P.O. Box 1049

Application No: 14-05687

Fac ID: 1409030956

DATE: 3/24/2005

Color Resolutions International LLC
Bryan Wisecup
630 Glendale-Milford Road
Cincinnati, OH 45215

Enclosed please find an Ohio EPA Permit to Install which will allow you to install the described source(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions, I urge you to read it carefully.

The Ohio EPA is urging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Pollution Prevention at (614) 644-3469.

You are hereby notified that this action by the Director is final and may be appealed to the Ohio Environmental Review Appeals Commission pursuant to Chapter 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed within thirty (30) days after the notice of the Directors action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency within three (3) days of filing with the Commission. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
309 South Fourth Street, Room 222
Columbus, Ohio 43215

Sincerely,

Michael W. Ahern, Manager
Permit Issuance and Data Management Section
Division of Air Pollution Control

**Permit To Install
Terms and Conditions**

**Issue Date: 3/24/2005
Effective Date: 3/24/2005**

FINAL PERMIT TO INSTALL 14-05687

Application Number: 14-05687
Facility ID: 1409030956
Permit Fee: **\$200**
Name of Facility: Color Resolutions International LLC
Person to Contact: Bryan Wisecup
Address: 630 Glendale-Milford Road
Cincinnati, OH 45215

Location of proposed air contaminant source(s) [emissions unit(s)]:
**575 Quality Boulevard
Fairfield, Ohio**

Description of proposed emissions unit(s):
900 Gallon Poly Premix Tank and High Speed Dispersion Agitator.

The above named entity is hereby granted a Permit to Install for the above described emissions unit(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

Part I - GENERAL TERMS AND CONDITIONS

A. Permit to Install General Terms and Conditions

1. Compliance Requirements

The emissions unit(s) identified in this Permit to Install shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

2. Reporting Requirements

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or recordkeeping information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

3. Records Retention Requirements

Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.

4. Inspections and Information Requests

The Director of the Ohio EPA, or an authorized representative of the Director, may, subject to the safety requirements of the permittee and without undue delay, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State air pollution laws and regulations and the terms and conditions of this permit. The permittee shall furnish to the Director of the Ohio EPA, or an authorized

representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying, reopening or revoking this permit or to determine compliance with this permit. Upon verbal or written request, the permittee shall also furnish to the Director of the Ohio EPA, or an authorized representative of the Director, copies of records required to be kept by this permit.

5. Scheduled Maintenance/Malfunction Reporting

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emissions unit(s) that is (are) served by such control system(s).

6. Permit Transfers

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

7. Air Pollution Nuisance

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

8. Termination of Permit to Install

This Permit to Install shall terminate within eighteen months of the effective date of the Permit to Install if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

9. Construction of New Sources(s)

The proposed emissions unit(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions

and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources cannot meet the requirements of this permit or cannot meet applicable standards.

If the construction of the proposed emissions unit(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.

10. Public Disclosure

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

11. Applicability

This Permit To Install is applicable only to the emissions unit(s) identified in the Permit To Install. Separate Permit To Install for the installation or modification of any other emissions unit(s) are required for any emissions unit for which a Permit To Install is required.

12. Best Available Technology

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

13. Source Operation and Operating Permit Requirements After Completion of Construction

This facility is permitted to operate each source described by this Permit to Install for a period of up to one year from the date the source commenced operation. This permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within ninety (90) days after commencing operation of the emissions unit(s) covered by this permit.

Color Resolutions International LLC

Facility ID: 1409030956

PTI Application: 14-05687

Issued: 3/24/2005

14. Construction Compliance Certification

The applicant shall provide Ohio EPA with a written certification (see enclosed form) that the facility has been constructed in accordance with the Permit to Install application and the terms and conditions of the Permit to Install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

15. Fees

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable Permit to Install fees within 30 days after the issuance of this Permit to Install.

B. Permit to Install Summary of Allowable Emissions

The following information summarizes the total allowable emissions, by pollutant, based on the individual allowable emissions of each air contaminant source identified in this permit.

