Re: Permit to Install
Gallia County
Application No: 06-2705

CERTIFIED MAIL

August 8, 1990

HOLZER MEDICAL CENTER
TOM CHILDS
285 JACKSON PIKE
GALLIPOLIS, OH 45631

Dear Sir:

Enclosed please find an Ohio EPA Permit to Install which will allow you to install the described source(s) in a manner indicated in the permit. Because this permit contains several conditions and restrictions I urge you to read it carefully.

You are hereby notified that this action by the Director is final and may be appealed to the Ohio Environmental Board of Review pursuant to Chapter 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed with the Environmental Board of Review within thirty (30) days after notice of the Director's action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency and the Environmental Law Division of the Office of the Attorney General within three (3) days of filing with the Board. An appeal may be filed with the Environmental Board of Review at the following address:

Environmental Board of Review
236 East Town Street, Room 300
Columbus, Ohio 43215

Very truly yours,

Thomas G. Rigo, Manager
Field Operations & Permit Section
Division of Air Pollution Control

Permit to Install Terms and Conditions

Application No. 06-2705
APS Premise No. 0627010000
Permit Fee: \$390.00

Name of Facility: HOLZER MEDICAL CENTER

Person to Contact: TOM CHILDS

Address: 285 JACKSON PIKE
GALLIPOLIS, OH 45631

Location of proposed source(s): 385 JACKSON PIKE
GALLIPOLIS, OHIO

Description of proposed source(s):
375 LB/HR CBV-500 INCINERATOR.

Date of Issuance: August 8, 1990

Effective Date: August 8, 1990

The above named entity is hereby granted a permit to install for the above described source(s) pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the above described source(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described source(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Director

TERMINATION OF PERMIT TO INSTALL

Substantial construction for installation must take place within 18 months of the effective date of this permit. This deadline may be extended by up to 12 months, if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.

NOTICE OF INSPECTION

The Director of the Ohio Environmental Protection Agency, or his authorized representatives, may enter upon the premises of the above-named applicant during construction and operation at any reasonable time for the purpose of making inspections, conducting tests, or to examine records or reports pertaining to the construction, modification or installation of the source(s) of environmental pollutants identified within this permit.

CONSTRUCTION OF NEW SOURCE(S)

The proposed source(s) shall be constructed in strict accordance with the plans and application submitted for this permit to the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Any deviations from the approved plans or the above conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed sources are inadequate or cannot meet applicable standards.

If the construction of the proposed source(s) has already begun or has been completed prior to the date the Director of the Ohio Environmental Protection Agency approves the permit application and plans, the approval does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the approved plans. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of Ohio Administrative Code (OAC) Rule 3745-31-02. Furthermore, issuance of the Permit to Install does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Approval of the plans in any case is not to be construed as an approval of the facility as constructed and/or completed. Moreover, issuance of the Permit to Install is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities prove to be inadequate or cannot meet applicable standards.

PERMIT TO INSTALL FEE

In accordance with Ohio Revised Code 3745.11, the specified Permit to Install fee must be remitted within 15 days of the effective date of this permit to install.

PUBLIC DISCLOSURE

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC Rule 3745-49-03.

APPLICABILITY

This Permit to Install is applicable only to the contaminant sources identified. Separate application must be made to the Director for the installation or modification of any other contaminant sources.

BEST AVAILABLE TECHNOLOGY

As specified in OAC Rule 3745-31-05, all new sources must employ Best Available Technology (BAT). Compliance with the terms and conditions of this permit will fulfill this requirement.

PERMIT TO OPERATE APPLICATION

A Permit to Operate application and a \$15 application fee must be submitted to the appropriate field office for each air contaminant source in this Permit to Install. In accordance with OAC Rule 3745-35-02, the application shall be made at least 90 days prior to start-up of the source.

AIR EMISSION SUMMARY

The air contaminant sources listed below comprise the Permit to Install for HOLZER MEDICAL CENTER located in Gallia County. The sources listed below shall not exceed the emission limits/control requirements contained in the table. This condition in no way limits the applicability of any other state or federal regulations. Additionally, this condition does not limit the applicability of additional special terms and conditions of this permit.

| <u>Ohio EPA Source Number</u> | <u>Source Identification/Description</u> | <u>BAT Determination</u> | <u>Applicable Federal and OAC Rules</u> | <u>Permit Allowable Mass Emissions and/or Control & Usage Requirements</u> |
|-------------------------------|--|---|---|--|
| N002 | 375 lb/hr CBV-500 Incinerator | 0.1 lb per 100 lbs refuse charged of particulate emissions 4 lb/hr hydrogen chloride See Additional Special Terms and Conditions | 3745-31-05 (A)(3) 3745-17-09 | 0.1 lb per 100 lbs refuse charged of particulate emissions 4 lb/hr hydrogen chloride Carbon monoxide emissions no greater than 100 ppm |

SUMMARY
 TOTAL PERMIT TO INSTALL ALLOWABLE EMISSIONS

| <u>Pollutant</u> | <u>Tons/Year</u> |
|------------------|------------------|
| PM | 1.6 TPY |
| HCl | 17.5 TPY |

PERFORMANCE TEST REQUIREMENTS

The permittee shall conduct, or have conducted, performance testing on the air contaminant source(s) in accordance with procedures approved by the Agency. Two copies of the written report shall be submitted and signed by the person responsible for the test, describing the test procedures followed and the results of such tests. The Director, or an Ohio EPA representative, shall be allowed to witness the tests, examine testing equipment, and require the acquisition or submission of data and information necessary to assure that the source operation and testing procedures provide a valid characterization of the emissions from the source and/or the performance of the control equipment.

