

Facility ID: 0123010149 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Load Out	OAC rule 3745-31-05 See F. 1.	.54 LB Particulate Emissions/Hr .62 Tons Particulate Emissions/Yr Opacity shall not exceed 20% as a 3- minute average for the fugitive emissions.

2. **Additional Terms and Conditions**
 - (a) None

B. Operational Restrictions

1. The permittee shall not operate this emission unit more than 2,288 hours per year.
2. The permittee shall maintain the material processed by this source in moist condition and shall employ a rubber boot seal between the weigh hopper and truck hopper.

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall maintain daily records which include the following information:
 - a. The amount of material throughput.
 - b. The number of hours of operation

D. Reporting Requirements

1. The permittee shall submit annual reports which identify any exceedances of the annual operating hours limitation, as well as the corrective actions that were taken to achieve compliance. These reports shall be submitted by January 31 of each year.

E. Testing Requirements

1. Compliance with the emission limitation(s) in Section A.I. of these terms and conditions shall be determined in accordance with the following method(s):

Emission limitation: .54 LB Particulate Emissions/Hr, .62 Tons Particulate Emissions/Yr

Applicable Compliance Method: Use of an emission factor of .02 LB PM/Ton of material loaded, a maximum loading rate of 271.5 Tons/hr, a control efficiency of 90% (for rubber boot) and a maximum yearly operating rate of 2,288 hours per year.

Emission Limitation -

Opacity shall not exceed 20% as a 3-minute average for the fugitive emissions.

Applicable Compliance Method -

Compliance shall be demonstrated by the method specified in OAC rule 3745-17-03(B)(1).

F. Miscellaneous Requirements

1. The terms and conditions contained in this permit shall supersede all the air pollution control requirements contained in the permit to install 01-5648 issued for this emissions unit on May 17, 1995.
