

1

Facility Name: **Goodyear Tire and Rubber Company**

Application Number: **03-3105**

Date: **March 31, 1999**

GENERAL PERMIT CONDITIONS

TERMINATION OF PERMIT TO INSTALL

Substantial construction for installation must take place within 18 months of the effective date of this permit. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

NOTICE OF INSPECTION

The Director of the Ohio Environmental Protection Agency, or his authorized representatives, may enter upon the premises of the above-named applicant during construction and operation at any reasonable time for the purpose of making inspections, conducting tests, or to examine records or reports pertaining to the construction, modification or installation of the source(s) of environmental pollutants identified within this permit.

CONSTRUCTION OF NEW SOURCES

The proposed source(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources are inadequate or cannot meet applicable standards.

If the construction of the proposed source(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of Ohio Administrative Code (OAC) Rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as

2

Facility Name: **Goodyear Tire and Rubber Company**

Application Number: **03-3105**

Date: **March 31, 1999**

an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet applicable standards.

PERMIT TO INSTALL FEE

In accordance with Ohio Revised Code 3745.11, the specified Permit to Install fee must be remitted within 30 days of the effective date of this permit to install.

PUBLIC DISCLOSURE

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC Rule 3745-49-03.

APPLICABILITY

This Permit to Install is applicable only to the contaminant sources identified. Separate application must be made to the Director for the installation or modification of any other contaminant sources.

3

Facility Name: **Goodyear Tire and Rubber Company**

Application Number: **03-3105**

Date: **March 31, 1999**

BEST AVAILABLE TECHNOLOGY

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

PERMIT TO OPERATE APPLICATION

A Permit to Operate application must be submitted to the appropriate field office for each air contaminant source in this Permit to Install. In accordance with OAC Rule 3745-35-02, the application shall be filed no later than thirty days after commencement of operation.

SOURCE OPERATION AFTER COMPLETION OF CONSTRUCTION

This facility is permitted to operate each source described by this permit to install for a period of up to one year from the date the source commenced operation. This permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws and regulations.

AIR EMISSION SUMMARY

The air contaminant emissions units listed below comprise the Permit to Install for **Goodyear Tire and Rubber Company** located in **Auglaize** County. The emissions units listed below shall not exceed the emission limits/control requirements contained in the table. This condition in no way limits the applicability of any other state or federal regulations. Additionally, this condition does not limit the applicability of additional special terms and conditions of this permit.

<u>Ohio EPA Source Number</u>	<u>Source Identification Description</u>	<u>BAT Determination</u>	<u>Applicable Federal & OAC Rules</u>	<u>Permit Allowable Mass Emissions and/or Control/Usage Requirements</u>
P084	Rubber track compression molding press (CRTP No. 1)	Use of non-volatile mold lubricant and compliance with terms and conditions in this permit	3745-31-05	0.18 pound OC/hour, 0.79 ton OC/year
P085	Rubber track compression molding press (CRTP No. 2)	Use of non-volatile mold lubricant and compliance with terms and conditions in this permit	3745-31-05	0.22 pound OC/hour, 0.96 ton OC/year
P086	Rubber track compression molding press (FCRTP1)	Use of non-volatile mold lubricant and compliance with terms and conditions in this permit	3745-31-05	0.16 pound OC/hour, 0.70 ton OC/year

Facility Name: **Goodyear Tire and Rubber Company**

Application Number: **03-3105**

Date: **March 31, 1999**

REPORTING REQUIREMENTS

Unless otherwise specified, reports required by the Permit to Install need only be submitted to **Ohio EPA, Northwest District Office, 347 North Dunbridge Road, Bowling Green, OH 43402.**

WASTE DISPOSAL

The owner/operator shall comply with any applicable state and federal requirements governing the storage, treatment, transport and disposal of any waste material generated by the operation of the sources.

MAINTENANCE OF EQUIPMENT

This source and its associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices and the recommendations of the respective manufacturers in order to minimize air contaminant emissions.

