

Facility ID: 1431070065 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 1431070065 Emissions Unit ID: T002 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

| <u>Operations, Property, and/or Equipment</u> | <u>Applicable Rules/Requirements</u> | <u>Applicable Emissions Limitations/Control Measures</u> |
|--|---|---|
| 75,000 gallon storage tank with submerged fill | OAC rule 3745-31-05(A)(3) PTI (14-02056) | 2.6 tons per year (TPY) of organic compound (OC) emissions |
| | OAC rule 3745-21-07(D)(2) | See Section A.2 below. The control measure specified by this rule is the same as the control measure established by OAC rule 3745-31-05(A)(3). |

2. **Additional Terms and Conditions**
 - (a) This storage tank shall be equipped with a permanent submerged fill pipe.

B. Operational Restrictions

1. The maximum annual throughput of beverage alcohol for this emissions unit shall not exceed 1,050,000 gallons.

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall maintain records of the following information for this emissions unit:
 - a. the total throughput, in gallons, of beverage alcohol each calendar month; and
 - b. the total throughput, in gallons, of beverage alcohol for the calendar year [summation of (a) for each month of the calendar year].

D. Reporting Requirements

1. The permittee shall submit annual reports to the Hamilton County Department of Environmental Services that provide the annual throughput, in gallons, of beverage alcohol for this emissions unit for the previous calendar year. The reports shall be submitted by January 31 of each year.

E. Testing Requirements

1. Compliance with the annual throughput restriction and annual OC emission limitation specified in Sections A.1 and B.1 shall be determined by the following methods:
 - a. Throughput Restriction: 1,050,000 gallons of beverage alcohol

Applicable Compliance Method: Compliance with the annual throughput restriction shall be determined by the record keeping performed pursuant to Section C.1.
 - b. OC Emission Limitation: 2.6 TPY of OC emissions

Applicable Compliance Method: Compliance with the annual OC emission limitation shall be determined by the appropriate emission factors listed in AP-42, 5th Edition, Chapter 7.1 (Organic Liquid Storage Tanks).

F. Miscellaneous Requirements

1. None
