

Facility ID: 0243081291 Issuance type: Final State Permit To Operate

This version of facility specific terms and conditions was converted from a database format to an HTML file during an upgrade of the Ohio EPA, Division of Air Pollution Control's permitting software. Every attempt has been made to convert the terms and conditions to look and substantively conform to the permit issued or being drafted in STARS. However, the format of the terms may vary slightly from the original. In addition, although it is not expected, there is a slight possibility that a term and condition may have been inadvertently "left out" of this reproduction during the conversion process. Therefore, if this version is to be used as a starting point in drafting a new version of a permit, it is imperative that the entire set of terms and conditions be reviewed to ensure they substantively mimic the issued permit. The official version of any permit issued final by Ohio EPA is kept in the Agency's Legal section. The Legal section may be contacted at (614) 644-3037.

In addition to the terms and conditions, hyperlinks have been inserted into the document so you may more readily access the section of the document you wish to review.

Finally, the term language under "Part II" and before "A. Applicable Emissions Limitations..." has been added to aid in document conversion, and was not part of the original issued permit.

\*\*\*THIS IS NOT AN OFFICIAL VERSION OF THE PERMIT. SEE PAGE 1 FOR ADDITIONAL INFORMATION\*\*\*

Facility ID: 0243081291 Emissions Unit ID: N001 Issuance type: Final State Permit To Operate

**Part II - Special Terms and Conditions**

This permit document constitutes a permit-to-install issued in accordance with ORC 3704.03(F) and a permit-to-operate issued in accordance with ORC 3704.03(G).

1. For the purpose of a permit-to-install document, the emissions unit terms and conditions identified below are federally enforceable with the exception of those listed below which are enforceable under state law only.
  - (a) None.
2. For the purpose of a permit-to-operate document, the emissions unit terms and conditions identified below are enforceable under state law only with the exception of those listed below which are federally enforceable.
  - (a) None.

**A. Applicable Emissions Limitations and/or Control Requirements**

1. The specific operation(s), property, and/or equipment which constitute this emissions unit are listed in the following table along with the applicable rules and/or requirements and with the applicable emissions limitations and/or control measures. Emissions from this unit shall not exceed the listed limitations, and the listed control measures shall be employed. Additional applicable emissions limitations and/or control measures (if any) may be specified in narrative form following the table.

<u>Operations, Property, and/or Equipment</u>	<u>Applicable Rules/Requirements</u>	<u>Applicable Emissions Limitations/Control Measures</u>
"ALL" Cremator, model 2001, rated at 150 lb waste per hour of type IV waste	OAC 3745-17-09(B)  OAC rule 3745-31-05(A)(3) PTI# 02-8696 OAC rule 3745-17-07(A)	0.10 pound of particulate matter per 100 pounds of material charged.  Visible particulate emissions from this unit shall not exceed five percent opacity.  Less stringent than OAC 3745-31-05(A)(3)

2. **Additional Terms and Conditions**
  - (a) None

**B. Operational Restrictions**

1. This incinerator shall be operated only by personnel adequately trained.
2. This incinerator shall be operated and maintained in accordance with good engineering practices and the recommendations of the manufacturer in order to minimize air contaminant emissions.
3. This unit shall not be used to dispose of infectious or medical waste as defined in OAC 3745-75-01.
4. During a cremation burn, the temperature of the secondary combustion chamber shall be maintained at a minimum of 1600 degrees Fahrenheit.
5. The permittee shall operate and maintain the incinerator in such a way to meet all applicable engineering standards and practices and the recommendations of the manufacturer in order to minimize the air contaminant emission releases.

**C. Monitoring and/or Record Keeping Requirements**

1. The permittee shall operate and maintain a continuous temperature monitor and recorder for the secondary combustion chamber operating temperatures. The temperature monitor and recorder shall be installed, calibrated, operated and maintained in accordance with the manufacturers recommendations, instructions, and applicable operating manual(s).
2. The permittee shall maintain copies of the record of the secondary combustion chamber temperature at the facility for a period of at least five years. Those records should be made available for Ohio EPA or their representatives to review during normal working hours.

**D. Reporting Requirements**

1. The permittee shall submit temperature deviation (excursion) reports that identify all periods of time during which the secondary combustion chamber temperature did not comply with the temperature limitation specified above.
2. All deviation (excursion) reports shall be submitted in accordance with Section 3.b of the General Terms and Conditions.

**E. Testing Requirements**

1. Compliance with the emissions limitations in Section A.1 of these terms and conditions shall be determined in accordance with the following methods:  
Emissions Limitation: PM: 0.10 pound per 100 pounds of material charged.  
  
Applicable Compliance Methods: If required, emission tests shall be conducted in accordance with USEPA

Methods 1 through 5(40 CFR 60, Appendix A).

Emissions Limitation: Visible particulate emissions from this unit shall not exceed five percent opacity.

Applicable Compliance Method: USEPA Method 9, (40 CFR Part 60, Appendix A)

F. **Miscellaneous Requirements**

1. None
