Re: Coshocton Landfill, Inc.
Permit to Install: New
Facility
Appl. No.: 06-2076
Coshocton County

Air permit - REVISED

CERTIFIED MAIL

Coshocton Landfill, Inc.
Attn: Mr. Charles Ungurean
P.O. Box 427
Coshocton, Ohio 43812

Dear Mr. Ungurean:

The Ohio Environmental Protection Agency, pursuant to Ohio Revised Code Chapter 3734 and the rules adopted thereunder, has reviewed the application for a permit with accompanying detail plans, specifications and/or information (hereinafter referred to as "application") regarding the above-referenced facility. This application has been approved by the Director subject to the conditions of compliance contained in the permit approval enclosed herewith and with all applicable laws, rules and standards. All construction must be supervised by an engineer or expert qualified in such work. Because the permit approval contains conditions of compliance, I urge you to read it carefully.

You are requested to submit within fifteen (15) days of the date of issuance of this Permit to Install, the required permit fees as follows: sixty-eight thousand, two-hundred eighty-one dollars (\$68,281.00) (\$68,681.00 - \$400.00 application fee = \$68,281.00), and the air permit to install fee, \$1200.00, payable to the Treasurer, State of Ohio, Attn: Ohio EPA. Please send the required payment to:

Ohio Environmental Protection Agency
Fiscal Administration
1800 WaterMark Drive
P.O. Box 1049
Columbus, OH 43266-0149

Payment of the total amount due within 15 days is a condition of your Permit to Install. Failure to submit the fee as required will invalidate the Permit to Install as issued.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Board of Review pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action

Coshocton Landfill, Inc.
Mr. Charles Ungurean
Coshocton Sanitary Landfill
September 28, 1993
Page Two

complained of and the grounds upon which the appeal is based. It must be filed with the Environmental Board of Review within thirty (30) days after notice of the Director's action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency within three (3) days of filing with the Board. An appeal may be filed with the Environmental Board of Review at the following address:

Environmental Board of Review
236 East Town Street
Room 300
Columbus, Ohio 43215

If you have any questions, please contact the Ohio EPA District Office to which you submitted your application.

Sincerely yours,

Thomas E. Crepeau, Manager

Applicant: Coshocton Landfill, Inc.

Address: P. O. Box 427

City: Coshocton

State: Ohio 43812

Telephone: (614)

Name, Location, and Description of Proposed Source:

Coshocton Sanitary Landfill
Approximately 61 acres, located South of CR 7,
approximately one-half mile east of St. Rt. 83
Franklin and Tuscarawas Townships
Coshocton County
Permit to Install: New Facility

SEP 28 1993
COSHOCOTON

Issuance Date: September 28, 1993

Effective Date: September 28, 1993

The above named entity is hereby ISSUED a permit approval (Permit to Install) for the above described source pursuant to Rule 3745-31 of the Ohio Administrative Code. Issuance of this permit approval (Permit to Install) does not constitute expressed or implied approval or agreement that, if constructed and/or modified in accordance with the plans, specifications and/or information accompanying the permit application, the above described source of environmental pollutants will operate in compliance with applicable State and Federal laws and rules and regulations, and does not constitute expressed or implied assurances that if constructed and/or modified in accordance with those plans, specifications and/or information accompanying the permit application, the above described source of environmental pollutants will be granted the necessary operating permits and/or licenses. This permit approval (Permit to Install) is issued subject to the attached conditions which are hereby incorporated and made a part hereof.

Ohio Environmental Protection Agency

by Gerry Stannard
Donald R. Schregardus, Director

PTI SUMMARY

This FINAL Permit to Install (PTI) would approve the construction and operation of the proposed Coshocton Sanitary Landfill facility, owned by Coshocton Landfill, Inc.

The site is approximately 560 acres in size and includes a solid waste disposal area of approximately 61 acres. The PTI authorizes a maximum daily waste receipt of 1,500 tons, but Coshocton Landfill, Inc., anticipates the average daily waste receipt to be approximately 1,000 tons. The operational life of the landfill will be approximately 10 years at the maximum rate, or approximately 14.4 years at the average rate. The facility will contain approximately seven (7) million cubic yards of solid waste when completely filled.

