- b. The emissions unit is operating pursuant to a currently effective Permit to Install, Permit to Operate or Registration;
- c. The applicant has provided proper notice of intent to relocate the emissions unit to the Northeast District Office (NEDO) and the appropriate field office having jurisdiction over

the new site within a minimum of 30 days prior to the scheduled relocation; and

- d. In the Director's judgement, the proposed relocation site is acceptable under Rule 3745-15-07 of the Ohio Administrative Code.
2. In order for the Director to determine compliance with all of the above criteria, the permittee of this portable emissions unit must file a "Notice of Intent to Relocate" at least 30 days prior to relocation of the source with the Ohio EPA District Office from which this permit to install was obtained. Upon receipt of the notice, the Director, or the Director's authorized representative, will evaluate the request in accordance with the above criteria.

Failure to submit said notification and to receive Ohio Environmental Protection Agency approval prior to relocation of this emissions unit may result in fines and civil penalties.

The permittee may also have to comply with specific air pollution regulations or criteria in effect for the community/locality to which the portable engine/compressor is to be relocated. It is the permittees responsibility to ascertain what those local regulations are and to effectively comply with them.
