RE: FINAL AIR POLLUTION PERMIT-TO-INSTALL AND OPERATE
Facility ID: 0247170851
Permit Number: P0085538
Permit Type: Renewal
County: Lorain

Dear Permit Holder:

Enclosed please find a final Air Pollution Permit-to-Install and Operate ("PTIO") which will allow you to install, modify, and/or operate the described emissions unit(s) in the manner indicated in the permit. Because this permit contains conditions and restrictions, please read it very carefully. Please complete a survey at www.epa.ohio.gov/dapc/permitsurvey.aspx and give us feedback on your permitting experience. We value your opinion.

Ohio EPA maintains a document entitled "Frequently Asked Questions about the PTIO". The document can be downloaded from the DAPC Web page, www.epa.ohio.gov/dapc, from the "Permits" link. This document contains additional information related to your permit, such as what activities are covered under the PTIO, who has enforcement authority over the permit and Ohio EPA's authorization to inspect your facility and records. Please contact the Office of Compliance Assistance and Pollution Prevention at (614) 644-3469 if you need assistance.

The issuance of this PTIO is a final action of the Director and may be appealed to the Environmental Review Appeals Commission ("ERAC") under Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and describe the action complained of and the grounds for the appeal. The appeal must be filed with the ERAC within thirty (30) days after notice of the Director's action. A filing fee of \$70.00 must be submitted to the ERAC with the appeal, although the ERAC, has discretion to reduce the amount of the filing fee if you can demonstrate (by affidavit) that payment of the full amount of the fee would cause extreme hardship. If you file an appeal of this action, you must notify Ohio EPA of the filing of the appeal (by providing a copy to the Director) within three (3) days of filing your appeal with the ERAC. Ohio EPA requests that a copy of the appeal also be provided to the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the ERAC at the following address:

Environmental Review Appeals Commission
309 South Fourth Street, Room 222
Columbus, OH 43215

If you have any questions regarding this permit, please contact the Ohio EPA DAPC, Northeast District Office. This permit has been posted to the Division of Air Pollution Control (DAPC) Web page www.epa.ohio.gov/dapc.

Sincerely,

Michael W. Ahern

This document constitutes issuance to:

FOREST CITY TECHNOLOGIES INC PLANT 5/6/7
230 MAPLE ST
WELLINGTON, OH 44090

of a Permit-to-Install and Operate for the emissions unit(s) identified on the following page.

Ohio EPA District Office or local air agency responsible for processing and administering your permit:

Ohio EPA DAPC, Northeast District Office
2110 East Aurora Road
Twinsburg, OH 43087
(330)425-9171

The above named entity is hereby granted this Permit-to-Install and Operate for the air contaminant source(s) (emissions unit(s)) listed in this section pursuant to Chapter 3745-31 of the Ohio Administrative Code. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed or modified in accordance with the plans included in the application, the described emissions unit(s) will operate in compliance with applicable State and federal laws and regulations.

This permit is granted subject to the conditions attached hereto.

Ohio Environmental Protection Agency

Chris Korleski
Director

Authorization (continued)

Final Permit-to-Install and Operate

Permit Number: P0085538

Facility ID: 0247170851

Effective Date: 2/5/2010

A. Standard Terms and Conditions

1. What does this permit-to-install and operate ("PTIO") allow me to do?

This permit allows you to install and operate the emissions unit(s) identified in this PTIO. You must install and operate the unit(s) in accordance with the application you submitted and all the terms and conditions contained in this PTIO, including emission limits and those terms that ensure compliance with the emission limits (for example, operating, recordkeeping and monitoring requirements).

2. Who is responsible for complying with this permit?

The person identified on the "Authorization" page, above, is responsible for complying with this permit until the permit is revoked, terminated, or transferred. "Person" means a person, firm, corporation, association, or partnership. The words "you," "your," or "permittee" refer to the "person" identified on the "Authorization" page above.

The permit applies only to the emissions unit(s) identified in the permit. If you install or modify any other equipment that requires an air permit, you must apply for an additional PTIO(s) for these sources.