1. A completed Intent to Test form shall be submitted to the appropriate Ohio EPA District Office or Local Air Pollution Control Agency where the original permit application was filed. This notice shall be made 30 days in advance and shall specify the source operating parameters, the proposed test procedures, and the time, date, place and person(s) conducting such tests.

2. Two copies of the test results shall be submitted within 30 days after the completion of the performance test.
3. Tests shall be performed for the following sources and pollutants:

| <u>Source</u> | <u>Pollutant(s)</u> |
|---------------|---|
| N002 | particulate matter, hydrogen chloride and carbon monoxide |

4. Tests shall include a determination of the uncontrolled mass rate of emissions.

RECORD(S) RETENTION AND AVAILABILITY

All records required by this Permit to Install shall be retained on file for a period of not less than two years unless otherwise indicated by Ohio Environmental Protection Agency. All records shall be made available to the Director, or any authorized representative of the Director, for review during normal business hours.

REPORTING REQUIREMENTS

Unless otherwise specified, reports required by the Permit to Install need only be submitted to Southeast District Office, 2195 Front Street, Logan, Ohio 43138.

WASTE DISPOSAL

The owner/operator shall comply with any applicable state and federal requirements governing the storage, treatment, transport and disposal of any waste material generated by the operation of the sources.

MAINTENANCE OF EQUIPMENT

This source and its associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices and the recommendations of the respective manufacturers in order to minimize air contaminant emissions.

HOLZER MEDICAL CENTER
Application No. 06-2705
Page 6 of 8
August 8, 1990

MALFUNCTION/ABATEMENT

In accordance with OAC Rule 3745-15-06, any malfunction of the source(s) or associated air pollution control system(s) shall be reported immediately to the Southeast District Office, 2195 Front Street, Logan, Ohio 43138.

Except as provided by OAC Rule 3745-15-06(A)(3), scheduled maintenance of air pollution control equipment that requires the shutdown or bypassing of air pollution control system(s) must be accompanied by the shutdown of the associated air pollution sources.

AIR POLLUTION NUISANCES PROHIBITED

The air contaminant source(s) identified in this permit may not cause a public nuisance in violation of OAC Rule 3745-15-07.

NINETY DAY OPERATING PERIOD

The facility will be permitted to operate during a 90-day period in accordance with OAC Rule 3745-35-02(C)(4)(b). The purpose of this period of operation is to fulfill the performance test conditions used in the determination of compliance with the provisions of this Permit to Install or other applicable Ohio EPA rules.

ADDITIONAL SPECIAL TERMS AND CONDITIONS

1. Hydrogen chloride emissions from all units shall not exceed the greater of four pounds per hour or ninety percent control efficiency.
2. Opacity from the emissions from these units shall not exceed five percent opacity for more than six minutes in any continuous sixty minute period as determined by the United States Environmental Protection Agency Method Nine.
3. All units burning infectious waste shall be equipped with a continuous temperature recorder for the primary and secondary combustion chambers. Charts shall be retained for a minimum of three (3) years and be made available to the Ohio EPA upon request.
4. The infectious waste incinerator shall be designed, built and operated with a primary and secondary combustion chamber with primary and secondary burners. All waste material loaded into the primary chamber of the incinerator shall be exposed to 1400° F for a minimum of one hour. The secondary combustion chamber shall allow for a two-second retention time and operate at a minimum of 1800° F.
5. Carbon monoxide from any infectious waste incinerator shall not exceed one hundred parts per million adjusted to seven percent oxygen in the exhaust stream as determined on an hourly average.
6. If required in the future by Ohio EPA rules governing infectious waste incinerators Holzer Medical Center shall install, maintain and operate a radioactivity monitor. The radioactivity monitor shall be installed to monitor all infectious waste prior to combustion.
7. During shutdowns, the secondary chamber shall be maintained at a minimum temperature of one thousand eight hundred degrees Fahrenheit until the wastes are completely combusted and the burn-down cycle is complete.
8. The incinerator shall be operated, maintained and cleaned according to the manufacturer's recommendations so as to prevent the emission of objectionable odors. The manufacturer's instructions shall be posted near the incinerator.

9. The source owner shall have the unit inspected monthly using preventive maintenance procedures recommended by the equipment manufacturer. The inspection shall include a written report containing any needed repairs to the unit. These repairs shall be accomplished within 30 days of the inspection. If a time period longer than 30 days is needed to complete the repairs, the Southeast District Office shall be notified in writing. This notice shall list the repairs needed and the reason(s) the repairs could not be accomplished sooner. All monthly inspection reports shall be kept by the source owner for a period of three (3) years and made available to the Ohio EPA upon request.
10. Both primary and secondary burners shall be kept operable and under the control of the main control panel to insure that proper temperatures are maintained during the entire time the incinerator is in use.
11. This facility shall not incinerate any hazardous waste in such a manner and in such amounts as to be subject to 40 CFR Part 261, Subpart D.
12. Recordkeeping and Disposal Restrictions. In accordance with the requirements of OAC Rules 3745-31-05 and 3745-35-02(D)(6), Holzer Medical Center shall install a weight scale accurate to within +1 pound in the incinerator room for the weighing of each component of the charge to insure that the maximum capacity is not exceeded. Each weighted charge shall also provide the charging time, weight and type of material, temperature and operator's name. The operator shall be trained and qualified to fire the incinerator.
