

Facility ID: 1318368023 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 1318368023 Emissions Unit ID: K002 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Paint booth #2 for coating miscellaneous metal and non-metal parts.	OAC rule 3745-31-05(A)(3) (PTI #13-3024)	On any day when coating non-metal parts: 8 lbs/hr and 40 lbs/day OC emissions for coating of non-metal parts. On any day when coating metal only or a combination of metal and non-metal parts: The permittee shall employ no more than 3 gallons of coating in any one day in this emissions unit.
	OAC rule 3745-21-07(G)(2)	The requirements of this rule also include compliance with the requirements of OAC rule 3745-21-07 (G)(2). The emission limitation specified by this rule is equivalent to the emission limitation established pursuant to OAC rule 3745-31-05(A)(3).
	OAC rule 3745-21-09(U)(2)	As long as the permittee never employs more than 3 gallons/day, this emissions unit is exempt from the emission limitation specified in this rule.

2. **Additional Terms and Conditions**
 - (a) None

B. Operational Restrictions

1. None

C. Monitoring and/or Record Keeping Requirements

1. On any day when coating non-metal parts, the permittee shall collect and record the following information each day for this emissions unit for the coating of non-metal parts:
 - a. the name and identification number of each coating and cleanup material employed;
 - b. the volume, in gallons, of each coating and cleanup material employed;
 - c. the OC content of each coating and cleanup material employed, in pounds per gallon, as applied;
 - d. the total OC emissions for all coatings and cleanup material employed [summation of (C.1.b. x C.1.c.) for all coatings and cleanup material], in pounds per day;
 - e. the total hours of operation; and
 - f. the total average hourly OC emissions (d / e), in pounds per hour.
2. On any day when coating metal parts or a combination of metal and non-metal parts, the permittee shall collect and record the following information each day for this emissions unit for those coatings:

- a. the name and identification number of each coating and cleanup material employed;
- b. the volume, in gallons, of each coating and cleanup material employed; and
- c. the total volume, in gallons, of all the coatings and cleanup material employed.

D. Reporting Requirements

1. The permittee shall submit quarterly deviation (excursion) reports which include the following information for this emissions unit:
 - a. an identification of each day during which a non-metal part was coated and the average hourly OC emissions from the coatings exceeded 8 pounds per hour, and the actual average hourly OC emissions for each such day; and
 - b. an identification of each day during which a non-metal part was coated and the OC emissions from the coatings exceeded 40 pounds per day, and the actual OC emissions for each such day.
2. The permittee shall notify the Director [Cleveland Bureau of Air Pollution Control (CBAPC)] in writing of any daily record showing that the spray booth employs more than the applicable maximum daily coating usage limit. The notification shall include a copy of such record and shall be sent to the Director (CBAPC) within 45 days after the exceedance occurs.

E. Testing Requirements

1. Compliance with the emission limitations of these terms and conditions shall be determined in accordance with the following methods:

Emission Limitation:
On any day when coating non-metal parts:

8 lbs/hr and 40 lbs/day OC emissions for coating of non-metal parts.

Applicable Compliance Method:
Record keeping as stated in section C.1.d. and C.1.f.

Emission Limitation:
On any day when coating metal only or a combination of metal and non-metal parts:

The permittee shall employ no more than 3 gallons of coating in any one day in this emissions unit.

Applicable Compliance Method:
Record keeping as stated in section C.2.c.

F. Miscellaneous Requirements

1. None
