

Facility ID: 0215000319 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
16,000 gal. vertical storage tank-truck load-out	PTI 17-1491 40 CFR, Part 60, Subpart Kb 3745-21-09(L)(2)	2.12 TPY VOC See T&C B.1., B.2., B.3., C.1., and C.2. Exempt from 21-09(L)(1) because tank capacity is less than 40,000 gallons.

2. **Additional Terms and Conditions**
 - (a) None

B. Operational Restrictions

1. The permittee shall maintain and employ a submerged fill pipe when loading this tank.
2. The permittee shall employ only bottom fill tank trucks for loading out product.
3. The permittee shall limit the annual throughput of this tank to 1,000,000 gallons.

C. Monitoring and/or Record Keeping Requirements

1. In accordance with 40 CFR 60.116b (a) and (b), the owner and operator of this storage vessel shall keep readily accessible records showing the dimension of the storage vessel and an analysis showing the capacity of the storage vessel for the life of the source.
2. The permittee shall maintain monthly records of the following:
 - a. the types of petroleum liquids stored in this tank;
 - b. the maximum true vapor pressure (psia), as stored, of each liquid; and
 - c. the throughput of each liquid stored, in gallons.

D. Reporting Requirements

1. The permittee shall submit to the North Ohio Valley Air Authority the annual throughput of each product stored in this tank for the previous calendar year by February 15 of each year.

E. Testing Requirements

1. Compliance with the VOC emission limit in section A.1. of these terms and conditions shall be demonstrated by the record keeping requirements of section C.2. of these terms and conditions.
2. Compliance with the mass emission limit in section A.I. of these terms and conditions shall be demonstrated by the use of emission factors found in US EPA publication titled Compilation of Air Pollutant Emission Factors AP-42 Chapter 12.3.

F. Miscellaneous Requirements

1. None