3. What records must I keep under this permit?

You must keep all records required by this permit, including monitoring data, test results, strip-chart recordings, calibration data, maintenance records, and any other record required by this permit for five years from the date the record was created. You can keep these records electronically, provided they can be made available to Ohio EPA during an inspection at the facility. Failure to make requested records available to Ohio EPA upon request is a violation of this permit requirement.

4. What are my permit fees and when do I pay them?

There are two fees associated with permitted air contaminant sources in Ohio:

- PTIO fee. This one-time fee is based on a fee schedule in accordance with Ohio Revised Code (ORC) section 3745.11, or based on a time and materials charge for permit application review and permit processing if required by the Director.

You will be sent an invoice for this fee after you receive this PTIO and payment is due within 30 days of the invoice date. You are required to pay the fee for this PTIO even if you do not install or modify your operations as authorized by this permit.

- Annual emissions fee. Ohio EPA will assess a separate fee based on the total annual emissions from your facility. You self-report your emissions in accordance with Ohio Administrative Code (OAC) Chapter 3745-78. This fee assessed is based on a fee schedule in ORC section 3745.11 and funds Ohio EPA's permit compliance oversight activities. For facilities that are permitted as synthetic minor sources, the fee schedule is adjusted annually for inflation. Ohio EPA will notify you when it is time to report your emissions and to pay your annual emission fees.

5. When does my PTIO expire, and when do I need to submit my renewal application?

This permit expires on the date identified at the beginning of this permit document (see "Authorization" page above) and you must submit a renewal application to renew the permit. Ohio EPA will send a renewal notice to you approximately six months prior to the expiration date of this permit. However, it is very important that you submit a complete renewal permit application (postmarked prior to expiration of this permit) even if you do not receive the renewal notice.

If a complete renewal application is submitted before the expiration date, Ohio EPA considers this a timely application for purposes of ORC section 119.06, and you are authorized to continue operating the emissions unit(s) covered by this permit beyond the expiration date of this permit until final action is taken by Ohio EPA on the renewal application.

6. What happens to this permit if my project is delayed or I do not install or modify my source?

This PTIO expires 18 months after the issue date identified on the "Authorization" page above unless otherwise specified if you have not (1) started constructing the new or modified emission sources identified in this permit, or (2) entered into a binding contract to undertake such construction. This deadline can be extended by up to 12 months, provided you apply to Ohio EPA for this extension within a reasonable time before the 18-month period has ended and you can show good cause for any such extension.

7. What reports must I submit under this permit?

An annual permit evaluation report (PER) is required in addition to any malfunction reporting required by OAC rule 3745-15-06 or other specific rule-based reporting requirement identified in this permit. Your PER due date is identified in the Authorization section of this permit.

8. If I am required to obtain a Title V operating permit in the future, what happens to the operating provisions and PER obligations under this permit?

If you are required to obtain a Title V permit under OAC Chapter 3745-77 in the future, the permit-to-operate portion of this permit will be superseded by the issued Title V permit. From the effective date of the Title V permit forward, this PTIO will effectively become a PTI (permit-to-install) in accordance with OAC rule 3745-31-02(B). The following terms and conditions will no longer be applicable after issuance of the Title V permit: Section B, Term 1.b) and Section C, for each emissions unit, Term a)(2).

The PER requirements in this permit remain effective until the date the Title V permit is issued and is effective, and cease to apply after the effective date of the Title V permit. The final PER obligation will cover operations up to the effective date of the Title V permit and must be submitted on or before the submission deadline identified in this permit on the last day prior to the effective date of the Title V permit.

9. What are my obligations when I perform scheduled maintenance on air pollution control equipment?

You must perform scheduled maintenance of air pollution control equipment in accordance with OAC rule 3745-15-06(A). If scheduled maintenance requires shutting down or bypassing any air pollution control equipment, you must also shut down the emissions unit(s) served by the air pollution control equipment during maintenance, unless the conditions of OAC rule 3745-15-06(A)(3) are met. Any emissions that exceed permitted amount(s) under this permit (unless specifically exempted by rule) must be reported as deviations in the annual permit evaluation report (PER), including nonexempt excess emissions that occur during approved scheduled maintenance.