This landfill will incorporate into its construction such Best Available Technology (BAT) features as a composite (clay/geomembrane) liner system, a leachate collection and management system, a surface water management system, a ground water monitoring system, an explosive gas extraction system, and a final closure cap system.

This summary is provided solely for informational purposes and does not constitute a part of, or otherwise affect the attached Permit to Install.

PTI CONDITIONS

Substantial construction for installation must take place within eighteen (18) months of the effective date of this permit. This deadline may be extended by up to twelve (12) months, if application is made to the Director no less than sixty (60) days before the expiration of this permit and the party shows good cause for any such extension.

The Director of Environmental Protection (Director) or his authorized representatives, may enter upon the premises of the above named applicant (permittee) during construction and operation at any reasonable time for the purpose of making inspections, conducting tests, examining records or reports pertaining to the construction, modification or installation of the above described source of environmental pollutants (solid waste disposal facility).

I certify this to be a true and accurate copy of the official document as filed in the records of the Ohio Environmental Protection Agency.

By: Mary Carvin Date 9-28-93

The proposed source shall be constructed in accordance with the plans and application submitted for this permit to the Director. There may be no significant deviation from the approved plans without the express, written approval of the Ohio Environmental Protection Agency (Ohio EPA). Any deviation from the approved plans or the following conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio EPA if the proposed solid waste disposal facility is inadequate or cannot meet applicable standards.

Issuance of this permit does not relieve the applicant of the duty to comply with all applicable federal, state, and local laws, ordinances, and regulations.

1. This approval shall only apply to those facilities shown on the plans submitted as part of the permit to install application.
2. The authorized maximum daily waste receipt is one thousand five hundred (1500) tons.
3. The permit may be modified, or alternatively revoked and reissued, to comply with any revisions to Chapters 3745-27 and 3745-31 of the Ohio Administrative Code (OAC) applicable to this solid waste disposal facility.
4. The permittee shall provide for the proper maintenance and operation of the solid waste disposal facility in accordance with the provisions of OAC Chapter 3745-27.
5. Nothing in this permit shall be interpreted to release the permittee from responsibility under Chapters 3704, 3734, or 6111 of the Ohio Revised Code (ORC), under the Federal Clean Water or Comprehensive Environmental Response, Compensation, and Liability Acts or other applicable laws for remedying conditions resulting from any release of contaminants to the environment.
6. This permit does not include approval for the acceptance of any hazardous or infectious waste, except for those excluded from hazardous waste or infectious waste regulation by ORC Chapter 3734.
7. The Ohio EPA Southeast District Office and the Coshocton County Health Department shall be notified of the construction starting date prior to the start of construction on each of the facility's

I certify this to be a true and accurate copy of the official document as filed in the records of the Ohio Environmental Protection Agency.

By: Mary Coxin Date 9-28-93

phases so that construction of this facility can be routinely inspected by the Ohio EPA Southeast District Office and the Coshocton County Health Department before the phases are placed in operation.

8. The permittee shall perform the following activities during construction and operation of the facility in accordance with the cited provision of (OAC) Chapter 3745-27 as follows:
 - a. The test pad(s) required by OAC 3745-27-08(F)(1) shall be constructed and a report containing the test results shall be submitted to the Ohio EPA Southeast District Office no later than fourteen (14) days prior to the initial construction date of the landfill component which the test pad(s) models.
 - b. The earthen material tests required by OAC 3745-27-08(D) shall be performed and the results submitted to the Ohio EPA Southeast District Office no later than seven (7) days prior to the intended use of the material in construction.
 - c. The construction certification report required by OAC 3745-27-08(B) shall be submitted to the Ohio EPA Southeast District Office no later than thirty (30) days prior to the anticipated date of waste receipt in the newly constructed phase(s).
9. The permittee shall provide for the following inspections and maintenance of the facility:
 - a. The permittee shall provide for daily inspection of the landfill and completion of the daily inspection checklist and the solid waste disposal facility daily log of operations. Written results of the inspections, including any corrective measures employed, shall be made available to the Ohio EPA Southeast District Office and the Coshocton County Health Department, if on the Director's approved list, upon request.
 - b. Surface water control structures, including sedimentation ponds, sedimentation pond discharge structures, pipes, ditches, and culverts, shall be inspected at least monthly for erosion, clogging, or failure, and prompt corrective action shall be taken if necessary. A log including inspection results, any corrective measures, and the date and weather conditions for any water quality samples, shall be maintained and submitted to the Ohio EPA Southeast District Office or Coshocton County Health Department, if on the Director's approved list, upon request.