SUMMARY (for informational purposes only)
TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS

<u>Pollutant</u>	<u>Tons Per Year</u>
OC	1.80
PM/PM10	0.01

PART II - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
P040 - Poly Premix Tank T-145	OAC rule 3745-31-05(A)(3)	Organic compound (OC) emissions shall not exceed 0.9 pound per hour and 21.6 pounds per day.
		Particulate emissions (PE) shall not exceed 0.01 pound per hour and 0.01 ton per year.
		Particulate matter 10 microns and less (PM10) shall not exceed 0.01 pound per hour and 0.01 ton per year.
		The requirements of this rule also include compliance with the requirements of OAC rule 3745-31-05(C) and OAC rule 3745-17-07(A)(1).
	OAC rule 3745-31-05(C)	See terms A.2.b, A.2.e. and B.1.
	OAC rule 3745-21-07(G)(2)	See term A.2.c
	OAC rule 3745-17-07(A)(1)	Exempt
	OAC rule 3745-17-11	See term A.2.a.
		The emission limitation specified by

this rule is less stringent than the emission limitation established pursuant to OAC rule 3745-31-05(A)(3).

2. Additional Terms and Conditions

- 2.a** Visible particulate emissions from any stack shall not exceed 20 percent opacity, as a six-minute average, except as specified by rule.
- 2.b** The maximum OC content for the inks produced in this emissions unit shall not exceed 20 percent by weight.
- 2.c** The actual emissions of Hazardous Air Pollutants (HAPs) as identified in Section 112(b) of Title III of the Clean Air Act from this facility shall not exceed 9.9 TPY for any single HAP and 24.9 TPY for any combination of HAPs. Compliance with the above limitations shall be based on a rolling, 12-month summation.
- 2.d** The hourly and daily emission limitations for OC and the hourly emission limitations for PM-PM10 outlined above are based on the emissions unit's potential to emit (PTE). Therefore, no records are required to demonstrate compliance with these limits.
- 2.e** The annual organic compounds (OC) emissions from emissions unit P040 shall not exceed 1.80 TPY.
- 2.f** Compliance with OAC rule 3745-31-05(A)(3) shall be demonstrated by the mass and visible emissions limitations, process throughput limitation and the use of a scrubber with an overall PE control efficiency of 98 percent.

B. Operational Restrictions

- 1. The maximum annual ink production rate for emissions unit P040 shall not exceed 1,200,000 pounds.

C. Monitoring and/or Recordkeeping Requirements

- 1. The permittee shall collect and record the following information each month for emissions unit P040:
 - a. The name and identification of each batch of ink produced.

- b. The OC content for each ink produced, in percent by weight.
 - c. The amount of each ink produced, in pounds.
 - d. The OC emissions from each ink produced, in pounds or tons, calculated by multiplying the pounds of ink produced by an emission factor of 0.003 lb OC/pound of ink produced (AP-42 Table 6.4-1; 5/83).
2. The permittee shall collect and record the following information each month for the entire facility:
- a. The name and identification number of each ink produced;
 - b. The individual HAP content for each HAP of each ink in pounds of individual HAP per pound of ink, as produced;
 - c. The total combined HAP content of each ink in pounds of combined HAPs per pound of ink, as produced [sum all the individual HAP contents from (b)];
 - d. The number of pounds of each ink produced;
 - e. The name and identification of each cleanup material employed;
 - f. The individual HAP content for each HAP of each cleanup material, in pounds of individual HAP per pound of cleanup material, as applied;
 - g. The total combined HAP content of each cleanup material, in pounds of combined HAPs per pound of cleanup material, as applied [sum all the individual HAP contents from (f)];
 - h. The number of pounds of each cleanup material employed;
 - i. The total individual HAP emissions for each HAP from all inks produced and cleanup materials employed, in pounds or tons per month [for each HAP the sum of (b) times (d) times the emissions factor in C.1.d. for each ink plus the sum of (f) times (h) times (1 - the solvent recovery rate) for each cleanup material];
 - j. The total combined HAP emissions from all inks produced and cleanup materials employed, in pounds or tons per month [the sum of (c) times (d) times the emissions factor in C.1.d. for each ink plus the sum of (g) times (h) times (1 - the solvent recovery

rate) for each cleanup material];

- k. The updated rolling, 12-month summation of the individual HAP emissions, in pounds or tons. This shall include the information for the current month and the preceding eleven calendar months. For the first twelve months following the issuance of the permit, this shall be a cumulative total for all months since the issuance of the PTI; and
- l. The updated rolling, 12-month summation of the combined HAP emissions, in pounds or tons. This shall include the information for the current month and the preceding eleven calendar months. For the first twelve months following the issuance of the permit, this shall be a cumulative total for all months since the issuance of the PTI.

