RE: DRAFT AIR POLLUTION PERMIT-TO-INSTALL
Facility ID: 0857040180
Permit Number: P0104850
Permit Type: Initial Installation
County: Montgomery

Dear Permit Holder:

A draft of the Ohio Administrative Code (OAC) Chapter 3745-31 Air Pollution Permit-to-Install for the referenced facility has been issued for the emissions unit(s) listed in the Authorization section of the enclosed draft permit. This draft action is not an authorization to begin construction or modification of your emissions unit(s). The purpose of this draft is to solicit public comments on the permit. A public notice will appear in the Ohio EPA Weekly Review and the local newspaper, Dayton Daily News. A copy of the public notice and the draft permit are enclosed. This permit has been posted to the Division of Air Pollution Control (DAPC) Web page <http://www.epa.state.oh.us/dapc> in Microsoft Word and Adobe Acrobat format. Comments will be accepted as a marked-up copy of the draft permit or in narrative format. Any comments must be sent to the following:

Andrew Hall
Permit Review/Development Section
Ohio EPA, DAPC
122 South Front Street
Columbus, Ohio 43215

and Regional Air Pollution Control Agency
117 South Main Street
Dayton, OH 45422-1280

Comments and/or a request for a public hearing will be accepted within 30 days of the date the notice is published in the newspaper. You will be notified in writing if a public hearing is scheduled. A decision on issuing a final permit-to-install will be made after consideration of comments received and oral testimony if a public hearing is conducted. Any permit fee that will be due upon issuance of a final Permit-to-Install is indicated in the Authorization section. Please do not submit any payment now. If you have any questions, please contact Regional Air Pollution Control Agency at (937)225-4435.

Sincerely,

Michael W. Ahern, Manager
Permit Issuance and Data Management Section, DAPC

PUBLIC NOTICE
Issuance Of Draft Air Pollution Permit-To-Install
Miami Valley Hospital

Issue Date: 8/13/2009

Permit Number: P0104850

Permit Type: Initial Installation

Permit Description: PTI for installation of three diesel-fired emergency generators, two natural gas/oil-fired boilers, and two diesel storage tanks.

Facility ID: 0857040180

Facility Location: Miami Valley Hospital
ONE WYOMING STREET,
DAYTON, OH 45409-2793

Facility Description: General Medical and Surgical Hospitals

Chris Korleski, Director of the Ohio Environmental Protection Agency, 50 West Town Street, Columbus Ohio, has issued a draft action of an air pollution control permit-to-install (PTI) for an air contaminant source at the location identified above on the date indicated. Installation of the air contaminant source may proceed upon final issuance of the PTI. Comments concerning this draft action, or a request for a public meeting, must be sent in writing no later than thirty (30) days from the date this notice is published. All comments, questions, requests for permit applications or other pertinent documentation, and correspondence concerning this action must be directed to Dale Davidson at Regional Air Pollution Control Agency, 117 South Main Street or (937)225-4435. The permit can be downloaded from the Web page: www.epa.state.oh.us/dapc

Permit Strategy Write-Up

1. Check all that apply:

Synthetic Minor Determination

Netting Determination

2. Source Description:

The emission units in this permit are for the new installation of 3 diesel-fired standby generators, 2 natural gas/oil-fired boilers, and 2 underground diesel fuel storage tanks at Miami Valley Hospital. They will be added to 8 generators (B001-B006, B014 and B017), 10 boilers (B007-B013, B015, B016 and B018), and 4 fuel storage tanks (T001-T004) that are already permitted and operated at the facility. The generators are used for back up electricity power in the event power outages or disruptions, and the boilers are used throughout the facility for heating. Both the existing units and new units are included in the combined emissions limitations and combined fuel oil usage restrictions cited in this permit for the generators and boilers.

3. Facility Emissions and Attainment Status:

Miami Valley Hospital is a Title V facility major for SO₂ and NO_x. The cumulative potential to emit of SO₂ and NO_x emissions from the standby generators and small boilers located throughout the facility exceeds Title V thresholds. With this PTI, the current facility PTE for SO₂ and NO_x will be 119.46 tons/year and 130.03 tons/year, respectively. Miami Valley Hospital is located in Dayton, Ohio which is in Montgomery County. Montgomery County is currently designated as non attainment for PM_{2.5}, and attainment for all other criteria pollutants.

4. Source Emissions:

Miami Valley Hospital has previously issued PTIs for the generators and boilers that contain emissions limitations and fuel usage restrictions for the purpose of avoiding earlier Title V permit requirements or to avoid PSD review.

Federally enforceable diesel fuel oil usage restriction and corresponding PE, SO₂, NO_x, CO and OC emissions limitations, combined, for generator emissions units B001-B006, B014, and B017 were established in earlier PTI #P0105030. With issuance of this PTI new generator emissions units B021 - B023 will be included under the same combined operating restriction and combined emissions limitations. This PTI establishes federally enforceable diesel fuel oil usage restriction and corresponding PE, SO₂, NO_x, CO and OC emissions limitations, combined, for emissions units B001-B006, B014, B017, and B021-B023. With a restriction of an annual fuel oil usage of 330,000 gallons/year, based upon a rolling 12-month summation, combined for all the generator units, the resulting enforceable PTE for the generator units will be: SO₂ = 6.46 tons/year; NO_x = 98.23 tons/year; CO = 21.16 tons/year; OC = 8.02 tons/year; and PE = 6.9 tons/year.

Federally enforceable diesel fuel oil usage restriction and corresponding PE, SO₂, NO_x, CO and OC emissions limitations, combined, for the boiler emissions units B007-B013, B015, B016, and B018 were established in PTI 08-04392 issued 7/23/2002. With issuance of this PTI new boiler emissions units B019

and B020 will be included under the same combined operating restriction and combined emissions limitations. This PTI establishes federally enforceable diesel fuel oil usage restriction and corresponding PE, SO₂, NO_x, CO and OC emissions limitations, combined, for emissions units B007-B013, B015, B016, and B018 – B020. With a restriction of an annual fuel oil usage of 3,182,400 gallons/year, based upon a rolling 12-month summation, combined for all the boiler units, the resulting enforceable PTE for the boiler units will be: SO₂ = 113.0 tons/year; NO_x = 31.8 tons/year; CO = 29.4 tons/year; OC = 3.8 tons/year; and PE = 3.2 tons/year.

