RE: FINALAIR POLLUTION PERMIT-TO-INSTALL AND OPERATE

Facility ID: 1409030900  
 Permit Number: P0119547  
 Permit Type: Initial Installation  
 County: Butler

Dear Permit Holder:

Enclosed please find a final Ohio Environmental Protection Agency (EPA) Air Pollution Permit-to-Install and Operate (PTIO) which will allow you to install, modify, and/or operate the described emissions unit(s) in the manner indicated in the permit. Because this permit contains conditions and restrictions, please read it very carefully. In this letter you will find the information on the following topics:

- **How to appeal this permit**
- **How to save money, reduce pollution and reduce energy consumption**
- **How to give us feedback on your permitting experience**
- **How to get an electronic copy of your permit**

**How to appeal this permit**

The issuance of this PTIO is a final action of the Director and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Josh Mandel," which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
 77 South High Street, 17th Floor  
 Columbus, OH 43215

Certified Mail

No	TOXIC REVIEW

## **How to save money, reduce pollution and reduce energy consumption**

The Ohio EPA is encouraging companies to investigate pollution prevention and energy conservation. Not only will this reduce pollution and energy consumption, but it can also save you money. If you would like to learn ways you can save money while protecting the environment, please contact our Office of Compliance Assistance and Pollution Prevention at (614) 644-3469. Additionally, all or a portion of the capital expenditures related to installing air pollution control equipment under this permit may be eligible for financing and State tax exemptions through the Ohio Air Quality Development Authority (OAQDA) under Ohio Revised Code Section 3706. For more information, see the OAQDA website: [www.ohioairquality.org/clean\\_air](http://www.ohioairquality.org/clean_air)

## **How to give us feedback on your permitting experience**

Please complete a survey at [www.epa.ohio.gov/survey.aspx](http://www.epa.ohio.gov/survey.aspx) and give us feedback on your permitting experience. We value your opinion.

## **How to get an electronic copy of your permit**

This permit can be accessed electronically via the eBusiness Center: Air Services in Microsoft Word format or in Adobe PDF on the Division of Air Pollution Control (DAPC) Web page, [www.epa.ohio.gov/dapc](http://www.epa.ohio.gov/dapc) by clicking the "Search for Permits" link under the Permitting topic on the Programs tab.

If you have any questions, please contact Southwest Ohio Air Quality Agency at (513)946-7777 or the Office of Compliance Assistance and Pollution Prevention at (614) 644-3469.

Sincerely,

Michael E. Hopkins, P.E.  
Assistant Chief, Permitting Section, DAPC

**Final Permit-to-Install and Operate**  
Koch Foods, Inc.  
**Permit Number:** P0119547  
**Facility ID:** 1409030900  
**Effective Date:** 11/17/2015

## Authorization

Facility ID: 1409030900  
Application Number(s): A0054038  
Permit Number: P0119547  
Permit Description: Initial installation of new emissions units for Cook Line 6 project. Includes four natural gas-burning units and one cook line for meat products.  
Permit Type: Initial Installation  
Permit Fee: \$1,800.00  
Issue Date: 11/17/2015  
Effective Date: 11/17/2015  
Expiration Date: 11/17/2025  
Permit Evaluation Report (PER) Annual Date: Jan 1 - Dec 31, Due Feb 15

This document constitutes issuance to:

Koch Foods, Inc.  
4100 PORT UNION RD.  
Fairfield, OH 45014

of a Permit-to-Install and Operate for the emissions unit(s) identified on the following page.

Ohio Environmental Protection Agency (EPA) District Office or local air agency responsible for processing and administering your permit:

Southwest Ohio Air Quality Agency  
250 William Howard Taft Rd.  
Cincinnati, OH 45219  
(513)946-7777

The above named entity is hereby granted this Permit-to-Install and Operate for the air contaminant source(s) (emissions unit(s)) listed in this section pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the described emissions unit(s) will operate in compliance with applicable State and federal laws and regulations.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

  
Craig W. Butler  
Director

## Authorization (continued)

Permit Number: P0119547

Permit Description: Initial installation of new emissions units for Cook Line 6 project. Includes four natural gas-burning units and one cook line for meat products.

Permits for the following Emissions Unit(s) or groups of Emissions Units are in this document as indicated below:

- Emissions Unit ID: B009**  
 Company Equipment ID: Thermal Heater 5  
 Superseded Permit Number:  
 General Permit Category and Type: Not Applicable
- Emissions Unit ID: P009**  
 Company Equipment ID: Water Heater 4  
 Superseded Permit Number:  
 General Permit Category and Type: Not Applicable
- Emissions Unit ID: P011**  
 Company Equipment ID: Line 6  
 Superseded Permit Number:  
 General Permit Category and Type: Not Applicable

**Group Name: Boilers 5 & 6**

<b>Emissions Unit ID:</b>	<b>B007</b>
Company Equipment ID:	Cleaver Brooks Boiler 5
Superseded Permit Number:	
General Permit Category and Type:	Not Applicable
<b>Emissions Unit ID:</b>	<b>B008</b>
Company Equipment ID:	Cleaver Brooks Boiler 6
Superseded Permit Number:	
General Permit Category and Type:	Not Applicable

**Final Permit-to-Install and Operate**  
Koch Foods, Inc.  
**Permit Number:** P0119547  
**Facility ID:** 1409030900  
**Effective Date:** 11/17/2015

## **A. Standard Terms and Conditions**

**1. What does this permit-to-install and operate ("PTIO") allow me to do?**

This permit allows you to install and operate the emissions unit(s) identified in this PTIO. You must install and operate the unit(s) in accordance with the application you submitted and all the terms and conditions contained in this PTIO, including emission limits and those terms that ensure compliance with the emission limits (for example, operating, recordkeeping and monitoring requirements).

**2. Who is responsible for complying with this permit?**

The person identified on the "Authorization" page, above, is responsible for complying with this permit until the permit is revoked, terminated, or transferred. "Person" means a person, firm, corporation, association, or partnership. The words "you," "your," or "permittee" refer to the "person" identified on the "Authorization" page above.

The permit applies only to the emissions unit(s) identified in the permit. If you install or modify any other equipment that requires an air permit, you must apply for an additional PTIO(s) for these sources.

**3. What records must I keep under this permit?**

You must keep all records required by this permit, including monitoring data, test results, strip-chart recordings, calibration data, maintenance records, and any other record required by this permit for five years from the date the record was created. You can keep these records electronically, provided they can be made available to Ohio EPA during an inspection at the facility. Failure to make requested records available to Ohio EPA upon request is a violation of this permit requirement.

