

Facility ID: 1409000675 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Silk Screen Cleaning Station No. 2	PTI 14-4056	482.25 LBS OC/WEEK, 12.54 TPY OC
-	OAC 3745-21-07(G)(2)	See T&C A.2.2.a. Less stringent than the PTI. See T&C B.2.

2. Additional Terms and Conditions

- (a) The OC content of any cleanup solvent used in this emission unit shall not exceed 6.43 pounds per gallon.

B. Operational Restrictions

1. The fresh cleanup solvent (excluding any solvent added which was recovered from the waste solvent from the cleaning station) charged to the cleaning station reservoirs shall not exceed 75 gallons per week.
2. The use of photochemically reactive materials, as defined in OAC rule 3745-21-01(C)(5), in this emission unit is prohibited.

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall maintain weekly records which include the following information:
 - a. the company identification of the cleanup solvent employed;
 - b. a record for each cleanup solvent employed, indicating whether or not the solvent is a photochemically reactive material.
 - c. the organic compound (OC) content of each cleanup solvent employed, in pounds per gallon;
 - d. the total amount of each cleanup solvent employed, in gallons;
 - e. the total OC emissions (sum of (c) times (d) for all cleanup solvents employed during the calendar week), in pounds of OC per week.

D. Reporting Requirements

1. The permittee shall notify the Director of any weekly record showing that the emissions unit exceeded the weekly OC emission limit or employed a cleanup solvent which exceeded the OC content limit. A copy of such record shall be sent to the Director within 45 days after the exceedance occurs.
2. The permittee shall submit an annual report which gives the total OC emissions from this emissions unit, in tons per year (TPY). This report shall be submitted by February 15th of each year.
3. The permittee shall submit an annual report which identifies each day during which any photochemically reactive material is employed in this emissions unit. This report shall identify the cause for the use of the photochemically reactive material(s) and the estimated total quantity of material(s) emitted during each such day, in pounds. This report shall be submitted by February 15th of each year.

E. Testing Requirements

1. Compliance with the OC emission limits in section A.1. of these T&Cs and the cleanup material usage limits in

section B.1. and B.2. of these T&Cs shall be determined by the recordkeeping requirements in section C.1. of these T&Cs.

2. Compliance with the OC content limit in section A.2.2.a of these T&Cs shall be demonstrated by the recordkeeping requirements of section C.1. of these T&Cs and formulation data or USEPA method 24 (for OC materials).

F. **Miscellaneous Requirements**

None
