

Facility ID: 1431071363 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 1431071363 Emissions Unit ID: F002 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
coal receiving and transfer to hopper controlled with a fabric filter	OAC rule 3745-17-07(A)(1)	See A.2.a below.
	OAC rule 3745-17-07(B)(1)	See A.2.b below.
	OAC rule 3745-17-08(B)	See A.2.c and A.2.d below.
	OAC rule 3745-17-11(A)	1.2 lbs/hr of particulates

2. Additional Terms and Conditions

- (a) Visible particulate emissions from any stack shall not exceed 20% opacity as a 6-minute average, except as provided by the rule.
 Visible particulate fugitive emissions shall not exceed 20% opacity as a 3-minute average.
 A suitable dust suppressant shall be applied, as needed, during load-in, storage, and load-out of coal to ensure compliance with the visible emission limitation for fugitive dust.
 All conveyors and transfer points shall be enclosed and controlled by a fabric filter.

B. Operational Restrictions

1. All drop heights (during load-in, load-out, etc.) and the height of the storage piles shall be minimized sufficient to minimize or eliminate visible particulate emissions of fugitive dust.

C. Monitoring and/or Record Keeping Requirements

1. None

D. Reporting Requirements

1. None

E. Testing Requirements

1. Compliance with the emission limitations in sections A.1 and A.2 of these terms and conditions shall be determined in accordance with the following methods:
 Emission Limitation:

20% opacity as a 6-minute average

Applicable Compliance Method:

OAC rule 3745-17-03(B)(1)
 Emission Limitation:

20% opacity as a 3-minute average

Applicable Compliance Method:

OAC rule 3745-17-03(B)(3)
 Emission Limitation:

1.2 lbs/hr of particulates

Applicable Compliance Method:

Compliance with this emission limitation shall be demonstrated by emission calculations based on the particulate emission factors in RACM, section 2.19.

If required, testing shall be performed to demonstrate compliance with the allowable emission limitation for particulates using the following method: Method 5 (40 CFR Part 60, Appendix A).

F. **Miscellaneous Requirements**

1. If probable cause exists indicating that this emissions unit is causing or contributing to a nuisance in violation of OAC rule 3745-15-07, the permittee of this emissions unit shall be required to submit and implement a control program which will bring this emissions unit into compliance.
