit Transfers**

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

**4. Air Pollution Nuisance**

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

**5. Termination of Permit To Install**

This permit to install shall terminate within eighteen months of the effective date of the permit to install if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may

**CEMEX Inc****Facility ID: 0829700165****PTI Application: 08-04283****Issued: To be entered upon final issuance**

be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

**6. Construction of New Sources(s)**

The proposed emissions unit(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources cannot meet the requirements of this permit or cannot meet applicable standards.

If the construction of the proposed emissions unit(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.

**7. Public Disclosure**

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

**8. Applicability**

This Permit to Install is applicable only to the emissions unit(s) identified in the Permit To Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s).

CEMI

PTI A

Emissions Unit ID: P927

**Issued: To be entered upon final issuance****9. Construction Compliance Certification**

The applicant shall provide Ohio EPA with a written certification (see enclosed form) that the facility has been constructed in accordance with the Permit To Install application and the terms and conditions of the Permit to Install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

**10. Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations (See Section A of This Permit)**

If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters.

**C. Permit To Install Summary of Allowable Emissions**

The following information summarizes the total allowable emissions, by pollutant, based on the individual allowable emissions of each air contaminant source identified in this permit.

Part III - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)

A. State and Federally Enforceable Section

I. Applicable Emissions Limitations and/or Control Requirements

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
P927 - Raw Material Handling/Recycle System	OAC rule 3745-31-05 (A)(3)  OAC rule 3745-31-05 (D)  40 CFR Part 63, Subpart LLL  OAC rule 3745-17-08 (B) OAC rule 3745-17-07	4.83 lbs/hr particulate emissions  The visible emission opacity shall not exceed 10 percent, as a six minute average.  The requirements of this rule also include compliance with the requirements of OAC rule 3745-31-05(D), and 40 CFR Part 63, Subpart LLL  3.95 TPY particulate emissions, as a rolling 12-month limitation; Reference A.2.b.  The limits based on this regulation is equivalent to OAC rule 3745-31-05 (A)(3).  See A.2.c.

2. Additional Terms and Conditions

- 2.a The 4.83 lbs/hr particulate emissions limitation was established for PTI purposes to reflect the potential to emit for this emissions unit. Therefore, it is not necessary to develop record keeping and/or reporting requirements to ensure compliance with this limit.

**Issued: To be entered upon final issuance**

- 2.b In order to avoid Prevention of Significant Deterioration (PSD) review for particulate emissions, the permittee opted to limit the potential to emit from this emissions unit by limiting the annual production rate and thereby limiting the annual emission rate.
- 2.c This emissions unit is not located in an Appendix A area, as specified in OAC rule 3745-17-08, and as such it is not subject to reasonably available control measures (RACM) in OAC rule 3745-17-08 (B) or the visible emission limitations in OAC rule 3745-17-07.

**II. Operational Restrictions**

- 1. The maximum annual production rate for this emissions unit shall not exceed 175,200 tons per year, on a 12-month rolling basis.
- 2. To ensure enforceability during the first 12 calendar months of operation following the issuance of this permit, the permittee shall not exceed the production levels specified in the following table.

<u>Month(s)</u>	<u>Maximum Allowable Cumulative Production Rates, in tons</u>
1	87,600
1-2	87,600
1-3	87,600
1-4	87,600
1-5	87,600
1-6	87,600
1-7	102,200
1-8	116,800
1-9	131,400
1-10	146,000
1-11	160,600
1-12	175,200

After the first 12 calendar months of operation following the issuance of this permit, compliance with the annual production rate limitation shall be based upon a rolling, 12-month summation of the monthly production rates.

**III. Monitoring and/or Recordkeeping Requirements**

- 1. The permittee shall maintain monthly records of the following information:

- a. The production rate for each month.
- b. Beginning after the first 12 calendar months of operation following the issuance of this permit, the rolling, 12-month summation of the production rates.

Also, during the first 12 calendar months of operation following the issuance of this permit, the permittee shall record the cumulative production rate for each calendar month.

#### IV. Reporting Requirements

1. The permittee shall submit deviation (excursion) reports which identify all exceedances of the rolling, 12-month production rate limitation and for the first 12 calendar months of operation following issuance of this permit, all exceedances of the maximum allowable cumulative production levels. The permittee shall submit the deviation (excursion) reports in accordance with paragraph A.1.c. in the general terms and conditions.
2. Pursuant to the MACT 40 CFR Part 63, Subpart LLL the source owner/operator is required to report the following milestones:
  - a. date of commencement of construction ( no later than 30 days after such date);
  - b. anticipated date of initial start-up (not more than 60 days or less than 30 days prior to such date);
  - c. actual date of initial start-up (within 15 days after such date); and,
  - d. date of performance testing (at least 30 days prior to testing).

