

Facility ID: 1413130416 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 1413130416 Emissions Unit ID: K001 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Misc. Metal Parts Spray Booth	PTI 14-4092	44.2 LBS.VOC/DAY, 7.62 TPY VOC; See T&C A.2., B.1., and B.2.
-	OAC 3745-21-09(U)(2)(e)	Less stringent than PTI

2. Additional Terms and Conditions

- (a) The VOC content shall not exceed 6.04 LBS./GAL. as applied for each coating material and 7.3 LBS./GAL. for cleanup materials.
The VOC emissions from all coating materials shall not exceed 36.9 LBS./DAY and 6.8 TPY.
The VOC emissions from all cleanup materials shall not exceed 7.3 LBS./DAY and 0.82 TPY.

B. Operational Restrictions

1. The coating material usage shall not exceed 6.11 gallons per day and 2250 gallons per year.
2. The usage of the cleanup materials shall not exceed 1 gallon per day and 225 gallons per year.

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall maintain daily records of the following:
 - a. the name and identification number of each coating or cleanup material employed;
 - b. the number of gallons of each coating employed;
 - c. the number of gallons of each cleanup material employed;
 - d. the VOC content of each coating or cleanup material, as applied, in pounds per gallon;
 - e. the VOC emissions from each coatings (assuming 100% of VOC is emitted), i.e., (b)(d), in pounds of VOC per day;
 - f. the VOC emissions from each cleanup material (assuming 100% of VOC is emitted), i.e., (c)(d), in pounds of VOC per day.
 - g. the total VOC emissions from all coatings, i.e., the sum of (e) for all coatings, in pounds of VOC per day;
 - h. the total VOC emissions from all cleanup materials, i.e., the sum of (f), in pounds of VOC per day; and
 - i. the total VOC emissions from this emissions unit, i.e., (g) + (h), in pounds of VOC per day.

D. Reporting Requirements

1. The permittee shall notify the Director of any exceedance of the coating and cleanup material usage limits, the VOC content limits, or the daily VOC emission limits. A copy of such record shall be sent to the Director within 45 days after the exceedance occurs.
2. The permittee shall also submit an annual report which specifies the annual VOC emissions from all coatings, the annual VOC emissions from all cleanup materials, the annual usage of all coatings, and the annual usage of all cleanup materials. This report shall be submitted by February 15th of each year.

E. Testing Requirements

1. Compliance with the VOC emission limits in section A.1. and A.2. and the usage limits in section B.1. and B.2. of these T&Cs shall be determined by the recordkeeping requirements in section C.1. of these T&Cs.
2. Compliance with the VOC content limits in section A.2. of these T&Cs shall be determined by the following:

"OAC rule 3745-21-10(B). USEPA Methods 24 and 24A shall be used to determine the VOC contents for (a) coatings and (b) flexographic and rotogravure printing inks and related coatings, respectively. If, pursuant to section 4.3 of Method 24, 40 CFR Part 60, Appendix A, an owner or operator determines that Method 24 or 24A cannot be used for a particular coating or ink, the permittee shall so notify the Administrator of the USEPA and shall use formulation data for that coating or ink to demonstrate compliance until the USEPA provides alternative analytical procedures or alternative precision statements for Method 24 or 24A."

F. Miscellaneous Requirements

1. If probable cause exist indicating the source is causing or contributing to a nuisance in violation of Ohio Administrative Code rule 3475-15-07, the owner or operator of this emissions unit shall be required to submit and implement a control program which will bring this source into compliance.
