Dear Permit Holder:

Enclosed please find a final Ohio Environmental Protection Agency (EPA) Air Pollution Permit-to-Install (PTI) which will allow you to install or modify the described emissions unit(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions, we urge you to read it carefully. Because this permit contains conditions and restrictions, please read it very carefully. In this letter you will find the information on the following topics:

- **How to appeal this permit**
- **How to save money, reduce pollution and reduce energy consumption**
- **How to give us feedback on your permitting experience**
- **How to get an electronic copy of your permit**

**How to appeal this permit**

The issuance of this PTI is a final action of the Director and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Josh Mandel," which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
77 South High Street, 17th Floor  
Columbus, OH 43215

## **How to save money, reduce pollution and reduce energy consumption**

The Ohio EPA is encouraging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Compliance Assistance and Pollution Prevention at (614) 644-3469. Additionally, all or a portion of the capital expenditures related to installing air pollution control equipment under this permit may be eligible for financing and State tax exemptions through the Ohio Air Quality Development Authority (OAQDA) under Ohio Revised Code Section 3706. For more information, see the OAQDA website: [www.ohioairquality.org/clean\\_air](http://www.ohioairquality.org/clean_air)

## **How to give us feedback on your permitting experience**

Please complete a survey at [www.epa.ohio.gov/survey.aspx](http://www.epa.ohio.gov/survey.aspx) and give us feedback on your permitting experience. We value your opinion.

## **How to get an electronic copy of your permit**

This permit can be accessed electronically via the eBusiness Center: Air Services in Microsoft Word format or in Adobe PDF on the Division of Air Pollution Control (DAPC) Web page, [www.epa.ohio.gov/dapc](http://www.epa.ohio.gov/dapc) by clicking the "Search for Permits" link under the Permitting topic on the Programs tab.

If you have any questions, please contact Ohio EPA DAPC, Southwest District Office at (937)2856357 or the Office of Compliance Assistance and Pollution Prevention at (614) 644-3469.

Sincerely,

Michael W. Ahern, Manager

Permit Issuance and Data Management Section, DAPC

**Final Permit-to-Install**  
Midwest Express Inc.  
**Permit Number:** P0113357  
**Facility ID:** 0546000133  
**Effective Date:** 3/28/2014

## Authorization

Facility ID: 0546000133  
Facility Description: Shipping and shipping prep. facility  
Application Number(s): A0046890, A0049184  
Permit Number: P0113357  
Permit Description: Plantwide Applicability Limit (PAL) permit per OAC rule 3745-31-32.  
Permit Type: Administrative Modification  
Permit Fee: \$200.00  
Issue Date: 3/28/2014  
Effective Date: 3/28/2014

This document constitutes issuance to:

Midwest Express Inc.  
11590 T.R. 157  
East Liberty, OH 43319

of a Permit-to-Install for the emissions unit(s) identified on the following page.

Ohio Environmental Protection Agency (EPA) District Office or local air agency responsible for processing and administering your permit:

Ohio EPA DAPC, Southwest District Office  
401 East Fifth Street  
Dayton, OH 45402  
(937)285-6357

The above named entity is hereby granted a Permit-to-Install for the emissions unit(s) listed in this section pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

  
Craig W. Butler  
Director

**Permit Number:** P0113357  
**Facility ID:** 0546000133  
**Effective Date:** 3/28/2014

## **A. Standard Terms and Conditions**

## **1. Federally Enforceable Standard Terms and Conditions**

- a) All Standard Terms and Conditions are federally enforceable, with the exception of those listed below which are enforceable under State law only:
  - (1) Standard Term and Condition A.2.a), Severability Clause
  - (2) Standard Term and Condition A.3.c) through A. 3.e) General Requirements
  - (3) Standard Term and Condition A.6.c) and A. 6.d), Compliance Requirements
  - (4) Standard Term and Condition A.9., Reporting Requirements
  - (5) Standard Term and Condition A.10., Applicability
  - (6) Standard Term and Condition A.11.b) through A.11.e), Construction of New Source(s) and Authorization to Install
  - (7) Standard Term and Condition A.14., Public Disclosure
  - (8) Standard Term and Condition A.15., Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations
  - (9) Standard Term and Condition A.16., Fees
  - (10) Standard Term and Condition A.17., Permit Transfers

## **2. Severability Clause**

- a) A determination that any term or condition of this permit is invalid shall not invalidate the force or effect of any other term or condition thereof, except to the extent that any other term or condition depends in whole or in part for its operation or implementation upon the term or condition declared invalid.
- b) All terms and conditions designated in parts B and C of this permit are federally enforceable as a practical matter, if they are required under the Act, or any of its applicable requirements, including relevant provisions designed to limit the potential to emit of a source, are enforceable by the Administrator of the U.S. EPA and the State and by citizens (to the extent allowed by section 304 of the Act) under the Act. Terms and conditions in parts B and C of this permit shall not be federally enforceable and shall be enforceable under State law only, only if specifically identified in this permit as such.

## **3. General Requirements**

- a) Any noncompliance with the federally enforceable terms and conditions of this permit constitutes a violation of the Act, and is grounds for enforcement action or for permit revocation, revocation and re-issuance, or modification.

- b) It shall not be a defense for the permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the federally enforceable terms and conditions of this permit.
- c) This permit may be modified, revoked, or revoked and reissued, for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or revocation, or of a notification of planned changes or anticipated noncompliance does not stay any term and condition of this permit.
- d) This permit does not convey any property rights of any sort, or any exclusive privilege.
- e) The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying or revoking this permit or to determine compliance with this permit. Upon request, the permittee shall also furnish to the Director or an authorized representative of the Director, copies of records required to be kept by this permit. For information claimed to be confidential in the submittal to the Director, if the Administrator of the U.S. EPA requests such information, the permittee may furnish such records directly to the Administrator along with a claim of confidentiality.

#### **4. Monitoring and Related Record Keeping and Reporting Requirements**

- a) Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall maintain records that include the following, where applicable, for any required monitoring under this permit:
  - (1) The date, place (as defined in the permit), and time of sampling or measurements.
  - (2) The date(s) analyses were performed.
  - (3) The company or entity that performed the analyses.
  - (4) The analytical techniques or methods used.
  - (5) The results of such analyses.
  - (6) The operating conditions existing at the time of sampling or measurement.
- b) Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.
- c) Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall submit required reports in the following manner:
  - (1) Reports of any required monitoring and/or recordkeeping of federally enforceable information shall be submitted to the Ohio EPA DAPC, Southwest District Office.