Reports are to be sent to:

Ohio Environmental Protection Agency  
DAPC - Air Quality Modeling and Planning  
P.O. Box 1049  
Columbus, OH 43216-1049

and

Regional Air Pollution Control Agency  
451 West Third Street  
Dayton, OH 45422

#### V. Testing Requirements

1. Compliance with the emission limitations in section A.I. of these terms and conditions shall be determined in accordance with the following methods:
  - a. Emission Limitation-  
4.83 lbs/hr particulate emissions

**Issued: To be entered upon final issuance**

## Applicable Compliance Method-

- i. The particulate emissions from the loading in and out of storage piles was developed by multiplying the maximum hourly transfer rate of 200 TPH by the emission factor of 0.0224 lb/ton (derived from 0.0112 lb/ton, AP-42, Fifth Edition, Section 13.2.4, dated 1/95, multiplied by 2 for loading in and out ).
- ii. The particulate emissions from material handling was developed by multiplying the maximum hourly transfer rate of 20 TPH by the emission factor of 0.0174 lb/ton (derived from 0.0014 lb PM-10/ton x 2.1 = 0.0029 lb particulate/ton, AP-42, Fifth Edition, Table 11.19.2-2, dated 1/95, multiplied by 6 for the number of transfer points).
- iii. The total hourly emission rate was developed by summing i and ii.

- b. Emission Limitation-  
3.95 TPY particulate emissions

## Applicable Compliance Method-

- i. The particulate emissions from the loading in and out of storage piles shall be developed by multiplying the monthly production rate, in tons as determined from A.III.1. by the emission factor of 0.0224 lb/ton (derived from 0.0112 lb/ton, AP-42, Fifth Edition, Section 13.2.4, dated 1/95, multiplied by 2 for loading in and out ).
- ii. The particulate emissions from material handling shall be developed by multiplying the monthly production rate, in tons by the emission factor of 0.0174 lb/ton (derived from 0.0014 lb PM-10/ton x 2.1 = 0.0029 lb particulate/ton, AP-42, Fifth Edition, Table 11.19.2-2, dated 1/95, multiplied by 6 for the number of transfer points).
- iii. The permittee calculated 0.46 TPY particulate emissions from wind erosion, using the alternative equation provided by Tim Fischer in the Ohio EPA Inter-Office Communication (IOC) dated July 9, 1999.
- iv. The total tons per year emission rate shall be developed by summing the 12 monthly rates as determined in i. and ii.; and then summing i., ii. and iii.

- c. Emission Limitation-

**CEMEX Inc**

**PTI Application: 08 04782**

**Issued**

**Facility ID: 0829700165**

Emissions Unit ID: P927

10 % opacity, as a 6-minute average

Applicable Compliance Method-

Compliance shall be determined by visible emission evaluations performed in accordance with OAC rule 3745-17-03 (B)(3) using the methods and procedures specified in 40 CFR Part 60, Appendix A, Method 9.

PTI A

Emissions Unit ID: P928

**Issued: To be entered upon final issuance****Part III - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)****A. State and Federally Enforceable Section****I. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
P928 - Gypsum/Limestone hopper and conveyor	OAC rule 3745-31-05 (A)(3)	2.38 lbs/hr particulate emissions,  The visible emission opacity shall not exceed 10 percent, as a six minute average.  The requirements of this rule also include compliance with the requirements of OAC rule 3745-31-05(D), and 40 CFR Part 63, Subpart LLL
	OAC rule 3745-31-05 (D)	5.44 TPY particulate emissions, as a rolling 12-month limitation, Reference A.2.b.
	40 CFR Part 63, Subpart LLL	The limits based on this regulation is equivalent to OAC rule 3745-31-05 (A)(3).
	OAC rule 3745-17-08 (B) OAC rule 3745-17-07	See A.2.c.

**2. Additional Terms and Conditions**

- 2.a. The 2.38 lbs/hr particulate emissions limitation was established for PTI purposes to reflect the potential to emit for this emissions unit. Therefore, it is not necessary to develop

**Issued: To be entered upon final issuance**

record keeping and/or reporting requirements to ensure compliance with this limit.

- 2.b** In order to avoid Prevention of Significant Deterioration (PSD) review for particulate emissions, the permittee opted to limit the potential to emit from this emissions unit by limiting the annual production rate and thereby limiting the annual emission rate.
- 2.c.** This emissions unit is not located in an Appendix A area, as specified in OAC rule 3745-17-08, and as such it is not subject to reasonably available control measures (RACM) in OAC rule 3745-17-08 (B) or the visible emission limitations in OAC rule 3745-17-07.

