**RE: FINAL PERMIT TO INSTALL
HAMILTON COUNTY
Application No: 14-04752**

CERTIFIED MAIL

DATE: March 29, 2000

Barrett Paving Materials, Inc.
Forrest Cash
7374 Main Street
Cincinnati, OH 45244

Enclosed please find an Ohio EPA Permit to Install which will allow you to install the described source(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions, I urge you to read it carefully.

The Ohio EPA is urging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Pollution Prevention at (614) 644-3469.

You are hereby notified that this action by the Director is final and may be appealed to the Ohio Environmental Review Appeals Commission pursuant to Chapter 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed within thirty (30) days after the notice of the Director's action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency within three (3) days of filing with the Commission. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
236 East Town Street, Room 300
Columbus, Ohio 43215

Very truly yours,

Thomas G. Rigo, Manager
Field Operations and Permit Section
Division of Air Pollution Control

cc: USEPA
HAMILTON COUNTY DEPT. OF ENV SERVICES

**Permit To Install
Terms and
Conditions**

**Issue Date: March 29, 2000
Effective Date: March 29, 2000**

FINAL PERMIT TO INSTALL 14-04752

Application Number: 14-04752
APS Premise Number: 1431081271
Permit Fee: **\$1000**
Name of Facility: Barrett Paving Materials, Inc.
Person to Contact: Forrest Cash
Address: 7374 Main Street
Cincinnati, OH 45244

Location of proposed air contaminant source(s) [emissions unit(s)]:
**9550 Valley Junction Road
Cleveland, Ohio**

Description of proposed emissions unit(s):
270 TON/HOUR ASPHALT CONCRETE BATCH PLANT WITH FABRIC FILTER.

The above named entity is hereby granted a Permit to Install for the above described emissions unit(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable. This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

Part I - GENERAL TERMS AND CONDITIONS**A. Permit to Install General Terms and Conditions****1. Compliance Requirements**

The emissions unit(s) identified in this Permit to Install shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

2. Reporting Requirements Related to Monitoring and Recordkeeping Requirements

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or recordkeeping information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

3. Records Retention Requirements

Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.

4. Inspections and Information Requests

The Director of the Ohio EPA, or an authorized representative of the Director, may, subject to the safety requirements of the permittee and without undue delay, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State air pollution laws and regulations and the terms and conditions of this permit. The permittee shall furnish to the Director of the Ohio EPA, or an authorized

representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying, reopening or revoking this permit or to determine compliance with this permit. Upon verbal or written request, the permittee shall also furnish to the Director of the Ohio EPA, or an authorized representative of the Director, copies of records required to be kept by this permit.

5. Scheduled Maintenance/Malfunction Reporting

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emissions unit(s) that is (are) served by such control system(s).

6. Permit Transfers

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

7. Air Pollution Nuisance

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

8. Termination of Permit to Install

This Permit to Install shall terminate within eighteen months of the effective date of the Permit to Install if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

9. Construction of New Sources(s)

The proposed emissions unit(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio

Environmental Protection Agency if the proposed sources are inadequate or cannot meet applicable standards.

If the construction of the proposed emissions unit(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities prove to be inadequate or cannot meet applicable standards.

10. Public Disclosure

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

11. Applicability

This Permit to Install is applicable only to the emissions unit(s) identified in the Permit to Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s).

12. Best Available Technology

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

13. Source Operation and Operating Permit Requirements After Completion of Construction

This facility is permitted to operate each source described by this Permit to Install for a period of up to one year from the date the source commenced operation. This permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within thirty (30) days after commencing operation of the emissions unit(s) covered by this permit.

14. Construction Compliance Certification

Barrett Paving Materials, Inc.

PTI Application: **14-04752**

Date: March 29, 2000

Facility ID: **1431081271**

The applicant shall provide Ohio EPA with a written certification (see enclosed form) that the facility has been constructed in accordance with the Permit to Install application and the terms and conditions of the Permit to Install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

15. Fees

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable Permit to Install fees within 30 days after the issuance of this Permit to Install.

