**RE: FINAL PERMIT TO INSTALL MODIFICATION  
WARREN COUNTY**

**CERTIFIED MAIL**

Street Address:

122 S. Front Street

Lazarus Gov. Center TELE: (614) 644-3020 FAX: (614) 644-2329

Mailing Address:

Lazarus Gov. Center  
P.O. Box 1049

**Application No: 14-04238**

**DATE:** 3/28/2002

Morris Material Handling, Inc.  
Steve Shope  
309 213 Industrial Drive  
Franklin, OH 450050000

Enclosed Please find a modification to the Ohio EPA Permit To Install referenced above which will modify the terms and conditions.

You are hereby notified that this action by the Director is final and may be appealed to the Ohio Environmental Review Appeals Commission pursuant to Chapter 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed within thirty (30) days after the notice of the Directors action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency within three (3) days of filing with the Commission. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
236 East Town Street, Room 300  
Columbus, Ohio 43215

Very truly yours,

Thomas G. Rigo, Manager  
Field Operations and Permit Section  
Division of Air Pollution Control

CC: USEPA

HCDES

**Permit To Install  
Terms and Conditions**

**Issue Date: 3/28/2002  
Effective Date: 3/28/2002**

FINAL ADMINISTRATIVE MODIFICATION OF PERMIT TO INSTALL 14-04238

Application Number: 14-04238  
APS Premise Number: 1483040388  
Permit Fee: **\$100**  
Name of Facility: Morris Material Handling, Inc.  
Person to Contact: Steve Shope  
Address: 309 213 Industrial Drive  
Franklin, OH 450050000

Location of proposed air contaminant source(s) [emissions unit(s)]:  
**213 Industrial Drive  
Franklin, Ohio**

Description of proposed emissions unit(s):  
**Administrative Modification to PTI 14-04238 (issued 2/12/97) to increase the allowable VOC content of the cleanup material.**

The above named entity is hereby granted a modification to the permit to install described above pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this modification does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described source(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans included in the application, the above described source(s) of pollutants will be granted the necessary operating permits.

This permit is granted subject to the conditions attached hereto.

  
Ohio Environmental Protection Agency

Director

**Morris Material Handling, Inc.**  
**PTI Application: 14-04238**  
**Modification Issued: 3/28/2002**

**Facility ID: 1483040388**

## **Part I - GENERAL TERMS AND CONDITIONS**

### **A. Permit to Install General Terms and Conditions**

#### **1. Compliance Requirements**

The emissions unit(s) identified in this Permit to Install shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.

#### **2. Reporting Requirements Related to Monitoring and Record keeping Requirements**

The permittee shall submit required reports in the following manner:

- a. Reports of any required monitoring and/or record keeping information shall be submitted to the appropriate Ohio EPA District Office or local air agency.
- b. Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and record keeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the appropriate Ohio EPA District Office or local air agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly, i.e., by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

#### **3. Records Retention Requirements**

Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.

#### **4. Inspections and Information Requests**

The Director of the Ohio EPA, or an authorized representative of the Director, may, subject to the safety requirements of the permittee and without undue delay, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State air pollution laws and regulations and the terms and conditions of this permit. The permittee shall furnish to the Director of the Ohio EPA, or an authorized

**Morris Material Handling, Inc.**  
**PTI Application: 14-04238**  
**Modification Issued: 3/28/2002**

**Facility ID: 1483040388**

representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying, reopening or revoking this permit or to determine compliance with this permit. Upon verbal or written request, the permittee shall also furnish to the Director of the Ohio EPA, or an authorized representative of the Director, copies of records required to be kept by this permit.

**5. Scheduled Maintenance/Malfunction Reporting**

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction of any emissions units or any associated air pollution control system(s) shall be reported to the appropriate Ohio EPA District Office or local air agency in accordance with paragraph (B) of OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emissions unit(s) that is (are) served by such control system(s).

**6. Permit Transfers**

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA District Office or local air agency must be notified in writing of any transfer of this permit.

**7. Air Pollution Nuisance**

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

**8. Termination of Permit to Install**

This Permit to Install shall terminate within eighteen months of the effective date of the Permit to Install if the owner or operator has not undertaken a continuing program of installation or modification or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation or modification. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

**9. Construction of New Sources(s)**

The proposed emissions unit(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio

**Morris Material Handling, Inc.**  
**PTI Application: 14-04238**  
**Modification Issued: 3/28/2002**

**Facility ID: 1483040388**

Environmental Protection Agency if the proposed sources cannot meet the requirements of this permit or cannot meet applicable standards.

If the construction of the proposed emissions unit(s) has already begun or has been completed prior to the date the Director of the Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.

**10. Public Disclosure**

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

**11. Applicability**

This Permit to Install is applicable only to the emissions unit(s) identified in the Permit to Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s).

**12. Best Available Technology**

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

**13. Source Operation and Operating Permit Requirements After Completion of Construction**

- a. If the permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77, the permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or

**Morris Material Handling, Inc.**  
**PTI Application: 14-04238**  
**Modification Issued: 3/28/2002**

**Facility ID: 1483040388**

modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d).

