**RE: FINAL PERMIT TO INSTALL  
CUYAHOGA COUNTY**

**CERTIFIED MAIL**

Street Address:

50 West Town Street, Suite 700

Lazarus Gov. Center TELE: (614) 644-3020 FAX: (614) 644-2329

Mailing Address:

Lazarus Gov. Center  
P.O. Box 1049

**Application No: 13-04722**

**Fac ID: 1318544510**

**DATE: 11/1/2007**

Glastic Corporation Cleveland Facility  
Robyn Kral  
4321 Glenridge Rd.  
Cleveland, OH 44121-2891

Enclosed please find an Ohio EPA Permit to Install which will allow you to install the described source(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions, I urge you to read it carefully.

The Ohio EPA is urging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Pollution Prevention at (614) 644-3469.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
309 South Fourth Street, Room 222  
Columbus, OH 43215

Sincerely,

Michael W. Ahern, Manager  
Permit Issuance and Data Management Section  
Division of Air Pollution Control

**Permit To Install  
Terms and Conditions**

**Issue Date: 11/1/2007  
Effective Date: 11/1/2007**

---

**FINAL PERMIT TO INSTALL 13-04722**

Application Number: 13-04722  
Facility ID: 1318544510  
Permit Fee: **\$500**  
Name of Facility: Glastic Corporation Cleveland Facility  
Person to Contact: Robyn Kral  
Address: 4321 Glenridge Rd.  
Cleveland, OH 44121-2891

Location of proposed air contaminant source(s) [emissions unit(s)]:  
**4321 Glenridge Rd.  
Cleveland, Ohio**

Description of proposed emissions unit(s):  
**Pultrusion line no. 39 -- P064.**

The above named entity is hereby granted a Permit to Install for the above described emissions unit(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

---

Chris Korleski  
Director

## Part I - GENERAL TERMS AND CONDITIONS

### A. State and Federally Enforceable Permit-To-Install General Terms and Conditions

#### 1. Monitoring and Related Recordkeeping and Reporting Requirements

- a. Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall maintain records that include the following, where applicable, for any required monitoring under this permit:
  - i. The date, place (as defined in the permit), and time of sampling or measurements.
  - ii. The date(s) analyses were performed.
  - iii. The company or entity that performed the analyses.
  - iv. The analytical techniques or methods used.
  - v. The results of such analyses.
  - vi. The operating conditions existing at the time of sampling or measurement.
- b. Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.
- c. Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall submit required reports in the following manner:
  - i. Reports of any required monitoring and/or recordkeeping of federally enforceable information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
  - ii. Quarterly written reports of (i) any deviations from federally enforceable emission limitations, operational restrictions, and control device operating parameter limitations, excluding deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06, that have been detected by the testing, monitoring and recordkeeping requirements specified in this permit, (ii) the probable cause of such deviations, and (iii) any corrective actions or preventive measures taken, shall be made to

the appropriate Ohio EPA District Office or local air agency. The written reports shall be submitted (i.e., postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. See B.9 below if no deviations occurred during the quarter.

- iii. Written reports, which identify any deviations from the federally enforceable monitoring, recordkeeping, and reporting requirements contained in this permit shall be submitted (i.e., postmarked) to the appropriate Ohio EPA District Office or local air agency every six months, by January 31 and July 31 of each year for the previous six calendar months. If no deviations occurred during a six-month period, the permittee shall submit a semi-annual report, which states that no deviations occurred during that period.
  - iv. If this permit is for an emissions unit located at a Title V facility, then each written report shall be signed by a responsible official certifying that, based on information and belief formed after reasonable inquiry, the statements and information in the report are true, accurate, and complete.
- d. The permittee shall report actual emissions pursuant to OAC Chapter 3745-78 for the purpose of collecting Air Pollution Control Fees.

## **2. Scheduled Maintenance/Malfunction Reporting**

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction, i.e., upset, of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. (The definition of an upset condition shall be the same as that used in OAC rule 3745-15-06(B)(1) for a malfunction.) The verbal and written reports shall be submitted pursuant to OAC rule 3745-15-06.

Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emission unit(s) that is (are) served by such control system(s).

## **3. Risk Management Plans**

If the permittee is required to develop and register a risk management plan pursuant to section 112(r) of the Clean Air Act, as amended, 42 U.S.C. 7401 et seq. ("Act"), the permittee shall comply with the requirement to register such a plan.

**4. Title IV Provisions**

If the permittee is subject to the requirements of 40 CFR Part 72 concerning acid rain, the permittee shall ensure that any affected emissions unit complies with those requirements. Emissions exceeding any allowances that are lawfully held under Title IV of the Act, or any regulations adopted thereunder, are prohibited.

**5. Severability Clause**

A determination that any term or condition of this permit is invalid shall not invalidate the force or effect of any other term or condition thereof, except to the extent that any other term or condition depends in whole or in part for its operation or implementation upon the term or condition declared invalid.

**6. General Requirements**

- a. The permittee must comply with all terms and conditions of this permit. Any noncompliance with the federally enforceable terms and conditions of this permit constitutes a violation of the Act, and is grounds for enforcement action or for permit revocation, revocation and re-issuance, or modification
- b. It shall not be a defense for the permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the federally enforceable terms and conditions of this permit.
- c. This permit may be modified, revoked, or revoked and reissued, for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or revocation, or of a notification of planned changes or anticipated noncompliance does not stay any term and condition of this permit.
- d. This permit does not convey any property rights of any sort, or any exclusive privilege.
- e. The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying or revoking this permit or to determine compliance with this permit. Upon request, the permittee shall also furnish to the Director or an authorized representative of the Director, copies of records required to be kept by this permit. For information claimed to be confidential in the submittal to the Director, if the Administrator of the U.S. EPA requests such information, the permittee may furnish such records directly to the Administrator along with a claim of confidentiality.

**Glastic Corporation Cleveland Facility**  
**PTI Application: 13-04722**  
**Issued: 11/1/2007**

**Facility ID: 1318544510**

## **7. Fees**

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable permit-to-install fees within 30 days after the issuance of any permit-to-install. The permittee shall pay all applicable permit-to-operate fees within thirty days of the issuance of the invoice.

## **8. Federal and State Enforceability**

Only those terms and conditions designated in this permit as federally enforceable, that are required under the Act, or any its applicable requirements, including relevant provisions designed to limit the potential to emit of a source, are enforceable by the Administrator of the U.S. EPA and the State and by citizens (to the extent allowed by section 304 of the Act) under the Act. All other terms and conditions of this permit shall not be federally enforceable and shall be enforceable under State law only.

## **9. Compliance Requirements**

- a. Any document (including reports) required to be submitted and required by a federally applicable requirement in this permit shall include a certification by a responsible official that, based on information and belief formed after reasonable inquiry, the statements in the document are true, accurate, and complete.
- b. Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the Director of the Ohio EPA or an authorized representative of the Director to:
  - i. At reasonable times, enter upon the permittee's premises where a source is located or the emissions-related activity is conducted, or where records must be kept under the conditions of this permit.
  - ii. Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit, subject to the protection from disclosure to the public of confidential information consistent with ORC section 3704.08.
  - iii. Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under this permit.

- iv. As authorized by the Act, sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit and applicable requirements.
- c. The permittee shall submit progress reports to the appropriate Ohio EPA District Office or local air agency concerning any schedule of compliance for meeting an applicable requirement. Progress reports shall be submitted semiannually, or more frequently if specified in the applicable requirement or by the Director of the Ohio EPA. Progress reports shall contain the following:
  - i. Dates for achieving the activities, milestones, or compliance required in any schedule of compliance, and dates when such activities, milestones, or compliance were achieved.
  - ii. An explanation of why any dates in any schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

#### **10. Permit-To-Operate Application**

- a. If the permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77, the permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d).
- b. If the permittee is required to apply for permit(s) pursuant to OAC Chapter 3745-35, the source(s) identified in this permit is (are) permitted to operate for a period of up to one year from the date the source(s) commenced operation. Permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within ninety (90) days after commencing operation of the source(s) covered by this permit.