B. Permit to Install Summary of Allowable Emissions

The following information summarizes the total allowable emissions, by pollutant, based on the individual allowable emissions of each air contaminant source identified in this permit.

**SUMMARY (for informational purposes only)
TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS**

<u>Pollutant</u>	<u>Tons Per Year</u>
PM	28.6
PM ₁₀	11.7
SO ₂	35.63
NO _x	49.7
VOC	32.2
CO	99.5

Barrett Paving Materials, Inc.

PTI Application: 14-04752

Date:

Emissions Unit ID: P901

PART II - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)

A. Applicable Emissions Limitations and/or Control Requirements

- 1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

Operations, Property,
and/or Equipment

Applicable Rules/Requirements

Asphalt Concrete Plant -Rotary
dryer, hot aggregate elevator,
vibrating screen, and weigh hopper

OAC rule 3745-31-05(A)(3)

Aggregate storage bins, scalping
screen, and cold aggregate conveyor

40 CFR Part 60 Subpart I

OAC rule 3745-31-05(D)

OAC rule 3745-17-07(A)

Barre1

PTI A1

Date: March 29, 2000

Emissions Unit ID: P901

	Applicable Emissions Limitations/Control Measures	See term A.2.c
OAC rule 3745-17-11	PM: 19.9 lbs/hr, PM10: 7.96 lbs/hr, SO2: 32.9 lbs/hr, NOx: 45.9 lbs/hr, VOC: 30.0 lbs/hr, 32.2 TPY* CO: 91.8 lbs/hr, Arsenic: 0.023 lb/hr, 0.026 TPY* Cadmium: 0.01 lb/hr, 0.01 TPY* Chromium: 0.05 lb/hr, 0.05 TPY* Lead: 0.5 lb/hr, 0.51 TPY* PCBs: 0.049 lb/hr, 0.05 TPY* Mercury: 0.005 lb/hr, 0.005 TPY* Total Halogens: 0.035 lbs/hr, 0.037 TPY*	See term A.2.d and A.2.e * TPY Emissions limitations shall be based on a rolling, 12-month summation.
OAC rule 3745-31-05(A)(3)	0.04 grain PM/dscf	
OAC rule 3745-17-07(B)	11.7 TPY* PM (stack) 4.68 TPY* PM10 (stack) 35.63 TPY* SO2 49.7 TPY* NOx 99.5 TPY* CO	
OAC rule 3745-17-08(B)	The visible emission limitation established in this rule is less stringent than that established in OAC rule 3745-31-05. The emission limitation established in this rule is less stringent than that established in OAC rule 3745-31-05.	
	Fugitive PM: 15.57 lbs/hr, 16.87 TPY* PM10: 6.48 lbs/hr, 7.02 TPY*	

2. Additional Terms and Conditions

2.a All recycled, used oil burned in this emissions unit shall meet the following specifications:

Contaminant/Property Allowable Specification**

arsenic	5 ppm, maximum
cadmium	2 ppm, maximum
chromium	10 ppm, maximum
lead	100 ppm, maximum
PCBs	50 ppm, maximum
total halogens	4000 ppm, maximum
mercury	1 ppm, maximum
flash point	100°F, minimum
heat content	135,000 Btu/gallon, minimum
sulfur content	0.4 percent

** Some or all of these used oil specifications exceed the Resource Conservation & Recovery Act Standards of 40 CFR part 266.40 and OAC rule 3745-279-11, thereby making the used oil off-specification.

Used oil containing more than 1000 ppm total halogens is presumed to be a hazardous waste under the rebuttable presumption provided under 40 CFR Part 266.40(c) and OAC rule 3745-279-10(B)(1). Therefore, the permittee may receive and burn used oil exceeding 1000 ppm of total halogens (but less than 4000 ppm, maximum) only if the supplier ["marketer" in 40 CFR Part 266.40(a)] has demonstrated to the Ohio EPA's Division of Solid and Hazardous Waste Management that the used oil does not contain any hazardous waste.

