**RE: DRAFT PERMIT TO INSTALL  
CUYAHOGA COUNTY  
Application No: 13-04152**

**CERTIFIED MAIL**

**DATE: 7/1/2003**

Leiden Cabinet Company (the)  
Tom Leiden  
1375 East 55th Street  
Cleveland, OH 44103

You are hereby notified that the Ohio Environmental Protection Agency has made a draft action recommending that the Director issue a Permit to Install for the air contaminant source(s) [emissions unit(s)] shown on the enclosed draft permit. This draft action is not an authorization to begin construction or modification of your emissions unit(s). The purpose of this draft is to solicit public comments on the proposed installation. A public notice concerning the draft permit will appear in the Ohio EPA Weekly Review and the newspaper in the county where the facility will be located. Public comments will be accepted by the field office within 30 days of the date of publication in the newspaper. Any comments you have on the draft permit should be directed to the appropriate field office within the comment period. A copy of your comments should also be mailed to Robert Hodanbosi, Division of Air Pollution Control, Ohio EPA, P.O. Box 1049, Columbus, OH, 43266-0149.

A Permit to Install may be issued in proposed or final form based on the draft action, any written public comments received within 30 days of the public notice, or record of a public meeting if one is held. You will be notified in writing of a scheduled public meeting. Upon issuance of a final Permit to Install a fee of **\$200** will be due. Please do not submit any payment now.

The Ohio EPA is urging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Pollution Prevention at (614) 644-3469. If you have any questions about this draft permit, please contact the field office where you submitted your application, or Mike Ahern, Field Operations & Permit Section at (614) 644-3631.

Very truly yours,

Michael W. Ahern, Supervisor  
Field Operations and Permit Section  
Division of Air Pollution Control

**CUYAHOGA  
COUNTY**

**PUBLIC NOTICE**

**ISSUANCE OF DRAFT PERMIT TO INSTALL 13-04152 FOR AN AIR CONTAMINANT SOURCE FOR  
LEIDEN CABINET COMPANY (THE)**

On 7/1/2003 the Director of the Ohio Environmental Protection Agency issued a draft action of a Permit To Install an air contaminant source for **Leiden Cabinet Company (the)**, located at **1375 East 55th Street, Cleveland, Ohio**.

Installation of the air contaminant source identified below may proceed upon final issuance of Permit To Install 13-04152:

**Iride 206 automatic spraying machine -- K002.**

Comments concerning this draft action, or a request for a public meeting, must be sent in writing to the address identified below no later than thirty (30) days from the date this notice is published. All inquiries concerning this draft action may be directed to the contact identified below.

STATE OF OHIO ENVIRONMENTAL PROTECTION AGENCY

**Permit To Install  
Terms and Conditions**

**Issue Date: To be entered upon final issuance  
Effective Date: To be entered upon final issuance**

**DRAFT PERMIT TO INSTALL 13-04152**

APS Premise Number: 1318001373  
Permit Fee: **To be entered upon final issuance**  
Name of Facility: Leiden Cabinet Company (the)  
Person to Contact: Tom Leiden  
Address: 1375 East 55th Street  
Cleveland, OH 44103

Location of proposed air contaminant source(s) [emissions unit(s)]:  
**1375 East 55th Street  
Cleveland, Ohio**

Description of proposed emissions unit(s):  
**Iride 206 automatic spraying machine -- K002.**

The above named entity is hereby granted a Permit to Install for the above described emissions unit(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

---

Director

**Leiden Cabinet Company (the)**  
**PTI Application: 13-04152**  
**Issued: To be entered upon final issuance**

**Facility ID: 1318001373**

## **Part I - GENERAL TERMS AND CONDITIONS**

### **A. Permit to Install General Terms and Conditions**

#### **1. Compliance Requirements**

The emissions unit(s) identified in this Permit to Install shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

#### **2. Reporting Requirements**

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or recordkeeping information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

#### **3. Records Retention Requirements**

Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.

#### **4. Inspections and Information Requests**

The Director of the Ohio EPA, or an authorized representative of the Director, may, subject to the safety requirements of the permittee and without undue delay, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State air pollution laws and regulations and the terms and conditions of this permit. The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any

**Leiden Cabinet Company (the)**

**PTI Application: 13-04152**

**Issued: To be entered upon final issuance**

**Facility ID: 1318001373**

information that may be requested to determine whether cause exists for modifying, reopening or revoking this permit or to determine compliance with this permit. Upon verbal or written request, the permittee shall also furnish to the Director of the Ohio EPA, or an authorized representative of the Director, copies of records required to be kept by this permit.

**5. Scheduled Maintenance/Malfunction Reporting**

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emissions unit(s) that is (are) served by such control system(s).

**6. Permit Transfers**

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

**7. Air Pollution Nuisance**

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

**8. Termination of Permit to Install**

This Permit to Install shall terminate within eighteen months of the effective date of the Permit to Install if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

**9. Construction of New Sources(s)**

The proposed emissions unit(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may

**Leiden Cabinet Company (the)**

**Facility ID: 1318001373**

**PTI Application: 13-04152**

**Issued: To be entered upon final issuance**

lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources cannot meet the requirements of this permit or cannot meet applicable standards.