Emissions from the tanks are de minimus, conservatively determined to be 4 lb/day and 0.73 tons/year VOC for each tank, for a total of 1.46 tons/year VOC for per both tanks together. However, they are subject to the NSPS 40 CFR Part 60, Subpart KB, Standards of Performance for Volatile Organic Storage Vessels. The emissions from these tanks will be the only increase of emissions occurring with this PTI.

5. Conclusion:

With the federally enforceable fuel oil usage rates, based on a rolling 12-month summation, contained in this permit, one for the generator units and one for the boiler units, the facility SO₂ and NO_x emissions will remain below PSD threshold. In addition, this permit establishes federally enforceable PTE for CO, OC, and PE for the generator and boiler units. Monitoring, record keeping and reporting requirements will ensure compliance with these federally enforceable restrictions on the fuel oil usages rates and the facility emissions will remain below major NSR thresholds.

6. Please provide additional notes or comments as necessary:

None

7. Total Permit Allowable Emissions Summary (for informational purposes only):

<u>Pollutant</u>	<u>Tons Per Year</u>
SO ₂	119.46
NO _x	130.03
CO	50.06
OC	13.06
PE	10.01

This document constitutes issuance to:

Miami Valley Hospital
ONE WYOMING STREET
DAYTON, OH 45409-2793

of a Permit-to-Install for the emissions unit(s) identified on the following page.

Ohio EPA District Office or local air agency responsible for processing and administering your permit:

Regional Air Pollution Control Agency
117 South Main Street
Dayton, OH 45422-1280
(937)225-4435

The above named entity is hereby granted a Permit-to-Install for the emissions unit(s) listed in this section pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the emissions unit(s) of environmental pollutants will operate in compliance with applicable State and Federal laws and regulations, and does not constitute expressed or implied assurance that if constructed or modified in accordance with those plans and specifications, the above described emissions unit(s) of pollutants will be granted the necessary permits to operate (air) or NPDES permits as applicable.

This permit is granted subject to the conditions attached hereto.

Permit Strategy Write-Up
Permit Number: P0104850
Facility ID: 0857040180

A. Standard Terms and Conditions

1. Federally Enforceable Standard Terms and Conditions

- a) All Standard Terms and Conditions are federally enforceable, with the exception of those listed below which are enforceable under State law only:
- (1) Standard Term and Condition A. 2.a), Severability Clause
 - (2) Standard Term and Condition A. 3.c) through A. 3.e) General Requirements
 - (3) Standard Term and Condition A. 6.c) and A. 6.d), Compliance Requirements
 - (4) Standard Term and Condition A. 9., Reporting Requirements
 - (5) Standard Term and Condition A. 10., Applicability
 - (6) Standard Term and Condition A. 11.b) through A. 11.e), Construction of New Source(s) and Authorization to Install
 - (7) Standard Term and Condition A. 14., Public Disclosure
 - (8) Standard Term and Condition A. 15., Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations
 - (9) Standard Term and Condition A. 16., Fees
 - (10) Standard Term and Condition A. 17., Permit Transfers

2. Severability Clause

- a) A determination that any term or condition of this permit is invalid shall not invalidate the force or effect of any other term or condition thereof, except to the extent that any other term or condition depends in whole or in part for its operation or implementation upon the term or condition declared invalid.
- b) All terms and conditions designated in parts B and C of this permit are federally enforceable as a practical matter, if they are required under the Act, or any its applicable requirements, including relevant provisions designed to limit the potential to emit of a source, are enforceable by the Administrator of the U.S. EPA and the State and by citizens (to the extent allowed by section 304 of the Act) under the Act. Terms and conditions in parts B and C of this permit shall not be federally enforceable and shall be enforceable under State law only, only if specifically identified in this permit as such.

3. General Requirements

- a) The permittee must comply with all terms and conditions of this permit. Any noncompliance with the federally enforceable terms and conditions of this permit constitutes a violation of the Act, and is grounds for enforcement action or for permit revocation, revocation and re-issuance, or modification.

- b) It shall not be a defense for the permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the federally enforceable terms and conditions of this permit.
- c) This permit may be modified, revoked, or revoked and reissued, for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or revocation, or of a notification of planned changes or anticipated noncompliance does not stay any term and condition of this permit.
- d) This permit does not convey any property rights of any sort, or any exclusive privilege.
- e) The permittee shall furnish to the Director of the Ohio EPA, or an authorized representative of the Director, upon receipt of a written request and within a reasonable time, any information that may be requested to determine whether cause exists for modifying or revoking this permit or to determine compliance with this permit. Upon request, the permittee shall also furnish to the Director or an authorized representative of the Director, copies of records required to be kept by this permit. For information claimed to be confidential in the submittal to the Director, if the Administrator of the U.S. EPA requests such information, the permittee may furnish such records directly to the Administrator along with a claim of confidentiality.

4. Monitoring and Related Record Keeping and Reporting Requirements

- a) Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall maintain records that include the following, where applicable, for any required monitoring under this permit:
 - (1) The date, place (as defined in the permit), and time of sampling or measurements.
 - (2) The date(s) analyses were performed.
 - (3) The company or entity that performed the analyses.
 - (4) The analytical techniques or methods used.
 - (5) The results of such analyses.
 - (6) The operating conditions existing at the time of sampling or measurement.
- b) Each record of any monitoring data, testing data, and support information required pursuant to this permit shall be retained for a period of five years from the date the record was created. Support information shall include, but not be limited to all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by this permit. Such records may be maintained in computerized form.
- c) Except as may otherwise be provided in the terms and conditions for a specific emissions unit, the permittee shall submit required reports in the following manner:
 - (1) Reports of any required monitoring and/or recordkeeping of federally enforceable information shall be submitted to the Regional Air Pollution Control Agency.