2.b Visible particulate emissions from any stack associated with P901 shall be less than or equal to 10% opacity, as a six-minute average, except as provided by rule.

Barrett Paving Materials, Inc.

PTI Application: 14-04752

Date:

Facility ID: 1431081271

Emissions Unit ID: P901

- 2.c Visible particulate emissions of fugitive dust from the aggregate storage bins, scalping screen and cold aggregate conveyor shall be less than or equal to 20% opacity, as a three-minute average.
- 2.d The drop height of the front end loader bucket shall be minimized to the extent possible in order to minimize or eliminate visible emissions of fugitive dust from the elevator loading area.
- 2.e The aggregate loaded into the storage bins shall have a moisture content sufficient to eliminate the visible emissions of fugitive dust from the elevator.
- 2.f The application and enforcement of the provisions of the New Source Performance Standards (NSPS), as promulgated by the United States Environmental Protection Agency, 40 CFR Part 60, are delegated to the Ohio Environmental Protection Agency. The requirements of 40 CFR Part 60 are also federally enforceable.
- 2.g The hourly emission limitations outlined in section A.1. are based upon the emissions unit's potential to emit. Therefore, no hourly records are required to demonstrate compliance with these limits.
- 2.h Compliance with OAC rule 3745-31-05(A)(3) shall be demonstrated by minimizing the drop height of the front end loader bucket, the use of a fabric filter, limited oil usage, visible emission limitations and production limits.

B. Operational Restrictions

1. To ensure the baghouse is operated according to the manufacturer's specifications and to maintain compliance with the allowable particulate emission rate, the pressure drop across the baghouse shall be maintained within the range of 3 to 5 inches of water while the emissions unit is in operation.
2. The maximum annual asphalt production rate for this emissions unit shall not exceed 585,000 tons per year based upon a rolling, 12-month summation of the production rates. To ensure enforceability during the first 12 calendar months of operation following the startup of the modified emissions unit, the permittee shall not exceed the production levels specified in the following table:

Barrett Paving Materials, Inc.

PTI Application: 14-04752

Date:

Facility ID: 1431081271

Emissions Unit ID: **P901**

<u>Month(s)</u>	<u>Maximum Allowable Cumulative Production (tons)</u>
1	48,750
1-2	97,500
1-3	146,250
1-4	195,000
1-5	243,750
1-6	292,500
1-7	341,250
1-8	390,000
1-9	438,750
1-10	487,500
1-11	536,250
1-12	585,000

After the first 12 calendar months of operation following the startup of this modified emissions unit, compliance with the annual production limitation shall be based upon a rolling, 12-month summation of the production rates.

- The maximum annual used oil usage rate for this emissions unit shall not exceed 1,244,630 gallons as a rolling, 12-month summation of the used oil usage rates. To ensure enforceability during the first 12 calendar months of operation following the startup of the modified emissions unit P901, the permittee shall not exceed the used oil usage specified in the following table:

<u>Month(s)</u>	<u>Maximum Allowable Cumulative Oil Usage (Gallons)</u>
1	103,720
1-2	207,440
1-3	311,160
1-4	414,880
1-5	518,600
1-6	622,320
1-7	726,040
1-8	829,760
1-9	933,480
1-10	1,037,200
1-11	1,140,920
1-12	1,244,630

After the first 12 calendar months of operation following the startup of the modified emissions unit P901, compliance with the annual used oil usage limitation shall be based upon a rolling, 12-month summation of the production rates.

C. Monitoring and/or Recordkeeping Requirements

1. The permittee shall receive a chemical analysis with each shipment of used oil from the supplier. The analysis shall identify the name and address of the supplier, the supplier's USEPA identification number, and the following information:
 - a. the date of shipment of delivery;
 - b. the quantity of used oil received;
 - c. the Btu Value, of the used oil in BTU/gallon;
 - d. the flash point, of the used oil in degrees Fahrenheit;
 - e. the arsenic content, in ppm;
 - f. the cadmium content, in ppm;
 - g. the chromium content, in ppm;
 - h. the lead content, in ppm;
 - i. the PCB content, in ppm;
 - j. the total halogen content, in ppm; and
 - k. the mercury content, in ppm.