#### **11. Best Available Technology**

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

**Glastic Corporation Cleveland Facility**  
**PTI Application: 13-04722**  
**Issued: 11/1/2007**

**Facility ID: 1318544510**

**12. Air Pollution Nuisance**

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

**Glastic Corporation Cleveland Facility**  
**PTI Application: 13-04722**  
**Issued: 11/1/2007**

**Facility ID: 1318544510**

### **13. Permit-To-Install**

A permit-to-install must be obtained pursuant to OAC Chapter 3745-31 prior to "installation" of "any air contaminant source" as defined in OAC rule 3745-31-01, or "modification", as defined in OAC rule 3745-31-01, of any emissions unit included in this permit.

## **B. State Only Enforceable Permit-To-Install General Terms and Conditions**

### **1. Compliance Requirements**

The emissions unit(s) identified in this Permit shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

### **2. Reporting Requirements**

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or recordkeeping of state-only enforceable information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from state-only required emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted (i.e., postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

### **3. Permit Transfers**

Any transferee of this permit shall assume the responsibilities of the prior permit holder.

**Glastic Corporation Cleveland Facility**  
**PTI Application: 13-04722**  
**Issued: 11/1/2007**

**Facility ID: 1318544510**

The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

**Glastic Corporation Cleveland Facility**  
**PTI Application: 13-04722**  
**Issued: 11/1/2007**

**Facility ID: 1318544510**

**4. Authorization To Install or Modify**

If applicable, authorization to install or modify any new or existing emissions unit included in this permit shall terminate within eighteen months of the effective date of the permit if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

**5. Construction of New Sources(s)**

This permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. This permit does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the application and terms and conditions of this permit. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of this permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Issuance of this permit is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.

**6. Public Disclosure**

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

**7. Applicability**

This Permit to Install is applicable only to the emissions unit(s) identified in the Permit To Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s).

**8. Construction Compliance Certification**

**Glastic Corporation Cleveland Facility**  
**PTI Application: 13-04722**  
**Issued: 11/1/2007**

**Facility ID: 1318544510**

If applicable, the applicant shall provide Ohio EPA with a written certification (see enclosed form if applicable) that the facility has been constructed in accordance with the permit-to-install application and the terms and conditions of the permit-to-install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

**9. Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations (See Section A of This Permit)**

If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly (i.e., postmarked), by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters.

**C. Permit-To-Install Summary of Allowable Emissions**

SUMMARY (for informational purposes only)  
TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS

| <u>Pollutant</u> | <u>Tons Per Year</u> |
|------------------|----------------------|
| OC               | 9.86                 |
| PE               | 2.1                  |

