

Facility ID: 1667050023 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION\*\*\*

Facility ID: 1667050023 Emissions Unit ID: T010 Issuance type: Final State Permit To Operate

**Part II - Special Terms and Conditions**

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
  - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
  - (a) None.

**A. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
fixed roof storage tank with a capacity of 15,000 BBL (greater than 40,000 gallons)	OAC rule 3745-31-05 (PTI 16-1494)	1.7 tpy of volatile organic compounds (VOC)
		See A.2 below.
	OAC rule 3745-21-09(L)	See A.2 below.
	40 CFR 60, Subpart Kb	

**2. Additional Terms and Conditions**

- (a) The fixed roof storage tank shall be equipped with an internal floating roof that meets the requirements specified in 40 CFR 60.112b(a)(1).  
 The automatic bleeder vents shall be closed at all times except when the roof is floated off or landed on the roof leg supports, and the rim vents, if provided, shall be set to open when the roof is being floated off the roof leg supports or is at the manufacturer's recommended setting.  
 All openings, except stub drains, shall be equipped with a cover, seal or lid which is to be in a closed position at all times except when in actual use for tank gauging or sampling.  
 This emissions unit shall be equipped with submerged fill pipe(s) to within 6 inches of the bottom of the storage tank.

**B. Operational Restrictions**

1. None

**C. Monitoring and/or Record Keeping Requirements**

1. In accordance with the requirements of 40 CFR 60.116b(a) and (b), the permittee of this storage vessel shall keep readily accessible records showing the dimension of the storage vessel and an analysis showing the capacity of the storage vessel for the life of the source.
2. In accordance with the requirements of 40 CFR 60.116b(a) and (c), the permittee of this storage vessel shall maintain a record of the volatile organic liquid (VOL) stored, the period of storage, and the maximum true vapor pressure (in pounds per square inch absolute), as stored, of that VOL during the respective storage period.
3. In accordance with the requirements of 40 CFR 60.113b(a), the permittee of this storage vessel shall conduct periodic inspections of the internal floating roof and seal.

**D. Reporting Requirements**

1. In accordance with the requirements of 40 CFR 60.115b(a), the permittee of this storage vessel shall furnish inspection reports to the USEPA Administrator and the local air agency citing any defects to the internal floating roof and seals.

**E. Testing Requirements**

1. Compliance with the VOC emission limitation in section A.1 of these terms and conditions shall be determined in accordance with the following method:

USEPA Tanks 3.1 computer program

**F. Miscellaneous Requirements**

1. All of the terms and conditions of this permit are federally enforceable.