10. Do I have to report malfunctions of emissions units or air pollution control equipment? If so, how must I report?

If you have a reportable malfunction of any emissions unit(s) or any associated air pollution control system, you must report this to the Ohio EPA DAPC, Northeast District Office in accordance with OAC rule 3745-15-06(B). Malfunctions that must be reported are those that result in emissions that exceed permitted emission levels. It is your responsibility to evaluate control equipment breakdowns and operational upsets to determine if a reportable malfunction has occurred.

If you have a malfunction, but determine that it is not a reportable malfunction under OAC rule 3745-15-06(B), it is recommended that you maintain records associated with control equipment breakdown or process upsets. Although it is not a requirement of this permit, Ohio EPA recommends that you maintain records for non-reportable malfunctions.

11. Can Ohio EPA or my local air agency inspect the facility where the emission unit(s) is/are located?

Yes. Under Ohio law, the Director or his authorized representative may inspect the facility, conduct tests, examine records or reports to determine compliance with air pollution laws and regulations and the terms and conditions of this permit. You must provide, within a reasonable time, any information Ohio EPA requests either verbally or in writing.

12. What happens if one or more emissions units operated under this permit is/are shut down permanently?

Ohio EPA can terminate the permit terms associated with any permanently shut down emissions unit. "Shut down" means the emissions unit has been physically removed from service or has been altered in such a way that it can no longer operate without a subsequent "modification" or "installation" as defined in OAC Chapter 3745-31.

You should notify Ohio EPA of any emissions unit that is permanently shut down by submitting a certification that identifies the date on which the emissions unit was permanently shut down. The certification must be submitted by an authorized official from the facility. You cannot continue to operate an emission unit once the certification has been submitted to Ohio EPA by the authorized official.

You must comply with all recordkeeping and reporting for any permanently shut down emissions unit in accordance with the provisions of the permit, regulations or laws that were enforceable during the period of operation, such as the requirement to submit a PER, air fee emission report, or malfunction report. You must also keep all records relating to any permanently shutdown emissions unit, generated while the emissions unit was in operation, for at least five years from the date the record was generated.

Again, you cannot resume operation of any emissions unit certified by the authorized official as being permanently shut down without first applying for and obtaining a permit pursuant to OAC Chapter 3745-31.

13. Can I transfer this permit to a new owner or operator?

You can transfer this permit to a new owner or operator. If you transfer the permit, you must follow the procedures in OAC Chapter 3745-31, including notifying Ohio EPA or the local air agency of the

State of Ohio Environmental Protection Agency
Division of Air Pollution Control

Final Permit-to-Install and Operate

Permit Number: P0085538

Facility ID: 0247170851

Effective Date: 2/5/2010

change in ownership or operator. Any transferee of this permit must assume the responsibilities of the transferor permit holder.

14. Does compliance with this permit constitute compliance with OAC rule 3745-15-07, "air pollution nuisance"?

This permit and OAC rule 3745-15-07 prohibit operation of the air contaminant source(s) regulated under this permit in a manner that causes a nuisance. Ohio EPA can require additional controls or modification of the requirements of this permit through enforcement orders or judicial enforcement action if, upon investigation, Ohio EPA determines existing operations are causing a nuisance.

15. What happens if a portion of this permit is determined to be invalid?

If a portion of this permit is determined to be invalid, the remainder of the terms and conditions remain valid and enforceable. The exception is where the enforceability of terms and conditions are dependent on the term or condition that was declared invalid.

C. Emissions Unit Terms and Conditions

1. K001, Coat Line #2

Operations, Property and/or Equipment Description:

Coating line #2

a) This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

(1) For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

a. None.

(2) For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

a. None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operations(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3)	Volatile organic compound (VOC) emissions from this emissions unit shall not exceed 2.75 pounds per hour.
b.	OAC rule 3745-21-09(U)(1)(i)	3.0 pounds VOC per gallon of coating excluding water and exempt solvents.