MALFUNCTION/ABATEMENT

In accordance with OAC RULE 3745-15-06, any malfunction of the source(s) or associated air pollution control system(s) shall be reported immediately to the **Ohio EPA, Northwest District Office, 347 North Dunbridge Road, Bowling Green, OH 43402.**

Except as provided by OAC Rule 3745-15-06(A)(3), scheduled maintenance of air pollution control equipment that requires the shutdown or bypassing of air pollution control system(s) must be accompanied by the shutdown of the associated air pollution sources.

AIR POLLUTION NUISANCES PROHIBITED

The air contaminant source(s) identified in this permit may not cause a public nuisance in violation of OAC Rule 3745-15-07.

CONSTRUCTION COMPLIANCE CERTIFICATION

8

Facility Name: **Goodyear Tire and Rubber Company**

Application Number: **03-3105**

Date: **March 31, 1999**

The applicant shall provide Ohio EPA with a written certification (see enclosed form) that the facility has been constructed in accordance with the Permit to Install application and the terms and

Facility Name: **Goodyear Tire and Rubber Company**

Application Number: **03-3105**

Date: **March 31, 1999**

conditions of the Permit to Install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

ADDITIONAL SPECIAL TERMS AND CONDITIONS

General Information

Goodyear Tire and Rubber Company, hereafter referred to as the "permittee", is proposing the installation of three rubber track compression molding presses. Although each emissions unit would qualify for "de-minimus", the aggregate emissions from all rubber presses at the facility exceed 25 TPY and therefore do not qualify for permitting exemptions.

A. Emission Limitations and/or Control Requirements

1. No additional emissions limitations and/or control requirements other than those listed in the Air Emissions Summary.

B. Operational Restrictions

1. The permittee shall only employ non-volatile mold lubricants in emissions units P084, P085, and P086.

C. Monitoring and/or Recordkeeping Requirements

1. Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings, if a strip-chart recorder is employed, for continuous monitoring instrumentation, and copies of all reports required by the permit. Such records may be maintained in computerized form.

D. Reporting Requirements

1. The permittee shall submit annual written reports for emissions units P084-P086 of (a) any deviations (excursions) from emission limitations, operational

Facility Name: **Goodyear Tire and Rubber Company**

Application Number: **03-3105**

Date: **March 31, 1999**

restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the Ohio EPA, Northwest District Office. If no deviations occurred during a calendar year, the permittee shall submit an annual report, which states that no deviations occurred during that year. The reports shall be submitted annually, by January 31 of each year and shall cover the previous calendar year. (These annual reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06).

E. Testing and/or Compliance Methods Determinations

1. Emission Limitations

P084: 0.18 lb OC/hr

P085: 0.22 lb OC/hr

P086: 0.16 lb OC/hr

Applicable Compliance Method

Hourly limits are based upon each emissions units potential to emit (*) therefore, no recordkeeping, deviation reporting or compliance method calculations are required to demonstrate compliance with the hourly limitations.

* The potential-to-emit for each emissions unit was based on the following maximum process weight rates:

P084 - 312 lbs rubber/hr

P085 - 372 lbs rubber/hr

P086 - 372 lbs rubber/hr

and an emission factor of 5.87×10^{-4} lb OC per lb rubber processed (Rubber Manufacturers Association Emission Factors Development Project).

2. Emission Limitations

P084: 0.79 ton OC/year

11

Facility Name: **Goodyear Tire and Rubber Company**

Application Number: **03-3105**

Date: **March 31, 1999**

P085: 0.96 ton OC/year

P086: 0.70 ton OC/year

Applicable Compliance Method

The annual OC emission limitations were developed by multiplying the lb/hr limitation by the maximum operating schedule of 8760 hrs/yr, and dividing by 2000 lbs/ton. Therefore, no recordkeeping, deviation reporting or compliance method calculations are required to demonstrate compliance with the annual emission limitations.

F. Miscellaneous Requirements

None.