**4. What are my permit fees and when do I pay them?**

There are two fees associated with permitted air contaminant sources in Ohio:

PTIO fee. This one-time fee is based on a fee schedule in accordance with Ohio Revised Code (ORC) section 3745.11, or based on a time and materials charge for permit application review and permit processing if required by the Director.

You will be sent an invoice for this fee after you receive this PTIO and payment is due within 30 days of the invoice date. You are required to pay the fee for this PTIO even if you do not install or modify your operations as authorized by this permit.

Annual emissions fee. Ohio EPA will assess a separate fee based on the total annual emissions from your facility. You self-report your emissions in accordance with Ohio Administrative Code (OAC) Chapter 3745-78. This fee assessed is based on a fee schedule in ORC section 3745.11 and funds Ohio EPA's permit compliance oversight activities. For facilities that are permitted as synthetic minor sources, the fee schedule is adjusted annually for inflation. Ohio EPA will notify you when it is time to report your emissions and to pay your annual emission fees.

**5. When does my PTIO expire, and when do I need to submit my renewal application?**

This permit expires on the date identified at the beginning of this permit document (see "Authorization" page above) and you must submit a renewal application to renew the permit. Ohio EPA will send a renewal notice to you approximately six months prior to the expiration date of this permit. However, it is

very important that you submit a complete renewal permit application (postmarked prior to expiration of this permit) even if you do not receive the renewal notice.

If a complete renewal application is submitted before the expiration date, Ohio EPA considers this a timely application for purposes of ORC section 119.06, and you are authorized to continue operating the emissions unit(s) covered by this permit beyond the expiration date of this permit until final action is taken by Ohio EPA on the renewal application.

**6. What happens to this permit if my project is delayed or I do not install or modify my source?**

This PTIO expires 18 months after the issue date identified on the "Authorization" page above unless otherwise specified if you have not (1) started constructing the new or modified emission sources identified in this permit, or (2) entered into a binding contract to undertake such construction. This deadline can be extended by up to 12 months, provided you apply to Ohio EPA for this extension within a reasonable time before the 18-month period has ended and you can show good cause for any such extension.

**7. What reports must I submit under this permit?**

An annual permit evaluation report (PER) is required in addition to any malfunction reporting required by OAC rule 3745-15-06 or other specific rule-based reporting requirement identified in this permit. Your PER due date is identified in the Authorization section of this permit.

**8. If I am required to obtain a Title V operating permit in the future, what happens to the operating provisions and PER obligations under this permit?**

If you are required to obtain a Title V permit under OAC Chapter 3745-77 in the future, the permit-to-operate portion of this permit will be superseded by the issued Title V permit. From the effective date of the Title V permit forward, this PTIO will effectively become a PTI (permit-to-install) in accordance with OAC rule 3745-31-02(B). The following terms and conditions of this permit will no longer be applicable after issuance of the Title V permit: Section B, Term 1.b) and Section C, for each emissions unit, Term a)(2).

The PER requirements in this permit remain effective until the date the Title V permit is issued and is effective, and cease to apply after the effective date of the Title V permit. The final PER obligation will cover operations up to the effective date of the Title V permit and must be submitted on or before the submission deadline identified in this permit on the last day prior to the effective date of the Title V permit.

**9. What are my obligations when I perform scheduled maintenance on air pollution control equipment?**

You must perform scheduled maintenance of air pollution control equipment in accordance with OAC rule 3745-15-06(A). If scheduled maintenance requires shutting down or bypassing any air pollution control equipment, you must also shut down the emissions unit(s) served by the air pollution control equipment during maintenance, unless the conditions of OAC rule 3745-15-06(A)(3) are met. Any emissions that exceed permitted amount(s) under this permit (unless specifically exempted by rule) must be reported as deviations in the annual permit evaluation report (PER), including nonexempt excess emissions that occur during approved scheduled maintenance.

**10. Do I have to report malfunctions of emissions units or air pollution control equipment? If so, how must I report?**

If you have a reportable malfunction of any emissions unit(s) or any associated air pollution control system, you must report this to the [DO/LAA] in accordance with OAC rule 3745-15-06(B). Malfunctions that must be reported are those that result in emissions that exceed permitted emission levels. It is your responsibility to evaluate control equipment breakdowns and operational upsets to determine if a reportable malfunction has occurred.

If you have a malfunction, but determine that it is not a reportable malfunction under OAC rule 3745-15-06(B), it is recommended that you maintain records associated with control equipment breakdown or process upsets. Although it is not a requirement of this permit, Ohio EPA recommends that you maintain records for non-reportable malfunctions.

**11. Can Ohio EPA or my local air agency inspect the facility where the emission unit(s) is/are located?**

Yes. Under Ohio law, the Director or his authorized representative may inspect the facility, conduct tests, examine records or reports to determine compliance with air pollution laws and regulations and the terms and conditions of this permit. You must provide, within a reasonable time, any information Ohio EPA requests either verbally or in writing.

**12. What happens if one or more emissions units operated under this permit is/are shut down permanently?**

Ohio EPA can terminate the permit terms associated with any permanently shut down emissions unit. "Shut down" means the emissions unit has been physically removed from service or has been altered in such a way that it can no longer operate without a subsequent "modification" or "installation" as defined in OAC Chapter 3745-31.

You should notify Ohio EPA of any emissions unit that is permanently shut down by submitting a certification that identifies the date on which the emissions unit was permanently shut down. The certification must be submitted by an authorized official from the facility. You cannot continue to operate an emission unit once the certification has been submitted to Ohio EPA by the authorized official.

You must comply with all recordkeeping and reporting for any permanently shut down emissions unit in accordance with the provisions of the permit, regulations or laws that were enforceable during the period of operation, such as the requirement to submit a PER, air fee emission report, or malfunction report. You must also keep all records relating to any permanently shutdown emissions unit, generated while the emissions unit was in operation, for at least five years from the date the record was generated.

Again, you cannot resume operation of any emissions unit certified by the authorized official as being permanently shut down without first applying for and obtaining a permit pursuant to OAC Chapter 3745-31.

**13. Can I transfer this permit to a new owner or operator?**

You can transfer this permit to a new owner or operator. If you transfer the permit, you must follow the procedures in OAC Chapter 3745-31, including notifying Ohio EPA or the local air agency of the change in ownership or operator. Any transferee of this permit must assume the responsibilities of the transferor permit holder.

