

A. Additional Terms and Conditions:

1. The maximum annual operating hours for emissions unit F011 shall not exceed 1,456 based upon a rolling, 12-month summation of the operating hours.

To ensure enforceability during the first 12-months of operation following the issuance of this permit, the permittee shall not exceed the operating hours levels specified in the following table:

Month	Maximum Allowable Cumulative Operating Hours
1	356
1-2	456
1-3	556
1-4	656
1-5	756
1-6	856
1-7	956
1-8	1,056
1-9	1,156
1-10	1,256
1-11	1,356
1-12	1,456

After the first 12 calendar months of operation following the issuance of this permit, compliance with the annual operating hours limitation shall be based upon a rolling, 12-month summation of the operating hours.

2. The permittee shall employ reasonably available control measures on the Gravel Screener for the purpose of ensuring compliance with the above-mentioned applicable requirements. In accordance with the permittee's permit application, the permittee has committed to maintain enclosures and good operating practices to ensure compliance. Nothing in this paragraph shall prohibit the permittee from employing other control measures to ensure compliance.

B. Monitoring and Record Keeping Requirements:

1. The permittee shall maintain monthly records of the following information:
 - (a) The operating hours for each month
 - (b) Beginning after the first 12 calendar months of operation following issuance of this permit, the rolling 12-month summation of the

operating hours.

Also, during the first 12 calendar months of operation following issuance of this permit, the permittee shall record the cumulative operating hours for each calendar month.

2. The permittee shall perform daily checks, while the equipment is in operation, for any unusual visible emissions of fugitive dust from the emissions unit. A record of the necessary and completed corrective actions resulting from the daily checks shall be maintained by the permittee.

C. Reporting Requirements:

1. The permittee shall submit deviation (excursion) reports which identify all exceedances of the rolling, 12-month operating hours limitation and, for the first 12 calendar months of operation following issuance of this permit, all exceedances of the maximum allowable cumulative operating hours levels. These reports are due by the date described in Part 1 - General Terms and Conditions of this permit under section (A)(1).
2. The permittee shall submit reports in accordance with the reporting requirements of the General Terms and Conditions which identify each day that the observations required under the monitoring section of this permit were not performed and each day that any corrective measures required to be taken pursuant to the monitoring section of this permit were not performed.

D. Compliance Determination:

1. Compliance with the visible emission limitations identified above shall be determined in accordance with the following methods:

Emission Limitation

20 percent opacity as a 3-minute average.

Applicable Compliance Method:

Test Method 9 as set forth in "Appendix on Test Methods" in 40 CFR, Part 60 ("Standards of Performance for New Stationary Sources"), as such Appendix existed on July 1, 1996, and the modifications listed in paragraphs (B)(3)(a) and (B)(3)(b) of OAC rule 3745-17-03.

E. Miscellaneous Requirements:

None

A. Additional Terms and Conditions:

1. The maximum annual operating hours for emissions unit F012 shall not exceed 2,912 based upon a rolling, 12-month summation of the operating hours.

To ensure enforceability during the first 12-months of operation following the issuance of this permit, the permittee shall not exceed the operating hours levels specified in the following table:

Month	Maximum Allowable Cumulative Operating Hours
1	712
1-2	912
1-3	1,112
1-4	1,312
1-5	1,512
1-6	1,712
1-7	1,912
1-8	2,112
1-9	2,312
1-10	2,512
1-11	2,712
1-12	2,912

After the first 12 calendar months of operation following the issuance of this permit, compliance with the annual operating hours limitation shall be based upon a rolling, 12-month summation of the operating hours.

2. The permittee shall employ reasonably available control measures on the Coal Screener for the purpose of ensuring compliance with the above-mentioned applicable requirements. In accordance with the permittee's permit application, the permittee has committed to maintain enclosures and good operating practices to ensure compliance. Nothing in this paragraph shall prohibit the permittee from employing other control measures to ensure compliance.

B. Monitoring and Record Keeping Requirements:

1. The permittee shall maintain monthly records of the following information:
 - (a) The operating hours for each month
 - (b) Beginning after the first 12 calendar months of operation following

issuance of this permit, the rolling 12-month summation of the operating hours.