- (2) Quarterly written reports of (i) any deviations from federally enforceable emission limitations, operational restrictions, and control device operating parameter limitations, excluding deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06, that have been detected by the testing, monitoring and recordkeeping requirements specified in this permit, (ii) the probable cause of such deviations, and (iii) any corrective actions or preventive measures taken, shall be made to the Ohio EPA DAPC, Southwest District Office. The written reports shall be submitted (i.e., postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. See A.15. below if no deviations occurred during the quarter.
  - (3) Written reports, which identify any deviations from the federally enforceable monitoring, recordkeeping, and reporting requirements contained in this permit shall be submitted to the Ohio EPA DAPC, Southwest District Office every six months, by January 31 and July 31 of each year for the previous six calendar months. If no deviations occurred during a six-month period, the permittee shall submit a semi-annual report, which states that no deviations occurred during that period.
  - (4) This permit is for an emissions unit located at a Title V facility. Each written report shall be signed by a responsible official certifying that, based on information and belief formed after reasonable inquiry, the statements and information in the report are true, accurate, and complete.
- d) The permittee shall report actual emissions pursuant to OAC Chapter 3745-78 for the purpose of collecting Air Pollution Control Fees.

## **5. Scheduled Maintenance/Malfunction Reporting**

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction, i.e., upset, of any emissions units or any associated air pollution control system(s) shall be reported to the Ohio EPA DAPC, Southwest District Office in accordance with paragraph (B) of OAC rule 3745-15-06. (The definition of an upset condition shall be the same as that used in OAC rule 3745-15-06(B)(1) for a malfunction.) The verbal and written reports shall be submitted pursuant to OAC rule 3745-15-06.

Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emission unit(s) that is (are) served by such control system(s).

## **6. Compliance Requirements**

- a) All applications, notifications or reports required by terms and conditions in this permit to be submitted or "reported in writing" are to be submitted to Ohio EPA through the Ohio EPA's eBusiness Center: Air Services web service ("Air Services"). Ohio EPA will accept hard copy submittals on an as-needed basis if the permittee cannot submit the required documents through the Ohio EPA eBusiness Center. In the event of an alternative hard copy submission in lieu of the eBusiness Center, the post-marked date or the date the document is delivered in person will be recognized as the date submitted. Electronic submission of applications, notifications or reports required to be submitted to Ohio EPA fulfills the requirement to submit the required information to the Director, the appropriate Ohio EPA District Office or contracted

local air agency, and/or any other individual or organization specifically identified as an additional recipient identified in this permit unless otherwise specified. Consistent with OAC rule 3745-15-03, the electronic signature date shall constitute the date that the required application, notification or report is considered to be "submitted". Any document requiring signature may be represented by entry of the personal identification number (PIN) by responsible official as part of the electronic submission process or by the scanned attestation document signed by the Authorized Representative that is attached to the electronically submitted written report.

Any document (including reports) required to be submitted and required by a federally applicable requirement in this permit shall include a certification by a Responsible Official that, based on information and belief formed after reasonable inquiry, the statements in the document are true, accurate, and complete.

- b) Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the Director of the Ohio EPA or an authorized representative of the Director to:
  - (1) At reasonable times, enter upon the permittee's premises where a source is located or the emissions-related activity is conducted, or where records must be kept under the conditions of this permit.
  - (2) Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit, subject to the protection from disclosure to the public of confidential information consistent with ORC section 3704.08.
  - (3) Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under this permit.
  - (4) As authorized by the Act, sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit and applicable requirements.
- c) The permittee shall submit progress reports to the Ohio EPA DAPC, Southwest District Office concerning any schedule of compliance for meeting an applicable requirement. Progress reports shall be submitted semiannually or more frequently if specified in the applicable requirement or by the Director of the Ohio EPA. Progress reports shall contain the following:
  - (1) Dates for achieving the activities, milestones, or compliance required in any schedule of compliance, and dates when such activities, milestones, or compliance were achieved.
  - (2) An explanation of why any dates in any schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

## **7. Best Available Technology**

As specified in OAC Rule 3745-31-05, new sources that must employ Best Available Technology (BAT) shall comply with the Applicable Emission Limitations/Control Measures identified as BAT for each subject emissions unit.

**8. Air Pollution Nuisance**

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

**9. Reporting Requirements**

The permittee shall submit required reports in the following manner:

- a) Reports of any required monitoring and/or recordkeeping of state-only enforceable information shall be submitted to the Ohio EPA DAPC, Southwest District Office.
- b) Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from state-only required emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the Ohio EPA DAPC, Southwest District Office. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

**10. Applicability**

This Permit-to-Install is applicable only to the emissions unit(s) identified in the Permit-to-Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s) not exempt from the requirement to obtain a Permit-to-Install.

**11. Construction of New Sources(s) and Authorization to Install**

- a) This permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. This permit does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the application and terms and conditions of this permit. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of this permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Issuance of this permit is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.
- b) If applicable, authorization to install any new emissions unit included in this permit shall terminate within eighteen months of the effective date of the permit if the owner or operator has not undertaken a continuing program of installation or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation. This deadline may be extended by up to 12 months if application is made to the

Director within a reasonable time before the termination date and the permittee shows good cause for any such extension.

- c) The permittee may notify Ohio EPA of any emissions unit that is permanently shut down (i.e., the emissions unit has been physically removed from service or has been altered in such a way that it can no longer operate without a subsequent "modification" or "installation" as defined in OAC Chapter 3745-31) by submitting a certification from the authorized official that identifies the date on which the emissions unit was permanently shut down. Authorization to operate the affected emissions unit shall cease upon the date certified by the authorized official that the emissions unit was permanently shut down. At a minimum, notification of permanent shut down shall be made or confirmed by marking the affected emissions unit(s) as "permanently shut down" in "Air Services" along with the date the emissions unit(s) was permanently removed and/or disabled. Submitting the facility profile update electronically will constitute notifying the Director of the permanent shutdown of the affected emissions unit(s).
- d) The provisions of this permit shall cease to be enforceable for each affected emissions unit after the date on which an emissions unit is permanently shut down (i.e., emissions unit has been physically removed from service or has been altered in such a way that it can no longer operate without a subsequent "modification" or "installation" as defined in OAC Chapter 3745-31). All records relating to any permanently shutdown emissions unit, generated while the emissions unit was in operation, must be maintained in accordance with law. All reports required by this permit must be submitted for any period an affected emissions unit operated prior to permanent shut down. At a minimum, the permit requirements must be evaluated as part of the reporting requirements identified in this permit covering the last period the emissions unit operated.