I certify this to be a true and accurate copy of the official document as filed in the records of the Ohio Environmental Protection Agency.

By: Mary Carvin Date 9-28-93

I certify this to be a true and accurate copy of the official document as filed in the records of the Ohio Environmental Protection Agency.

By: Mary Carin Date 9-28-93

- c. Sedimentation ponds shall be cleaned out in accordance with the frequencies specified on Pages 17 and 22 of Volume I of the Permit to Install or when the volume of settled particles necessitates cleaning based either on inspection results or to maintain the minimum storage volume required by OAC Rule 3745-27-08(C)(6)(d).
10. The permittee shall, prior to waste being disposed of at the facility, implement a Ground Water Monitoring Program which meets the requirements of OAC Rule 3745-27-10. Implementation is defined as obtaining ground water samples in accordance with the approved Ground Water Monitoring Program Plan. If any changes or additions are made to the Ground Water Monitoring Program, the written plan must be updated and submitted to the Ohio EPA Southeast District Office prior to implementation of the changes.
 11. The permittee shall, within 90 days of completing the last sampling event of the initial year of sampling, submit to the Ohio EPA Southeast District Office, the statistical method(s) to be used in evaluating the ground water monitoring data. The statistical method(s) shall comply with OAC Rule 3745-27-10(C)(5) and (C)(6).
 12. The permittee shall exercise the option to purchase the property for the well within 500 feet upgradient of the waste limits prior to initiating construction of the landfill.
 13. The permittee shall properly plug and abandon the well identified as P4 by the permittee prior to initiation of any construction activities for the proposed landfill.
 14. The applicant shall install all wells required in the approved ground water monitoring program plan and implement the ground water monitoring program prior to the placement of waste within the approved solid waste landfill. Implementation shall be defined as the collection of ground water samples in accordance with the approved ground water monitoring program plan.
 15. The applicant shall submit, within 90 days of completing the final quarter of background water sampling as defined in OAC 3745-27-10, the method that will be used to statistically analyze the groundwater quality data. The method shall meet the requirements of OAC 3745-27-10(C)(5) and (C)(6).
 16. The Director expressly reserves the right to make all determinations pursuant to ORC Section 3734.44 after the investigation and report by the Attorney General pursuant to ORC Sections 3734.42 and 3734.43. If the permittee fails to comply fully with

ORC Section 3734.42 or if the Director determines that the permittee does not meet the criteria established in ORC Section 3734.44, then this permit may be revoked pursuant to ORC Section 3734.45 or any other reason allowed by law.

NESHAP REQUIREMENTS:

The following source(s) are subject to the applicable provisions of the National Emissions Standards for Hazardous Air Pollutants (NESHAP) as promulgated by the United States Environmental Protection Agency under 40 CFR Part 61.

<u>Source No.</u>	<u>Source Description</u>	<u>NESHAP Regulation</u>
F001	Refuse and Asbestos Handling	Subpart M

The application and enforcement of these standards are delegated to Ohio EPA. The requirements of 40 CFR Part 61 are also federally enforceable.

Pursuant to the NESHAP, the source owner/operator is required to report the following milestones:

- date of commencement of construction (no later than 30 days after such date);
- anticipated date of initial start-up (not more than 60 days or less than 30 days prior to such date);
- actual date of initial start-up (within 15 days after such date); and
- date of performance testing (at least 30 days prior to testing).

Reports are to be sent to:

Ohio Environmental Protection Agency
Division of Air Pollution Control
Authorization and Compliance Unit
P. O. Box 1049
Columbus, Ohio 43266-0149

and to the Southeast District Office.

RECORD(S) RETENTION AND AVAILABILITY:

All records required by this Permit to Install shall be retained on file for a period of not less than two years unless otherwise indicated by the Ohio Environmental Protection Agency. All records shall be made available to the Director, or any authorized representative of the Director, for review during normal business hours.

MALFUNCTION/ABATEMENT:

In accordance with OAC Rule 3745-15-06, any malfunction of the source(s) or associated air pollution control system(s) shall be reported immediately to the Southeast District Office.

