

Facility ID: 1431111828 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 143111828 Emissions Unit ID: P012 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
4000 Gallon Reactor w/Condenser	OAC rule 3745-31-05 See F. OAC rule 3745-21-07(G) See F.	0.33 lb OC/hr, 1.47 TPY OC OC emission limit is less stringent than the BAT limits above.

2. **Additional Terms and Conditions**
None

B. Operational Restrictions

1. The permittee shall operate a condenser to control OC emissions from this emissions unit. The condenser shall be operated and maintained in accordance with the procedures recommended by the manufacturer.

C. Monitoring and/or Record Keeping Requirements

None

D. Reporting Requirements

None

E. Testing Requirements

1. Compliance with the OC emission limits shall be determined by the emission factors and material balance equations provided by the permittee for this emissions unit in PTI application number 14-2503.

F. Miscellaneous Requirements

1. The following terms and conditions shall supersede all the air pollution requirements for this emissions unit contained in permit to install number 14-2503 as issued on 1-13-93:

Part II, Special Terms and Conditions: A-E.