If the construction of the proposed emissions unit(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.

**10. Public Disclosure**

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

**11. Applicability**

This Permit To Install is applicable only to the emissions unit(s) identified in the Permit To Install. Separate Permit To Install for the installation or modification of any other emissions unit(s) are required for any emissions unit for which a Permit To Install is required.

**12. Best Available Technology**

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

**13. Source Operation and Operating Permit Requirements After Completion of Construction**

- a. If the permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77, the permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification

**Leiden Cabinet Company (the)**

**Facility ID: 1318001373**

**PTI Application: 13-04152**

**Issued: To be entered upon final issuance**

must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d).

- b. If the permittee is required to apply for permit(s) pursuant to OAC Chapter 3745-35, the source(s) identified in this Permit To Install is (are) permitted to operate for a period of up to one year from the date the source(s) commenced operation. Permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within ninety (90) days after commencing operation of the source(s) covered by this permit.

#### **14. Construction Compliance Certification**

The applicant shall provide Ohio EPA with a written certification (see enclosed form) that the facility has been constructed in accordance with the Permit to Install application and the terms and conditions of the Permit to Install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

#### **15. Fees**

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable Permit to Install fees within 30 days after the issuance of this Permit to Install.

### **B. Permit to Install Summary of Allowable Emissions**

The following information summarizes the total allowable emissions, by pollutant, based on the individual allowable emissions of each air contaminant source identified in this permit.

**SUMMARY (for informational purposes only)**  
**TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS**

<u>Pollutant</u>	<u>Tons Per Year</u>
OC	5.2

**Leiden Cabinet Company (the)**  
**PTI**  
**Issue**

**Facility ID: 1318001373**

Emissions Unit ID: **K002**

**PART II - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)**

**A. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
K002 - Iride 206 automatic spraying machine for coating of wood parts for cabinets	OAC rule 3745-31-05(A)(3)	1.2 lbs/hr and 5.2 tons/year of volatile organic compounds (VOC)
	OAC rule 3745-21-07(G)(2)	Exempt, see A.2.b.
	40 CFR 63 Subpart JJ	See A.2.c.

**2. Additional Terms and Conditions**

- 2.a The hourly and annual allowable emission limit are set at the emission unit's potential to emit (PTE), therefore no recordkeeping or reporting is required for these limitations.
- 2.b The use of photochemical reactive material is prohibited in this emission unit.
- 2.c The permittee shall meet the following requirements to maintain the facility as an area source with respect to 40 CFR 63 Subpart JJ:
  - i. emit less than 5 tons per each rolling 12-month period of each hazardous air pollutant (HAP) at the facility; and,
  - ii. emit less than 12.5 tons per each rolling 12-month period of the combination of all HAPs at the facility.

The permittee shall include any HAP emissions generated by any other emissions units at the facility. At least ninety percent of the plantwide HAP emissions per rolling 12-month period shall be associated with the manufacture of wood furniture or wood furniture components.

**B. Operational Restrictions**

None.

**C. Monitoring and/or Recordkeeping Requirements**

1. The permittee shall collect and record the following information for each day for the coating operation:
  - a. the name and identification number of each coating and cleanup material employed; and,
  - b. the VOC content of each coating and cleanup material employed, in pounds lbs/gallon.
2. The permittee shall collect and record the following information each month for all emissions units:
  - a. the name and identification number of each coating employed;
  - b. the number of gallons of each coating and cleanup material employed;
  - c. the single HAP content of each coating and each cleanup material, in lbs/gallon;
  - d. the combined HAPs content of each coating and each cleanup material, in lbs/gallon;
  - e. the emissions of each single HAP from each coating and each cleanup material, in pounds (C.2.b x C.2.c);
  - f. the total emissions of each single HAP from all coatings and cleanup materials employed, in lbs [summation of (C.2.b x C.2.c) for each coating and cleanup material];
  - g. the emissions of combined HAPs from each coating and each cleanup material, in pounds (C.2.b x C.2.d); and,
  - h. the total emissions of combined HAPs from all coatings and cleanup materials employed, in pounds [summation of (C.2.b x C.2.d) for each coating and cleanup material].
3. The permittee shall collect and record the following information each month for all emissions units:
  - a. the rolling 12-month emissions of each single HAP; and,
  - b. the rolling 12-month emissions of the combined HAPs.
4. The permit to install for this emissions unit (K002) was evaluated based on the actual materials

Leide

PTI

Emissions Unit ID: **K002****Issued: To be entered upon final issuance**

(typically coatings and cleanup materials) and the design parameters of the emissions unit's venting system, as specified by the permittee in the permit to install application. The Ohio EPA's "Review of New Sources of Air Toxic Emissions" policy ("Air Toxic Policy") was applied for each pollutant emitted by this emissions unit using data from the permit to install application and the SCREEN 3.0 model. The predicted 1-hour maximum ground-level concentration from the use of the SCREEN 3.0 model was compared to the Maximum Acceptable Ground-Level Concentration (MAGLC). The following summarizes the results of the modeling for the "worst case" pollutant(s):