**Glastic Corporation Cleveland Facility**  
**PTI Application: 13-04722**  
**Issued: 11/1/2007**

**Facility ID: 1318544510**

## **Part II - FACILITY SPECIFIC TERMS AND CONDITIONS**

### **A. State and Federally Enforceable Permit To Install Facility Specific Terms and Conditions**

#### **A. State and Federally Enforceable Permit To Install Facility Specific Terms and Conditions**

1. The permittee is subject to the National Emission Standards for Hazardous Air Pollutants (NESHAP): Reinforced Plastic Composites Production, 40 CFR Part 63 Subpart WWWW. The NESHAP rule became effective on April 21, 2003.
2.
  - a. The permittee shall submit each report in Table 14 to 40 CFR Part 63 Subpart WWWW, Reinforced Plastic Composites Production, that applies to the permittee:
  - b. Unless the Director has approved a different schedule for submission of reports under § 63.10(a) of 40 CFR Part 63 Subpart A, the permittee shall submit each report by the date specified in Table 14 to 40 CFR Part 63 Subpart WWWW, Reinforced Plastic Composites Production.
  - c. The first compliance report must cover the period beginning on the compliance date that is specified for your affected source in § 63.5800 of 40 CFR Part 63 Subpart WWWW, Reinforced Plastic Composites Production, and ending on June 30 or December 31, whichever date is the first date following the end of the first calendar half after the compliance date that is specified for your source in § 63.5800.
  - d. The first compliance report must be postmarked or delivered no later than July 31 or January 31, whichever date follows the end of the first calendar half after the compliance date that is specified for your affected source in § 63.5800.
  - e. Each subsequent compliance report must cover the semiannual reporting period from January 1 through June 30 or the semiannual reporting period from July 1 through December 31.
  - f. Each subsequent compliance report must be postmarked or delivered no later than July 31 or January 31, whichever date is the first date following the end of the semiannual reporting period.

**Glastic Corporation Cleveland Facility**  
**PTI Application: 13-04722**  
**Issued: 11/1/2007**

**Facility ID: 1318544510**

occurrence, measurement, maintenance, corrective action, report, or record.

- g. The permittee shall keep each record onsite for at least 2 years after the date of each occurrence, measurement, maintenance, corrective action, report, or record. The permittee can keep the records offsite for the remaining 3 years.
  - h. The permittee shall keep records in hard copy or computer readable form including, but not limited to, paper, microfilm, computer floppy disk, magnetic tape, or microfiche.
6. MACT requirements have been established in the permittee's Title V permit and the same terms and conditions apply to P065.

**B. State Only Enforceable Permit To Install Facility Specific Terms and Conditions**

None

**Part III - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)**

**A. State and Federally Enforceable Section**

**I. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

**Operations, Property, and/or Equipment - (P065) - Pultrusion Line - Wet out bath and cutting saw for plastic molding**

| Applicable Rules/Requirements                          | Applicable Emissions Limitations/Control Measures  |
|--|--|
| OAC rule 3745-31-05(C)                                 | 2.56 tons of OC emissions/yr, from all cleanup material employed for emissions units P023, P026, P027, P028, P029, P030, P032, P033, P034, P035, P036, P037, P038, P039, P040 and P065 combined (fugitive emissions).  |
| OAC rule 3745-21-07(G)(2)                              | 8.0 lbs of organic compound (OC) emissions/hr, from the pultrusion line (fugitive emissions).<br>40 lbs of OC emissions/day, from the pultrusion line (fugitive emissions).  |
| OAC rule 3745-17-07(A)(1)                              | Visible PE from this emissions unit shall not exceed 20% opacity, as a 6-minute average, from any stack, except as provided by rule.   |
| OAC rule 3745-17-11(B)<br>40 CFR Part 63, Subpart WWWW | 2.91 lbs of particulate emissions (PE)/hr (stack emissions).<br>The permittee shall comply with the applicable requirements of 40 CFR Part 63, Subpart WWWW (National Emission Standards for Hazardous Air Pollutants: Reinforced Plastic Composites Production) as specified in Part II.A. above. |
| ORC 3704.03 (T)(4)                                     | See A.2.c. and A.2.d.  |

**2. Additional Terms and Conditions**

- 2.a The PE from emission units P028, P033, P034, P035, P036 and P065 are vented to dust collector #7.
- 2.b The OC emission factors used to calculate the OC emissions were established by the permittee. Should more accurate emission factors be developed in the future, the permittee shall use them, provided the emission factors are mutually agreeable between the Ohio EPA, through the Cleveland DAQ, and Glastic Corporation South Euclid Facility.
- 2.c Permit to Install 13-04722 for this air contaminant takes into account the

Emissions Unit ID: P065

following voluntary restrictions (including the use of any applicable air pollution control equipment) as proposed by the permittee for the purpose of avoiding Best Available Technology (BAT) requirements for particulate emissions under OAC rule 3745-31-05(A)(3):

- i. Use of baghouse by pultrusion line #39 (P065).