- b. If the permittee is required to apply for permit(s) pursuant to OAC Chapter 3745-35, the source(s) identified in this Permit To Install is (are) permitted to operate for a period of up to one year from the date the source(s) commenced operation. Permission to operate is granted only if the facility complies with all requirements contained in this permit and all applicable air pollution laws, regulations, and policies. Pursuant to OAC Chapter 3745-35, the permittee shall submit a complete operating permit application within thirty (30) days after commencing operation of the source(s) covered by this permit.

#### **14. Construction Compliance Certification**

The applicant shall provide Ohio EPA with a written certification (see enclosed form) that the facility has been constructed in accordance with the Permit to Install application and the terms and conditions of the Permit to Install. The certification shall be provided to Ohio EPA upon completion of construction but prior to startup of the source.

#### **15. Fees**

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable Permit to Install fees within 30 days after the issuance of this Permit to Install.

#### **B. Permit to Install Summary of Allowable Emissions**

The following information summarizes the total allowable emissions, by pollutant, based on the individual allowable emissions of each air contaminant source identified in this permit.

**SUMMARY (for informational purposes only)**  
**TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS**

<u>Pollutant</u>	<u>Tons Per Year</u>
VOC	6.8

**PART II - SPECIAL TERMS AND CONDITIONS FOR SPECIFIC EMISSIONS UNIT(S)**

**A. Applicable Emissions Limitations and/or Control Requirements**

- 1. The specific operations(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
K001 - Miscellaneous metal parts coating - large crane painting operation (modification)	OAC rule 3745-31-05(A)(3)	359.7 lbs/day VOC, including cleanup 6.8 TPY VOC, including cleanup  The requirements of this rule also include compliance with the requirements of OAC rule 3745-21-09(U)(1)(c).  See T&Cs A.2.a., B.1. and B.2.
	OAC rule 3745-21-09(U)(1)(c)	3.5 lbs VOC per gallon of coating, as applied, excluding water and exempt solvents.

**2. Additional Terms and Conditions**

- 2.a The VOC content of the cleanup material employed in emissions unit K001 shall not exceed 6.89 lbs VOC per gallon, as applied.
- 2.b Compliance with OAC rule 3745-31-05(A)(3) shall be demonstrated by the use of compliance coatings, compliance with the usage limitations, maintaining enclosure of the emissions unit within the building and compliance with the Air Toxics Policy.

**B. Operational Restrictions**

- 1. The maximum daily usage of coatings and cleanup materials for emissions unit K001 shall not exceed 100 gallons per day of coatings, as applied, excluding water and exempt solvents and 1.4

gallons per day of cleanup materials, as applied.

- 2. The maximum annual usage of coatings and cleanup materials for emissions unit K001 shall not exceed 3,500 gallons per year of coatings, as applied, excluding water and exempt solvents and 190 gallons per year of cleanup materials, as applied.

**C. Monitoring and/or Record keeping Requirements**

- 1. The permittee shall collect and record the following information each day for emissions unit K001:
  - a. The name and identification number of each coating employed;
  - b. The VOC content of each coating, as applied, excluding water and exempt solvents, in pounds of VOC per gallon;
  - c. The number of gallons of each coating, as applied, excluding water and exempt solvents;
  - d. The name and identification number of each cleanup material employed;
  - e. The VOC content of each cleanup material, as applied, in pounds of VOC per gallon;
  - f. The number of gallons of each cleanup material; and
  - g. The total VOC emissions from all coatings and cleanup materials, in pounds of VOC per day as calculated using the following equation:

$$T = A_1B_1 + A_2B_2 + \dots + A_nB_n$$

where:

- T = Total VOC emissions from the emissions unit in units of pounds per day;
- n = Number of different coatings and/or cleanup materials applied in the emissions unit;
- i = Subscript denoting an individual coating or cleanup material;
- A<sub>i</sub> = Mass of VOC per volume of coating or cleanup material (i) (excluding water and exempt solvents), as applied, in units of pounds VOC per gallon; and

$B_i$  = Volume of coating or cleanup material (i) (excluding water and exempt solvents), as applied, in units of gallons per day.

2. The permit to install for this emissions unit (K001) was evaluated based on the actual materials (typically coatings and cleanup materials) and the design parameters of the emissions unit's exhaust system, as specified by the permittee in the permit to install application. The Ohio EPA's "Review of New Sources of Air Toxic Emissions" policy ("Air Toxic Policy") was applied for each pollutant emitted by this emissions unit using data from the permit to install application and the SCREEN 3.0 model (or other Ohio EPA approved model). The predicted 1-hour maximum ground-level concentration from the use of the SCREEN 3.0 model was compared to the Maximum Ground-Level Concentration (MAGLC).

