

Facility ID: 1483140150 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Finishing of wooden concrete forms	OAC 3745-31-05 See F.	8 LBS styrene/HR, 40 LBS styrene/DAY, 7.3 TPY styrene
	OAC 3745-21-07(G)(2) See F.	The styrene emission limits are based on the styrene content and material usage limits; therefore, compliance with the styrene content and material usage limits shall constitute compliance with the styrene emission limits. Less stringent than PTI.

2. **Additional Terms and Conditions**
None

B. Operational Restrictions

1. The permittee shall not employ more than 80 lbs/hour, 400 lbs/day, or 14,600 lbs/year of styrene containing materials.
2. The styrene content of each material employed shall not exceed 50%, by weight, of the total mass of the material.

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall collect and record the following information for each day:
 - a. the company identification for each material employed;
 - b. the total pounds of all materials employed;
 - c. the styrene content of each material employed, in percent (%) by weight;
 - d. the total number of hours the emissions unit was in operation; and
 - e. the hourly material usage rate, (b)/(d), in pounds per hour (average).

D. Reporting Requirements

1. The permittee shall submit deviation (excursion) reports which includes an identification of each day in which the hourly material usage limit, the daily material usage limit and/or the styrene content limit was exceeded, and the actual material usages and/or styrene content each such day. This report shall be submitted within three days following the exceedance.
2. The permittee shall also submit an annual report which specifies the total material usage in this emissions unit for the previous calendar year. This report shall be submitted by January 31 of each year.

E. Testing Requirements

1. Compliance with the styrene content limit, the hourly material usage limit and the daily material usage limit shall be demonstrated by the record keeping requirements in C.1.

F. Miscellaneous Requirements

1. The following terms and conditions shall supersede all the air pollution control requirements for this emissions unit contained in permit to install 14-4257 as issued on 4-2-97: A-E.