- 2.d** Permit to Install 13-04722 for this air contaminant takes into account the following voluntary restrictions (including the use of any applicable air pollution control equipment) as proposed by the permittee for the purpose of avoiding Best Available Technology (BAT) requirements for organic compound emissions under OAC rule 3745-31-05(A)(3):

- i. Adherence to work practice standards and engineering controls specified in 40 CFR 63, Subpart WWWW.

## II. Operational Restrictions

None

## III. Monitoring and/or Record Keeping Requirements

1. The permittee shall maintain and record the following information for each day when this emissions unit is in operation:
  - a. the name of each type of pultrusion part;
  - b. the emission factor for each type of pultrusion part, in lbs of OC emissions/square foot of wet area/hr;
  - c. the styrene emission factor for each type of pultrusion part, in lbs of styrene emissions/square foot of wet area/hr;
  - d. the wet area for each type of pultrusion part, in square feet;
  - e. the OC emissions for each type of pultrusion part, in lbs [(b) x (d)];
  - f. the styrene emissions for each type of pultrusion part, in lbs [(c) x (d)];
  - g. the total OC emissions from all pultrusion parts, in lbs [summation of (e) for all pultrusion parts made];
  - h. the total styrene emissions from all pultrusion parts, in lbs [summation of (f) for all pultrusion parts made];
  - i. the total number of hours this emissions unit was in operation; and

Emissions Unit ID: P065

- j. the average hourly OC emission rate, in lbs/hr (g/i) ; and
  - k. the average hourly styrene emission rate, in lbs/hr (h/i).
2. The permittee shall maintain monthly records of the following information for emissions units P023, P026, P027, P028, P029, P030, P032, P033, P034, P035, P036, P037, P038, P039, P040 and P065 combined:
    - a. the volume of each cleanup material dispensed, in gallons;
    - b. the volume of each cleanup material returned, in gallons;
    - c. the volume of each evaporated cleanup material, in gallons. This shall be calculated by subtracting the volume of each returned cleanup material from the volume of each dispensed cleanup material [(a) - (b)];
    - d. the OC content of each cleanup material employed, in lbs/gallon; and
    - e. the OC emissions from all cleanup materials employed, in lbs [the summation of (c) x (d) for all cleanup material employed].
  3. The permittee shall maintain annual records of the total OC emissions from all cleanup material employed for the calendar year, in tons [summation of A.III.2.e for all months of the calendar year and divided by 2,000 lbs/ton].
  4. The permittee shall perform weekly checks, when the emissions unit is in operation and when the weather conditions allow, for any visible PE from the stack serving this emissions unit. The presence or absence of any visible emissions shall be noted in an operations log. If visible emissions are observed, the permittee shall also note the following in the operations log:
    - a. the color of the emissions;
    - b. whether the emissions are representative of normal operations;
    - c. if the emissions are not representative of normal operations, the cause of the abnormal emissions;
    - d. the total duration of any visible emission incident; and
    - e. any corrective actions taken to eliminate the visible emissions.

If the weekly checks show visible emissions that are representative of normal operation for 12 consecutive operating weeks, the required frequency of visible emissions checks may be reduced to monthly. If a subsequent check indicates abnormal visible emissions, the frequency of emissions checks shall revert to weekly until such time there are 12 consecutive operating weeks of normal visible emissions.

#### IV. Reporting Requirements

**Issued: 11/1/2007**

1. The permittee shall submit quarterly deviation (excursion) reports that include an identification of each day during which the hourly and/or daily OC emission limitations for this emissions unit were exceeded, and what the hourly and daily OC emissions were for each such day.
2. The quarterly deviation (excursion) reports shall be submitted in accordance with paragraph A.1.c.ii of the General Terms and Conditions of this permit.
3. The permittee shall submit semiannual written reports that (a) identify all days during which any visible PE were observed from the stack serving this emissions unit and (b) describe any corrective actions taken to eliminate the visible particulate emissions. These reports shall be submitted to the Cleveland DAQ by January 31 and July 31 of each year and shall cover the previous 6-month period.
4. The permittee shall submit annual reports to the Cleveland Division of Air Quality that specify the total OC emissions (i.e., from all the pultrusion parts made by this emissions unit and from cleanup material employed from all pultrusion lines) for the previous calendar year, in tons. The reports shall be submitted by April 15 of each year. This reporting requirement may be satisfied by including and identifying the specific emission data for this emissions unit in the annual Fee Emission Reports.

