CERTIFIED MAIL

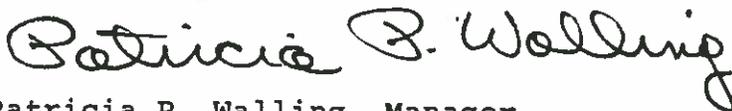

Dear Sir:

Enclosed please find an Ohio EPA Permit to Install which will allow you to install the described source(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions I urge you to read it carefully.

You are hereby notified that this action by the Director is final and may be appealed to the Environmental Board of Review pursuant to Chapter 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed with the Environmental Board of Review within thirty (30) days after notice of the Director's action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency and the Environmental Law Division of the Office of the Attorney General within three (3) days of filing with the Board. An appeal may be filed with the Environmental Board of Review at the following address:

Environmental Board of Review
250 East Town Street, Room 101
Columbus, Ohio 43215

Very truly yours,

Patricia P. Walling, Manager

Permit to Install Terms and Conditions

Application No. 16-312APS Premise No. 1677000178Permit Fee: \$50.00

Name of Facility: Standard Oil Company

Person to Contact: D.M. Sigler

Address: Midland Bldg. - Room 1290G-S
Cleveland, Ohio 44115Location of proposed source(s): Canton Road & Route #224
Springfield, OhioDescription of proposed source(s): Gasoline Dispensing Facility over
240,000 Gallons Per Year

Date of Issuance: November 20, 1984

Effective Date: November 20, 1984

The above named entity is hereby granted a permit to install for the above described source(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described source(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described source(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

November 20, 1984

Substantial construction for installation must take place within eighteen months of the effective date of this permit. This deadline may be extended by up to twelve months, if application is made to the Director no less than sixty days before the expiration of this permit and the party shows good cause for any such extension.

The Director of the Ohio Environmental Protection Agency, or his authorized representatives, may enter upon the premises of the above named applicant during construction and operation at any reasonable time for the purpose of making inspections, conducting tests, examining records or reports pertaining to the construction, modification or installation of the above described source of environmental pollutants.

If the construction of the proposed source has already begun or has been completed prior to the date the Director of the Ohio Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC Rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities prove to be inadequate or cannot meet applicable standards.

The specified permit fee must be remitted within 15 days of the effective date of this permit to install.

The following rules of the Ohio Administrative Code establish the applicable emission limitations and/or control requirements for this source:

OAC 3745-21-09(R)

This condition in no way limits the applicability of other requirements of the Ohio Administrative Code to this source.

All gasoline storage tanks shall be equipped with submerged fill pipes and vapor balance systems which meet the requirements of OAC 3745-21-09(R).

The following operating practices shall be followed:

- a) The vapor balance systems shall be kept in good working order and shall be used at all times during the transfer of gasoline;
- b) there shall be no leaks in the delivery vessel pressure/vacuum relief valves and hatch covers;
- c) there shall be no leaks in the vapor and liquid during the transfer of gasoline; and
- d) Any owner or operator of this facility shall repair within fifteen days any leak from the vapor balance system which is employed to meet the requirements of OAC 3745-21-09(R).

This facility must be serviced by a bulk plant or terminal which is equipped with a vapor recovery system and which is subject to OAC 3745-21-09(P) or (Q) respectively.