**II. Operational Restrictions**

1. The maximum annual production rate for this emissions unit shall not exceed 177,420 tons per year, on a 12-month rolling basis.
2. To ensure enforceability during the first 12 calendar months of operation following the issuance of this permit, the permittee shall not exceed the production levels specified in the following table.

<u>Month(s)</u>	<u>Maximum Allowable Cumulative Production Rates, in tons</u>
1	88,710
1-2	88,710
1-3	88,710
1-4	88,710
1-5	88,710
1-6	88,710
1-7	103,495
1-8	118,280
1-9	133,065
1-10	147,850
1-11	162,635
1-12	177,420

After the first 12 calendar months of operation following the issuance of this permit, compliance with the annual production rate limitation shall be based upon a rolling, 12-month summation of the monthly production rates.

**III. Monitoring and/or Recordkeeping Requirements**

Emissions Unit ID: P928

1. The permittee shall maintain monthly records of the following information:
  - a. The production rate for each month.
  - b. Beginning after the first 12 calendar months of operation following the issuance of this permit, the rolling, 12-month summation of the production rates.

Also, during the first 12 calendar months of operation following the issuance of this permit, the permittee shall record the cumulative production rate for each calendar month.

CEMI

PTI A

Emissions Unit ID: P928

**Issued: To be entered upon final issuance****IV. Reporting Requirements**

1. The permittee shall submit deviation (excursion) reports which identify all exceedances of the rolling, 12-month production rate limitation and for the first 12 calendar months of operation following issuance of this permit, all exceedances of the maximum allowable cumulative production levels. The permittee shall submit the deviation (excursion) reports in accordance with paragraph A.1.c. in the general terms and conditions.
2. Pursuant to the MACT 40 CFR Part 63, Subpart LLL the source owner/operator is required to report the following milestones:
  - a. date of commencement of construction ( no later than 30 days after such date);
  - b. anticipated date of initial start-up (not more than 60 days or less than 30 days prior to such date);
  - c. actual date of initial start-up (within 15 days after such date); and,
  - d. date of performance testing (at least 30 days prior to testing).

Reports are to be sent to:

Ohio Environmental Protection Agency  
DAPC - Air Quality Modeling and Planning  
P.O. Box 1049  
Columbus, OH 43216-1049

and

Regional Air Pollution Control Agency  
451 West Third Street  
Dayton, OH 45422

**V. Testing Requirements**

1. Compliance with the emission limitations in section A.I. of these terms and conditions shall be determined in accordance with the following methods:
  - a. Emission Limitation-  
2.38 lbs/hr particulate emissions  
  
Applicable Compliance Method-

**Issued: To be entered upon final issuance**

- i. The particulate emissions from the loading in and out of storage piles was developed by multiplying the maximum hourly transfer rate of 60 TPH by the emission factor of 0.0224 lb/ton (derived from 0.0112 lb/ton, AP-42, Fifth Edition, Section 13.2.4, dated 1/95, multiplied by 2 for loading in and out ).
  - ii. The particulate emissions from material handling was developed by multiplying the maximum hourly transfer rate of 60 TPH by the emission factor of 0.0174 lb/ton (derived from 0.0014 lb PM-10/ton x 2.1 = 0.0029 lb particulate/ton, AP-42, Fifth Edition, Table 11.19.2-2, dated 1/95, multiplied by 6 for the number of transfer points).
  - iii. The total hourly emission rate was developed by summing i and ii.
- b. Emission Limitation-  
5.44 TPY particulate emissions
- Applicable Compliance Method-
- i. The particulate emissions from the loading in and out of storage piles shall be developed by multiplying the monthly production rate, in tons, as determined in A.III.1., by the emission factor of 0.0224 lb/ton (derived from 0.0112 lb/ton, AP-42, Fifth Edition, Section 13.2.4, dated 1/95, multiplied by 2 for loading in and out ).
  - ii. The particulate emissions from material handling shall be developed by multiplying the monthly production rate, in tons, as determined in A.III.2., by the emission factor of 0.0174 lb/ton (derived from 0.0014 lb PM-10/ton x 2.1 = 0.0029 lb particulate/ton, AP-42, Fifth Edition, Table 11.19.2-2, dated 1/95, multiplied by 6 for the number of transfer points).
  - iii. The permittee calculated 1.92 TPY particulate emissions from wind erosion, using the alternative equation provided by Tim Fischer in the Ohio EPA IOC dated July 9, 1999.
  - iv. The total tons per year emission rate shall be developed by summing the 12 monthly rates as determined in i. and ii.; and then summing i., ii. and iii.
- c. Emission Limitation-  
10 % opacity, as a 6-minute average
- Applicable Compliance Method-
