

Facility ID: 0857081971 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Four Color Koppers Letterpress	OAC rule 3745-21-09(Y)(2)(b)	See A.2.a

2. Additional Terms and Conditions

- (a) The requirements of OAC 3745-21-09(Y)(1) shall not apply to any printing line which is located at a facility in which the total maximum usage of coatings and inks in all flexographic, packaging rotogravure and publication rotogravure printing lines is less than or equal to one hundred forty-eight tons per year.

B. Operational Restrictions

1. The maximum usage of coating and inks in all flexographic, packaging rotogravure and publication rotogravure printing lines shall not exceed one hundred forty-eight tons per year.

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall collect and record the following information each month for all flexographic, packaging rotogravure and publication rotogravure printing lines located at this facility:
 - (a) The name and identification of each coating and ink employed.
 - (b) The total weight per gallon of each coating and ink employed, in pounds.
 - (c) The number of gallons of coating and ink employed.
 - (d) The total coating and ink usage, in tons, i.e., the total summation of (b) X (c) for each coating and ink divided by 2000 lbs/ton.

D. Reporting Requirements

1. The permittee shall submit annual reports which specify the total tons of coating and ink used as this facility for the previous calendar year. These reports shall be submitted by January 31 of each year.

E. Testing Requirements

1. Emission Limitation-
The maximum usage of coating and inks in all flexographic, packaging rotogravure and publication rotogravure printing lines shall not exceed one hundred forty-eight tons per year.

Applicable Compliance Method-
Compliance shall be determined by the record keeping specified in Section C.1.

F. Miscellaneous Requirements

1. None