(2) Additional Terms and Conditions

a. None.

c) Operational Restrictions

(1) None.

d) Monitoring and/or Recordkeeping Requirements

(1) The permittee shall maintain daily records which list the following information for each coating and cleanup material employed in this emissions unit:

a. The company name and identification number of each coating and cleanup material employed, as applied;

- b. The number of gallons of each coating (excluding water and exempt solvents) and cleanup material used;
- c. The VOC content of each coating employed, in pounds per gallon (excluding water and exempt solvents), as applied, and the VOC content of each coating, in pounds per gallon;
- d. The total VOC emission rate of all coatings and cleanup materials, in pounds per day;
- e. The total hours of operation of this emissions unit; and
- f. The average hourly VOC emission rates for all coatings and cleanup materials employed, [d/e (d divided by e), in pounds per hour (average)].

These records, as well as any supporting analyses, data, and/or calculations, shall be retained at this facility for a period of not less than 5 years and shall be made available to the Director or any authorized representative of the Director during business hours.

e) Reporting Requirements

- (1) The permittee shall notify the Ohio EPA Northeast District Office in writing of any daily record showing the use of non-complying coatings (VOC content greater than 3.0 pounds VOC per gallon, excluding water and exempt solvents). The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 45 days after the exceedance occurs.
- (2) The permittee shall submit deviation (excursion) reports which identify each day where the hourly VOC emission rate exceeded 2.75 pounds per hour for this emissions unit. The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 30 days after the exceedance occurs.
- (3) Annual Permit Evaluation Report (PER) forms will be mailed to the permittee at the end of the reporting period specified in the Authorization section of this permit. The permittee shall submit the PER in the form and manner provided by the Director by the due date identified in the Authorization section of this permit. The permit evaluation report shall cover a reporting period of no more than twelve months for each air contaminant source identified in this permit.

f) Testing Requirements

- (1) Compliance with the emission limitations in Section b) of these terms and conditions shall be determined in accordance with the following methods:
 - a. Emission Limitation:

Volatile organic compound (VOC) emissions from this emissions unit shall not exceed 2.75 pounds per hour.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d).

State of Ohio Environmental Protection Agency
Division of Air Pollution Control

Final Permit-to-Install and Operate

Permit Number: P0085538

Facility ID: 0247170851

Effective Date: 2/5/2010

b. Emission Limitation:

3.0 pounds VOC per gallon of coating, excluding water and exempt solvents.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d).

(2) US EPA Method 24 shall be used to determine the VOC contents of all the materials employed in this emissions unit.

g) Miscellaneous Requirements

(1) None.

2. K003, Coat Line #1

Operations, Property and/or Equipment Description:

Coating Line #1

a) This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

(1) For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

a. None.

(2) For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

a. None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operations(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3)	VOC emissions from this emissions unit shall not exceed 2.3 pounds per hour.
b.	OAC rule 3745-21-09(U)(1)(i)	3.0 pounds VOC per gallon of coating excluding water and exempt solvents.

(2) Additional Terms and Conditions

a. None.

c) Operational Restrictions

(1) None.

d) Monitoring and/or Recordkeeping Requirements

(1) The permittee shall maintain daily records which list the following information for each coating and cleanup material employed in this emissions unit:

a. The company name and identification number of each coating and cleanup material employed, as applied;

- b. The number of gallons of each coating (excluding water and exempt solvents) and cleanup material used;
- c. The VOC content of each coating employed, in pounds per gallon (excluding water and exempt solvents), as applied, and the VOC content of each coating, in pounds per gallon;
- d. The total VOC emission rate of all coatings and cleanup materials, in pounds per day;
- e. The total hours of operation of this emissions unit; and
- f. The average hourly VOC emission rates for all coatings and cleanup materials employed, [d/e (d divided by e), in pounds per hour (average)].