Except as provided by OAC Rule 3745-15-06(A)(3), scheduled maintenance of air pollution control equipment that requires the shutdown or bypassing of air pollution control system(s) must be accompanied by the shutdown of the associated air pollution sources.

AIR POLLUTION NUISANCES PROHIBITED:

The air contaminant source(s) identified in this permit may not cause a public nuisance in violation of OAC Rule 3745-15-07.

ADDITIONAL SPECIAL AIR POLLUTION CONTROL CONDITIONS

AIR EMISSION SUMMARY

The air contaminant sources listed below comprise the Permit to Install for Coshocton Sanitary Landfill, located in Coshocton County. The sources listed below shall not exceed the emission limits/control requirements contained in the table. This condition in no way limits the applicability of any other State or Federal regulations. Additionally, this condition does not limit the applicability of additional special terms and conditions of this permit.

Ohio EPA Source No.	Source Identification/Description	BAT Determination	Applicable Federal and OAC Rules	Permit Allowable Mass Emissions and/or Control & Usage Requirements

AIR POLLUTION CONTROL SPECIAL TERMS AND CONDITIONS

F002:

A. Applicable Rules:

The specific operation(s), equipment and/or property which constitute the air contaminant source and which are covered by this permit are listed in the following table along with the applicable rule(s) of the Ohio Administrative Code:

Operation(s), Equipment and/or Property	Applicable Rule(s) (OAC 3745
Roadways and Parking Areas	3745-31-05
<i>Construction Activities and storage piles</i>	3745-17-08

(This condition in no way limits the applicability of other requirements of the Ohio Administrative Code to this source.)

B. Allowable Mass Emission Limitation(s) and/or Control Requirements:

The allowable mass emission limitation(s) and/or control requirements for the operation(s), equipment and/or property identified above are specified in the following table:

Operation(s), Equipment and/or Property	Allowable Mass Emission Limitation(s) and/or Control Requirements
--	---

I certify this to be a true and accurate copy of the official document as filed in the records of the Ohio Environmental Protection Agency.

Unpaved Roadways and
Parking Areas

In order to control emissions of fugitive dust this facility shall implement the best available control technology:

*Construction Areas
and storage piles*

A. This facility shall apply water or suitable dust suppression chemicals as often as necessary on all roads, and parking areas in order to minimize or prevent visible emissions of fugitive dust.

For the paved roadways and parking areas, there shall be no visible particulate emissions except for a period of time not to exceed one minute during any sixty-minute observation period.

B. Speed zones of no more than 5 miles per hour shall be established, posted and enforced by the owner or operator for all vehicles operating within the facility or facility controlled access roads.

*and shall make
surface improvements
as necessary*

I certify this to be a true and accurate copy of the official document as filed in the records of the Ohio Environmental Protection Agency.

By: Mary Cavin Date 9-28-93

C. This facility shall operate and maintain a truckmounted spray system to distribute water and/or dust suppression solution in order to minimize or eliminate visible emissions of fugitive dust generated by vehicle traffic on unpaved roadways, and parking areas, ^{and storage piles} ~~and storage piles~~, ^{construction areas,} ~~and storage piles~~

*Construction areas,
and storage piles*

For the unpaved roadways, and parking areas, there shall be no visible particulate emissions except for a period of time not to exceed three minutes during any sixty-minute observation period.

SEP 28 1993

Construction Areas

~~D. This facility shall~~

- 3745-20-07
- 3745-20-08
- ORC 3704.03

RECEIVED
SEP 29 1993
OHIO DEPARTMENT OF
NATURAL RESOURCES
COLUMBUS, OHIO

(This condition in no way limits the applicability of other requirements of the Ohio Administrative Code to this source.)

B. Allowable Mass Emission Limitation(s) and/or Control Requirements:

This facility is subject to the provisions of the NESHAP, 40 CFR Part 61, Subparts A and M, and regulations adopted by the Ohio EPA at Chapter 3745-20 of the Administrative Code. This facility is authorized to accept and dispose of asbestos-containing materials in accordance with the conditions of this permit.

1. There shall be no visible emissions from asbestos-containing materials during on-site transportation, transfer, unloading, deposition or compacting operations.
2. This facility shall inspect each load of asbestos containing-material delivered to the facility.
 - a. The inspection shall consist of visual examination of each load, sufficient to determine whether the friable asbestos-containing materials are received in intact, leak-tight containers labeled with appropriate hazard warning labels,

I certify this to be a true and accurate copy of the
official document as filed in the records of the Ohio
Environmental Protection Agency.