* A listing of the HAPs can be found in Section 112(b) of the Clean Air Act or can be obtained by contacting your Hamilton County Department of Environmental Services contact. This information does not have to be kept on a individual emissions unit basis.

D. Reporting Requirements

1. The permittee shall notify the Hamilton County Department of Environmental Services of any exceedance of the HAP emission limitations set forth in term A.2.c. The permittee shall submit annual reports which identify all exceedances of these limitations, as well as the corrective actions that were taken to achieve compliance. These reports shall be submitted by January 31 of each year. If no exceedances occurred during the reporting period then a report is required stating so.
2. The permittee shall submit an annual report to the Hamilton County Department of Environmental Services which specifies the annual ink production in pounds from emissions unit P040 for each calendar year. These reports shall be submitted by January 31 of each year.
3. The permittee shall submit deviation reports which identify all exceedances of the OC content limitations in term A.2.b and the OC emissions limitations in term A.2.e.
4. The deviation reports shall be submitted in accordance with the reporting requirements of the General Terms and Conditions of this permit.

E. Testing Requirements

1. Compliance with the emissions limitations in Section A.1. of these terms and conditions shall be determined in accordance with the following method(s):
 - a. Emissions Limitation

Visible particulate emissions from this emissions unit shall not exceed twenty per cent opacity as a six-minute average, except as specified by rule

Applicable Compliance Method

Compliance shall be determined in accordance with Test Method 9 as set forth in "Appendix on Test Methods" in 40 CFR, Part 60 ("Standards of Performance for New Stationary Sources"), as such Appendix existed on July 1, 2002.

b. Emissions Limitations

0.01 lb/hr PE; 0.01 lb/hr PM10

Applicable Compliance Method

Compliance shall be demonstrated by multiplying the maximum hourly tons of pigments (non-volatiles/solids) employed by an emission factor of 2 pounds PM-PM10/ton pigment (AP-42 Table 6.7-1; 5/83) and by a scrubber control efficiency of (1 - 0.98), as provided in Permit to Install application 14-05687 as received on February 23, 2005. PM10 emissions are assumed to be equivalent to the PE emission rate.

c. Emissions Limitations

0.01 TPY PE; 0.01 TPY PM10

Applicable Compliance Method

Compliance shall be demonstrated by multiplying the limited maximum annual tons of pigments (non-volatiles/solids) employed by an emission factor of 2 pounds PM-PM10/ton pigment (AP-42 Table 6.7-1; 5/83) and by a scrubber control efficiency of (1 - 0.98), as provided in Permit to Install application 14-05687 as received on February 23, 2005. PM10 emissions are assumed to be equivalent to the PE emission rate.

d. Emissions Limitations

0.9 lb/hour OC; 21.6 lb/day OC and 1.80 TPY OC

Applicable Compliance Method

Compliance shall be demonstrated by multiplying an emission factor of 0.3 pound OC/100

Color Resolutions International LLC**PTI Application: 14-05687****Issued****Facility ID: 1409030956**Emissions Unit ID: **P040**

pounds of product (AP-42 Table 6.4-1; 5/83) and by the amount of ink produced, as provided in Permit to Install application 14-05687 as received on February 23, 2005.

2. Compliance with the percent by weight (OC content) limitation in term and condition A.2.b shall be demonstrated by the recordkeeping in term and condition C.1.
3. Compliance with the production limitation in term and condition B.1 shall be demonstrated by the recordkeeping in term and condition C.1.
4. Compliance with the HAPs limitations in term A.2.c. shall be determined by the record keeping requirements as specified in term C.2.

F. Miscellaneous Requirements

1. Modeling to demonstrate compliance with the Ohio EPA's "Air Toxic Policy" was not necessary because the emissions unit's maximum annual emissions for each toxic compound will be less than 1.0 ton. OAC Chapter 3745-31 requires permittees to apply for and obtain a new or modified permit to install prior to making a "modification" as defined by OAC rule 3745-31-01. The permittee is hereby advised that changes in the composition of the materials, or use of new materials, that would cause the emissions of any pollutant that has a listed TLV to increase to above 1.0 ton per year may require the permittee to apply for and obtain a new permit to install.