These records, as well as any supporting analyses, data, and/or calculations, shall be retained at this facility for a period of not less than 5 years and shall be made available to the Director or any authorized representative of the Director during business hours.

e) Reporting Requirements

- (1) The permittee shall notify the Ohio EPA Northeast District Office in writing of any daily record showing the use of non-complying coatings (VOC content greater than 3.0 pounds VOC per gallon, excluding water and exempt solvents). The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 45 days after the exceedance occurs.
- (2) The permittee shall submit deviation (excursion) reports which identify each day where the hourly VOC emission rate exceeded 2.3 pounds per hour for this emissions unit. The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 30 days after the exceedance occurs.
- (3) Annual Permit Evaluation Report (PER) forms will be mailed to the permittee at the end of the reporting period specified in the Authorization section of this permit. The permittee shall submit the PER in the form and manner provided by the Director by the due date identified in the Authorization section of this permit. The permit evaluation report shall cover a reporting period of no more than twelve months for each air contaminant source identified in this permit.

f) Testing Requirements

- (1) Compliance with the emission limitations in Section b) of these terms and conditions shall be determined in accordance with the following methods:
 - a. Emission Limitation:
VOC emissions from this emissions unit shall not exceed 2.3 pounds per hour.
Applicable Compliance Method:
Compliance shall be based upon the record keeping requirements in Section d).

State of Ohio Environmental Protection Agency
Division of Air Pollution Control

Final Permit-to-Install and Operate

Permit Number: P0085538

Facility ID: 0247170851

Effective Date: 2/5/2010

b. Emission Limitation:

3.0 pounds VOC per gallon of coating, excluding water and exempt solvents.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d).

(2) US EPA Method 24 shall be used to determine the VOC contents of all the materials employed in this emissions unit.

g) Miscellaneous Requirements

(1) None.

3. K004, Stream Coater #4 (STR-4)

Operations, Property and/or Equipment Description:

Stream coating line number 4 (STR-4)

a) This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

(1) For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

a. None.

(2) For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

a. None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operations(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3)	VOC emissions shall not exceed 19.4 pounds per day, excluding cleanup materials. VOC emissions shall not exceed 3.5 tons per year, including cleanup materials. 3.0 pounds VOC per gallon of coating excluding water and exempt solvents.
b.	OAC rule 3745-21-09(U)(1)(i)	The requirements of this rule are equivalent to the requirements of OAC rule 3745-31-05(A)(3).

(2) Additional Terms and Conditions

a. None.

c) Operational Restrictions

(1) None.

d) Monitoring and/or Recordkeeping Requirements

- (1) The permittee shall collect and record the following information for each day for the coating line:
 - a. The name and identification number of each coating employed;
 - b. The volume, in gallons, of each coating employed; and
 - c. The total volume, in gallons, of all of the coatings employed.
- (2) The permittee shall collect and record the following information for each month for the coating line:
 - a. The name and identification number of each coating and cleanup material, applied;
 - b. The volume, in gallons, of each coating, as applied;
 - c. The total volume, in gallons, of all cleanup materials employed;
 - d. The VOC content of each coating, as applied, in pounds per gallon;
 - e. The VOC content of each cleanup material, in pounds per gallon; and
 - f. The total VOC emissions from all coatings and cleanup materials employed [summation of (b x d) for all coatings and summation of (c x e) for cleanup materials], in tons.

e) Reporting Requirements

- (1) The permittee shall notify the Ohio EPA Northeast District Office in writing of any daily record showing the use of non-complying coatings (VOC content greater than 3.0 pounds VOC per gallon, excluding water and exempt solvents). The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 45 days after the exceedance occurs.
- (2) The permittee shall submit deviation (excursion) reports which identify each day where the daily VOC emission rate exceeded 19.4 pounds per day for this emissions unit. The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 30 days after the exceedance occurs.
- (3) The permittee shall submit annual reports which specify the actual annual VOC emissions (from coatings and cleanup materials) for this emissions unit. The reports shall be submitted by January 31 of each year and cover the previous calendar year.
- (4) Annual Permit Evaluation Report (PER) forms will be mailed to the permittee at the end of the reporting period specified in the Authorization section of this permit. The permittee shall submit the PER in the form and manner provided by the Director by the due date identified in the Authorization section of this permit. The permit evaluation report shall cover a reporting period of no more than twelve months for each air contaminant source identified in this permit.

f) Testing Requirements

(1) Compliance with the emission limitations in Section b) of these terms and conditions shall be determined in accordance with the following methods:

a. Emission Limitation:

VOC emissions shall not exceed 3.5 tons per year, including cleanup materials.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d)(2).

b. Emission Limitation:

VOC emissions shall not exceed 19.4 pounds per day, excluding cleanup materials.

