

Facility ID: 0679020076 Issuance type: Draft State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

- 2. **Additional Terms and Conditions**

- (a) None

**B. Operational Restrictions**

- 1. None

**C. Monitoring and/or Record Keeping Requirements**

- 1. The permittee shall collect and record the following information each month for all materials employed in emissions units R001, R002, R003, R004, and R005 combined:
  - a. the name and identification number of each coating, thinner, or cleanup material employed;
  - b. the VOC content of each coating, thinner, and cleanup material employed, in pounds per gallon;
  - c. the total HAP content of each coating, thinner, and cleanup material employed, in pounds per gallon;
  - d. the individual HAP content of each coating, thinner, and cleanup material employed, in pounds per gallon;
  - e. the number of gallons of each coating, thinner, and cleanup material employed;
  - f. the total VOC emissions from all coatings, thinners, and cleanup materials employed, in pounds (i.e., (b)x(e));
  - g. the total emissions of all HAPs from all coatings, thinners, and cleanup materials employed, in pounds (i.e., (c)x(e));
  - h. the total emissions of each individual HAP from all coatings, thinners, and cleanup materials employed, in pounds (i.e., (d)x(e)); and
  - i. the rolling, 12-month summations of the data required in sections C.1.f, C.1.g and C.1.h above (i.e., the 12-month summations for VOC, individual HAP and total HAPs shall be calculated each month by adding the emission rate for the month to the emission rates for the previous 11 calendar months).

**D. Reporting Requirements**

- 1. The permittee shall notify the Ohio EPA Southeast District Office of any monthly record showing emissions in excess of the rolling, 12-month limitations specified in section A.1. A copy of such record shall be sent to the Ohio EPA Southeast District Office within 30 days following the end of the calendar month.
- 2. The permittee shall also submit annual reports which include the following information:
  - a. the total VOC emissions from the coatings, thinners, and cleanup materials employed in emissions units R001, R002, R003, R004, and R005, in tons, for each month and each rolling, 12-month period;
  - b. the total HAP emissions from the coatings, thinners, and cleanup materials employed in emissions units R001, R002, R003, R004, and R005, in tons, for each month and each rolling, 12-month period; and
  - c. the total emissions of each individual HAP from the coatings, thinners, and cleanup materials employed in emissions units R001, R002, R003, R004, and R005, in tons, for each month and each rolling, 12-month period.

These reports shall be submitted by January 31 of each year and shall include information for each month during the previous calendar year.

**E. Testing Requirements**

- 1. Compliance with the emissions limitations in section A.1 of these terms and conditions shall be determined in

accordance with the following methods:

Emission Limitation:

Annual emissions from emissions units R001, R002, R003, R004 and R005, combined, shall not exceed 95.7 tons of VOC as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be demonstrated based upon the record keeping requirements specified in section C.1 of these terms and conditions. USEPA Method 24 shall be used to determine the VOC contents of the coatings. If, pursuant to section 11.4 of Method 24, 40 CFR Part 60, Appendix A, an owner or operator determines that Method 24 cannot be used for a particular coating, the permittee shall so notify the Administrator of the USEPA and shall use formulation data for that coating to demonstrate compliance until the USEPA provides alternative analytical procedures or alternative precision statements for Method 24.

Emission Limitation:

Annual emissions from emissions units R001, R002, R003, R004 and R005, combined, shall not exceed 9.92 tons of any individual HAP as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be demonstrated based upon the record keeping requirements specified in section C.1 of these terms and conditions.

Emission Limitation:

Annual emissions from emissions units R001, R002, R003, R004 and R005, combined, shall not exceed 24.9 tons of total HAPs combined as a rolling, 12-month summation.
