

Facility ID: 1431072722 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 1431072722 Emissions Unit ID: D002 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
D002 - Dry-to-Dry Petroleum Dry Cleaning Machine - Forenta	OAC rule 3745-31-05(A)(3)	Organic compound emissions shall not exceed 2.33 tons per year.

The requirements of this rule also include compliance with the requirements of OAC rule 3745-21-09(BB). See Sections B.1, C.1 - C.3, and D.1 - D.2.

OAC rule 3745-21-09(BB)

2. Additional Terms and Conditions

- (a) None

B. Operational Restrictions

1. Pursuant to OAC rule 3745-21-09(BB)(1)(c), any bucket or barrel that contains petroleum solvent or petroleum solvent-laden waste shall be covered to minimize solvent evaporation.

C. Monitoring and/or Record Keeping Requirements

1. Pursuant to OAC rule 3745-21-09(BB)(1)(d) and (e), any equipment associated with the use of petroleum solvent shall be visually inspected weekly to identify any liquid leaks of petroleum solvent. Any liquid or vapor leak of petroleum solvent shall be repaired within fifteen (15) days after the leak is identified. If a repair part is not on hand, the part shall be ordered within three (3) working days after the leak is identified. Within fifteen (15) days following the delivery of the ordered part, the leak shall be repaired.
2. Pursuant to OAC rule 3745-21-09(BB)(4)(a) and (b)(iv), the permittee shall maintain the following records, in a readily accessible location, for at least five (5) years and shall make these records available to the Director, or a representative of the Director, upon verbal or written request.

The permittee shall maintain results of all weekly leak checks, including, at a minimum, the following:

- a. date of inspection;
- b. findings (indicate if no leak is discovered or location, nature and severity of each leak);
- c. leak determination method;
- d. corrective action (date each leak is repaired and reasons for any repair interval in excess of fifteen calendar days); and
- e. inspector's name and signature.

3. The permittee shall monitor and record the annual petroleum solvent consumption in gallons. The permittee shall maintain the annual consumption records, in a readily accessible location, for at least five (5) years and shall make the records available to the Director, or a representative of the Director, upon verbal or written request.

D. Reporting Requirements

1. Pursuant to OAC rule 3745-21-09(BB)(5)(b), the permittee shall report to the Hamilton County Department of Environmental Services ("HAMCO") any leaks in vapor or liquid lines that are not repaired within (15) fifteen days of discovery. The report shall be received within thirty days after the repair is completed.

E. Testing Requirements

1. Compliance with the emission limitation(s) in Section A.1. of these terms and conditions shall be determined in accordance with the following method(s):

Emission Limitation:

Organic compound emissions shall not exceed 2.33 tons per year.

Applicable Compliance Method:

Compliance with the annual emissions limitation was determined by multiplying the maximum daily amount of clothes cleaned (425 pounds) by the emissions factor of 0.03 pound of OC/pound of clothes (AP-42, Table 4.1-1). The resulting number is multiplied by 365 days then divided by 2000 pounds per ton.

F. **Miscellaneous Requirements**

1. None