The following summarizes the results of the modeling for the "worst case" pollutant(s):

Pollutant: Toluene

TLV ( $\mu\text{g}/\text{m}^3$ ): 188,000

Maximum Hourly Emission Rate (lbs/hr): 21.54

Predicted 1-Hour Maximum Ground-Level  
Concentration ( $\mu\text{g}/\text{m}^3$ ): 4,139

MAGLC ( $\mu\text{g}/\text{m}^3$ ): 4,476

Physical changes to or in the method of operation of the emissions unit after its installation or modification could affect the parameters used to determine whether or not the "Air Toxics Policy" is satisfied. Consequently, prior to making a change that could impact such parameters, the permittee shall conduct an evaluation to determine that the "Air Toxic Policy" will still be satisfied. If, upon evaluation, the permittee determines that the "Air Toxic Policy" will not be satisfied, the permittee will not make the change. Changes that can affect the parameters used in the "Air Toxic Policy" include the following:

- a. Changes in the composition of the materials used (typically for coatings or cleanup materials), or the use of new materials, that would result in the emission of a compound with a lower Threshold Limit Value (TLV), as indicated in the most recent version of the handbook entitled "American Conference of Governmental Industrial Hygienists (ACGIH)," than the lowest TLV value previously modeled;

Emissions Unit ID: **K001**

- b. Changes in the composition of the materials, or use of new materials, that would result in an increase in emissions of any pollutant with a listed TLV that was proposed in the application and modeled: and
- c. Physical changes to the emissions unit or its exhaust parameters (e.g., increased/decreased exhaust flow, changes in stack height, changes in stack diameter, etc.).

If the permittee determines that the "Air Toxic Policy" will be satisfied with the above changes, the Ohio EPA will not consider the change(s) to be a "modification" under OAC rule 3745-31-01(VV)(1)(a)(ii), and a modification of the existing permit to install will not be required. If the change(s) is(are) defined as a modification under other provisions of the modification definition (other than (VV)(1)(a)(ii)), then the permittee shall obtain a final permit to install prior to the change.

The permittee shall collect, record, and retain the following information when it conducts evaluations to determine that the changed emissions unit will satisfy the Air Toxic Policy:"

- a. A description of the parameters changed (composition of materials, new pollutants emitted, change in stack/exhaust parameters, etc.);
- b. Documentation of its evaluation and determination that the changed emissions unit still satisfies the "Air Toxic Policy"; and
- c. When the computer modeling is performed, a copy of the resulting computer model runs that show the results of the application of the "Air Toxic Policy" for the change.

#### **D. Reporting Requirements**

1. The permittee shall notify the Hamilton County Department of Environmental Services in writing of any daily record showing that emissions unit K001 employed more than the applicable maximum daily coating and/or cleanup material usage limits. The notification shall include a copy of such record and shall be sent to the Hamilton County Department of Environmental Services within 30 days after the exceedance occurs.
2. The permittee shall notify the Hamilton County Department of Environmental Services in writing of any daily record showing the use of noncomplying coatings and/or cleanup materials. The notification shall include a copy of such record and shall be sent to the Hamilton County Department of Environmental Services within 30 days following the end of the calendar month.
3. The permittee shall notify the Hamilton County Department of Environmental Services in writing of any daily record showing that the VOC emissions from emissions unit K001 exceeded the

applicable maximum daily VOC emissions limit. The notification shall include a copy of such record and shall be sent to the Hamilton County Department of Environmental Services within 30 days after the exceedance occurs.

4. The permittee shall submit annual reports to the Hamilton County Department of Environmental Services which summarize the following for this emissions unit:
  - a. The total VOC emissions from coatings and cleanup materials employed in this emissions unit for the previous calendar year.
  - b. The total number of gallons of coatings employed in this emissions unit for the previous calendar year.
  - c. The total number of gallons of cleanup materials employed in this emissions unit for the previous calendar year.

These reports shall be submitted by January 31 of each year.

## **E. Testing Requirements**

### **1. Emissions Limitation**

359.7 lbs/day VOC

Compliance with the daily VOC emissions limitation shall be demonstrated by the record keeping requirement in section C.1.g. of these terms and conditions.

### **2. Emissions Limitation**

6.8 TPY VOC

Compliance with the annual VOC emissions limitation shall be demonstrated by summing the daily records of VOC emissions from the calendar year and dividing by 2000 pounds.

### **3. Usage Limitations**

100 gallons/day and 3,500 gallons/year of coatings  
1.4 gallons/day and 190 gallons/year of cleanup materials

Compliance with the coating and cleanup material usage limitations shall be demonstrated by the

**Morris Material Handling, Inc.**

**PTI Application: 14-04228**

**Modif**

**Facility ID: 1483040388**

Emissions Unit ID: **K001**

record keeping requirements in section C.1. of these terms and conditions.

4. USEPA methods 24 and 24A shall be used to determine the VOC content for coatings and cleanup materials. If, pursuant to section 4.3 of Method 24, 40 CFR Part 60, Appendix A, an owner or operator determines that Method 24 or 24A cannot be used for a particular coating or cleanup material, the permittee shall so notify the Administrator of the USEPA and shall use formulation data for that coating or cleanup material to demonstrate compliance until the USEPA provides alternative analytical procedures or alternative precision statements for Method 24 or 24A.

**F. Miscellaneous Requirements**

None