- (2) Quarterly written reports of (i) any deviations from federally enforceable emission limitations, operational restrictions, and control device operating parameter limitations, excluding deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06, that have been detected by the testing, monitoring and recordkeeping requirements specified in this permit, (ii) the probable cause of such deviations, and (iii) any corrective actions or preventive measures taken, shall be made to the Regional Air Pollution Control Agency. The written reports shall be submitted (i.e., postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. See A.15. below if no deviations occurred during the quarter.
- (3) Written reports, which identify any deviations from the federally enforceable monitoring, recordkeeping, and reporting requirements contained in this permit shall be submitted (i.e., postmarked) to the Regional Air Pollution Control Agency every six months, by January 31 and July 31 of each year for the previous six calendar months. If no deviations occurred during a six-month period, the permittee shall submit a semi-annual report, which states that no deviations occurred during that period.
- (4) This permit is for an emissions unit located at a Title V facility. Each written report shall be signed by a responsible official certifying that, based on information and belief formed after reasonable inquiry, the statements and information in the report are true, accurate, and complete.

d) The permittee shall report actual emissions pursuant to OAC Chapter 3745-78 for the purpose of collecting Air Pollution Control Fees.

5. Scheduled Maintenance/Malfunction Reporting

Any scheduled maintenance of air pollution control equipment shall be performed in accordance with paragraph (A) of OAC rule 3745-15-06. The malfunction, i.e., upset, of any emissions units or any associated air pollution control system(s) shall be reported to the Regional Air Pollution Control Agency in accordance with paragraph (B) of OAC rule 3745-15-06. (The definition of an upset condition shall be the same as that used in OAC rule 3745-15-06(B)(1) for a malfunction.) The verbal and written reports shall be submitted pursuant to OAC rule 3745-15-06.

Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of the emission unit(s) that is (are) served by such control system(s).

6. Compliance Requirements

- a) The emissions unit(s) identified in this Permit shall remain in full compliance with all applicable State laws and regulations and the terms and conditions of this permit.
- b) Any document (including reports) required to be submitted and required by a federally applicable requirement in this permit shall include a certification by a responsible official that, based on information and belief formed after reasonable inquiry, the statements in the document are true, accurate, and complete.
- c) Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the Director of the Ohio EPA or an authorized representative of the Director to:

- (1) At reasonable times, enter upon the permittee's premises where a source is located or the emissions-related activity is conducted, or where records must be kept under the conditions of this permit.
 - (2) Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit, subject to the protection from disclosure to the public of confidential information consistent with ORC section 3704.08.
 - (3) Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under this permit.
 - (4) As authorized by the Act, sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit and applicable requirements.
- d) The permittee shall submit progress reports to the Regional Air Pollution Control Agency concerning any schedule of compliance for meeting an applicable requirement. Progress reports shall be submitted semiannually or more frequently if specified in the applicable requirement or by the Director of the Ohio EPA. Progress reports shall contain the following:
- (1) Dates for achieving the activities, milestones, or compliance required in any schedule of compliance, and dates when such activities, milestones, or compliance were achieved.
 - (2) An explanation of why any dates in any schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

7. Best Available Technology

As specified in OAC Rule 3745-31-05, new sources that must employ Best Available Technology (BAT) shall comply with the Applicable Emission Limitations/Control Measures identified as BAT for each subject emissions unit.

8. Air Pollution Nuisance

The air contaminants emitted by the emissions units covered by this permit shall not cause a public nuisance, in violation of OAC rule 3745-15-07.

9. Reporting Requirements

The permittee shall submit required reports in the following manner:

- a) Reports of any required monitoring and/or recordkeeping of state-only enforceable information shall be submitted to the Regional Air Pollution Control Agency.
- b) Except as otherwise may be provided in the terms and conditions for a specific emissions unit, quarterly written reports of (a) any deviations (excursions) from state-only required emission limitations, operational restrictions, and control device operating parameter limitations that have been detected by the testing, monitoring, and recordkeeping requirements specified in this permit, (b) the probable cause of such deviations, and (c) any corrective actions or preventive measures which have been or will be taken, shall be submitted to the Regional Air Pollution Control Agency. If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted (i.e.,

postmarked) quarterly, by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters. (These quarterly reports shall exclude deviations resulting from malfunctions reported in accordance with OAC rule 3745-15-06.)

10. Applicability

This Permit-to-Install is applicable only to the emissions unit(s) identified in the Permit-to-Install. Separate application must be made to the Director for the installation or modification of any other emissions unit(s).

11. Construction of New Sources(s) and Authorization to Install

- a) This permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. This permit does not constitute expressed or implied assurance that the proposed facility has been constructed in accordance with the application and terms and conditions of this permit. The action of beginning and/or completing construction prior to obtaining the Director's approval constitutes a violation of OAC rule 3745-31-02. Furthermore, issuance of this permit does not constitute an assurance that the proposed source will operate in compliance with all Ohio laws and regulations. Issuance of this permit is not to be construed as a waiver of any rights that the Ohio Environmental Protection Agency (or other persons) may have against the applicant for starting construction prior to the effective date of the permit. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities cannot meet the requirements of this permit or cannot meet applicable standards.
- b) If applicable, authorization to install any new emissions unit included in this permit shall terminate within eighteen months of the effective date of the permit if the owner or operator has not undertaken a continuing program of installation or has not entered into a binding contractual obligation to undertake and complete within a reasonable time a continuing program of installation. This deadline may be extended by up to 12 months if application is made to the Director within a reasonable time before the termination date and the party shows good cause for any such extension.
- c) The permittee may notify Ohio EPA of any emissions unit that is permanently shut down (i.e., the emissions unit has been physically removed from service or has been altered in such a way that it can no longer operate without a subsequent "modification" or "installation" as defined in OAC Chapter 3745-31) by submitting a certification from the authorized official that identifies the date on which the emissions unit was permanently shut down. Authorization to operate the affected emissions unit shall cease upon the date certified by the authorized official that the emissions unit was permanently shut down. At a minimum, notification of permanent shut down shall be made or confirmed through completion of the annual PER covering the last period of operation of the affected emissions unit(s).
- d) The provisions of this permit shall cease to be enforceable for each affected emissions unit after the date on which an emissions unit is permanently shut down (i.e., emissions unit has been physically removed from service or has been altered in such a way that it can no longer operate without a subsequent "modification" or "installation" as defined in OAC Chapter 3745-31). All records relating to any permanently shutdown emissions unit, generated while the emissions unit was in operation, must be maintained in accordance with law. All reports required by this permit must be submitted for any period an affected emissions unit operated prior to permanent shut down. At a minimum, the permit requirements must be evaluated as part of the PER covering the last period the emissions unit operated.

No emissions unit certified by the authorized official as being permanently shut down may resume operation without first applying for and obtaining a permit pursuant to OAC Chapter 3745-31.