**14. Does compliance with this permit constitute compliance with OAC rule 3745-15-07, "air pollution nuisance"?**

This permit and OAC rule 3745-15-07 prohibit operation of the air contaminant source(s) regulated under this permit in a manner that causes a nuisance. Ohio EPA can require additional controls or modification of the requirements of this permit through enforcement orders or judicial enforcement action if, upon investigation, Ohio EPA determines existing operations are causing a nuisance.

**15. What happens if a portion of this permit is determined to be invalid?**

If a portion of this permit is determined to be invalid, the remainder of the terms and conditions remain valid and enforceable. The exception is where the enforceability of terms and conditions are dependent on the term or condition that was declared invalid.

**Final Permit-to-Install and Operate**  
Koch Foods, Inc.  
**Permit Number:** P0119547  
**Facility ID:** 1409030900  
**Effective Date:** 11/17/2015

## **B. Facility-Wide Terms and Conditions**

**Final Permit-to-Install and Operate**

Koch Foods, Inc.

**Permit Number:** P0119547

**Facility ID:** 1409030900

**Effective Date:** 11/17/2015

1. This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).
  - a) For the purpose of a permit-to-install document, the facility-wide terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
    - (1) None.
  - b) For the purpose of a permit-to-operate document, the facility-wide terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
    - (1) None.

**Final Permit-to-Install and Operate**  
Koch Foods, Inc.  
**Permit Number:** P0119547  
**Facility ID:** 1409030900  
**Effective Date:** 11/17/2015

## **C. Emissions Unit Terms and Conditions**

**1. B009, Thermal Heater 5**

**Operations, Property and/or Equipment Description:**

14.4 MMBtu/hr Natural Gas-fired Thermal Fluid Heater (Fulton)

- a) This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).
  - (1) For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
    - a. None.
  - (2) For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
    - a. b)(1)f., b)(2)c., d)(1), d)(2), d)(3), e)(2), and e)(3).
- b) Applicable Emissions Limitations and/or Control Requirements
  - (1) The specific operation(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures are identified below. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3) June 30, 2008	Nitrogen oxides (NOx) emissions shall not exceed 0.52 ton per month averaged over a twelve-month rolling period.  Carbon monoxide (CO) emissions shall not exceed 0.43 ton per month averaged over a twelve-month rolling period.  Particulate emissions (PE) and particulate matter 10 microns and less in diameter (PM10) emissions shall not exceed 0.04 ton per month averaged over a twelve-month rolling period.  Volatile organic compound (VOC) emissions shall not exceed 0.03 ton per month averaged over a twelve-month rolling period. See b)(2)a.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
b.	OAC rule 3745-31-05(A)(3)(a)(ii) June 30, 2008	The Best Available Technology (BAT) requirements under OAC rule 3745-31-05(A)(3) do not apply to the NOx, CO, PE/PM10, and VOC emissions from this air contaminant source since the potential to emit for each is less than 10 tons per year.  See b)(2)b.
c.	OAC rule 3745-17-07(A)(1)	Visible particulate emissions from any stack serving this emissions unit shall not exceed 20% opacity, as a six-minute average, except as specified by rule.
d.	OAC rule 3745-17-10(B)(1)	Particulate emissions (PE) shall not exceed 0.020 pound per MMBtu of actual heat input.
e.	OAC rule 3745-18-06(A)	Exempt, since natural gas is the only fuel used in this emissions unit.
f.	40 CFR Part 60, Subpart Dc	See b)(2)c., d)(1), d)(2), and d)(3).

(2) Additional Terms and Conditions

- a. These Best Available Technology (BAT) emission limits apply until U.S. EPA approves Ohio Administrative Code (OAC) paragraph 3745-31-05(A)(3)(a)(ii) (the less than 10 tons per year BAT exemption) into the Ohio State Implementation Plan (SIP).
- b. These requirements apply once U.S. EPA approves OAC paragraph 3745-31-05(A)(3)(a)(ii) (the less than 10 tons per year BAT exemption) as part of the Ohio SIP.
- c. The application and enforcement of the provisions of the New Source Performance Standards (NSPS), as promulgated by the United States Environmental Protection Agency (U.S. EPA), 40 CFR Part 60, are delegated to the Ohio Environmental Protection Agency (Ohio EPA).

c) Operational Restrictions

- (1) None.

d) Monitoring and/or Recordkeeping Requirements

- (1) The owner or operator of each affected facility shall record and maintain records of the amounts of each fuel combusted during each day.

As an alternative to recording and maintaining records of the amounts of each fuel combusted during each day the operator may elect to record and maintain records of the amount of each fuel combusted during each calendar month.

As an alternative to recording and maintaining records of the amounts of each fuel combusted during each day the operator may elect to record and maintain records of the total amount of each steam generating unit fuel delivered to the property during each calendar month provided the only fuels combusted in any steam generating unit at that property are natural gas, wood, distillate oil meeting the current requirements in 40 CFR Part 60, Subpart Dc, section 60.42c. to use fuel certification to demonstrate compliance with the SO<sub>2</sub> standard, and/or fuels, excluding coal and residual oil, not subject to an emission standard (excluding opacity).

- (2) All records required under 40 CFR Part 60, Subpart Dc, section 60.48c. shall be maintained by the permittee for a period of two years following the date of such record.
- (3) The permittee shall maintain a copy of the notification of the date of initial startup of the steam generating unit(s) required per 40 CFR 60.7. This notification should include the design heat input capacity and identification of the fuels to be combusted in each steam generating unit subject to 40 CFR Part 60, Subpart Dc.

e) Reporting Requirements

- (1) The permittee shall submit an annual Permit Evaluation Report (PER) to the Ohio EPA District Office or Local Air Agency by the due date identified in the Authorization section of this permit. The permit evaluation report shall cover a reporting period of no more than twelve months for each air contaminant source identified in this permit.
- (2) The permittee shall submit to the Director notification of:
  - a. the date construction or reconstruction of the emissions unit is commenced, no later than 30 days after such date; and
  - b. the actual date of initial startup, submitted within 15 days after such date.

This notification should include the design heat input capacity and identification of the fuels to be combusted in each steam generating unit subject to 40 CFR Part 60, Subpart Dc.

