

Facility ID: 0855140494 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 0855140494 Emissions Unit ID: D001 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Dry-to-Dry cleaning machine using petroleum solvent (Exxon DF2000)	OAC 3745-31-05 See Section F.3 OAC 3745-21-09(BB)(3) See Section F.3	0.5 TPY Volatile Organic Compounds; 150 gallons/yr petroleum solvent (Exxon DF2000) usage See section F.1

2. **Additional Terms and Conditions**
 - (a) None

B. Operational Restrictions

1. Any bucket or barrel which contains petroleum solvent-laden waste shall be covered to minimize evaporation.

C. Monitoring and/or Record Keeping Requirements

1. The following records shall be kept on site in a log for a period of not less than 3 years, and shall be made available upon request:
 - a. Receipts of all petroleum solvent purchases.
 - b. The volume of petroleum solvent purchased each month as recorded from petroleum solvent purchases. If no petroleum solvent is purchased during a given month, then the entry in to the log shall be zero gallons.
 - c. The amount of petroleum solvent employed for each month, in gallons.
 - d. The amount of petroleum solvent in the distillation bottoms sent out by the facility during that month, in gallons.
 - e. The total petroleum solvent emission rate or consumption for that month, i.e., c minus d.
 - f. The results of all visual inspections, including the dates when the dry cleaning system components are inspected for leaks and the name or location of dry cleaning system components where leaks are detected.
 - g. The dates of repair and records of written or verbal orders for repair parts.
2. Any equipment associated with the use of petroleum solvent shall be visually inspected weekly to identify any liquid leaks of petroleum solvent.
3. Any liquid or vapor leak of petroleum solvent shall be repaired within fifteen days after identifying the source of the leak, unless a necessary repair part is not on hand. If a repair part is not on hand, it shall be ordered within three working days after identifying the source of the leak. The leak shall be repaired within fifteen days following the delivery of the necessary repair part.

D. Reporting Requirements

1. The facility shall submit the annual petroleum solvent consumption report by February 15 of each year to the Director (appropriate District Office or local air agency).
2. Should the annual consumption of petroleum solvent exceed 4700 gallons, Leiss Laundry & Dry Cleaners shall submit a revised application for an Ohio EPA Permit to Operate and shall demonstrate compliance with OAC 3745-21-09 (BB)(1) and (2).

E. Testing Requirements

1. Compliance with the emission limitations(s) in Section A.1 of these terms and conditions shall be determined in accordance with the following method(s):
Emission Limitation-
0.5 TPY VOC

Applicable Compliance Method-
Compliance shall be based upon a 12 month summation for that calendar year of the recordkeeping requirements specified in Section C.1. and multiplying by the VOC content of the petroleum solvent (6.37 lbs VOC/gal) and divided by 2000 pounds.
Emission Limitation-
150 gallons/year petroleum solvent (Exxon DF2000) usage

Applicable Compliance Method-
Compliance shall be based upon a 12 month summation of recordkeeping requirements specified in Section C.1.

F. Miscellaneous Requirements

1. Should the annual consumption of petroleum exceed 4700 gallons or the total capacity of all the petroleum solvent dryers becomes greater than eighty-three pounds of articles, dry basis; the permittee shall submit a revised Permit to Install application and shall demonstrate compliance with OAC 3745-21-09(BB)(1) & (2). In addition, the permittee shall notify the Director (appropriate District Office or local air agency) within thirty (30) days of becoming aware of the occurrence.
2. The permittee is hereby notified that this permit, and all agency records concerning this operation of this permitted emissions unit are subject to public disclosure in accordance with OAC rule 3745-49-03.
3. The following terms and conditions shall supersede all the air pollution control requirements for this emissions unit contained in PTI 08-3740, as issued on January 21, 1998: A, B, C, D, and E.