- e) The permittee shall comply with any residual requirements related to this permit, such as the requirement to submit a PER, air fee emission report, or other any reporting required by this permit for the period the operating provisions of this permit were enforceable, or as required by regulation or law. All reports shall be submitted in a form and manner prescribed by the Director. All records relating to this permit must be maintained in accordance with law.

12. Permit-To-Operate Application

The permittee is required to apply for a Title V permit pursuant to OAC Chapter 3745-77. The permittee shall submit a complete Title V permit application or a complete Title V permit modification application within twelve (12) months after commencing operation of the emissions units covered by this permit. However, if the proposed new or modified source(s) would be prohibited by the terms and conditions of an existing Title V permit, a Title V permit modification must be obtained before the operation of such new or modified source(s) pursuant to OAC rule 3745-77-04(D) and OAC rule 3745-77-08(C)(3)(d).

13. Construction Compliance Certification

The applicant shall identify the following dates in the online facility profile for each new emissions unit identified in this permit.

- a) Completion of initial installation date shall be entered upon completion of construction and prior to start-up.
- b) Commence operation after installation or latest modification date shall be entered within 90 days after commencing operation of the applicable emissions unit.

14. Public Disclosure

The facility is hereby notified that this permit, and all agency records concerning the operation of this permitted source, are subject to public disclosure in accordance with OAC rule 3745-49-03.

15. Additional Reporting Requirements When There Are No Deviations of Federally Enforceable Emission Limitations, Operational Restrictions, or Control Device Operating Parameter Limitations

If no deviations occurred during a calendar quarter, the permittee shall submit a quarterly report, which states that no deviations occurred during that quarter. The reports shall be submitted quarterly (i.e., postmarked), by January 31, April 30, July 31, and October 31 of each year and shall cover the previous calendar quarters.

16. Fees

The permittee shall pay fees to the Director of the Ohio EPA in accordance with ORC section 3745.11 and OAC Chapter 3745-78. The permittee shall pay all applicable permit-to-install fees within 30 days after the issuance of any permit-to-install. The permittee shall pay all applicable permit-to-operate fees within thirty days of the issuance of the invoice.

State of Ohio Environmental Protection Agency
Division of Air Pollution Control

Permit Strategy Write-Up
Permit Number: P0104850
Facility ID: 0857040180

17. Permit Transfers

Any transferee of this permit shall assume the responsibilities of the prior permit holder. The Regional Air Pollution Control Agency must be notified in writing of any transfer of this permit.

18. Risk Management Plans

If the permittee is required to develop and register a risk management plan pursuant to section 112(r) of the Clean Air Act, as amended, 42 U.S.C. 7401 et seq. ("Act"), the permittee shall comply with the requirement to register such a plan.

19. Title IV Provisions

If the permittee is subject to the requirements of 40 CFR Part 72 concerning acid rain, the permittee shall ensure that any affected emissions unit complies with those requirements. Emissions exceeding any allowances that are lawfully held under Title IV of the Act, or any regulations adopted thereunder, are prohibited.

 - a) None.
2. The tank emissions units T005 and T006 are potentially subject to the NSPS 40 CFR Part 60, Subpart Kb Standards of Performance for Volatile Organic Liquid Storage Vessels (Including Petroleum Liquid Storage Vessels) for Which Construction, Reconstruction, or Modification Commenced after July 23, 1984.

State of Ohio Environmental Protection Agency
Division of Air Pollution Control

Permit Strategy Write-Up
Permit Number: P0104850
Facility ID: 0857040180

C. Emissions Unit Terms and Conditions

1. Emissions Unit Group - diesel storage tanks: T005, T006,

EU ID	Operations, Property and/or Equipment Description
T005	25,000 gallon underground diesel storage tank
T006	25,000 gallon underground diesel storage tank

a) The following emissions unit terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only:

(1) None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operations(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3)	The permittee shall meet the requirements of 40 CFR Part 60, Subpart Kb. See Section B.2 - Facility Wide Terms and Conditions.
b.	40 CFR Part 60, Subpart Kb	See d)(1) below.
c.	OAC rule 3745-21-07(M)(3)(c)(ii)	The uncontrolled potential to emit for organic emissions from each emissions unit does not exceed 40 pounds per day.
d.	OAC rule 3745-21-09(L)(2)	Fixed roof tank with a capacity less than 40,000 gallons. See c)(1).

(2) Additional Terms and Conditions

a. The Best Available Technology (BAT) requirements under OAC rule 3745-31-05(A)(3) do not apply to the VOC emissions from this air contaminant source since the uncontrolled potential to emit for VOC is less than 10 tons/year.

c) Operational Restrictions

(1) Only No. 2 fuel oil shall be stored in this emissions unit.

d) Monitoring and/or Recordkeeping Requirements

(1) Per 60.116b(b) of 40 CFR Part 60 Subpart Kb, the owner or operator of each storage vessel as specified in 40 CFR Part 60.110b(a) shall keep readily accessible records

showing the dimension of the storage vessel and an analysis showing the capacity of the storage vessel.

e) Reporting Requirements

- (1) The permittee shall submit deviation (excursion) reports that identify each day when a fuel other than No. 2 fuel oil was stored in this emissions unit.

Each report shall be submitted within 30 days after the deviation occurs.

f) Testing Requirements

- (1) None.

g) Miscellaneous Requirements

- (1) None.

