

Facility ID: 1431072600 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION\*\*\*

Facility ID: 1431072600 Emissions Unit ID: J001 Issuance type: Final State Permit To Operate

**Part II - Special Terms and Conditions**

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
  - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
  - (a) None.

**A. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
loading rack for liquid hazardous waste with vapor balance and carbon adsorption system	OAC rule 3745-31-05(A)(3) (PTI 14-415) OAC rule 3745-21-07(E)	See Section B.1 and B.2 below.  Exempt, less than 40,000 gallons of volatile photochemically reactive material loaded through this emissions unit in any one day.

2. **Additional Terms and Conditions**
  - (a) None

**B. Operational Restrictions**

1. The permittee shall limit the loading of all volatile photochemically reactive materials through this emissions unit to less than 40,000 gallons per day.
2. The permittee shall operate and maintain a vapor balance and carbon adsorption system having a control efficiency of at least 95% by weight for OC emissions.

**C. Monitoring and/or Record Keeping Requirements**

1. The permittee shall maintain daily records of the amount, in gallons, of all volatile photochemically reactive materials loaded through this emissions unit.

**D. Reporting Requirements**

1. The permittee shall notify the Hamilton County Department of Environmental Services in writing of any daily record showing an exceedance of the daily volatile photochemically reactive material throughput limitation. The notification shall include a copy of such record and shall be sent to the Hamilton County Department of Environmental Services within 30 days of the exceedance.

**E. Testing Requirements**

1. Compliance with the daily volatile photochemically reactive material throughput limitation shall be determined by the record keeping requirements specified in Section C.1.
2. If required, the permittee shall demonstrate compliance with the control efficiency limitation for the vapor balance and carbon adsorption system through inlet/outlet emission tests performed in accordance with 40 CFR, Part 60, Appendix A, Test Methods 1 through 4 and 25.

**F. Miscellaneous Requirements**

1. None