- (3) The permittee shall submit notification of any modifications made to a steam generating unit that causes it to no longer meet the description of the unit, fuel, or the fuel usage identified in the initial notification submitted in accordance with under 40 CFR 60.7. The notification of the change(s) shall be made in the next compliance report following the modification to the unit, to include any change in the fuels to be combusted in each steam generating unit subject to 40 CFR Part 60, Subpart Dc or the method of compliance.
- (4) The reports required by this permit may be submitted through the Ohio EPA's eBusiness Center: Air Services online web portal; or they may be mailed as a hard copy to the appropriate district office or local air agency.

f) Testing Requirements

- (1) Compliance with the Emissions Limitations and/or Control Requirements specified in section b) of these terms and conditions shall be determined in accordance with the following methods:

a. Emission Limitations:

Nitrogen oxides (NO<sub>x</sub>) emissions shall not exceed 0.52 ton per month averaged over a twelve-month rolling period.

Carbon monoxide (CO) emissions shall not exceed 0.43 ton per month averaged over a twelve-month rolling period.

Particulate emissions (PE) and particulate matter 10 microns and less in diameter (PM<sub>10</sub>) emissions shall not exceed 0.04 ton per month averaged over a twelve-month rolling period.

Volatile organic compound (VOC) emissions shall not exceed 0.03 ton per month averaged over a twelve-month rolling period.

Applicable Compliance Method:

The potential monthly averaged emission rates for this emissions unit were determined based on the following equations from the permittee-supplied information in the PTIO application for P0119547 as submitted on September 18, 2015:

$$\text{NO}_x = (14.4 \text{ MMBtu/hr max heat input rating}) \times (100 \text{ lbs of NO}_x/10^6\text{scf of natural gas usage; AP-42 Table 1.4-1, 7/1998}) / (1020 \text{ MMBtu}/10^6\text{scf of natural gas; AP-42 Table 1.4-1, 7/1998}) \times (8760 \text{ hours per year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.52 \text{ ton per month.}$$

$$\text{CO} = (14.4 \text{ MMBtu/hr max heat input rating}) \times (84 \text{ lbs of CO}/10^6\text{scf of natural gas usage; AP-42 Table 1.4-1, 7/1998}) / (1020 \text{ MMBtu}/10^6\text{scf of natural gas; AP-42 Table 1.4-1, 7/1998}) \times (8760 \text{ hours per year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.43 \text{ ton per month.}$$

$$\text{PE/PM}_{10} = (14.4 \text{ MMBtu/hr max heat input rating}) \times (7.6 \text{ lbs of PE/PM}_{10}/10^6\text{scf of natural gas usage; AP-42 Table 1.4-2, 7/1998}) / (1020 \text{ MMBtu}/10^6\text{scf of natural gas; AP-42 Table 1.4-2, 7/1998}) \times (8760 \text{ hours per year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.04 \text{ ton per month.}$$

$$\text{VOC} = (14.4 \text{ MMBtu/hr max heat input rating}) \times (5.5 \text{ lbs of VOC}/10^6\text{scf of natural gas usage; AP-42 Table 1.4-2, 7/1998}) / (1020 \text{ MMBtu}/10^6\text{scf of natural gas; AP-42 Table 1.4-2, 7/1998}) \times (8760 \text{ hours per year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.03 \text{ ton per month.}$$

**Final Permit-to-Install and Operate**

Koch Foods, Inc.

**Permit Number:** P0119547

**Facility ID:** 1409030900

**Effective Date:** 11/17/2015

b. Emission Limitation:

Visible particulate emissions from any stack serving this emissions unit shall not exceed 20% opacity, as a six-minute average, except as specified by rule.

Applicable Compliance Method:

Compliance shall be determined through visible emission observations performed in accordance with 40 CFR Part 60, Appendix A, Method 9.

c. Emission Limitation:

Particulate emissions (PE) shall not exceed 0.020 pound per MMBtu of actual heat input.

Applicable Compliance Method:

If required, compliance with the lb/MMBtu emission limitation shall be demonstrated by testing performed in accordance with 40 CFR Part 60, Appendix A, Methods 1 – 5.

g) Miscellaneous Requirements

(1) None.

**2. P009, Water Heater 4**

**Operations, Property and/or Equipment Description:**

15 MMBtu/hr Natural Gas-fired Direct Contact Water Heater (Kemco)

- a) This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).
  - (1) For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
    - a. None.
  - (2) For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
    - a. b)(1)f., b)(2)c., d)(1), d)(2), d)(3), e)(2), and e)(3).
- b) Applicable Emissions Limitations and/or Control Requirements
  - (1) The specific operation(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures are identified below. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3) June 30, 2008	<p>Nitrogen oxides (NOx) emissions shall not exceed 0.54 ton per month averaged over a twelve-month rolling period.</p> <p>Carbon monoxide (CO) emissions shall not exceed 0.45 ton per month averaged over a twelve-month rolling period.</p> <p>Particulate emissions (PE) and particulate matter 10 microns and less in diameter (PM10) emissions shall not exceed 0.04 ton per month averaged over a twelve-month rolling period.</p> <p>Volatile organic compound (VOC) emissions shall not exceed 0.03 ton per month averaged over a twelve-month rolling period. See b)(2)a.</p>

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
b.	OAC rule 3745-31-05(A)(3)(a)(ii) June 30, 2008	The Best Available Technology (BAT) requirements under OAC rule 3745-31-05(A)(3) do not apply to the NOx, CO, PE/PM10, and VOC emissions from this air contaminant source since the potential to emit for each is less than 10 tons per year.  See b)(2)b.
c.	OAC rule 3745-17-07(A)(1)	Visible particulate emissions from any stack serving this emissions unit shall not exceed 20% opacity, as a six-minute average, except as specified by rule.
d.	OAC rule 3745-17-11(B)(1)	Particulate emissions (PE) shall not exceed 47.9 pounds per hour.
e.	OAC rule 3745-18-06(A)	Exempt, since natural gas is the only fuel used in this emissions unit.
f.	40 CFR Part 60, Subpart Dc	See b)(2)c., d)(1), d)(2), and d)(3).

