

Facility ID: 1431071356 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION\*\*\*

**Part II - Special Terms and Conditions**

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
  - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
  - (a) None.

**A. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Miscellaneous Metal Parts Paint Spray Booth	PTI 14-4031	75.45 LBS.VOC/DAY, 9.91 TPY VOC.
-	3745-21-09 (U)(1)(c)	See T&C A.2.2.a., and A.2.2.b. Less stringent than PTI.

**2. Additional Terms and Conditions**

- (a) The VOC content of each coating used in this emissions unit shall not exceed 3.5 pounds per gallon as applied, excluding water and exempt solvents.  
The VOC content of each clean-up material used in this emissions unit shall not exceed 8.3 pounds per gallon, excluding water and exempt solvents.

**B. Operational Restrictions**

1. The coating usage shall not exceed 18 gal./day and 4773 gal./yr..
2. The clean-up material usage shall not exceed 1.5 gal./day and 375 gal./yr.

**C. Monitoring and/or Record Keeping Requirements**

1. The permittee shall collect and record the following information each day:
  - a. the name and company identification of each coating and clean-up material employed;
  - b. the number of gallons of each coating and clean-up material employed;
  - c. the VOC content of each coating and clean-up material employed, in pounds per gallon, excluding water and exempt solvents;
  - d. the VOC emissions from each coating or clean-up material employed, i.e., (b)(c), in pounds per day;
  - e. the total VOC emissions from all coatings and clean-up materials employed, i.e., the sum of (d) for each coating and clean-up material, in pounds per day;
  - f. the total number of gallons of all coatings employed; and
  - g. the total number of gallons of all clean-up materials employed.

**D. Reporting Requirements**

1. The permittee shall notify the Director of any daily record showing an exceedance of an applicable coating or clean-up material usage limit or an applicable emission limit. A copy of such record shall be sent to the Director within forty-five (45) days after the exceedance occurs.
2. The permittee shall also submit an annual report which summarizes the total coating and clean-up material usage and specifies the total VOC emissions from this emissions unit for the previous calendar year. This report shall be submitted by January 31 of each year.

**E. Testing Requirements**

1. U.S. EPA Methods 24 and 24A shall be used to determine the VOC contents for coatings. If, pursuant to section 4.3 of Method 24, 40 CFR Part 60, Appendix A, an owner or operator determines that Method 24 or 24A cannot

be used for a particular coating, the owner or operator shall so notify the Administrator of the U.S. EPA and shall use formulation data for that coating to demonstrate compliance until the U.S. EPA provides alternative analytical procedures or alternative precision statements for Method 24 or 24A.

2. Compliance with the VOC emission limits and coating and clean-up material usage limits shall be demonstrated by the recordkeeping requirements in section C of these T&Cs.

F. **Miscellaneous Requirements**

1. If probable cause exists indicating the emissions unit is causing or contributing to a nuisance in violation of Ohio Administrative Code 3745-15-07, the owner or operator of this emissions unit shall be required to submit and implement a control program which will bring this emissions unit into compliance.