Applicable Compliance Method:

Compliance shall be determined by multiplying the maximum daily coating usage (gallons/day) by the maximum VOC content of all coatings employed in this emissions unit. Compliance may also be based upon the record keeping in Section d).

c. Emission Limitation:

3.0 pounds VOC per gallon of coating, excluding water and exempt solvents.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d).

(2) US EPA Method 24 shall be used to determine the VOC contents of all the materials employed in this emissions unit.

g) Miscellaneous Requirements

(1) Modeling to demonstrate compliance with the Ohio EPA's "Air Toxic Policy" was not necessary because the emissions unit's maximum annual emissions for each toxic compound will be less than 1.0 ton. OAC Chapter 3745-31 requires permittees to apply for and obtain a new or modified permit to install prior to making a "modification" as defined by OAC rule 3745-31-01. The permittee is hereby advised that changes in the composition of the materials, or use of new materials, that would cause the emissions of any pollutant that has a listed TLV to increase to above 1.0 ton per year may require the permittee to apply for and obtain a new permit to install.

4. K006, Steam Coater #7

Operations, Property and/or Equipment Description:

Coater line STR-7

a) This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

(1) For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

a. None.

(2) For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

a. None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operations(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3)	VOC emissions shall not exceed 13.5 pounds per day, excluding cleanup materials. VOC emissions shall not exceed 2.5 tons per year, including cleanup materials. 3.0 pounds VOC per gallon of coating excluding water and exempt solvents.
b.	OAC rule 3745-21-09(U)(1)(i)	The requirements of this rule are equivalent to the requirements of OAC rule 3745-31-05(A)(3).

(2) Additional Terms and Conditions

a. None.

c) Operational Restrictions

(1) None.

d) Monitoring and/or Recordkeeping Requirements

- (1) The permittee shall collect and record the following information for each day for the coating line:
 - a. The name and identification number of each coating employed;
 - b. The volume, in gallons, of each coating employed; and
 - c. The total volume, in gallons, of all of the coatings employed.
- (2) The permittee shall collect and record the following information for each month for the coating line:
 - a. The name and identification number of each coating and cleanup material, applied;
 - b. The volume, in gallons, of each coating, as applied;
 - c. The total volume, in gallons, of all cleanup materials employed;
 - d. The VOC content of each coating, as applied, in pounds per gallon;
 - e. The VOC content of each cleanup material, in pounds per gallon; and
 - f. The total VOC emissions from all coatings and cleanup materials employed [summation of (b x d) for all coatings and summation of (c x e) for cleanup materials], in tons.

e) Reporting Requirements

- (1) The permittee shall notify the Ohio EPA Northeast District Office in writing of any daily record showing the use of non-complying coatings (VOC content greater than 3.0 pounds VOC per gallon, excluding water and exempt solvents). The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 45 days after the exceedance occurs.
- (2) The permittee shall submit deviation (excursion) reports which identify each day where the daily VOC emission rate exceeded 14.8 pounds per day for this emissions unit. The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 30 days after the exceedance occurs.
- (3) The permittee shall submit annual reports which specify the actual annual VOC emissions (from coatings and cleanup materials) for this emissions unit. The reports shall be submitted by January 31 of each year and cover the previous calendar year.
- (4) Annual Permit Evaluation Report (PER) forms will be mailed to the permittee at the end of the reporting period specified in the Authorization section of this permit. The permittee shall submit the PER in the form and manner provided by the Director by the due date identified in the Authorization section of this permit. The permit evaluation report shall cover a reporting period of no more than twelve months for each air contaminant source identified in this permit.

f) Testing Requirements

(1) Compliance with the emission limitations in Section b) of these terms and conditions shall be determined in accordance with the following methods:

a. Emission Limitation:

VOC emissions shall not exceed 2.7 tons per year, including cleanup materials.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d)(2).

b. Emission Limitation:

VOC emissions shall not exceed 14.8 pounds per day, excluding cleanup materials.

