

Facility ID: 1431261272 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 1431261272 Emissions Unit ID: P002 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
wood planer & rip saw	OAC rule 3745-17-07(A)(1)(a)	Visible particulate emissions from any stack shall not exceed 20% opacity, as a 6-minute average, except as provided by rule.
	OAC rule 3745-17-11 (Table I)	9.49 lbs/hr of particulates
3 sided enclosure	OAC rule 3745-17-07(B)(1)	See A.2.a below
	OAC rule 3745-17-08(B)(3)	Visible particulate emissions from any fugitive dust source shall not exceed 20% opacity, as a 3-minute average, except as provided by rule. installation and use of fans, and other equipment to adequately enclose, contain, capture, vent, and control the fugitive dust

2. **Additional Terms and Conditions**
 - (a) None

B. Operational Restrictions

1. The permittee shall operate the cyclone whenever this emissions unit is in operation.

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall perform daily checks when the emissions unit is in operation and when the weather conditions allow, for any visible fugitive emissions and visible particulate emissions from the stack serving this emissions unit. The presence or absence of any visible emissions shall be noted in an operations log. If visible emissions are observed, the permittee shall also note the following in the operations log:
 - a. the color of the emissions,
 - b. whether the emissions are representative of normal operations,
 - c. if not representative of normal operations, the cause of the abnormal emissions,
 - d. the total duration of any visible emission incident, and
 - e. any corrective actions taken to eliminate the visible emissions.

D. Reporting Requirements

1. The permittee shall submit semiannual written reports which:
 - a. identify all days during which any visible fugitive emissions and/or visible particulate emissions from the stack were observed; and
 - b. describe any corrective actions taken to eliminate the visible particulate emissions.

These reports shall be submitted to the Hamilton County Department of Environmental Services by January 31 and July 31 of each year and shall cover the previous 6 calendar months.

E. Testing Requirements

1. Compliance with the visible emissions limitations in A.1 of these terms and conditions shall be determined in accordance with the following method:
Emissions Limitations:

20% opacity as a 6-minute average
20% opacity as a 3-minute average

Applicable Compliance Method:

Compliance with the opacity emissions limit shall be determined in accordance with methods outlined in OAC rule 3745-17-03(B1) and 3745-17-03(B3).
Emission Limitation:

9.49 lbs/hr of particulates

Applicable Compliance Method:

If required, emission tests shall be performed in accordance with USEPA Method 5.

None

F. **Miscellaneous Requirements**

1. If probable cause exists indicating the emissions unit is causing or contributing to a nuisance in violation of Ohio Administrative Code rule 3475-15-07, the permittee of this emissions unit shall be required to submit and implement a control program which will bring this emissions unit into compliance.