2. Emissions Unit Group - natural gas/oil-fired boilers: B019, B020

EU ID	Operations, Property and/or Equipment Description
B019	8.46 mmBtu/hr natural gas/oil-fired boiler
B020	8.46 mmBtu/hr natural gas/oil-fired boiler

- a) The following emissions unit terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only:
- (1) None.
- b) Applicable Emissions Limitations and/or Control Requirements
- (1) The specific operations(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-17-10(B)(1)	Particulate emissions (PE) shall not exceed 0.020 lb/mmBtu of actual heat input.
b.	OAC rule 3745-17-07(A)	Visible emissions shall not exceed 20% opacity, as a six-minute average, except as provided by rule.
c.	OAC rule 3745-31-05(A)(3)	<u>The individual emissions for B019 and B020 shall not exceed:</u> 4.26 lbs/hour sulfur dioxide (SO ₂); 1.20 lbs/hour nitrogen oxides (NO _x); 0.67 lbs/hour carbon monoxide (CO); and 0.33 lbs/hour organic compounds (OC). The requirements of this rule also include compliance with the requirements of OAC rules 3745-17-10(B)(1), 3745-17-07(A) and 3745-31-05(D).
d.	OAC rule 3745-31-05(D) (synthetic minor to avoid PSD)	Emissions shall not exceed: 113.0 TPY SO ₂ combined maximum for B007-B013, B015, B016, and B018 – B020 as a rolling, 12-month summation; 31.8 TPY NO _x combined maximum for

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
		<p>B007-B013, B015, B016, and B018 – B020 as a rolling, 12-month summation;</p> <p>29.4 TPY CO combined maximum for B007-B013, B015, B016, and B018 – B020 as a rolling, 12-month summation;</p> <p>3.8 TPY OC combined maximum for B007-B013, B015, B016, and B018 – B020 as a rolling, 12-month summation; and</p> <p>3.2 TPY PE combined maximum for B007-B013, B015, B016, and B018 – B020 as a rolling, 12-month summation.</p> <p>See b)(2)b.</p>

(2) Additional Terms and Conditions

- a. The lbs/hour allowable emission rate limitations for SO₂, NO_x, CO, and OC were established for PTI purposes to reflect the potentials to emit for this emissions unit. Therefore, it is not necessary to develop record keeping and reporting requirements to ensure compliance with these limits.
- b. The permittee has requested federally enforceable restrictions to limit the annual emissions for these air contaminant sources to establish the PTE for these pollutants based on the fuel usage restrictions listed in c)(1).

c) Operational Restrictions

- (1) The maximum annual diesel fuel usage combined for emissions units B007-B013, B015, B016, and B018 – B020, shall not exceed 3,182,400 gallons, based upon a rolling 12-month summation of the monthly fuel usage rates.
- (2) The maximum sulfur content of the fuel oil burned in this emissions unit shall not exceed 0.5%, by weight.
- (3) The permittee shall burn only natural gas and/or No. 2 fuel oil in this emissions unit.

d) Monitoring and/or Recordkeeping Requirements

- (1) The permittee shall maintain monthly records of the following information for this emissions unit:
 - a. The amount of fuel oil burned, in gallons.
 - b. The amount of natural gas burned, in mm cu. ft.

- c. The SO₂, NO_x, CO, OC, and PE emission rates, in tons, calculated as follows:
- i. for SO₂:
- (a) multiply the total amount of natural gas burned [in mm cu. ft./month, from section d)(1)b. above] by the emission factor of 0.6 lb SO₂/mm cu. ft. [from AP-42, Table 1.4-2 (revised 7/98)];
 - (b) multiply the total amount of No. 2 oil burned [in gallons/month, from section d)(1)a. above] by the emission factor of 142S* lbs SO₂/1000 gallons [from AP-42, Table 1.3-1 (revised 9/98)]; and
 - (c) add d)(1)c.i.(a) + d)(1)c.i.(b), and then divide by 2000 lbs/ton.
- * the sulfur content (in percent, by weight) of the No. 2 fuel oil (0.5%)
- ii. for NO_x:
- (a) multiply the total amount of natural gas burned [in mm cu. ft./month, from section d)(1)b. above] by the emission factor of 100 lbs NO_x/mm cu. ft. [from AP-42, Table 1.4-1 (revised 7/98)];
 - (b) multiply the total amount of No. 2 oil burned [in gallons/month, from section d)(1)a. above] by the emission factor of 20 lbs NO_x/1000 gallons [from AP-42, Table 1.3-1 (revised 9/98)]; and
 - (c) add d)(1)c.ii.(a) + d)(1)c.ii.(b), and then divide by 2000 lbs/ton.
- iii. for CO:
- (a) multiply the total amount of natural gas burned [in mm cu. ft./month, from section d)(1)b. above] by the emission factor of 84 lbs CO/mm cu. ft. [from AP-42, Table 1.4-1 (revised 7/98)];
 - (b) multiply the total amount of No. 2 oil burned [in gallons/month, from section d)(1)a. above] by the emission factor of 5 lbs CO/1000 gallons [from AP-42, Table 1.3-1 (revised 9/98)]; and
 - (c) add d)(1)c.iii.(a) + d)(1)c.iii.(b), and then divide by 2000 lbs/ton.
- iv. for OC:
- (a) multiply the total amount of natural gas burned [in mm cu. ft./month, from section d)(1)b. above] by the emission factor of 11 lbs OC/mm cu. ft. [from AP-42, Table 1.4-2 (revised 7/98)];
 - (b) multiply the total amount of No. 2 oil burned [in gallons/month, from section d)(1)a. above] by the emission factor of 0.556 lb OC/1000 gallons [from AP-42, Table 1.3-3 (revised 9/98)]; and
 - (c) add d)(1)c.iv.(a) + d)(1)c.iv.(b), and then divide by 2000 lbs/ton.

- v. for PE:
 - (a) multiply the total amount of natural gas burned [in mm cu. ft./month, from section d)(1)b. above] by the emission factor of 1.9 lbs PE (filterable)/mm cu. ft. [from AP-42, Table 1.4-2 (revised 7/98)];
 - (b) multiply the total amount of No. 2 oil burned [in gallons/month, from section d)(1)a. above] by the emission factor of 2 lbs PE/1000 gallons [from AP-42, Table 1.3-1 (revised 9/98)]; and
 - (c) add d)(1)c.v.(a) + d)(1)c.v.(b), and then divide by 2000 lbs/ton.
- (2) The permittee shall maintain monthly records of the following information for emission units B007-B013, B015, B016, and B018 – B020:
 - a. The combined amount of fuel oil burned, in gallons, for B007-B013, B015, B016, and B018 – B020.
 - b. The rolling, 12-month summation of the combined monthly fuel oil usage rates, in gallons, for B007-B013, B015, B016, and B018 – B020.
 - c. The rolling, 12-month summation of the SO₂, NO_x, CO, OC, and PE emission rates, in tons.
- (3) For each shipment of oil received for burning in this emissions unit, the permittee shall maintain records of the total quantity of oil received and the permittee's or oil supplier's analyses for sulfur content and heat content.
- (4) The permittee shall collect or require the oil supplier to collect a representative grab sample for each shipment of oil that is received for burning in this emissions unit. At the end of each calendar month, the representative samples of oil from all the shipments of oil which were received during that calendar month shall each be combined (in proportion to the amount of oil received in each shipment) into one composite sample.