Also, during the first 12 calendar months of operation following issuance of this permit, the permittee shall record the cumulative operating hours for each calendar month.

2. The permittee shall perform daily checks, while the equipment is in operation, for any unusual visible emissions of fugitive dust from the emissions unit. A record of the necessary and completed corrective actions resulting from the daily checks shall be maintained by the permittee.

C. Reporting Requirements:

1. The permittee shall submit deviation (excursion) reports which identify all exceedances of the rolling, 12-month operating hours limitation and, for the first 12 calendar months of operation following issuance of this permit, all exceedances of the maximum allowable cumulative operating hours levels. These reports are due by the date described in Part 1 - General Terms and Conditions of this permit under section (A)(1).
2. The permittee shall submit reports in accordance with the reporting required under the monitoring section of this permit were not performed and each day that any corrective measures required to be taken pursuant to the monitoring section of this permit were not performed.

D. Compliance Determination:

1. Compliance with the visible emission limitations identified above shall be determined in accordance with the following methods:

Emission Limitation

20 percent opacity as a 3-minute average.

Applicable Compliance Method:

Test Method 9 as set forth in "Appendix on Test Methods" in 40 CFR, Part 60 ("Standards of Performance for New Stationary Sources"), as such Appendix existed on July 1, 1996, and the modifications listed in paragraphs (B)(3)(a) and (B)(3)(b) of OAC rule 3745-17-03.

E. Miscellaneous Requirements:

None

A. Additional Terms and Conditions:

1. The maximum annual operating hours for emissions unit F013 shall not exceed 2,912 based upon a rolling, 12-month summation of the operating hours.

To ensure enforceability during the first 12-months of operation following the issuance of this permit, the permittee shall not exceed the operating hours levels specified in the following table:

Month	Maximum Allowable Cumulative Operating Hours
1	712
1-2	912
1-3	1,112
1-4	1,312
1-5	1,512
1-6	1,712
1-7	1,912
1-8	2,112
1-9	2,312
1-10	2,512
1-11	2,712
1-12	2,912

After the first 12 calendar months of operation following the issuance of this permit, compliance with the annual operating hours limitation shall be based upon a rolling, 12-month summation of the operating hours.

2. The permittee shall employ reasonably available control measures on the Railcar Unloader for the purpose of ensuring compliance with the above-mentioned applicable requirements. In accordance with the permittee's permit application, the permittee has committed to maintain enclosures and good operating practices to ensure compliance. Nothing in this paragraph shall prohibit the permittee from employing other control measures to ensure compliance.

B. Monitoring and Record Keeping Requirements:

1. The permittee shall maintain monthly records of the following information:
 - (a) The operating hours for each month
 - (b) Beginning after the first 12 calendar months of operation following

issuance of this permit, the rolling 12-month summation of the operating hours.

Also, during the first 12 calendar months of operation following issuance of this permit, the permittee shall record the cumulative operating hours for each calendar month.

2. The permittee shall perform daily checks, while the equipment is in operation, for any unusual visible emissions of fugitive dust from the emissions unit. A record of the necessary and completed corrective actions resulting from the daily checks shall be maintained by the permittee.

C. Reporting Requirements:

1. The permittee shall submit deviation (excursion) reports which identify all exceedances of the rolling, 12-month operating hours limitation and, for the first 12 calendar months of operation following issuance of this permit, all exceedances of the maximum allowable cumulative operating hours levels. These reports are due by the date described in Part 1 - General Terms and Conditions of this permit under section (A)(1).
2. The permittee shall submit reports in accordance with the reporting requirements of the General Terms and Conditions which identify each day that the observations required under the monitoring section of this permit were not performed and each day that any corrective measures required to be taken pursuant to the monitoring section of this permit were not performed.

D. Compliance Determination:

Compliance with the visible emission limitations identified above shall be determined in accordance with the following methods:

Emission Limitation

20 percent opacity as a 3-minute average.

Applicable Compliance Method:

Test Method 9 as set forth in "Appendix on Test Methods" in 40 CFR, Part 60 ("Standards of Performance for New Stationary Sources"), as such Appendix existed on July 1, 1996, and the modifications listed in paragraphs (B)(3)(a) and (B)(3)(b) of OAC rule 3745-17-03.

E. Miscellaneous Requirements:

None