Unless otherwise exempted, no emissions unit certified by the responsible official as being permanently shut down may resume operation without first applying for and obtaining a permit pursuant to OAC Chapter 3745-31 and OAC Chapter 3745-77 if the restarted operation is subject to one or more applicable requirements.

- e) The permittee shall comply with any residual requirements related to this permit, such as the requirement to submit a deviation report, air fee emission report, or other any reporting required by this permit for the period the operating provisions of this permit were enforceable, or as required by regulation or law. All reports shall be submitted in a form and manner prescribed by the Director. All records relating to this permit must be maintained in accordance with law.

## **12. Permit-To-Operate Application**

The permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77. The permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if operation of the proposed new or modified source(s) as authorized by this permit would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d) must be obtained before operating the source in a manner that would violate the existing Title V permit requirements.

**13. Construction Compliance Certification**

The applicant shall identify the following dates in the "Air Services" facility profile for each new emissions unit identified in this permit.

- a) Completion of initial installation date shall be entered upon completion of construction and prior to start-up.
- b) Commence operation after installation or latest modification date shall be entered within 90 days after commencing operation of the applicable emissions unit.

**14. Public Disclosure**

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

**15. Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations**

If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters.

**16. Fees**

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable permit-to-install fees within 30 days after the issuance of any permit-to-install. The permittee shall pay all applicable permit-to-operate fees within thirty days of the issuance of the invoice.

**17. Permit Transfers**

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The new owner must update and submit the ownership information via the "Owner/Contact Change" functionality in "Air Services" once the transfer is legally completed. The change must be submitted through "Air Services" within thirty days of the ownership transfer date.

**18. Risk Management Plans**

If the permittee is required to develop and register a risk management plan pursuant to section 112(r) of the Clean Air Act, as amended, 42 U.S.C. 7401 et seq. ("Act"), the permittee shall comply with the requirement to register such a plan.

**19. Title IV Provisions**

If the permittee is subject to the requirements of 40 CFR Part 72 concerning acid rain, the permittee shall ensure that any affected emissions unit complies with those requirements. Emissions exceeding any allowances that are lawfully held under Title IV of the Act, or any regulations adopted thereunder, are prohibited.

**Final Permit-to-Install**  
Midwest Express Inc.  
**Permit Number:** P0113357  
**Facility ID:** 0546000133  
**Effective Date:** 3/28/2014

## **B. Facility-Wide Terms and Conditions**

**1. Establishment of Plantwide Applicability Limitations (PALs)**

- a) The combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) volatile organic compound (VOC) emission limitation of 2,125.9 tons per year on a rolling, 12-month basis was established in accordance with OAC rule 3745-31-32(A)(5) and is based upon actual facility-wide VOC emissions from 2004 and 2005 of 2,065.8 and 2,107.9 tons, respectively. Average facility-wide VOC emissions for 2004 and 2005 are 2,086.9 tons per year. Based on an increase below Prevention of Significant Deterioration (PSD) of 39.0 tons of VOC, the adjusted baseline actual facility-wide VOC emissions are 2,125.9 tons per year on a rolling, 12-month basis.
- b) The combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) carbon monoxide (CO) emission limitation of 236.4 tons per year on a rolling, 12-month basis was established in accordance with OAC rule 3745-31-32(A)(5) and is based upon actual facility-wide CO emissions from 2005 and 2006 of 138.9 and 134.0 tons, respectively. Average facility-wide CO emissions for 2005 and 2006 are 136.4 tons per year. Based on an increase below Prevention of Significant Deterioration (PSD) of 99.9 tons of CO, the adjusted baseline actual facility-wide CO emissions are 236.4 tons per year on a rolling, 12-month basis.
- c) The combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) nitrogen oxides (NOx) emission limitation of 203.0 tons per year on a rolling, 12-month basis was established in accordance with OAC rule 3745-31-32(A)(5) and is based upon actual facility-wide NOx emissions from 2005 and 2006 of 165.2 and 160.9 tons, respectively. Average facility-wide NOx emissions for 2005 and 2006 are 163.1 tons per year. Based on an increase below Prevention of Significant Deterioration (PSD) of 39.9 tons of NOx, the adjusted baseline actual facility-wide NOx emissions are 203.0 tons per year on a rolling, 12-month basis.
- d) The combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) particulate matter (PM) emission limitation of 133.1 tons per year on a rolling, 12-month basis was established in accordance with OAC rule 3745-31-32(A)(5) and is based upon actual facility-wide PM emissions from 2004 and 2005 of 107.4 and 109.0 tons, respectively. Average facility-wide PM emissions for 2004 and 2005 are 108.2 tons per year. Based on an increase below Prevention of Significant Deterioration (PSD) of 24.9 tons of PM, the adjusted baseline actual facility-wide PM emissions are 133.1 tons per year on a rolling, 12-month basis.
- e) The combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) PM<sub>10</sub> emission limitation of 93.7 tons per year on a rolling, 12-month basis was established in accordance with OAC rule 3745-31-32(A)(5) and is based upon actual facility-wide PM<sub>10</sub> emissions from 2004 and 2005 of 78.2 and 79.4 tons, respectively. Average facility-wide PM<sub>10</sub> emissions for 2004 and 2005 are 78.8 tons per year. Based on an increase below Prevention of Significant Deterioration (PSD) of 14.9 tons of PM<sub>10</sub>, the adjusted baseline actual facility-wide PM<sub>10</sub> emissions are 93.7 tons per year on a rolling, 12-month basis.
- f) The combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) PM<sub>2.5</sub> emission limitation of 64.4 tons per year on a rolling, 12-month basis was established in accordance with OAC rule 3745-31-32(A)(5) and is

based upon actual facility-wide PM<sub>2.5</sub> emissions from 2004 and 2005 of 54.2 and 54.8 tons, respectively. Average facility-wide PM<sub>2.5</sub> emissions for 2004 and 2005 are 54.5 tons per year. Based on an increase below Prevention of Significant Deterioration (PSD) of 9.9 tons of PM<sub>2.5</sub>, the adjusted baseline actual facility-wide PM<sub>2.5</sub> emissions are 64.4 tons per year on a rolling, 12-month basis.