Each analysis shall be kept in a readily accessible location for at least five years and shall be made available to the Director (the appropriate Ohio EPA District Office or local air agency) upon verbal or written request. The Director or any authorized representative of the Director may require or may conduct periodic, detailed chemical analyses through an independent laboratory of any used oil shipment received by this facility, of any used oil stored at this facility, or of any used oil sampled at the dryer.

2. The permittee shall properly install, operate, and maintain equipment to monitor the pressure drop across the baghouse while the emissions unit is in operation. The monitoring equipment shall be installed, calibrated, operated, and maintained in accordance with the manufacturer's recommendations, instructions, and operating manual(s). The permittee shall record the pressure drop across the baghouse on a once per shift basis.
3. The permittee shall maintain monthly records of the following information for emissions unit P901:
 - a. the monthly asphalt production, in tons;

Barrett Paving Materials, Inc.

PTI Application: 14-04752

Date:

Facility ID: 1431081271

Emissions Unit ID: P901

- b. the monthly used oil usage, in gallons;
- c. for the first 12 calendar months following the startup of the modified emissions unit P901, the cumulative asphalt production calculated by adding the current month's production to the production for each calendar month since the startup of this modified emissions unit;
- d. beginning after the first 12 calendar months following the startup of the modified emissions unit P901, the rolling, 12-month summation of production calculated by adding the current month's production to the production for the preceding 11 calendar months;
- e. for the first 12 calendar months following the startup of the modified emissions unit P901, the cumulative used oil usage calculated by adding the current month's used oil usage to the used oil usage for each month since the startup of the modified emissions unit P901; and
- f. beginning after the first 12 calendar months following the startup of the modified emissions unit P901, the rolling, 12-month summation of used oil usage calculated by adding the current month's used oil usage to the used oil usage for the preceding 11 calendar months.

D. Reporting Requirements

1. The permittee shall notify the USEPA and the Ohio EPA if any of the used oil exceeds the used oil specifications. An identification number from USEPA shall be obtained prior to the combustion of any used oil.

Before the permittee accepts the first shipment of any off-specification used oil from a marketer, the permittee must provide the marketer a one-time, written and signed notice certifying that:

- a. the company has notified USEPA of its used oil management activities and that the notice included the location and description of those activities; and
- b. the company will burn the used oil only in an industrial furnace or boiler identified in 40 CFR Part 266.41(b) and OAC rule 3745-279-61.

A copy of each certification notice that the permittee sends to a marketer must be kept on file for a minimum of five years from the date it last received off-specification used oil from that marketer.

2. The permittee shall submit deviation (excursion) reports which identify all periods of time during which the pressure drop across the baghouse did not comply with the allowable range specified in

- term B.1. The permittee shall include with the report the time, cause, and action taken to resolve the problem.
3. The permittee shall submit annual reports which specify the PM, NO_x, SO₂ and CO emissions for emissions unit P901 for the previous calendar year. These reports shall be submitted by January 31 of each year.
 4. The permittee shall submit deviation (excursion) reports that identify all exceedances of the rolling, 12-month asphalt production and used oil usage limitations and for the first twelve calendar months of operation after the modification, all exceedances of the maximum allowable cumulative asphalt production and used oil usage limitations.
 5. The deviation reports shall be submitted in accordance with the reporting requirements of the General Terms and Conditions of this permit.
 6. Pursuant to the NSPS, the source owner/operator is hereby advised of the requirement to report the following at the appropriate times:
 - a. construction date (no later than 30 days after such date);
 - b. anticipated start-up date (not more than 60 days or less than 30 days prior to such date);
 - c. actual start-up date (within 15 days after such date); and
 - d. date of performance testing (if required, at least 30 days prior to testing).