SEP 28 1993
OHIO DEPT. OF ENVIRONMENTAL PROTECTION

- name of the waste generator and location of waste generation. The inspection shall determine whether the waste shipment records (WSR) required by Paragraph I, accompany the consignment and accurately describe the waste material and quantity.
- b. If on the basis of the inspection, the waste material is found to be improperly received; the load shall be disposed of in accordance with the procedures in "Asbestos Spill Contingency Plan" described in Paragraph F, and the discrepancy notation shall be made on the waste shipment record.
 - c. The owner or on-duty operator shall notify the Ohio EPA, 2195 Front Street, Logan, Ohio 43138, (hereinafter "SEDO") of any load of asbestos-containing material which is rejected, or any nonconforming load disposed of in accordance with the Asbestos Spill Contingency Plan. Notification shall be provided as soon as possible by a phone contact, followed in writing by the next working day providing a copy of the waste shipment record if available, or when waste is not shipped with a WSR, provide available information on vehicle identification, source of the load, a description of the load, nature of discrepancy, and the location of disposal. If possible, non-conforming loads of suspect friable materials shall be detained or the location of disposal protected from damage until the Ohio EPA is informed and provided the opportunity to inspect.
- 3. Deposition and burial operations shall be conducted in a careful manner that prevents handling by equipment or persons that causes asbestos-containing waste materials to be broken up or dispersed before the materials are burned.
 - 4. This facility shall establish restricted access, adequate to deter the unauthorized entry of the general public and any unauthorized personnel, within one hundred feet of the unloading, deposition, burial and initial compaction of asbestos-containing waste materials areas. A hazard warning shall be displayed on signs not less than 20 x 14 inches, posted so they are visible before entering an area with asbestos waste disposal operations in progress; or alternatively mark vehicles used to transport asbestos-containing material with 21 x 14 inch signs during the loading and unloading of the waste so that the signs are displayed in such a manner and location that a person can easily read the legend. Display the following legend in the lower panel with letter sized and styles of a visibility at least equal to those specified in this paragraph.

I certify this to be a true and accurate copy of the official document as filed in the records of the Ohio Environmental Protection Agency.

5. This facility shall cover and compact asbestos wastes in accordance with the following:
 - a. As soon as practicable after the placement of friable asbestos, but no later than the end of each working day, the asbestos-containing waste material deposited at the site during the operating day shall be covered with at least twelve inches of non-asbestos material. Once the load is covered, the area may be compacted.
 - b. Care shall be taken to ensure disposed asbestos shall not be re-excavated in subsequent operations. Any accidentally exposed material shall be immediately recovered in accordance with the provisions of condition "5a".
 - c. Asbestos-containing materials shall be separated from the landfill final grade by no less than 24 inches of compacted non-asbestos-containing material and a permanent cover of vegetation, or in accordance with current requirements for closure, whichever is most stringent.
6. This facility shall implement and maintain an "Asbestos Disposal Operation Procedure and Spill Contingency Plan" (Plan), consisting of: authorized personnel training, inspection and disposal operations procedures, non-conforming load response procedures, inventory and maintenance procedures for safety and emission control equipment, recordkeeping procedures and emergency notification procedures. Authorized personnel shall be knowledgeable in the plan procedures and the plan shall be available for inspection at this facility at all times.
7. This facility shall have emission control equipment available for wetting and containing asbestos in the event of a release or non-conforming load disposal. All equipment required to implement the Plan shall be maintained in accordance with good engineering practices to ensure equipment is in a ready to use condition, and in an appropriate location for use.