- g) The combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) sulfur oxides (SOx) emission limitation of 42.7 tons per year on a rolling, 12-month basis was established in accordance with OAC rule 3745-31-32(A)(5) and is based upon actual facility-wide SOx emissions from 2004 and 2005 of 2.8 and 2.9 tons, respectively. Average facility-wide SOx emissions for 2004 and 2005 are 2.8 tons per year. Based on an increase below Prevention of Significant Deterioration (PSD) of 39.9 tons of SOx, the adjusted baseline actual facility-wide SOx emissions are 42.7 tons per year on a rolling, 12-month basis.
- h) The combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) greenhouse gas (GHG) emission limitation of 264,626 tons per year on a rolling, 12-month basis was established in accordance with OAC rule 3745-31-32(A)(5) and is based upon actual facility-wide GHG emissions from 2005 and 2006 of 191,727 and 187,528 tons, respectively. Average facility-wide GHG emissions for 2005 and 2006 are 189,628 tons per year. Based on an increase below Prevention of Significant Deterioration (PSD) of 74,999 tons of GHG, the adjusted baseline actual facility-wide GHG emissions are 264,626 tons per year on a rolling, 12-month basis.

## **2. Plantwide Applicability Limitations (PALs)**

- a) Emission Limitation:

Combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) VOC emissions shall not exceed 2,125.9 tons per year on a rolling, 12-month basis.

Applicable Compliance Method:

Compliance shall be demonstrated by summing VOC emissions on a rolling, 12-month basis from all emissions units that emit VOCs at the facility, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) including but not limited to de minimis, exempt, and combustion sources. For each insignificant emissions source, the permittee shall maintain monthly records of the total monthly emissions and the total cumulative emissions from the previous 12-month period. The records shall include the emissions calculations based on either monthly usage records or worst-case potential. VOC emissions from significant emissions units shall be determined in accordance with the Monitoring and/or Recordkeeping and Testing Sections of this permit for each emissions unit.

- b) Emission Limitation:

Combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) CO emissions shall not exceed 236.4 tons per year on a rolling, 12-month basis.

Applicable Compliance Method:

Compliance shall be demonstrated by summing CO emissions on a rolling, 12-month basis from all emissions units that emit CO at the facility, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) including but not limited to de minimis, exempt, and combustion sources. For each insignificant emissions source, the permittee shall maintain monthly records of the total monthly emissions and the total cumulative emissions from the previous 12-month period. The records shall include the emissions calculations based on either monthly usage records or worst-case potential. CO emissions from significant emissions units shall be determined in accordance with the Monitoring and/or Recordkeeping and Testing Sections of this permit for each emissions unit.

c) Emission Limitation:

Combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) NO<sub>x</sub> emissions shall not exceed 203.0 tons per year on a rolling, 12-month basis.

Applicable Compliance Method:

Compliance shall be demonstrated by summing NO<sub>x</sub> emissions on a rolling, 12-month basis from all emissions units that emit NO<sub>x</sub> at the facility, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) including but not limited to de minimis, exempt, and combustion sources. For each insignificant emissions source, the permittee shall maintain monthly records of the total monthly emissions and the total cumulative emissions from the previous 12-month period. The records shall include the emissions calculations based on either monthly usage records or worst-case potential. NO<sub>x</sub> emissions from significant emissions units shall be determined in accordance with the Monitoring and/or Recordkeeping and Testing Sections of this permit for each emissions unit.

d) Emission Limitation:

Combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) PM emissions shall not exceed 133.1 tons per year on a rolling, 12-month basis.

Applicable Compliance Method:

Compliance shall be demonstrated by summing PM emissions on a rolling, 12-month basis from all emissions units that emit PM at the facility, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) including but not limited to de minimis, exempt, and combustion sources. For each insignificant emissions source, the permittee shall maintain monthly records of the total monthly emissions and the total cumulative emissions from the previous 12-month period. The records shall include the emissions calculations based on either monthly usage records or worst-case potential. PM emissions from significant emissions units shall be determined in accordance with the Monitoring and/or Recordkeeping and Testing Sections of this permit for each emissions unit.

e) Emission Limitation:

Combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) PM<sub>10</sub> emissions shall not exceed 93.7 tons per year on a rolling, 12-month basis.

Applicable Compliance Method:

Compliance shall be demonstrated by summing PM<sub>10</sub> emissions on a rolling, 12-month basis from all emissions units that emit PM<sub>10</sub> at the facility, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) including but not limited to de minimis, exempt, and combustion sources. For each insignificant emissions source, the permittee shall maintain monthly records of the total monthly emissions and the total cumulative emissions from the previous 12-month period. The records shall include the emissions calculations based on either monthly usage records or worst-case potential. PM<sub>10</sub> emissions from significant emissions units shall be determined in accordance with the Monitoring and/or Recordkeeping and Testing Sections of this permit for each emissions unit.

f) Emission Limitation:

Combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) PM<sub>2.5</sub> emissions shall not exceed 64.4 tons per year on a rolling, 12-month basis.

Applicable Compliance Method:

Compliance shall be demonstrated by summing PM<sub>2.5</sub> emissions on a rolling, 12-month basis from all emissions units that emit PM<sub>2.5</sub> at the facility, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) including but not limited to de minimis, exempt, and combustion sources. For each insignificant emissions source, the permittee shall maintain monthly records of the total monthly emissions and the total cumulative emissions from the previous 12-month period. The records shall include the emissions calculations based on either monthly usage records or worst-case potential. PM<sub>2.5</sub> emissions from significant emissions units shall be determined in accordance with the Monitoring and/or Recordkeeping and Testing Sections of this permit for each emissions unit.

g) Emission Limitation:

Combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) SO<sub>x</sub> emissions shall not exceed 42.7 tons per year on a rolling, 12-month basis.

