

Facility ID: 1409000070 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 1409000070 Emissions Unit ID: P006 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
P006 - Nozzle Flow Test Warranty Line	OAC rule 3745-31-05(A)(3) (PTI 14-03545)	Organic Compound (OC) emissions shall not exceed 3.2 pounds per hour*, 38.4 pounds per day, and 1.0 ton per year.

*The hourly OC emissions limitation outlined above is based upon the emissions unit's Potential to Emit (PTE). Therefore, no hourly records are required to demonstrate compliance with this limitation.

2. **Additional Terms and Conditions**
 - (a) Compliance with OAC rule 3745-31-05(A)(3) shall be demonstrated by compliance with the OC emissions limitations.

B. Operational Restrictions

1. None

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall collect and record the following information each day for this emissions unit:
 - a. the company identification of each solvent employed;
 - b. the number of gallons of each solvent employed;
 - c. the number of gallons of each solvent reclaimed;
 - d. the OC content of each solvent, in pounds per gallon; and
 - e. the total OC emissions, in pounds [i.e., the summation of (b) less (c) times (d) for each solvent employed].
2. The permittee shall calculate and record the total annual OC emissions from all organic solvents employed in this emissions unit, [i.e., the sum of the daily OC emission rates from the organic solvents in term and condition C.1.e], for the calendar year.

D. Reporting Requirements

1. The permittee shall submit quarterly reports which identify all exceedances of the daily OC emissions limitation specified in Section A.1. These reports shall be submitted to the Hamilton County Department of Environmental Services by February 15, May 15, August 15 and November 15 of each year and shall cover the previous calendar quarter. If no exceedances of the daily OC emissions limitation occurred during the reporting period, then a report is required stating so.
2. The permittee shall notify the Hamilton County Department of Environmental Services in writing of any record showing that the emissions unit has exceeded the annual OC emissions limitation specified in Section A.1. The notification shall include a copy of such record and shall be sent to the Hamilton County Department of Environmental Services within 45 days after the exceedance occurs.

E. Testing Requirements

1. Compliance with the emission limitations specified in Section A.1 of these terms and conditions shall be

determined by the following methods:

Emissions Limitations:

OC emissions shall not exceed 3.2 pounds per hour, 38.4 pounds per day, and 1.0 ton per year.

Applicable Compliance Method:

The emissions limitations outlined above are based upon permittee-supplied engineering data and emissions rates contained in Permit to Install application #14-03545, submitted July 11, 1994, for this emissions unit. The hourly emissions limitation is based upon the emissions unit's potential to emit, therefore no record keeping is required to demonstrate compliance with this limitation. Compliance with the daily and annual emissions limitations shall be determined by the record keeping requirements in Sections C.1 and C.2.

2. US EPA Method 24 or formulation data shall be used to determine the OC content of the organic solvents.

F. **Miscellaneous Requirements**

1. None