Reports are to be sent to:

Ohio Environmental Protection Agency
DAPC - Permit Management Unit
P.O. Box 163669
Columbus, OH 43216-3669

and

Department of Environmental Services
250 William Howard Taft Rd
Cincinnati, OH 45219

E. Testing Requirements

Barrett Paving Materials, Inc.

PTI Application: 14-04752

Date:

Facility ID: 1431081271

Emissions Unit ID: P901

1. Within 60 days after achieving the maximum production rate at which the emissions unit will be operated, but no later than 180 days after initial startup of the emissions unit, the permittee shall conduct, or have conducted, an emission test(s) for this emissions unit in order to demonstrate compliance with the allowable mass emissions rate(s) for particulate matter, organic compounds, nitrogen oxides and carbon monoxide. The particulate matter, organic compounds, nitrogen oxides and carbon monoxide test(s) shall be conducted in accordance with the test methods and procedures specified in Methods 5,7 10 and 25 of 40 CFR Part 60, Appendix A while the emissions unit is operating at or near maximum capacity. Alternative USEPA approved test methods may be used with prior approval from the Ohio EPA.

Not later than 30 days prior to the proposed test date(s), the permittee shall submit an "Intent to Test" notification. This notification shall describe in detail the proposed test methods and procedures, the emissions unit operating parameters, the time(s) and date(s) of the test(s), and the person(s) who will be conducting the test(s). Failure to submit such notification for review and approval prior to the test(s) may result in the Hamilton County Department of Environmental Services refusal to accept the results of the emissions test(s).

Personnel from the Hamilton County Department of Environmental Services shall be permitted to witness the test(s), examine the testing equipment, and acquire data and information necessary to ensure that the operation of the emissions unit and the testing procedures provide a valid characterization of the emissions from the emissions unit and/or the performance of the control equipment.

For the purpose of demonstrating initial compliance, opacity observations shall be conducted concurrently with the emissions test unless visibility or other conditions prevent the opacity observations from being conducted concurrently with the emissions test. In such a case, the permittee shall reschedule the opacity observations as soon after the emissions test as possible, but not later than 30 days thereafter, and shall advise the Administrator of the rescheduled date.

In these cases, the 30-day prior notification to the Administrator required by 40 CFR 60.7(a)(6) shall be waived. The rescheduled opacity observations shall be conducted (to the extent possible) under the same operating conditions that existed during the emissions test. The visible emissions observer shall determine whether visibility or other conditions prevent the opacity observations from being made concurrently with the initial performance test in accordance with procedures contained in Method 9, 40 CFR Part 60, Appendix B. Opacity readings of portions of plumes which contain condensed, uncombined water vapor shall not be used for purposes of determining compliance with opacity standards. The owner or operator of an affected facility shall make available, upon request by the Administrator, such records as may be necessary to determine the conditions under which the visual observations were made and shall provide evidence indicating proof of current visible observer emission certification.

Barrett Paving Materials, Inc.

PTI Application: **14-04752**

Date:

Facility ID: **1431081271**

Emissions Unit ID: **P901**

A comprehensive written report on the results of the emissions test(s) shall be signed by the person or persons responsible for the tests and submitted to the Hamilton County Department of Environmental Services within 30 days following completion of the test(s). The permittee may request additional time for the submittal of the written report, where warranted, with prior approval from the Hamilton County Department of Environmental Services.

2. Compliance with the emissions limits in term A.1. shall be demonstrated by the recordkeeping in term C.3. and the following emission factors:
 - a. when using natural gas, #2 fuel oil, or used oil, the emissions factors from AP-42 Tables 11.1-2 and 11.1-7(dated 1/95).
3. Compliance with the used oil specifications in term A.2 shall be demonstrated by the record keeping in term C.1.
4. Compliance with the annual asphalt production limitations in term B.2 shall be demonstrated by the record keeping in term C.3.
5. Compliance with the used oil usage limitation in term B.3 shall be demonstrated by the record keeping in term C.3.
6. Compliance with the visible emissions limitations in terms A.2.b and A.2.c shall be demonstrated by Method 9, 40 CFR Part 60, Appendix A.

F. Miscellaneous Requirements

None.