Applicable Compliance Method:

Compliance shall be demonstrated by summing SO<sub>x</sub> emissions on a rolling, 12-month basis from all emissions units that emit SO<sub>x</sub> at the facility, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) including but not limited to de minimis, exempt, and combustion sources. For each insignificant emissions source, the permittee shall maintain monthly records of the total monthly emissions and the total cumulative emissions from the previous 12-month period. The records shall include the

emissions calculations based on either monthly usage records or worst-case potential. SOx emissions from significant emissions units shall be determined in accordance with the Monitoring and/or Recordkeeping and Testing Sections of this permit for each emissions unit.

h) Emission Limitation:

Combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) GHG emissions shall not exceed 264,626 tons per year on a rolling, 12-month basis.

Applicable Compliance Method:

Compliance shall be demonstrated by summing GHG emissions on a rolling, 12-month basis from all emissions units that emit GHGs at the facility, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) including but not limited to de minimis, exempt, and combustion sources. For each insignificant emissions source, the permittee shall maintain monthly records of the total monthly emissions and the total cumulative emissions from the previous 12-month period. The records shall include the emissions calculations based on either monthly usage records or worst-case potential. GHG emissions from significant emissions units shall be determined in accordance with the Monitoring and/or Recordkeeping and Testing Sections of this permit for each emissions unit.

### 3. PAL Monitoring and Record Keeping Requirements

- a) The permittee shall maintain a copy of all records necessary to determine compliance with any requirement of OAC rule 3745-31-32(A) and of the PAL, including a determination of each emission unit's 12-month rolling total emissions, for 5 years from the date of such record.
- b) The permittee shall retain a copy of the following records for the duration of the PAL effective period plus five years:
  - (1) a copy of the PAL permit application and any applications for revisions to the PAL; and
  - (2) each annual certification of compliance pursuant to Title V and the data relied on in certifying compliance.
- c) The permittee shall monitor all emissions units at the combined facility-wide, (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133) for VOC, PM<sub>2.5</sub>, PM<sub>10</sub>, NO<sub>x</sub>, CO, SO<sub>2</sub>, and GHG in accordance with OAC rule 3745-31-32(A)(11) (mass balance, CEMS, CPMS, PEMS, and/or emission factors).
- d) Natural gas usage for process and building heat shall be monitored using the billing meters associated with the facility (Premise numbers 0180010193, 0180010197, 0180010199, 0180010413, 0546000117, and 0546000133). By using the billing meters, the permittee will have collected natural gas usage for significant and insignificant emission units located at the facility. Monthly VOC, PM<sub>2.5</sub>, PM<sub>10</sub>, PM, NO<sub>x</sub>, CO, SO<sub>2</sub>, and GHG emissions shall be calculated from the monthly usage records and the applicable AP-42 emission factors. These

emissions shall be included in the compliance demonstrations for each applicable Plantwide Applicability Limit specified in section B.3 of this permit. The permittee shall have the option to subtract natural gas usage associated with mobile sources from the billing records provided adequate records are maintained to substantiate the deduction.

#### **4. PAL Reporting Requirements**

a) The permittee shall submit semi-annual monitoring reports and prompt deviation reports to the Ohio EPA Central District Office and/or Southwest District Office based on the appropriate office and premise number of the emissions units' locations in accordance with the appropriate and applicable Title V operating permit program. The reports shall meet the following requirements [OAC rule 3745-31-32(A)(13)]:

(1) Semi-annual report:

The semi-annual report shall be submitted to the appropriate District Office within thirty days of the end of each reporting period. This report shall contain the following information:

- a. The identification of owner and operator, the facility ID, and the permit-to-install numbers for any applicable permit-to-install.
- b. Total annual emissions (tons per year) based on a twelve-month rolling total for each month in the reporting period recorded pursuant to B.4.a)(2) of these terms and conditions.
- c. All data relied upon, including, but not limited to, any quality assurance or quality control data, in calculating the monthly and annual PAL pollutant emissions. It is acceptable for this data to be maintained at the facility and made available to the Ohio EPA upon request.
- d. A list of any emissions units modified or added to the major stationary source during the preceding six-month period.
- e. The number, duration, and cause of any deviations or monitoring malfunctions (other than the time associated with zero and span calibration checks), and any corrective action taken.
- f. A notification of a shutdown of any monitoring system, whether the shutdown was permanent or temporary, the reason for the shutdown, the anticipated date that the monitoring system will be fully operational or replaced with another monitoring system, and whether the emissions unit monitored by the monitoring system continued to operate, and the calculation of the emissions of any pollutant or the number determined by method included in the PAL permit (OAC rule 3745-31-32(A)(11)(g)).
- g. A signed statement by the responsible official (as defined by the Title V operating permit program contained in Chapter 3745-77 of the Ohio Administrative Code) certifying the truth, accuracy, and completeness of the information provided in the report.

(2) Deviation report:

The major stationary source owner or operator shall promptly submit reports of any deviations or exceedance of the PAL requirements, including periods where no monitoring is available. A report submitted pursuant to paragraph (A)(3)(c)(iii) of OAC rule 3745-77-07 and/or Standard Terms and Conditions items A.4.c)(1) through A.4.c)(4) of this permit shall satisfy this reporting requirement. The deviation reports shall be submitted within the time limits prescribed by OAC rule 3745-77-07 and/or Standard Terms and Conditions items A.4.c)(1) through A.4.c)(4) of this permit. The reports shall contain the following information:

- a. the identification of owner and operator, the facility ID, and the permit-to-install numbers for any applicable permit-to-install;
- b. the PAL requirement that experienced the deviation or that was exceeded;
- c. emissions resulting from the deviation or the exceedance; and
- d. a signed statement by the responsible official (as defined by the Title V operating permit program contained in Chapter 3745-77 of the Ohio Administrative Code) certifying the truth, accuracy, and completeness of the information provided in the report.

(3) Re-validation results:

The owner or operator shall submit to the appropriate Ohio EPA District Office the results of any re-validation test or method within three months after completion of such test or method.

**5. PAL Compliance Demonstration**

- a) Emission calculations to demonstrate compliance with the PAL include VOC, NO<sub>x</sub>, CO, SO<sub>2</sub>, GHG, PM, PM<sub>10</sub>, and PM<sub>2.5</sub> emissions from startups, shutdowns, and malfunctions.
- b) The permittee shall determine monthly VOC, NO<sub>x</sub>, CO, SO<sub>2</sub>, GHG, PM, PM<sub>10</sub>, and PM<sub>2.5</sub> emissions in accordance with the Monitoring and Record Keeping Requirements for each emissions unit for the purpose of summing plant-wide VOC, NO<sub>x</sub>, CO, SO<sub>2</sub>, PM, PM<sub>10</sub>, and PM<sub>2.5</sub> emissions and determining the rolling, 12-month VOC, NO<sub>x</sub>, CO, SO<sub>2</sub>, GHG, PM, PM<sub>10</sub>, and PM<sub>2.5</sub> emissions.

