

Facility ID: 1431070324 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 1431070324 Emissions Unit ID: P901 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Sawdust handling system with enclosure and watering system	OAC 3745-31-05 See F.	0.98 LB PM/HR, 4.17 TPY PM
		0.13 LB PM10/HR, 0.56 TPY PM10
		Visible emissions shall not exceed 5 percent opacity, as a 6-minute average, from the stack, except as specified by rule.
	OAC 3745-17-07(A)(1) See F.	Less stringent than stack visible emission limit established per BAT.
	OAC 3745-17-07(B)(1) See F.	Visible emissions shall not exceed 20 percent opacity, as a 3-minute average, for the fugitive emissions associated with this emissions unit.
	OAC 3745-17-08(B)(3) See F.	See A.2. below.
	OAC 3745-17-11(A) See F.	Less stringent than PM emission limit established per BAT.

2. **Additional Terms and Conditions**
 - (b) The permittee shall employ a 3-sided enclosure and a watering system to control particulate matter (PM) emissions from this emissions unit.

B. Operational Restrictions

None

C. Monitoring and/or Record Keeping Requirements

None

D. Reporting Requirements

None

E. Testing Requirements

1. Compliance with the PM and PM10 emission limitations shall be demonstrated by the emission factors outlined in RACM Table 2.17.1 and the control efficiencies outlined in RACM Table 2.17-3.
2. Compliance with the visible particulate emissions from the stack shall be demonstrated by the methods outlined in OAC 3745-17-03(B)(1).
3. Compliance with the fugitive visible particulate emissions shall be demonstrated by the methods outlined in OAC 3745-17-03(B)(3).

F. Miscellaneous Requirements

1. The following terms and conditions shall supersede all the air pollution control requirements for this emissions unit contained in permit to install number 14-2896, as issued on 4-28-93.

Part II: Special Terms and Conditions A-E.