Applicable Compliance Method:

Compliance shall be determined by multiplying the maximum daily coating usage (gallons/day) by the maximum VOC content of all coatings employed in this emissions unit. Compliance may also be based upon the record keeping in Section d).

c. Emission Limitation:

3.0 pounds VOC per gallon of coating, excluding water and exempt solvents.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d).

(2) US EPA Method 24 shall be used to determine the VOC contents of all the materials employed in this emissions unit.

g) Miscellaneous Requirements

(1) Modeling to demonstrate compliance with the Ohio EPA's "Air Toxic Policy" was not necessary because the emissions unit's maximum annual emissions for each toxic compound will be less than 1.0 ton. OAC Chapter 3745-31 requires permittees to apply for and obtain a new or modified permit to install prior to making a "modification" as defined by OAC rule 3745-31-01. The permittee is hereby advised that changes in the composition of the materials, or use of new materials, that would cause the emissions of any pollutant that has a listed TLV to increase to above 1.0 ton per year may require the permittee to apply for and obtain a new permit to install.

5. K007, OV-161

Operations, Property and/or Equipment Description:

Coater 15 OV-161

a) This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

(1) For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

a. None.

(2) For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

a. None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operations(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3)	VOC emissions shall not exceed 54.60 pounds per day and 9.96 tons per year from coating materials. See (2)a. below.
b.	OAC rule 3745-21-09(U)(1)(i)	3.0 pounds VOC per gallon of coating, excluding water and exempt solvents.

(2) Additional Terms and Conditions

a. Based upon the permittee's application, water is the only cleanup material associated with this emissions unit.

c) Operational Restrictions

(1) None.

d) Monitoring and/or Recordkeeping Requirements

(1) The permittee shall collect and record the following information for each day for the coating line:

a. The name and identification number of each coating, as applied;

- b. The volume of each coating, as applied, in gallons;
 - c. The VOC content of each coating, as applied, in pounds per gallon;
 - d. The total VOC emissions from all coatings employed [summation of (b x c) for all coatings]; and
 - e. The VOC content of each coating, excluding water and exempt solvents, in pounds per gallon.
- (2) The total VOC emissions from all coatings employed [summation of d)(1)d. above for each month], in pounds or tons.
- e) Reporting Requirements
- (1) The permittee shall notify the Ohio EPA Northeast District Office in writing of any daily record showing the use of non-complying coatings (VOC content greater than 3.0 pounds VOC per gallon, excluding water and exempt solvents). The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 45 days after the exceedance occurs.
 - (2) The permittee shall submit deviation (excursion) reports which identify each day where the daily VOC emission rate exceeded 54.60 pounds per day for this emissions unit. The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 30 days after the exceedance occurs.
 - (3) The permittee shall submit annual reports which specify the actual annual VOC emissions for this emissions unit. The reports shall be submitted by January 31 of each year and cover the previous calendar year.
 - (4) Annual Permit Evaluation Report (PER) forms will be mailed to the permittee at the end of the reporting period specified in the Authorization section of this permit. The permittee shall submit the PER in the form and manner provided by the Director by the due date identified in the Authorization section of this permit. The permit evaluation report shall cover a reporting period of no more than twelve months for each air contaminant source identified in this permit.
- f) Testing Requirements
- (1) Compliance with the emission limitations in Section b) of these terms and conditions shall be determined in accordance with the following methods:
 - a. Emission Limitations:

VOC emissions shall not exceed 54.60 pounds per day and 9.96 tons per year from coating materials.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d).

b. Emission Limitation:

3.0 pounds VOC per gallon of coating, excluding water and exempt solvents.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d).

- (2) US EPA Method 24 shall be used to determine the VOC contents of all the materials employed in this emissions unit.

g) Miscellaneous Requirements

- (1) Modeling to demonstrate compliance with the Ohio EPA's "Air Toxic Policy" was not necessary because the hazardous air pollutant (HAP) emitted by this source (2-propoxyethanol) does not have an established TLV. OAC Chapter 3745-31 requires permittees to apply for and obtain a new or modified permit to install prior to making a "modification" as defined by OAC rule 3745-31-01. The permittee is hereby advised that changes in the composition of the materials, or use of new materials, that would cause the emissions of any pollutant that has a listed TLV to increase to above 1.0 ton per year may require the permittee to apply for and obtain a new permit to install.