**6. PAL Permit Requirements**

- a) The PAL in section B shall be effective for ten years. The PAL term commences on the date of issuance of this permit.
- b) If the permittee chooses to renew this PAL, the permittee shall submit a complete application between six and eighteen months prior to the expiration of the PAL. This PAL shall not expire until a revised PAL permit is issued if a complete application is received by appropriate District Office within the time frame specified. (OAC rule 3745-31-32(A)(9)(b))

- (1) If the permittee fails to meet the application requirements in section B or the PAL expires, the facility is subject to the requirements of OAC rule 3745-31-32(A)(8).
- (2) This permit authorizes projects involving the installation of new emissions units and modification of existing emissions units that do not require an increase in emissions limitations provided that the new emissions unit or modification of any existing emissions unit(s) will not cause the violation of any applicable air requirement.
- (3) A demonstration that the new or modified emissions unit meets these criteria shall be kept on site for the life of the new or modified emissions unit and made available to the Ohio EPA upon request. The permittee must notify the appropriate Ohio EPA District office of the installation of the new emissions unit or modification of an existing emissions unit 30 days before the installation or modification of the emissions unit.

## **7. Revisions to Best Available Technology (BAT) Limits During a Modification under the PAL**

### **a) Background**

Under OAC rule 3745-31-05, all new or modified air contaminant sources, with the exception of sources subject to exemptions and permits-by-rule as defined in OAC rule 3745-31-03, must employ Best Available Technology (BAT) as defined in OAC rule 3745-31-01. BAT requirements have been defined for each air contaminant source contained in this permit.

Under ORC 3704.03(F)(2), no installation permit is required to be obtained for activities that occur under the Plant-wide Applicability Limit (PAL) permit if the activities are subject to and in compliance with any applicable PAL and subject to and in compliance with any applicable PAL rules contained in OAC Chapter 3745-31.

Under these provisions, a permit-to-install or permit-to-install and operate is not required to be obtained when an emissions unit covered by the PAL is installed or modified. However, PAL permit emissions units that are installed or modified during the life of the PAL permit must continue to (for an existing source) or begin to (for a new source) employ BAT where applicable.

### **b) New or Modified Emissions Unit BAT Requirements**

Prior to installation or modification of an emissions unit covered under the PAL permit, the owner or operator shall evaluate applicability, and, if applicable, determine BAT. This evaluation and determination shall follow applicable Ohio EPA air quality rules, guidelines, and policies associated with BAT determinations. The determination of BAT shall include the following steps, as appropriate:

- (1) Determination of the size and type of emissions unit that will be considered a "substantially similar source" for the BAT determination purposes.
- (2) Researching emissions limits or work practices for known similar sources. At a minimum, the research should include reviewing the Ohio EPA BAT database, U.S. EPA's BACT/RACT/LAER database, reviewing applicable state regulation limits (excluding severe non-attainment area regulations), and permits from other similar sources. Only "substantially similar sources" that have been demonstrated to operate

satisfactorily in Ohio or other states with similar air quality should be included in this research.

- (3) Completing a cost-effectiveness analysis following Ohio EPA, Division of Air Pollution Control Engineering Guide #46 for any pollutant where the uncontrolled potential-to-emit is greater than 70 tons per year. The uncontrolled potential-to-emit should take into account any federally enforceable limitations or physical limitations on the potential-to-emit.
  - (4) A determination of emission rate units to be used for the BAT determination. The units should be consistent with the units utilized in similar Ohio EPA issued emissions unit permits.
  - (5) A determination of the monitoring, record keeping, and reporting requirements for the BAT determination. The monitoring, record keeping, and reporting requirements shall be consistent with the monitoring, record keeping, and reporting requirements already established as part of the PAL permit.
  - (6) A determination of the compliance method to be used for the BAT determination. The compliance method shall be consistent with the compliance method utilized in the PAL permit for similar emissions units or in similar emissions unit permits issued by Ohio EPA.
  - (7) An evaluation of the above information and a determination concerning the selected BAT.
- c) The results of the BAT determination shall include, at a minimum, the following:
- (1) a description of the type of emissions unit evaluated;
  - (2) the numerical BAT value selected;
  - (3) the emission rate unit selected;
  - (4) a description of any associated control equipment selected as BAT;
  - (5) a description of any federally enforceable restrictions requested to be used; and
  - (6) a description of any work practices, raw material specifications, throughput limitations, and source design characteristics to be used.
- The owner or operator may consult with Ohio EPA for assistance in determining an acceptable BAT determination.
- d) Once the new or modified source is installed and operating, the owner or operator shall comply with the BAT determination selected utilizing the compliance determination selected. In addition, the owner or operator shall follow any monitoring, record keeping, and reporting selected to support the BAT determination.

- e) The BAT determination selected by the owner or operator, and its associated monitoring, record keeping, reporting, and compliance determination methods shall be effective until the director issues a revised permit containing a reevaluation and redetermination of BAT.
- f) Should OAC rule 3745-31-05 (or other applicable Ohio regulations) be amended to exclude sources subject to a plant-wide applicability limit from the requirement to be subject to BAT requirements, the requirements outlined in B.7.b) through B.7.e), and the following paragraph, shall be considered void and no longer required for changes made in compliance with the requirements of the PAL permit.

**8. New or Modified Emissions Unit BAT Reporting**

Under OAC paragraph 3745-31-32(A)(13)(a)(iv), the owner or operator of the PAL permit shall submit a list of any emissions units modified or added to the major stationary source during the preceding six-month reporting period. In addition to the information required to be submitted under OAC paragraph 3745-31-32(A)(13)(a) for the required semi-annual report, the owner or operator of the PAL permit shall include a report describing the work that was done to determine BAT for a new or modified source. This report shall include, at a minimum, the background information collected for the BAT determination and the information described in B.7.