For each monthly composite sample, the permittee shall perform or require the supplier to perform the analyses for sulfur content and heat content in accordance with the following ASTM methods: ASTM method D4294, ASTM method D240, or ASTM method 6010 for sulfur content; and ASTM method D240 for heat content. Alternative, equivalent methods may be used upon written approval by the appropriate Ohio EPA District Office or local air agency.
- (5) For each day during which the permittee burns a fuel other than natural gas and/or No. 2 fuel oil, the permittee shall maintain a record of the type and quantity of fuel burned in this emissions unit.
- e) Reporting Requirements
 - (1) The permittee shall submit quarterly deviation (excursion) reports that identify all exceedances of the following
 - a. The rolling, 12-month fuel oil usage restriction.

- b. The rolling, 12-month emission limitations for SO₂, NO_x, CO, OC, and PE.
- c. The fuel oil sulfur content (in percent, by weight) limitation.

These reports are due by the date prescribed in the Standard Terms and Conditions of this permit under section A.

- (2) The permittee shall submit annual reports that specify the total PE, SO₂, NO_x, CO, and OC emissions from this emissions unit for the previous calendar year. This reporting requirement may be satisfied by including and identifying the specific emission data from this emissions unit in the annual Fee Emission Report.
- (3) The permittee shall submit deviation (excursion) reports that identify each day when a fuel other than natural gas and/or No. 2 fuel oil was burned in this emissions unit.

Each report shall be submitted within 30 days after the deviation occurs.

f) Testing Requirements

- (1) Compliance with the emission limitation(s) in b)(1) of these terms and conditions shall be determined in accordance with the following method(s):

Emission Limitation:

PE for B019 and B020 shall not exceed 0.020 lb/mmBtu of actual heat input.

Applicable Compliance Method:

For the use of natural gas, compliance may be determined by multiplying the maximum hourly gas burning capacity of the emissions unit (0.008 mm cu. ft./hour) by the AP-42, Table 1.4-2 (revised 7/98) emission factor for natural gas (1.9 lbs PE/ mm cu. ft.), and then dividing by the maximum hourly heat input capacity of the emissions unit (8.46 mmBtu/hour).

For the use of No. 2 fuel oil, compliance may be determined by multiplying the maximum fuel oil capacity of the emissions unit (0.06 x 10³ gallons/hour) by the AP-42, Table 1.3-1 (revised 9/98) emission factor for No. 2 fuel oil (2 lbs PE/1000 gallons), and then dividing by the maximum hourly heat input capacity of the emissions unit (8.46 mmBtu/hour).

If required, compliance shall be demonstrated in accordance with the methods in OAC rule 3745-17-03(B)(9).

- (2) Emission Limitation:

Visible emissions B019 and B020 shall not exceed 20% opacity, as a six-minute average, except as provided by rule.

Applicable Compliance Method:

If required, compliance shall be determined by visible emission evaluations performed in accordance with OAC rule 3745-17-03(B)(1).

- a. The individual SO₂ emissions for B019 and B020 shall not exceed 4.26 lbs/hour.

Applicable Compliance Method:

Compliance with the lb/hour limitation may be determined by multiplying the maximum hourly amount of No. 2 oil burned (0.06×10^3 gallons/hour) by the emission factor of $142S^*$ lbs SO₂/1000 gallons [from AP-42, Table 1.3-1 (revised 9/98)] where S is the sulfur content (in percent, by weight) of the No. 2 fuel oil (0.5%).

If required, the permittee shall demonstrate compliance in accordance with 40 CFR, Part 60, Appendix A, Method 6.

- b. The individual NO_x emissions for B019 and B020 shall not exceed 1.20 lbs/hour.

Applicable Compliance Method:

Compliance with the lb/hour limitation may be determined by multiplying the maximum hourly amount of No. 2 oil burned (0.06×10^3 gallons/hour) by the emission factor of 20 lbs NO_x/1000 gallons [from AP-42, Table 1.3-1 (revised 9/98)].

If required, the permittee shall demonstrate compliance in accordance with 40 CFR, Part 60, Appendix A, Method 7.

- c. The individual CO emissions for B019 and B020 shall not exceed 0.67 lbs/hour.

Applicable Compliance Method:

Compliance with the lb/hour limitation may be determined by multiplying the maximum hourly amount of natural gas burned (0.008 mm cu. ft./hour) by the emission factor of 84 lbs CO/ mm cu. ft. [from AP-42, Table 1.4-1 (revised 7/98)].

If required, the permittee shall demonstrate compliance in accordance with 40 CFR, Part 60, Appendix A, Method 10.

- d. The individual OC emissions for B019 and B020 shall not exceed 0.33 lbs/hour.

Applicable Compliance Method:

Compliance with the lb/hour limitation may be determined by multiplying the maximum hourly amount of No. 2 oil burned (0.06×10^3 gallons/hour) by the emission factor of 0.556 lb OC/1000 gallons [from AP-42, Table 1.3-3 (revised 9/98)].

If required, the permittee shall demonstrate compliance in accordance with 40 CFR, Part 60, Appendix A, Method 25.

- e. The annual SO₂ emissions shall not exceed 113.0 TPY SO₂ combined maximum for B007-B013, B015, B016, and B018 – B020 as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in d)(1) of this permit.

- f. The annual NOx emissions shall not exceed 31.8 TPY NOx combined maximum for B007-B013, B015, B016, and B018 – B020 as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in d)(1) of this permit.

- g. The annual CO emissions shall not exceed 29.4 TPY CO combined maximum for B007-B013, B015, B016, and B018 – B020 as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in d)(1) of this permit.

- h. The annual OC emissions shall not exceed 3.8 TPY OC combined maximum for B007-B013, B015, B016, and B018 – B020 as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in d)(1) of this permit.