(2) Additional Terms and Conditions

- a. These Best Available Technology (BAT) emission limits apply until U.S. EPA approves Ohio Administrative Code (OAC) paragraph 3745-31-05(A)(3)(a)(ii) (the less than 10 tons per year BAT exemption) into the Ohio State Implementation Plan (SIP).
- b. These requirements apply once U.S. EPA approves OAC paragraph 3745-31-05(A)(3)(a)(ii) (the less than 10 tons per year BAT exemption) as part of the Ohio SIP.
- c. The application and enforcement of the provisions of the New Source Performance Standards (NSPS), as promulgated by the United States Environmental Protection Agency (U.S. EPA), 40 CFR Part 60, are delegated to the Ohio Environmental Protection Agency (Ohio EPA).

c) Operational Restrictions

- (1) None.

d) Monitoring and/or Recordkeeping Requirements

- (1) The owner or operator of each affected facility shall record and maintain records of the amounts of each fuel combusted during each day.

As an alternative to recording and maintaining records of the amounts of each fuel combusted during each day the operator may elect to record and maintain records of the amount of each fuel combusted during each calendar month.

As an alternative to recording and maintaining records of the amounts of each fuel combusted during each day the operator may elect to record and maintain records of the total amount of each steam generating unit fuel delivered to the property during each calendar month provided the only fuels combusted in any steam generating unit at that property are natural gas, wood, distillate oil meeting the current requirements in 40 CFR Part 60, Subpart Dc, section 60.42c. to use fuel certification to demonstrate compliance with the SO<sub>2</sub> standard, and/or fuels, excluding coal and residual oil, not subject to an emission standard (excluding opacity).

- (2) All records required under 40 CFR Part 60, Subpart Dc, section 60.48c. shall be maintained by the permittee for a period of two years following the date of such record.
- (3) The permittee shall maintain a copy of the notification of the date of initial startup of the steam generating unit(s) required per 40 CFR 60.7. This notification should include the design heat input capacity and identification of the fuels to be combusted in each steam generating unit subject to 40 CFR Part 60, Subpart Dc.

e) Reporting Requirements

- (1) The permittee shall submit an annual Permit Evaluation Report (PER) to the Ohio EPA District Office or Local Air Agency by the due date identified in the Authorization section of this permit. The permit evaluation report shall cover a reporting period of no more than twelve months for each air contaminant source identified in this permit.
- (2) The permittee shall submit to the Director notification of:
  - a. the date construction or reconstruction of the emissions unit is commenced, no later than 30 days after such date; and
  - b. the actual date of initial startup, submitted within 15 days after such date.

This notification should include the design heat input capacity and identification of the fuels to be combusted in each steam generating unit subject to 40 CFR Part 60, Subpart Dc.

- (3) The permittee shall submit notification of any modifications made to a steam generating unit that causes it to no longer meet the description of the unit, fuel, or the fuel usage identified in the initial notification submitted in accordance with under 40 CFR 60.7. The notification of the change(s) shall be made in the next compliance report following the modification to the unit, to include any change in the fuels to be combusted in each steam generating unit subject to 40 CFR Part 60, Subpart Dc or the method of compliance.
- (4) The reports required by this permit may be submitted through the Ohio EPA's eBusiness Center: Air Services online web portal; or they may be mailed as a hard copy to the appropriate district office or local air agency.

f) Testing Requirements

- (1) Compliance with the Emissions Limitations and/or Control Requirements specified in section b) of these terms and conditions shall be determined in accordance with the following methods:

a. Emission Limitations:

Nitrogen oxides (NO<sub>x</sub>) emissions shall not exceed 0.54 ton per month averaged over a twelve-month rolling period.

Carbon monoxide (CO) emissions shall not exceed 0.45 ton per month averaged over a twelve-month rolling period.

Particulate emissions (PE) and particulate matter 10 microns and less in diameter (PM<sub>10</sub>) emissions shall not exceed 0.04 ton per month averaged over a twelve-month rolling period.

Volatile organic compound (VOC) emissions shall not exceed 0.03 ton per month averaged over a twelve-month rolling period.

Applicable Compliance Method:

The potential monthly averaged emission rates for this emissions unit were determined based on the following equations from the permittee-supplied information in the PTIO application for P0119547 as submitted on September 18, 2015:

$$\text{NO}_x = (15 \text{ MMBtu/hr max heat input rating}) \times (100 \text{ lbs of NO}_x/10^6\text{scf of natural gas usage; AP-42 Table 1.4-1, 7/1998}) / (1020 \text{ MMBtu}/10^6\text{scf of natural gas; AP-42 Table 1.4-1, 7/1998}) \times (8760 \text{ hours per year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.54 \text{ ton per month.}$$

$$\text{CO} = (15 \text{ MMBtu/hr max heat input rating}) \times (84 \text{ lbs of CO}/10^6\text{scf of natural gas usage; AP-42 Table 1.4-1, 7/1998}) / (1020 \text{ MMBtu}/10^6\text{scf of natural gas; AP-42 Table 1.4-1, 7/1998}) \times (8760 \text{ hours per year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.45 \text{ ton per month.}$$

$$\text{PE/PM}_{10} = (15 \text{ MMBtu/hr max heat input rating}) \times (7.6 \text{ lbs of PE/PM}_{10}/10^6\text{scf of natural gas usage; AP-42 Table 1.4-2, 7/1998}) / (1020 \text{ MMBtu}/10^6\text{scf of natural gas; AP-42 Table 1.4-2, 7/1998}) \times (8760 \text{ hours per year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.04 \text{ ton per month.}$$

$$\text{VOC} = (15 \text{ MMBtu/hr max heat input rating}) \times (5.5 \text{ lbs of VOC}/10^6\text{scf of natural gas usage; AP-42 Table 1.4-2, 7/1998}) / (1020 \text{ MMBtu}/10^6\text{scf of natural gas; AP-42 Table 1.4-2, 7/1998}) \times (8760 \text{ hours per year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.03 \text{ ton per month.}$$

**Final Permit-to-Install and Operate**

Koch Foods, Inc.

**Permit Number:** P0119547

**Facility ID:** 1409030900

**Effective Date:** 11/17/2015

b. Emission Limitation:

Visible particulate emissions from any stack serving this emissions unit shall not exceed 20% opacity, as a six-minute average, except as specified by rule.

Applicable Compliance Method:

Compliance shall be determined through visible emission observations performed in accordance with 40 CFR Part 60, Appendix A, Method 9.

c. Emission Limitation:

Particulate emissions (PE) shall not exceed 47.9 pounds per hour.

Applicable Compliance Method:

The allowable emission rate is based upon the process weight rate of 141,613 pounds per hour of water throughput and Table I listed in the Appendix of OAC rule 3745-17-11.

If required, compliance with the pound per hour emission limitation shall be demonstrated by testing performed in accordance with 40 CFR Part 60, Appendix A, Methods 1 – 5.

g) Miscellaneous Requirements

(1) None.