- 9. The terms and conditions contained in this permit shall supercede the terms and conditions for premise 0546000133 in Permit to Install (PTI) P0103649 issued 07/15/2008, for emissions units F602.
- 10. In accordance with the 40 CFR Part 63, Subpart ZZZZ final MACT rule for "Stationary Reciprocating Internal Combustion Engines," emissions units B601, B602, B603, B604, and B605 are considered "existing limited use stationary reciprocating internal combustion engines" and therefore are not required to meet the requirements of the subpart and of 40 CFR 63, Subpart A. They are considered "limited use" because they are operated less than 100 hours per year.

If the permittee elects to operate B601, B602, B603, B604, and/or B605 as a new affected source other than a limited use RICE then all of the requirements of 40 CFR 63, Subpart A and 40 CFR Part 63, Subpart ZZZZ shall apply to the emissions unit(s).

**Final Permit-to-Install**  
Midwest Express Inc.  
**Permit Number:** P0113357  
**Facility ID:** 0546000133  
**Effective Date:** 3/28/2014

## **C. Emissions Unit Terms and Conditions**

**1. F601, MEI: Paved Roadways and Parking Areas**

**Operations, Property and/or Equipment Description:**

Roadways and Parking Areas associated with the Midwest Express facilities.

a) The following emissions unit terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only.

(1) None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operations(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3)	There shall be no visible PE from any paved roadway or parking area, except for a period of time not to exceed 1 minute during any 60-minute observation period.  Employ best available control measures that are sufficient to minimize or eliminate visible emissions of fugitive dust.
b.	OAC rules 3745-17-07(B) and 3745-17-08(B)	See Section b)(2), below.
c.	OAC rule 3745-31-32(A)(6)	The Plant-wide Applicability Limitation (PAL) for facility-wide PM, PM10, and PM2.5 emissions applies to this emissions unit. The PAL for PM, PM10, and PM2.5 is listed in the facility-wide terms and conditions in B.1. The record keeping requirements in section d) contribute to the calculation of the total PM, PM10, and PM2.5 emissions from this facility as specified in B.2.

(2) Additional Terms and Conditions

a. The paved roadways and parking areas that are covered by this permit and subject to the above-mentioned requirements are listed below:

- ID 1 Main access road
- ID 2 Clark entrance and associate parking

- b. The permittee shall employ best available control measures on all paved roadways and parking areas for the purpose of ensuring compliance with the above-mentioned applicable requirements. The permittee shall employ vacuum assisted sweeping for the paved roadways and parking areas at sufficient frequencies to ensure compliance. Nothing in this paragraph shall prohibit the permittee from employing other control measures to ensure compliance.
- c. The needed frequencies of implementation of the control measures shall be determined by the permittee's inspections pursuant to the monitoring section of this permit. Implementation of the control measures shall not be necessary for a paved roadway or parking area that is covered with snow and/or ice or if precipitation has occurred that is sufficient for that day to ensure compliance with the above-mentioned applicable requirements. Implementation of any control measure may be suspended if unsafe or hazardous driving conditions would be created by its use.
- d. The permittee shall promptly remove, in such a manner as to minimize or prevent resuspension, earth and/or other material from paved streets onto which such material has been deposited by trucking or earth moving equipment or erosion by water or other means.

- e. The permittee shall require that operators of open-bodied vehicles transporting materials likely to become airborne to keep such materials covered if the control measure is necessary for the materials being transported.
  - f. Implementation of the above-mentioned control measures in accordance with the terms and conditions of this permit is appropriate and sufficient to satisfy the best available technology requirements of OAC rule 3745-31-05.
  - g. This emissions unit is not located in an "Appendix A" area as indicated in OAC rule 3745-17-08. Therefore, the emissions unit is not subject to the RACM requirements established in OAC rule 3745-17-08(B) and the visible emission limitations specified in OAC rule 3745-17-07(B).
  - h. Should OAC rule 3745-31-05 (or other applicable Ohio regulations) be amended to exclude sources subject to a plant-wide applicability limit from the requirement to be subject to BAT requirements, the following requirements shall be considered void:
    - i. Section b)(1)a.;
    - ii. Section b)(2)a. thru f.; and
    - iii. Section d)(1) thru (4).
- c) Operational Restrictions
- (1) None.
- d) Monitoring and/or Recordkeeping Requirements
- (1) Except as otherwise specified in this section, the permittee shall perform weekly inspections of the paved roadways and parking areas, as identified in b)(2).

After the permittee has performed weekly inspections of the paved roadways and parking areas for one calendar quarter and no visible particulate emissions of fugitive dust have been observed, the permittee may begin inspections of the paved roadways and parking areas once per month. If visible particulate emissions of fugitive dust are observed during subsequent monthly inspections, the permittee shall return to an inspection frequency of once per week until no visible particulate emissions of fugitive dust are observed for another calendar quarter. All inspections shall be performed during representative, normal traffic conditions as stated in d).
  - (2) The purpose of the inspections is to determine the need for implementing the above-mentioned control measures. The inspections shall be performed during representative, normal traffic conditions. No inspection shall be necessary for a roadway or parking area that is covered with snow and/or ice or if precipitation has occurred that is sufficient for that day to ensure compliance with the above-mentioned applicable requirements. Any required inspection that is not performed due to any of the above-identified events shall be performed as soon as such event(s) has (have) ended, except if the next required inspection is within one week.

- (3) The permittee may, upon receipt of written approval from Ohio EPA Southwest District Office, modify the above-mentioned inspection frequencies if operating experience indicates that less frequent inspections would be sufficient to ensure compliance with the above-mentioned applicable requirements.
- (4) The permittee shall maintain records of the following information:
  - a. the date and reason any required inspection was not performed, including those inspections that were not performed due to snow and/or ice cover or precipitation;
  - b. the date of each inspection where it was determined by the permittee that it was necessary to implement the control measures;
  - c. the dates the control measures were implemented; and
  - d. on a calendar quarter basis, the total number of days the control measures were implemented and the total number of days where snow and/or ice cover or precipitation were sufficient to not require the control measures.

The information required in d)(4)d shall be updated on a calendar quarter basis within 30 days after the end of each calendar quarter.