- i. The annual PE shall not exceed 3.2 TPY combined maximum for B007-B013, B015, B016, and B018 – B020 as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in d)(1) of this permit.

g) Miscellaneous Requirements

- (1) Federally enforceable diesel fuel oil usage restriction and corresponding PE, SO2, NOx, CO and OC emissions limitations, combined, for the boiler emissions units B007-B013, B015, B016, and B018 were established in PTI 08-04392 issued 7/23/2002. This PTI establishes federally enforceable diesel fuel oil usage restriction and corresponding PE, SO2, NOx, CO and OC emissions limitations, combined, for emissions units B007-B013, B015, B016, and B018 – B020.

3. Emissions Unit Group - standby generators: B021, B022, B023,

EU ID	Operations, Property and/or Equipment Description
B021	19.97 mmBtu/hr standby diesel-fired generator
B022	19.97 mmBtu/hr standby diesel-fired generator
B023	19.97 mmBtu/hr standby diesel-fired generator

- a) The following emissions unit terms and conditions are federally enforceable with the exception of those listed below which are enforceable under state law only:
 - (1) None.
- b) Applicable Emissions Limitations and/or Control Requirements
 - (1) The specific operations(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-17-11(B)(5)(a)	Particulate emissions (PE) shall not exceed 0.310 lb/mmBtu of actual heat input.
b.	OAC rule 3745-17-07(A)	Visible emissions shall not exceed 20% opacity, as a six-minute average, except as provided by rule.
c.	OAC rule 3745-18-06(G)	Sulfur dioxide (SO ₂) emissions shall not exceed 0.5 lb/mmBtu of actual heat input.
d.	OAC rule 3745-31-05(A)(3)	<p><u>The individual emissions for B021- B023 shall not exceed:</u></p> <p>88.07 lbs/hour nitrogen oxides (NO_x);</p> <p>18.97 lbs/hour carbon monoxide (CO); and</p> <p>7.19 lbs/hour organic compounds (OC).</p> <p>The requirements of this rule also include compliance with the requirements of OAC rules 3745-17-11(B)(5)(a), 3745-17-07(A), 3745-18-06(G), and 3745-31-05(D).</p>
e.	OAC rule 3745-31-05(D) (synthetic minor to avoid PSD)	<p>Emissions shall not exceed:</p> <p>6.46 TPY SO₂ combined maximum for B001-B006, B014, B017, and B021-B023</p>

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
		<p>as a rolling, 12-month summation;</p> <p>98.23 TPY NOx combined maximum for B001-B006, B014, B017, and B021–B023 as a rolling, 12-month summation;</p> <p>21.16 TPY CO combined maximum for B001-B006, B014, B017, and B021–B023 as a rolling, 12-month summation;</p> <p>8.02 TPY OC combined maximum for B001-B006, B014, B017, and B021–B023 as a rolling, 12-month summation; and</p> <p>6.9 TPY PE combined maximum for B001-B006, B014, B017, and B021–B023 as a rolling, 12-month summation.</p> <p>See (2)b.</p>

(2) Additional Terms and Conditions

- a. The lbs/hour allowable emission rate limitations for SO₂, NO_x, CO, and OC were established for PTI purposes to reflect the potentials to emit for this emissions unit. Therefore, it is not necessary to develop record keeping and reporting requirements to ensure compliance with these limits.
- b. The permittee has requested federally enforceable restrictions to limit the annual emissions for these air contaminant sources to establish the PTE for these pollutants based on the fuel usage restrictions listed in c)1.

c) Operational Restrictions

- (1) The maximum annual diesel fuel usage combined for emissions units B001-B006, B014, B017, and B021–B023, shall not exceed 330,000 gallons, based upon a rolling 12-month summation of the monthly fuel usage rates.
- (2) The permittee shall burn only diesel fuel in these emissions units.
- (3) The quality of oil burned in this emissions unit shall meet a sulfur content that is sufficient to comply with the allowable sulfur dioxide emission limitation specified in b)(1) above.

d) Monitoring and/or Recordkeeping Requirements

- (1) The permittee shall maintain monthly records of the following information for this emissions unit:
 - a. The amount of fuel oil burned, in gallons.

- b. The SO₂, NO_x, CO, OC and PE emission rates, in tons, calculated as follows:
 - i. for SO₂:
 - (a) multiply the fuel usage [gallons/month, from section d)(1)a. above] by the heat content of the fuel employed (mmBtu/gallon); and
 - (b) multiply d)(1)b.i.(a) by the emission factor of 0.29 lb SO₂/mmBtu [from AP-42, Table 3.3-1 (revised 10/96)], and then divide by 2000 lbs/ton.
 - ii. for NO_x:
 - (a) multiply the fuel usage [gallons/month, from section d)(1)a. above] by the heat content of the fuel employed (mmBtu/gallon); and
 - (b) multiply d)(1)b.ii.(a) by the emission factor of 4.41 lb NO_x/mmBtu [from AP-42, Table 3.3-1 (revised 10/96)], and then divide by 2000 lbs/ton.
 - iii. for CO:
 - (a) multiply the fuel usage [gallons/month, from section d)(1)a. above] by the heat content of the fuel employed (mmBtu/gallon); and
 - (b) multiply d)(1)b.iii.(a) by the AP-42, Table 3.3-1 (revised 10/96) emission factor of 0.95 CO/mmBtu, and then divide by 2000 lbs/ton.
 - iv. for OC:
 - (a) multiply the fuel usage [gallons/month, from section d)(1)a. above] by the heat content of the fuel employed (mmBtu/gallon); and
 - (b) multiply d)(1)b.iv.(a) by the AP-42, Table 3.3-1 (revised 10/96) emission factor of 0.36 lb OC/mmBtu, and then divide by 2,000 lbs/ton.
 - v. for PE:
 - (a) a) multiply the fuel usage (gallons/month, from section d)(1)a above) by the heat content of the fuel employed (mmBtu/gallon); and
 - (b) multiply d)(1)c.v.(a) by the AP-42, Table 3.3-1 (revised 10/96) emission factor of 0.31 lb particulates/mmBtu, and then divide by 2,000 lbs/ton.
- c. The rolling, 12-month summation of the fuel oil usage, in gallons.
- d. The rolling, 12-month summation of the SO₂, NO_x, CO, OC and PE emission rates, in tons.

- (2) The permittee shall collect or require the oil supplier to collect a representative grab sample for each shipment of oil that is received for burning in this emissions unit. At the end of each calendar month, the representative samples of oil from all the shipments of oil which were received during that calendar month shall each be combined (in proportion to the amount of oil received in each shipment) into one composite sample.