**3. P011, Line 6**

**Operations, Property and/or Equipment Description:**

Cooking Line 6 - Char Marker (4.3 MMBtu/hr) and Spiral Indirect Heated Oven / Fryer

a) This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

(1) For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

a. None.

(2) For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

a. None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operation(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures are identified below. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3) June 30, 2008	<p>Nitrogen oxides (NOx) emissions shall not exceed 0.15 ton per month averaged over a twelve-month rolling period.</p> <p>Carbon monoxide (CO) emissions shall not exceed 0.13 ton per month averaged over a twelve-month rolling period.</p> <p>Stack particulate emissions (PE) and particulate matter 10 microns and less in diameter (PM10) emissions (filterable and condensable) shall not exceed 0.41 ton per month averaged over a twelve-month rolling period.</p> <p>Fugitive particulate emissions (PE) and particulate matter 10 microns and less in diameter (PM10) emissions (filterable and condensable) shall not exceed 0.04 ton</p>

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
		<p>per month averaged over a twelve-month rolling period.</p> <p>Stack volatile organic compound (VOC) emissions shall not exceed 0.21 ton per month averaged over a twelve-month rolling period.</p> <p>Fugitive volatile organic compound (VOC) emissions shall not exceed 0.02 ton per month averaged over a twelve-month rolling period.</p> <p>See b)(2)a.</p>
b.	OAC rule 3745-31-05(A)(3)(a)(ii) June 30, 2008	<p>The Best Available Technology (BAT) requirements under OAC rule 3745-31-05(A)(3) do not apply to the NOx, CO, PE/PM10, and VOC emissions from this air contaminant source since the potential to emit for each is less than 10 tons per year.</p> <p>See b)(2)b.</p>
c.	OAC rule 3745-17-07(A)(1)	Visible particulate emissions from any stack shall not exceed 20 percent opacity as a six-minute average, except as provided by rule. The presence of water vapor in the plume does not constitute visible emissions.
d.	OAC rule 3745-17-07(B)	Visible fugitive particulate emissions shall not exceed twenty percent opacity as a three-minute average.
e.	OAC rule 3745-17-11(B)(1)	Filterable particulate emissions (PE) shall not exceed 14.0 pounds per hour.

(2) Additional Terms and Conditions

- a. These Best Available Technology (BAT) emission limits apply until U.S. EPA approves Ohio Administrative Code (OAC) paragraph 3745-31-05(A)(3)(a)(ii) (the less than 10 tons per year BAT exemption) into the Ohio State Implementation Plan (SIP).
- b. These requirements apply once U.S. EPA approves OAC paragraph 3745-31-05(A)(3)(a)(ii) (the less than 10 tons per year BAT exemption) as part of the Ohio SIP.

- c) Operational Restrictions
  - (1) The permittee shall process no beef product in this emissions unit.
- d) Monitoring and/or Recordkeeping Requirements
  - (1) The permittee shall collect and record the following information each month for this emissions unit:
    - a. the identification of each cooked product produced;
    - b. the number of tons of each cooked product produced;
    - c. the PE/PM10 emission factor, in pounds of PE/PM10 emissions per ton of cooked product, of each cooked product produced;
    - d. the VOC emission factor, in pounds of VOC emissions per ton of cooked product, of each cooked product produced;
    - e. the total stack PE/PM10 emission rate for all cooked products produced, in pounds or tons;
    - f. the total stack VOC emission rate for all cooked products produced, in pounds or tons;
    - g. the total fugitive PE/PM10 emission rate for all cooked products produced, in pounds or tons;
    - h. the total fugitive VOC emission rate for all cooked products produced, in pounds or tons; and
    - i. the updated monthly emission rates, in tons, for stack PE/PM10, fugitive PE/PM10, stack VOC, and fugitive VOC averaged over a twelve-month rolling period. (This shall include the information for the current month and the preceding eleven months.)
  - (2) The permittee shall perform daily checks, when the emissions unit is in operation and when the weather conditions allow, for any visible particulate emissions from the stack and for any visible emissions of fugitive particulate emissions from the egress points (i.e., building windows, doors, roof monitors, etc.) serving this emissions unit. The presence or absence of any visible emissions shall be noted in an operations log. If visible emissions are observed, the permittee shall also note the following in the operations log:
    - a. the location and color of the emissions;
    - b. whether the emissions are representative of normal operations;
    - c. if the emissions are not representative of normal operations, the cause of the abnormal emissions;

- d. the total duration of any visible emission incident; and
- e. any corrective actions taken to minimize or eliminate the visible emissions.

If visible emissions are present, a visible emission incident has occurred. The observer does not have to document the exact start and end times for the visible emission incident under item (d) above or continue the daily check until the incident has ended. The observer may indicate that the visible emission incident was continuous during the observation period (or, if known, continuous during the operation of the emissions unit). With respect to the documentation of corrective actions, the observer may indicate that no corrective actions were taken if the visible emissions were representative of normal operations, or specify the minor corrective actions that were taken to ensure that the emissions unit continued to operate under normal conditions, or specify the corrective actions that were taken to eliminate abnormal visible emissions.

e) Reporting Requirements

(1) The permittee shall submit an annual Permit Evaluation Report (PER) to the Ohio EPA District Office or Local Air Agency by the due date identified in the Authorization section of this permit. The permit evaluation report shall cover a reporting period of no more than twelve months for each air contaminant source identified in this permit.

a. The permittee shall identify the following information in the annual permit evaluation report in accordance with the monitoring requirements for visible emissions in d)(2) above:

- i. all days during which any visible particulate emissions were observed from the stack serving this emissions unit;
- ii. all days during which any visible emissions of fugitive particulate emissions were observed from the egress points (i.e., building windows, doors, roof monitors, etc.) serving this emissions unit; and
- iii. any corrective actions taken to minimize or eliminate the visible particulate emissions from the stack and/or visible emissions of fugitive particulate emissions.

(2) The reports required by this permit may be submitted through the Ohio EPA's eBusiness Center: Air Services online web portal; or they may be mailed as a hard copy to the appropriate district office or local air agency.

f) Testing Requirements

(1) Compliance with the Emissions Limitations and/or Control Requirements specified in section b) of these terms and conditions shall be determined in accordance with the following methods:

a. Emission Limitations:

Nitrogen oxides (NO<sub>x</sub>) emissions shall not exceed 0.15 ton per month averaged over a twelve-month rolling period.