- (5) Reconfiguration of the roadways and parkways areas and variations in traffic patterns at this facility may not be a modification under OAC rule 3745-31-01 as long as emissions are equal to or less than the established PTI limitations. If the change is determined to be a modification then the permittee must apply for and obtain a permit to install prior to the installation of the change.
- e) Reporting Requirements
- (1) The permittee shall submit quarterly deviation reports that identify any of the following occurrences:
    - a. each instance when an inspection was not performed by the required frequency, excluding an inspection which was not performed due to an exemption for snow and/or ice cover or precipitation; and
    - b. each instance when a control measure, that was to be implemented as a result of an inspection, was not implemented.
  - (2) The deviation reports shall be submitted in accordance with the reporting requirements of the Standard Terms and Conditions of this permit.
- f) Testing Requirements
- (1) Compliance with the emissions limitations in Term b)(1) shall be determined in accordance with the following methods:

a. Emission Limitation:

There shall be no visible PE from any paved roadway or parking area, except for a period of time not to exceed 1 minute during any 60-minute observation period.

Applicable Compliance Method:

If required, compliance with the visible PE limitation listed above shall be determined in accordance with Test Method 22 as set forth in "Appendix on Test Methods" in 40 CFR, Part 60 ("Standards of Performance for New Stationary Sources").

g) Miscellaneous Requirements

(1) None.

**2. F602, Gravel parking area**

**Operations, Property and/or Equipment Description:**

Unpaved Trailer parking area

a) The following emissions unit terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only.

(1) None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operation(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures are identified below. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3)	There shall be no visible PE from any unpaved roadway or parking area, except for a period of time not to exceed 3 minutes during any 60-minute period.
b.	OAC rule 3745-17-07(B)(5) (applicable only if this emissions unit is located in an area identified in Appendix A of OAC rule 3745-17-08)	See section b)(2), below
c.	OAC rule 3745-17-08(B) (applicable only if this emissions unit is located in an area identified in Appendix A of OAC rule 3745-17-08)	See sections b)(2)a. through b)(2)f., below.
d.	OAC rule 3745-31-32(A)(6)	The Plant-wide Applicability Limitation (PAL) for facility-wide PM, PM10, and PM2.5 emissions applies to this emissions unit. The PAL for PM, PM10, and PM2.5 is listed in the facility-wide terms and conditions in B.1. The record keeping requirements in section d) contribute to the calculation of the total PM, PM10, and PM2.5 emissions from this facility as specified in B.2.

(2) Additional Terms and Conditions

a. The permittee shall employ best available control measures on all unpaved roadways and parking areas for the purpose of ensuring compliance with the above-mentioned applicable requirements. In accordance with the

permittee's application, the permittee has committed to treat the unpaved roadways and parking areas by application of chemical stabilization/dust suppressants and/or watering at sufficient treatment frequencies to ensure compliance. Nothing in this paragraph shall prohibit the permittee from employing other control measures to ensure compliance.

- b. The needed frequencies of implementation of the control measures shall be determined by the permittee's inspections pursuant to the monitoring section of this permit. Implementation of the control measures shall not be necessary for unpaved roadways and parking areas that are covered with snow and/or ice or if precipitation has occurred that is sufficient for that day to ensure compliance with the above-mentioned applicable requirements. Implementation of any control measure may be suspended if unsafe or hazardous driving conditions would be created by its use.
- c. The permittee shall promptly remove, in such a manner as to minimize or prevent resuspension, earth and/or other material from paved streets onto which such material has been deposited by trucking or earth moving equipment or erosion by water or other means.
- d. Any unpaved roadway or parking area that is subsequently paved, will require a General Permit for paved roadways and parking areas.
- e. Open-bodied vehicles transporting materials likely to become airborne shall have such materials covered at all times if the control measure is necessary for the materials being transported.
- f. Implementation of the above-mentioned control measures in accordance with the terms and conditions of this permit is appropriate and sufficient to satisfy the best available technology requirements of OAC rule 3745-31-05.
- g. Should OAC rule 3745-31-05 (or other applicable Ohio regulations) be amended to exclude sources subject to a plant-wide applicability limit from the requirement to be subject to BAT requirements, the following requirements shall be considered void:

- i. Section b)(1)a.

- c) Operational Restrictions

- (1) None.

- d) Monitoring and/or Recordkeeping Requirements

- (1) Except as otherwise provided in this section, the permittee shall perform inspections of each of the roadway segments and parking areas in accordance with the following frequencies:

<u>unpaved roadways and parking areas</u>	<u>minimum inspection frequency</u>
all roads and parking areas	daily

- (2) The purpose of the inspections is to determine the need for implementing the above-mentioned control measures. The inspections shall be performed during representative, normal traffic conditions. No inspection shall be necessary for a roadway or parking area that is covered with snow and/or ice or if precipitation has occurred that is sufficient for that day to ensure compliance with the above-mentioned applicable requirements. Any required inspection that is not performed due to any of the above-identified events shall be performed as soon as such event(s) has (have) ended, except if the next required inspection is within one week.
  - (3) The permittee shall maintain records of the following information:
    - a. the date and reason any required inspection was not performed, including those inspections that were not performed due to snow and/or ice cover or precipitation;
    - b. the date of each inspection where it was determined by the permittee that it was necessary to implement the control measures;
    - c. the dates the control measures were implemented; and
    - d. on a calendar quarter basis, the total number of days the control measures were implemented and the total number of days where snow and/or ice cover or precipitation were sufficient to not require the control measures.
  - (4) The information required in Term d)(3)d. shall be updated on a calendar quarter basis within 30 days after the end of each calendar quarter
- e) Reporting Requirements
- (1) The permittee shall submit deviation reports that identify any of the following occurrences:
    - a. each day during which an inspection was not performed by the required frequency, excluding an inspection which was not performed due to an exemption for snow and/or ice cover or precipitation; and
    - b. each instance when a control measure, that was to be implemented as a result of an inspection, was not implemented.

The deviation reports shall be submitted in accordance with the reporting requirements of the Standard Terms and Conditions of this permit.
- f) Testing Requirements
- (1) Compliance with the emission limitations in Term b)(1) shall be determined in accordance with the following methods:
    - a. Emission Limitation:

No visible PE from unpaved roadways and parking areas except for a period of time not to exceed 3 minutes during any 60-minute observation period.

**Final Permit-to-Install**  
Midwest Express Inc.  
**Permit Number:** P0113357  
**Facility ID:** 0546000133  
**Effective Date:** 3/28/2014

Applicable Compliance Method:

If required, compliance with the visible PE limitation listed above shall be determined in accordance with Test Method 22 as set forth in "Appendix on Test Methods" in 40 CFR, Part 60 ("Standards of Performance for New Stationary Sources").

- g) Miscellaneous Requirements
  - (1) None.