For each monthly composite sample, the permittee shall perform or require the supplier to perform the analyses for sulfur content and heat content in accordance with the following ASTM methods: ASTM method D4294, ASTM method D240, or ASTM method 6010 for sulfur content; and ASTM method D240 for heat content. Alternative, equivalent methods may be used upon written approval by the appropriate Ohio EPA District Office or local air agency.

- (3) The permittee shall maintain monthly records of the total quantity of oil received in each shipment, the results of the analyses for sulfur content and heat content, and the calculated sulfur dioxide emission rate (in lbs/mmBtu) for all the shipments of oil during the calendar month.
- (4) For each day during which the permittee burns a fuel other than diesel fuel, the permittee shall maintain a record of the type and quantity of fuel burned in this emissions unit.

e) Reporting Requirements

- (1) The permittee shall submit quarterly deviation (excursion) reports that identify all exceedances of the following:
 - a. The rolling, 12-month fuel oil usage restriction.
 - b. The rolling, 12-month emission limitations for SO₂, NO_x, CO, OC and PE.

These reports are due by the date prescribed in the Standard Terms and Conditions of this permit under section A.

- (2) The permittee shall submit annual reports that specify the total PE, SO₂, NO_x, CO and OC emissions from this emissions unit for the previous calendar year. This reporting requirement may be satisfied by including and identifying the specific emission data from this emissions unit in the annual Fee Emission Report.
- (3) The permittee shall submit deviation (excursion) reports that identify each day when a fuel other than diesel fuel was burned in this emissions unit.

Each report shall be submitted within 30 days after the deviation occurs.

- (4) The permittee shall notify the Director (appropriate Ohio EPA District Office or local air agency) in writing of any monthly composite sample of oil that shows a deviation of the allowable sulfur dioxide limitation specified in b)(1). The notification shall include a copy of such record and shall be sent to the Director (appropriate Ohio EPA District Office or local air agency) within 45 days after the deviation occurs.

f) Testing Requirements

(1) Compliance with the emission limitation(s) in b)(1) of these terms and conditions shall be determined in accordance with the following method(s):

a. PE for B001-B006, B014, B017, and B021–B023 shall not exceed 0.310 lb/mmBtu of actual heat input.

Applicable Compliance Method:

Compliance shall be based upon an emission factor of 0.310 lb/mmBtu. This emission factor is specified in the U.S. EPA reference document AP-42, Fifth Edition, Compilation of Air Pollution Emission Factors, Section 3.3, Table 3.3-1 (10/96).

If required, the permittee shall demonstrate compliance with this emission limitation in accordance with the methods specified in OAC rule 3745-17-03(B)(10).

b. Visible emissions for B001-B006, B014, B017, and B021–B023 shall not exceed 20% opacity, as a six-minute average, except as provided by rule.

Applicable Compliance Method:

If required, compliance shall be determined by visible emission evaluations performed in accordance with OAC rule 3745-17-03(B)(1).

c. SO₂ emissions for B001-B006, B014, B017, and B021–B023 shall not exceed 0.5 lb SO₂/mmBtu of actual heat input.

Applicable Compliance Method -

Compliance shall be based upon the record keeping and analysis requirements specified in d)(3) of this permit.

If required, the permittee shall demonstrate compliance in accordance with 40 CFR Part 60, Appendix A, Method 6.

d. The individual NO_x emissions for B001-B006, B014, B017, and B021–B023 shall not exceed 88.07 lbs/hour.

Applicable Compliance Method:

Compliance with the lbs/hour limitation may be determined by multiplying the AP-42, Table 3.3-1 (10/96) emission factor of 4.41 lbs NO_x/mmBtu by the maximum hourly heat input of the generator (19.97 mmBtu/hour).

If required, the permittee shall demonstrate compliance in accordance with 40 CFR, Part 60, Appendix A, Method 7.

e. The individual CO emissions for B001-B006, B014, B017, and B021–B023 shall not exceed 18.97 lbs/hour.

Applicable Compliance Method:

Compliance with the lbs/hour limitation may be determined by multiplying the AP-42, Table 3.3-1 (10/96) emission factor of 0.95 lb CO/mmBtu by the maximum hourly heat input of the generator (19.97 mmBtu/hour).

If required, the permittee shall demonstrate compliance in accordance with 40 CFR, Part 60, Appendix A, Method 10.

- f. The individual OC emissions for B001-B006, B014, B017, and B021–B023 shall not exceed 7.19 lbs/hour.

Applicable Compliance Method:

Compliance with the lbs/hour limitation may be determined by multiplying the AP-42, Table 3.3-1 (10/96) emission factor of 0.36 lb OC/mmBtu by the maximum hourly heat input of the generator (19.97 mmBtu/hour).

If required, the permittee shall demonstrate compliance in accordance with 40 CFR, Part 60, Appendix A, Method 25.

- g. The annual SO₂ shall not exceed 6.46 TPY SO₂ combined maximum for B001-B006, B014, B017, and B021–B023 as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in d)(1) of this permit.

- h. The annual NO_x shall not exceed 98.23 TPY NO_x combined maximum for B001-B006, B014, B017, and B021–B023 as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in d)(1) of this permit.

- i. The annual CO shall not exceed 21.16 TPY CO combined maximum for B001-B006, B014, B017, and B021–B023 as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in d)(1) of this permit.

- j. The annual OC shall not exceed 8.02 TPY OC combined maximum for B001-B006, B014, B017, and B021–B023 as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in d)(1) of this permit.

State of Ohio Environmental Protection Agency
Division of Air Pollution Control

Permit Strategy Write-Up
Permit Number: P0104850
Facility ID: 0857040180

- k. The annual PE shall not exceed 6.9 TPY combined maximum for B001-B006, B014, B017, and B021–B023 as a rolling, 12-month summation.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements specified in d)(1) of this permit.

g) Miscellaneous Requirements

- (1) Federally enforceable diesel fuel oil usage restriction and corresponding PE, SO₂, NO_x, CO and OC emissions limitations, combined, for generator emissions units B001-B006, B014, and B017 were established in PTI #P0105030. This PTI establishes federally enforceable diesel fuel oil usage restriction and corresponding PE, SO₂, NO_x, CO and OC emissions limitations, combined, for emissions units B001-B006, B014, B017, and B021-B023.
