

Facility ID: 0243080843 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION\*\*\*

Facility ID: 0243080843 Emissions Unit ID: P901 Issuance type: Final State Permit To Operate

**Part II - Special Terms and Conditions**

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
  - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
  - (a) None.

**A. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
450 soap pots as a drawing aid for filler rod wire	OAC rule 3745-31-05(A)(3) (PTI 02-8489)	There shall be no visible emissions from any vent or window or any other building opening.
	OAC rule 3745-17-07(B)(1)	The requirements of this rule shall include compliance with the requirements specified in OAC rule 3745-17-08(B).
	OAC rule 3745-17-08(B)	The visible emission limitation specified in this rule is less stringent than the limit established pursuant to OAC rule 3745-31-05(A)(3). The permittee shall employ reasonably available control measures in order to eliminate visible emissions of fugitive dust consisting of the following: all soap pot lids shall remain closed except for periods of maintenance or repair.

2. **Additional Terms and Conditions**
  - (a) None

**B. Operational Restrictions**

1. None

**C. Monitoring and/or Record Keeping Requirements**

1. Each soap pot shall be checked at least once per calendar quarter to ensure that the lids are being maintained properly. Because of the large number of pots, it is not required that the permittee check the pots in any certain order or rotation, so long as all pots are checked within the calendar quarter.

**D. Reporting Requirements**

1. The permittee shall submit quarterly summaries of the results of the monitoring of the soap pot lids as required above, including any corrective actions taken to eliminate any problems discovered.

**E. Testing Requirements**

1. Compliance with the visible emission limitation specified in section A.1. shall be determined in accordance with Method 22 of 40 CFR, Part 60, Appendix A.

**F. Miscellaneous Requirements**

1. None
