

Facility ID: 0857041498 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION\*\*\*

Facility ID: 0857041498 Emissions Unit ID: D001 Issuance type: Final State Permit To Operate

**Part II - Special Terms and Conditions**

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
  - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
  - (a) None.

**A. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Petroleum Reclaimer, Washer and Dryer	OAC rules 3745-21-09(BB)(1)(a) & (b) OAC rule 3745-21-09(BB)(2) OAC rules 3745-21-09(BB)(1)(c), (d), & (e)	Exempt, pursuant to OAC rule 3745-21-09(BB)(3) [see B.4]. See B.1, B.2, and B.3 below.

2. **Additional Terms and Conditions**
  - (a) None

**B. Operational Restrictions**

1. The permittee shall cover any bucket or barrel which contains petroleum solvent or petroleum solvent-laden waste to minimize solvent evaporation.
2. The permittee shall visually inspect, on a weekly basis, any equipment associated with the use of petroleum solvent to identify any liquid leaks of petroleum solvent.
3. Any liquid or vapor leak of petroleum solvent shall be repaired within fifteen days after identifying the source of the leak, unless a necessary repair part is not on hand. If a repair part is not on hand, it shall be ordered within three working days after identifying the source of the leak. The leak shall be repaired within fifteen days following the delivery of the necessary repair part.
4. The total annual consumption of petroleum solvent in this emissions unit shall not exceed 4,700 gallons.

**C. Monitoring and/or Record Keeping Requirements**

1. The permittee shall maintain monthly records of the following information for this emissions unit:
  - a. the amount of petroleum solvent consumed, in gallons; and
  - b. the year-to-date amount of petroleum solvent consumed, in gallons.
2. The permittee shall collect and record the results of any leak checks, including, at a minimum, the following information:
  - a. the date of inspection;
  - b. the findings (may indicate no leaks discovered or location, nature, and severity of each leak);
  - c. the leak determination method;
  - d. the corrective action taken (date each leak repaired and reasons for any repair interval in excess of fifteen calendar days); and
  - e. the inspector's name and signature.

**D. Reporting Requirements**

1. The permittee shall report any leaks in vapor or liquid lines that are not repaired within fifteen days after identification to the Director [the Regional Air Pollution Control Agency (RAPCA)] within 30 days after the repair

is completed.

2. The permittee shall submit annual reports that summarize the actual annual petroleum solvent usage, in gallons. The reports shall be submitted by January 31 of each year and shall cover the previous calendar year.

**E. Testing Requirements**

1. Compliance with the Operational Restriction in Section B.4. of these terms and conditions shall be determined in accordance with the following methods:

Operational Restriction -  
4700 gallons/year petroleum solvent

Applicable Compliance Method -  
Compliance with the annual operational restriction above shall be demonstrate based on the record keeping requirements established in section C of this permit.

**F. Miscellaneous Requirements**

1. None
