

Facility ID: 1431070324 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Conveyor Line Coating Booth	OAC rule 3745-31-05 (PTI 14-2363)	OC: 40 lbs/day, 7.3 TPY, including cleanup
	OAC rule 3745-21-07(G)	exempt, see B.3

2. Additional Terms and Conditions

- (a) The OC content of the coating materials employed in this unit shall not exceed 5.87 lbs/gal, excluding water.
The OC content of the liquid organic cleanup materials employed in this unit shall not exceed 6.57 lbs/gal, excluding water.

B. Operational Restrictions

1. Coating usage in this source shall not exceed 6.28 gal/day nor 2292.2 gal/yr.
2. Liquid organic cleanup material usage in this source shall not exceed 0.47 gal/day nor 171.6 gal/yr
3. This source shall not employ any photochemically reactive material (coating or cleanup material), as defined in OAC rule 3745-21-01(C)(5).

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall maintain daily records which list the following information for this unit:
 - a. identification of each coating and cleanup material;
 - b. the OC content of each coating, in pounds per gallon, as applied, excluding water;
 - c. the total amount of each coating employed, in gallons, excluding water;
 - d. the OC content of the liquid organic cleanup material used, in pounds per gallon, excluding water;
 - e. the total amount of liquid organic cleanup material used, in gallons, excluding water; and
 - f. the total pounds of OC emissions from all coatings and cleanup materials.
2. The permittee shall collect and record the following information each month:
 - a. the company identification of each coating and cleanup material employed in this emissions unit, and
 - b. a record for each coating and cleanup material employed in this emissions unit indicating whether or not the liquid organic material is a photochemically reactive material, as defined in OAC rule 3745-21-01(C)(5).

D. Reporting Requirements

1. The permittee shall notify the Hamilton County Department of Environmental Services in writing identifying each day during which any photochemically reactive material (as defined in OAC rule 3745-21-01(C)(5)) was employed in this emissions unit and/or the 40 pounds/day OC emission limit was exceeded. This report shall be submitted within 45 days after the exceedance occurs.

E. Testing Requirements

1. Formulation data or USEPA Method 24 shall be used to determine the OC contents of the coatings and cleanup materials.
2. Compliance with the OC emission limitations given in section A.1 shall be ensured by the recordkeeping requirements described in sections C.1 and C.2.

F. **Miscellaneous Requirements**

1. None