Carbon monoxide (CO) emissions shall not exceed 0.13 ton per month averaged over a twelve-month rolling period.

Applicable Compliance Method:

The potential monthly averaged emission rates for this emissions unit were determined based on the following equations from the permittee-supplied information in the PTIO application for P0119547 as submitted on September 18, 2015:

$$\text{NOx} = (4.3 \text{ MMBtu/hr max heat input rating}) \times (100 \text{ lbs of NOx}/10^6\text{scf of natural gas usage; AP-42 Table 1.4-1, 7/1998}) / (1020 \text{ MMBtu}/10^6\text{scf of natural gas; AP-42 Table 1.4-1, 7/1998}) \times (8760 \text{ hours per year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.15 \text{ ton per month.}$$

$$\text{CO} = (4.3 \text{ MMBtu/hr max heat input rating}) \times (84 \text{ lbs of CO}/10^6\text{scf of natural gas usage; AP-42 Table 1.4-1, 7/1998}) / (1020 \text{ MMBtu}/10^6\text{scf of natural gas; AP-42 Table 1.4-1, 7/1998}) \times (8760 \text{ hours per year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.13 \text{ ton per month.}$$

b. Emission Limitations:

Stack particulate emissions (PE) and particulate matter 10 microns and less in diameter (PM10) emissions (filterable and condensable) shall not exceed 0.41 ton per month averaged over a twelve-month rolling period.

Fugitive particulate emissions (PE) and particulate matter 10 microns and less in diameter (PM10) emissions (filterable and condensable) shall not exceed 0.04 ton per month averaged over a twelve-month rolling period.

Stack volatile organic compound (VOC) emissions shall not exceed 0.21 ton per month averaged over a twelve-month rolling period.

Fugitive volatile organic compound (VOC) emissions shall not exceed 0.02 ton per month averaged over a twelve-month rolling period.

Applicable Compliance Method:

The potential monthly averaged emission rates for this emissions unit were determined based on the following equations from the permittee-supplied information in the PTIO application for P0119547 as submitted on September 18, 2015:

$$\text{Stack PE/PM10} = (12,500 \text{ lbs/hr max cooked product throughput}) / (2000 \text{ lbs/ton}) \times [(0.004 \text{ lb/ton oven 1}) + (0.011 \text{ lb/ton oven 2}) + (0.152 \text{ lb/ton fryer}) + (0.047 \text{ lb/ton char marker}) \text{ emission factors developed from May 12-15, 2015 stack test}] \times (7300 \text{ hours/year}) / (2000 \text{ lbs/ton}) / (12 \text{ months/year}) = 0.41 \text{ ton per month.}$$

$$\text{Fugitive PE/PM10} = (12,500 \text{ lbs/hr max cooked product throughput}) / (2000 \text{ lbs/ton}) \times [(0.017 \text{ lb/ton fryer fugitive}) + (0.0052 \text{ lb/ton char marker fugitive}) \text{ emission factors developed from May 12-15, 2015 stack test and}]$$

**Final Permit-to-Install and Operate**

Koch Foods, Inc.

**Permit Number:** P0119547

**Facility ID:** 1409030900

**Effective Date:** 11/17/2015

permitteesupplied information] x (7300 hours/year) / (2000 lbs/ton) / (12 months/year) = 0.04 ton per month.

Stack VOC = (12,500 lbs/hr max cooked product throughput) / (2000 lbs/ton) x [(0.004 lb/ton oven 1) + (0.010 lb/ton oven 2) + (0.089 lb/ton fryer) + (0.008 lb/ton char marker) emission factors developed from May 12-15, 2015 stack test] x (7300 hours/year) / (2000 lbs/ton) / (12 months/year) = 0.21 ton per month.

Fugitive VOC = (12,500 lbs/hr max cooked product throughput) / (2000 lbs/ton) x [(0.0099 lb/ton fryer fugitive) + (0.0009 lb/ton char marker fugitive) emission factors developed from May 12-15, 2015 stack test and permittee supplied information] x (7300 hours/year) / (2000 lbs/ton) / (12 months/year) = 0.02 ton per month.

c. Emission Limitations:

Visible particulate emissions from any stack shall not exceed 20 percent opacity as a six-minute average, except as specified by rule; and visible fugitive particulate emissions shall not exceed 20 percent opacity as a three-minute average.

Applicable Compliance Method:

If required, compliance with the visible particulate emission limitations shall be determined through visible emission observations performed in accordance with U.S. EPA Method 9.

d. Emission Limitation:

Filterable particulate emissions (PE) shall not exceed 14.0 pounds per hour.

Applicable Compliance Method:

The allowable emission rate is based upon the process weight rate of 12,500 pounds per hour of raw meat throughput and Table I listed in the Appendix of OAC rule 3745-17-11.

If required, compliance with the pound per hour emission limitation shall be demonstrated by testing performed in accordance with 40 CFR Part 60, Appendix A, Methods 1 – 5.

g) Miscellaneous Requirements

(1) None.

**4. Emissions Unit Group: Boilers 5 & 6: B007 and B008**

<b>EU ID</b>	<b>Operations, Property and/or Equipment Description</b>

B008	16.3 MMBtu/hr Natural Gas-fired Boiler (Cleaver Brooks)

a) This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

(1) For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

a. None.

(2) For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

a. b)(1)f., b)(2)c., d)(2), d)(3), d)(4), e)(2), and e)(3).

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operation(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures are identified below. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	<b>Applicable Rules/Requirements</b>	<b>Applicable Emissions Limitations/Control Measures</b>
a.	OAC rule 3745-31-05(A)(3) June 30, 2008	Install a burner that is designed to meet 0.0350 pound of nitrogen oxides (NOx) emissions per MMBtu of heat input. Install a burner that is designed to meet 0.0187 pound of carbon monoxide (CO) emissions per MMBtu of heat input. Install a burner that is designed to meet 0.0075 pound of particulate emissions (PE) and particulate matter 10 microns and less in diameter (PM10) emissions per MMBtu of heat input.  Install a burner that is designed to meet 0.0036 pound of volatile organic compound (VOC) emissions per MMBtu of heat input.  See b)(2)a.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
b.	OAC rule 3745-31-05(A)(3)(a)(ii) June 30, 2008	The Best Available Technology (BAT) requirements under OAC rule 3745-31-05(A)(3) do not apply to the NOx, CO, PE/PM10, and VOC emissions from this air contaminant source since the potential to emit for each is less than 10 tons per year.  See b)(2)b.
c.	OAC rule 3745-17-07(A)(1)	Visible particulate emissions from any stack serving this emissions unit shall not exceed 20% opacity, as a six-minute average, except as specified by rule.
d.	OAC rule 3745-17-10(B)(1)	Particulate emissions (PE) shall not exceed 0.020 pound per MMBtu of actual heat input.
e.	OAC rule 3745-18-06(A)	Exempt, since natural gas is the only fuel used in this emissions unit.
f.	40 CFR Part 60, Subpart Dc	See b)(2)c., d)(2), d)(3), and d)(4).