- a. Pollutant: Methanol - 3.99 TPY (max)

TLV (mg/m<sup>3</sup>): 262.1

Maximum Hourly Emission Rate (lbs/hr): 0.91

Predicted 1-Hour Maximum Ground-Level  
Concentration (µg/m<sup>3</sup>): 145.0

MAGLC (µg/m<sup>3</sup>): 6,240

5. Physical changes to or changes in the method of operation of the emissions unit after its installation could affect the parameters used to determine whether or not the "Air Toxic Policy" is satisfied. Consequently, prior to making a change that could impact such parameters, the permittee shall conduct an evaluation to determine that the "Air Toxic Policy" will still be satisfied. If, upon evaluation, the permittee determines that the "Air Toxic Policy" will not be satisfied, the permittee will not make the change. Changes that can affect the parameters used in applying the "Air Toxic Policy" include the following:
- a. changes in the composition of the materials used (typically for coatings or cleanup materials), or the use of new materials, that would result in the emission of a compound with a lower Threshold Limit Value (TLV), as indicated in the most recent version of the handbook entitled "American Conference of Governmental Industrial Hygienists (ACGIH)," than the lowest TLV value previously modeled;
- b. changes in the composition of the materials, or use of new materials, that would result in an increase in emissions of any pollutant with a listed TLV that was proposed in the application and modeled; and
- c. physical changes to the emissions unit or its exhaust parameters (e.g., increased/ decreased exhaust flow, changes in stack height, changes in stack diameter, etc.).

**Leiden Cabinet Company (the)**

**PTI Application 13-04153**

**Issue**

**Facility ID: 1318001373**

**Emissions Unit ID: K002**

6. If the permittee determines that the "Air Toxic Policy" will be satisfied for the above changes, the Ohio EPA will not consider the change(s) to be a "modification" under OAC rule 3745-31-01(VV)(1)(a)(ii), and a modification of the existing permit to install will not be required. If the change(s) is (are) defined as

**Leide****PTI**Emissions Unit ID: **K002****Issued: To be entered upon final issuance**

- a. modification under other provisions of the modification definition (other than (VV)(1)(a)(ii)), then the permittee shall obtain a final permit to install prior to the change.
7. The permittee shall collect, record, and retain the following information when it conducts evaluations to determine that the changed emissions unit will still satisfy the "Air Toxic Policy:"
  - a. a description of the parameters changed (composition of materials, new pollutants emitted, change in stack/exhaust parameters, etc.);
  - b. documentation of its evaluation and determination that the changed emissions unit still satisfies the "Air Toxic Policy"; and,
  - c. where computer modeling is performed, a copy of the resulting computer model runs that show the results of the application of the "Air Toxic Policy" for the change.

**D. Reporting Requirements**

1. The permittee shall notify the Cleveland Division of Air Quality (CDAQ) in writing for the identification of each rolling 12-month period during which any single HAP emissions from all emissions units exceeded 5 tons, and the actual single HAP emissions for each such rolling 12-month period. The report shall be submitted within 30 days after the exceedance occurs.
2. The permittee shall notify CDAQ in writing for the identification of each rolling 12-month period during which any combined HAP emissions from all emissions units exceeded 12.5 tons, and the actual combined HAP emissions for each such rolling 12-month period. The report shall be submitted within 30 days after the exceedance occurs.
3. The permittee shall submit annual written reports to CDAQ which summarize the total emissions of each single HAP and of all combined HAPs for all emissions units for the previous calendar year. The reports shall include the emissions calculations and shall be submitted by January 31 of each year.

**E. Testing Requirements**

1. Compliance with the emission limitations in Section A.1 of these terms and conditions shall be determined in accordance with the following methods:
  - a. Emission Limitation:  
5.2 tons VOC/year

13

**Leid**

**PTI**

**Issued: To be entered upon final issuance**

Emissions Unit ID: **K002**

**Leid****PTI**Emissions Unit ID: **K002****Issued: To be entered upon final issuance**Applicable Compliance Method:

The annual emission limitation was established by multiplying the hourly emission rate by 8,760 hours of operation per year and dividing by 2,000 pounds per ton. Therefore, compliance with the annual emission limitation shall be assumed provided compliance is maintained with the pounds per hour limitation.

b. Emission Limitation:

1.2 pounds VOC per hour

Applicable Compliance Method:

Compliance shall be determined based on the following one-time calculation based on the maximum hourly coating usage rate:

6.53 lbs VOC/gallon x 0.18 gallons/hr

c. Emission Limitation:

less than 5 tons per each rolling 12-month period for each HAP at the facility

Applicable Compliance Method:

Compliance with the above limit shall be determined based upon the record keeping requirements specified in Section C.2 and C.3.

d. Emission Limitation:

less than 12.5 tons per each rolling 12-month period of combined HAPs at the facility

Applicable Compliance Method:

Compliance with the above limit shall be determined based upon the record keeping requirements specified in Section C.2 and C.3.

**F. Miscellaneous Requirements**

None.