6. K008, FC-3 & OV-48

Operations, Property and/or Equipment Description:

Coater FC-3 OV-48 (coating line FC-3 and associated drying oven OV-48)

a) This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

(1) For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.

a. None.

(2) For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.

a. None.

b) Applicable Emissions Limitations and/or Control Requirements

(1) The specific operations(s), property, and/or equipment that constitute each emissions unit along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from each unit shall not exceed the listed limitations, and the listed control measures shall be specified in narrative form following the table.

	Applicable Rules/Requirements	Applicable Emissions Limitations/Control Measures
a.	OAC rule 3745-31-05(A)(3)	VOC emissions shall not exceed 54.0 pounds per day and 9.86 tons per year from coating materials. See (2)a. below.
b.	OAC rule 3745-21-09(U)(1)(i)	3.0 pounds VOC per gallon of coating, excluding water and exempt solvents.

(2) Additional Terms and Conditions

a. Based upon the permittee's application, water is the only cleanup material associated with this emissions unit.

c) Operational Restrictions

(1) None.

d) Monitoring and/or Recordkeeping Requirements

(1) The permittee shall collect and record the following information for each day for the coating line:

a. The name and identification number of each coating, as applied;

- b. The volume of each coating, as applied, in gallons;
 - c. The VOC content of each coating, as applied, in pounds per gallon;
 - d. The total VOC emissions from all coatings employed [summation of (b x c) for all coatings]; and
 - e. The VOC content of each coating, excluding water and exempt solvents, in pounds per gallon.
- (2) The total VOC emissions from all coatings employed [summation of d)(1)d. above for each month], in pounds or tons.
- e) Reporting Requirements
- (1) The permittee shall notify the Ohio EPA Northeast District Office in writing of any daily record showing the use of non-complying coatings (VOC content greater than 3.0 pounds VOC per gallon, excluding water and exempt solvents). The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 45 days after the exceedance occurs.
 - (2) The permittee shall submit deviation (excursion) reports which identify each day where the daily VOC emission rate exceeded 54.0 pounds per day for this emissions unit. The notification shall include a copy of such record and shall be sent to the Ohio EPA Northeast District Office within 30 days after the exceedance occurs.
 - (3) The permittee shall submit annual reports which specify the actual annual VOC emissions for this emissions unit. The reports shall be submitted by January 31 of each year and cover the previous calendar year.
 - (4) Annual Permit Evaluation Report (PER) forms will be mailed to the permittee at the end of the reporting period specified in the Authorization section of this permit. The permittee shall submit the PER in the form and manner provided by the Director by the due date identified in the Authorization section of this permit. The permit evaluation report shall cover a reporting period of no more than twelve months for each air contaminant source identified in this permit.
- f) Testing Requirements
- (1) Compliance with the emission limitations in Section b) of these terms and conditions shall be determined in accordance with the following methods:
 - a. Emission Limitations:

VOC emissions shall not exceed 54.0 pounds per day and 9.86 tons per year from coating materials.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d).

b. Emission Limitation:

3.0 pounds VOC per gallon of coating, excluding water and exempt solvents.

Applicable Compliance Method:

Compliance shall be based upon the record keeping requirements in Section d).

- (2) US EPA Method 24 shall be used to determine the VOC contents of all the materials employed in this emissions unit.

g) Miscellaneous Requirements

- (1) Modeling to demonstrate compliance with the Ohio EPA's "Air Toxic Policy" was not necessary because the hazardous air pollutant (HAP) emitted by this source (2-propoxyethanol) does not have an established TLV. OAC Chapter 3745-31 requires permittees to apply for and obtain a new or modified permit to install prior to making a "modification" as defined by OAC rule 3745-31-01. The permittee is hereby advised that changes in the composition of the materials, or use of new materials, that would cause the emissions of any pollutant that has a listed TLV to increase to above 1.0 ton per year may require the permittee to apply for and obtain a new permit to install.