(2) Additional Terms and Conditions

- a. These Best Available Technology (BAT) emission limits apply until U.S. EPA approves Ohio Administrative Code (OAC) paragraph 3745-31-05(A)(3)(a)(ii) (the less than 10 tons per year BAT exemption) into the Ohio State Implementation Plan (SIP).
- b. These requirements apply once U.S. EPA approves OAC paragraph 3745-31-05(A)(3)(a)(ii) (the less than 10 tons per year BAT exemption) as part of the Ohio SIP.
- c. The application and enforcement of the provisions of the New Source Performance Standards (NSPS), as promulgated by the United States Environmental Protection Agency (U.S. EPA), 40 CFR Part 60, are delegated to the Ohio Environmental Protection Agency (Ohio EPA).

c) Operational Restrictions

- (1) The permittee shall maintain the emissions unit following the manufacturer's recommendations to ensure the equipment continues to operate as designed.

d) Monitoring and/or Recordkeeping Requirements

- (1) The permittee shall maintain records of the following information:
  - a. the date and description of any maintenance and/or repairs performed on the emissions unit; and

- b. a copy of the manufacturer's recommended maintenance procedures for the emissions unit.

These records shall be maintained at the facility and shall be made available to the appropriate Ohio EPA District Office or Local Air Agency upon request.

- (2) The owner or operator of each affected facility shall record and maintain records of the amounts of each fuel combusted during each day.

As an alternative to recording and maintaining records of the amounts of each fuel combusted during each day the operator may elect to record and maintain records of the amount of each fuel combusted during each calendar month.

As an alternative to recording and maintaining records of the amounts of each fuel combusted during each day the operator may elect to record and maintain records of the total amount of each steam generating unit fuel delivered to the property during each calendar month provided the only fuels combusted in any steam generating unit at that property are natural gas, wood, distillate oil meeting the current requirements in 40 CFR Part 60, Subpart Dc, section 60.42c. to use fuel certification to demonstrate compliance with the SO<sub>2</sub> standard, and/or fuels, excluding coal and residual oil, not subject to an emission standard (excluding opacity).

- (3) All records required under 40 CFR Part 60, Subpart Dc, section 60.48c. shall be maintained by the permittee for a period of two years following the date of such record.
- (4) The permittee shall maintain a copy of the notification of the date of initial startup of the steam generating unit(s) required per 40 CFR 60.7. This notification should include the design heat input capacity and identification of the fuels to be combusted in each steam generating unit subject to 40 CFR Part 60, Subpart Dc.

e) Reporting Requirements

- (1) The permittee shall submit an annual Permit Evaluation Report (PER) to the Ohio EPA District Office or Local Air Agency by the due date identified in the Authorization section of this permit. The permit evaluation report shall cover a reporting period of no more than twelve months for each air contaminant source identified in this permit.
- (2) The permittee shall submit to the Director notification of:
  - a. the date construction or reconstruction of the emissions unit is commenced, no later than 30 days after such date; and
  - b. the actual date of initial startup, submitted within 15 days after such date.

This notification should include the design heat input capacity and identification of the fuels to be combusted in each steam generating unit subject to 40 CFR Part 60, Subpart Dc.

- (3) The permittee shall submit notification of any modifications made to a steam generating unit that causes it to no longer meet the description of the unit, fuel, or the fuel usage identified in the initial notification submitted in accordance with under 40 CFR 60.7. The

notification of the change(s) shall be made in the next compliance report following the modification to the unit, to include any change in the fuels to be combusted in each steam generating unit subject to 40 CFR Part 60, Subpart Dc or the method of compliance.

- (4) The reports required by this permit may be submitted through the Ohio EPA's eBusiness Center: Air Services online web portal; or they may be mailed as a hard copy to the appropriate district office or local air agency.

f) Testing Requirements

- (1) Compliance with the Emissions Limitations and/or Control Requirements specified in section b) of these terms and conditions shall be determined in accordance with the following methods:

a. Emission Limitations:

Install a burner that is designed to meet 0.0350 pound of nitrogen oxides (NO<sub>x</sub>) emissions per MMBtu of heat input.

Install a burner that is designed to meet 0.0187 pound of carbon monoxide (CO) emissions per MMBtu of heat input.

Install a burner that is designed to meet 0.0075 pound of particulate emissions (PE) and particulate matter 10 microns and less in diameter (PM<sub>10</sub>) emissions per MMBtu of heat input.

Install a burner that is designed to meet 0.0036 pound of volatile organic compound (VOC) emissions per MMBtu of heat input.

Applicable Compliance Method:

Compliance shall be based on Cleaver-Brooks Boiler Expected Emission Data sheet for Boiler Model CBEX Elite, dated September 14, 2015, as supplied in the application for PTIO P0119547.

b. Emission Limitation:

Visible particulate emissions from any stack serving this emissions unit shall not exceed 20% opacity, as a six-minute average, except as specified by rule.

Applicable Compliance Method:

Compliance shall be determined through visible emission observations performed in accordance with 40 CFR Part 60, Appendix A, Method 9.

c. Emission Limitation:

Particulate emissions (PE) shall not exceed 0.020 pound per MMBtu of actual heat input.

**Final Permit-to-Install and Operate**

Koch Foods, Inc.

**Permit Number:** P0119547

**Facility ID:** 1409030900

**Effective Date:** 11/17/2015

Applicable Compliance Method:

Compliance shall be based on Cleaver-Brooks Boiler Expected Emission Data sheet for Boiler Model CBEX Elite, dated September 14, 2015, as supplied in the application for PTIO P0119547.

If required, compliance with the lb/MMBtu emission limitation shall be demonstrated by testing performed in accordance with 40 CFR Part 60, Appendix A, Methods 1 – 5.

g) Miscellaneous Requirements

- (1) None.