8. This facility shall prepare and submit to the Southeast District office, quarterly reports summarizing asbestos disposal activities. This report must contain the following information:
 - a. The name, address and location of this facility, the calendar period covered by the report, and changes in methods of storage or disposal operations.
 - b. A list of all asbestos-containing waste consignments received including: the date received, the name of the waste generator, the name and location of the facility where the load originated, the quantity of asbestos, and any discrepancy of non-conformity discovered.
 - c. These reports shall be submitted no later than January 15, April 15, July 15, and October 15 and shall cover the previous calendar quarter.
9. This facility shall require that all waste shipments received be accompanied by a waste shipment record.
 - a. The waste shipment record forms shall be retained at the facility for at least two years, and will be made available for inspection upon request.
 - b. As soon as possible and no longer than 30 days after receipt of the waste, send a copy of the signed waste shipment record to the waste generator.
 - c. Upon discovering a discrepancy between the quantity of waste designated on the waste shipment records and the quantity actually received, attempt to reconcile the discrepancy with the waste generator. If the discrepancy is not resolved within 15 days after receiving the waste, immediately report in writing to the state, local, district, or EPA Regional Office responsible for administering the asbestos NESHAP program for the waste generator (identified in the waste shipment record), and, if different, the Southeast District Office. Describe the discrepancy and attempt to reconcile it, and submit a copy of the waste shipment record along with the report.
10. Maintain, until closure, records of the location, depth and area, and quantity in cubic meters (cubic yards) of asbestos-containing waste material within the disposal site on a map or diagram of the disposal area.

I certify this to be a true and accurate copy of the official document as filed in the records of the Ohio Environmental Protection Agency.

By: Mary Cavin Date 9-28-93

11. Upon closure, comply with all the provisions of Rule 3745-20-07.
12. Submit to the Southeast District Office, upon closure of the facility, a copy of records of asbestos waste disposal locations and quantities.
13. Furnish upon request, and make available at reasonable times and during operating hours for inspection by the director, all records required under this section.
14. Notify the Southeast District Office in writing at least 45 days prior to excavating or otherwise disturbing any asbestos-containing waste material that has been deposited at a waste disposal site and is covered. If the excavation will begin on a date other than the one contained in the original notice, notice of the new start date must be provided at least 10 working days before excavation begins and in no event shall excavation begin earlier than the date specified in the original notification. Include the following information in the notice:
 - a. Scheduled starting and completion dates.
 - b. Reason for disturbing the waste.
 - c. Procedures to be used to control emissions during the excavation, storage, transport, and ultimate disposal of the excavated asbestos-containing waste material. If deemed necessary, the Director may require changes in the emission control procedures to be used.
 - d. Location of any temporary storage site and the final disposal site.

Authority to Enter

Any representative of the Director of the Ohio Environmental Protection Agency may upon presentation of proper identification, enter upon any portion of the property including any improvements thereon, at any reasonable time, to make inspections, take samples, conduct test and examine records or reports pertaining to any emission of air contaminants and any monitoring equipment, emission control equipment or methods. No operator or agent of this facility shall act in any manner to refuse, hinder, or thwart legal right of entry.

I certify this to be a true and accurate copy of the official document as filed in the records of the Ohio Environmental Protection Agency.

By: Mary Carvin Date 9-28-93

Solid Waste Disposal

This facility shall ensure solid wastes are deposited, spread and compacted in such a manner as to minimize or prevent visible emissions of dust. This facility shall require all truckloads of solid waste to be unloaded in a manner which will minimize the drop height of the solid wastes. Any dusty materials or wastes likely to become airborne, shall be watered as necessary prior to or during dumping operations in order to minimize or eliminate visible emissions of fugitive dust, but any watering shall avoid free liquids and runoff. No dusty material shall be dumped during periods of high wind speed unless treated to prevent it from becoming airborne.

END OF AIR CONDITIONS

Payment of the required sixty-eight thousand six hundred eighty-one dollars (\$68,681.00) Solid Waste Permit to Install fee, payable to "Treasurer, State of Ohio", shall be forwarded to the Ohio EPA, Division of Solid and Infectious Waste Management, Attn: Data Management Section, P.O. Box 1049, Columbus, Ohio, 43266-0149, within fifteen (15) days of the effective date of this permit. Failure to submit the required permit fee will invalidate the Permit to Install.

Payment of the twelve-hundred dollar (\$1200.00) Air Permit to Install fee, payable to "Treasurer, State of Ohio", shall be forwarded to the Ohio EPA, Division of Air Pollution Control, Attn: General Accounting, P.O. Box 1049, Columbus, Ohio, 43266-0149, within fifteen (15) days of the effective date of this permit. Failure to submit the required permit fee will invalidate the PTI.

I certify this to be a true and accurate copy of the official document as filed in the records of the Ohio Environmental Protection Agency.