**V. Testing Requirements**

1. Compliance with the emissions limitations specified in Section A.I.1 shall be determined in accordance with the following methods:
  - 1.a Emission Limitation: 8.0 lbs of OC emissions/hr, from the pultrusion line (fugitive emissions).

Applicable Compliance Method: Compliance with the OC emission limitation shall be determined by the record keeping requirements specified in Section A.III.1.
  - 1.b Emission Limitation: 40 lbs of OC emissions/day, from the pultrusion line (fugitive emissions).

Applicable Compliance Method: Compliance with the daily OC emission limitation shall be determined by the record keeping requirements specified by in Section A.III.1.
  - 1.c Emission Limitation: 2.56 tons of OC emissions/yr, from all cleanup material employed

Emissions Unit ID: P065

for emissions units P023, P026, P027, P028, P029, P030, P032, P033, P034, P035, P036, P037, P038, P039, P040 and P065 combined (fugitive emissions).

Applicable Compliance Method: Compliance with the annual OC emission limitation shall be determined by the record keeping requirements specified in Section A.III.3.

- 1.d Emission Limitation: Visible PE shall not exceed 20% opacity, as a 6-minute average, from any stack.

Applicable Compliance Method: If required, compliance shall be determined through visible emissions observations performed in accordance with 40 CFR Part 60, Appendix A, Method 9.

- 1.e Emission Limitation: 2.91 lbs of particulate emissions (PE)/hr, from emission unit P065 (stack emissions).

Applicable Compliance Method: The hourly PE emission rate from the baghouse stack was determined by the following methodology:

$HER = (DCFR) \times (AV) \times (DCEF) \times (TI) \times (CONV) = 0.475 \text{ lb PE/hr}$  (combined for emission units P028, P033, P034, P035, P036 and P065.)

HER = hourly emission rate (0.475 lb of PE/hr);  
 DCFR = dust collector flow rate (4,584 dscf/min);  
 AV = the air variability factor (121%);  
 DCEF = dust collector efficiency (0.01 grain/dscf);  
 TI = time (60 minutes/hr); and  
 CONV = conversion factor 1 lb/7,000 grains).

If required, the permittee shall demonstrate compliance with the hourly PE limitation through emission tests performed in accordance with 40 CFR Part 60, Appendix A, Methods 1-5, as appropriate.

## VI. Miscellaneous Requirements

1. Potential to emit calculations:

### particulate emissions

Controlled outlet emission rate from baghouse:

$4,584 \text{ dscf/min} \times 1.21 \times 0.01 \text{ gr/dscf} \times 60 \text{ mins/hr} \times \text{lb}/7000 \text{ gr} = 0.475 \text{ lb PE/hr}$ ; and

$0.475 \text{ lb PE/hr} \times (8,760 \text{ hrs/year}) \times (\text{ton}/2000 \text{ lbs}) = 2.1 \text{ TPY of PE.}$

### organic compounds

**Issued: 11/1/2007**

Allowable from OAC rule 3745-21-07(G)(2) is 40 lbs OC/day:

40 lbs OC/day x 365 days/yr x ton/2000 lbs = 7.3 TPY of OC.

Issued: 11/1/2007

**B. State Only Enforceable Section**

**I. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

**Operations, Property, and/or Equipment - (P065) - Pultrusion Line - Wet out bath and cutting saw for plastic molding**

| Applicable Rules/Requirements | Applicable Emissions Limitations/Control Measures |
|-------------------------------|---|
| None                          | None  |
