

Facility ID: 0228000245 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION

Facility ID: 0228000245 Emissions Unit ID: R005 Issuance type: Final State Permit To Operate

Part II - Special Terms and Conditions

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
 - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
 - (a) None.

A. Applicable Emissions Limitations and/or Control Requirements

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
Manual air gun spray booth for painting and silk screening of fiberglass reinforced plastic (FRP) parts	OAC rule 3745-31-05(A)(3) (PTI 02-07993)	Volatile organic compounds (VOC) emissions from this emissions unit shall not exceed 90 pounds per day.
	OAC rule 3745-21-07(G)(2)	Exempt
		See section A.2.a below.

2. **Additional Terms and Conditions**
 - (a) The permittee shall not employ any liquid organic materials in this emissions unit that are photochemically reactive materials, as defined in OAC rule 3745-21-01(C)(5).

B. Operational Restrictions

1. None

C. Monitoring and/or Record Keeping Requirements

1. The permittee shall keep the following records on all materials used in this emissions unit:
 - a. the identification of the chemical compound and its physical state; and
 - b. for any liquid organic materials, whether or not the material is a photochemically reactive material, as defined in OAC rule 3745-21-01(C)(5).
2. The permittee shall collect and record the following information each day for this emissions unit:
 - a. the name and company identification of each coating and cleanup material employed;
 - b. the number of gallons of each coating and cleanup material employed, in gallons per day;
 - c. the VOC content for each coating and cleanup material as employed, in pounds per gallon;
 - d. the VOC emissions from each coating and cleanup material, in pounds per day; and
 - e. the total VOC emissions from all coatings and cleanup materials, in pounds per day.

D. Reporting Requirements

1. The permittee shall submit quarterly deviation (excursion) reports that include the following information:
 - a. an identification of each day during which any photochemically reactive materials were employed, and the actual amount, in pounds per day, of photochemically reactive materials employed; and
 - b. an identification of each day during which VOC emissions from this emissions unit exceeded 90 pounds per day, and the actual VOC emissions for each such day.
2. The permittee shall submit deviation (excursion) reports in accordance with paragraph 3.b of the General Terms and Conditions of this permit.

E. Testing Requirements

1. Compliance with the emission limitation in section A.1 of these terms and conditions shall be determined in accordance with the following method:
Emission Limitation:

VOC emissions shall not exceed 90 pounds per day.

Applicable Compliance Method:

Compliance shall be demonstrated based upon the record keeping requirements specified in section C.2 of these terms and conditions.

F. **Miscellaneous Requirements**

1. The emissions from this emissions unit are prohibited from causing a nuisance in violation of OAC rule 3745-15-07. Odors generated from the operation of this emissions unit shall be minimized or eliminated at all times.
